Franck Lahaye

Co-Founder at Airthium.

Austin, Texas, United States

Summary

I am the co-founder at Airthium, a company whose mission is to decarbonize the industry and the electrical grid. We make a breakthrough electric heat engine capable of producing CO2-free heat up to 1000F (550C), cheaper than natural gas. We target 3% of the world's CO2 emissions. We are recruiting exceptional mechanical engineers!
