Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Cautionary Note Regarding Forward-Looking Statements

The disclosures herein contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical fact but instead represent only our management's current beliefs regarding future events. By their nature, forward-looking statements involve inherent risks, uncertainties and other important factors that may cause actual results, performance or achievements to differ materially from those expressed in or implied by such forward-looking statements. We caution you not to place undue reliance on these forward-looking statements that speak only as of the date they were made. We do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this document or to reflect the occurrence of unanticipated events or the non-occurrence of anticipated events. Forward-looking statements include, without limitation, statements concerning future plans, objectives, goals, projections, strategies, events or performance, and underlying assumptions and other statements related thereto. Statements preceded by, followed by or that otherwise include the words “anticipates,” “appears,” “are likely,” “believes,” “estimates,” “expects,” “foresees,” “intends,” “plans,” “projects” and similar expressions or future or conditional verbs such as “would,” “should,” “could,” “may,” or “will,” or the negatives thereof, may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Important factors that could cause actual results, performance or achievements to differ materially from those expressed in or implied by forward-looking statements include, without limitation, the risks and uncertainties described under “Risk Factors” below from 2 - 15.

No operating history. We were formed as a limited liability company in 2018.

no operating history. We were formed as a limited liability company in 2010 and we have no history upon which an evaluation of our prospects and future performance can be made. Our previous operations are unrelated to our future intended operations and are therefore not indicative of our future success. Our proposed operations are subject to all business risks associated with new enterprises. The likelihood of our creation of a viable business must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered in connection with the inception of a business operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base. We anticipate that our operating expenses will increase significantly for the near future. There can be no assurances that we will ever operate profitably. You should consider our business, operations and prospects in light of the risks, expenses and challenges faced as an early-stage company. Furthermore, past performance by our management and production teams and their affiliates is not a guarantee that we will become profitable or be able to successfully consummate production of the picture.

Limited operating scope. The business of our company is based upon the development and monetization of a single film. Our company does not intend to engage in operations other than those relating to the production of such film. Accordingly, all of the business prospects of our company rely on the successful monetization of a single film. If such film is not successfully produced or is not popular with consumers and audiences, you may lose all of your investment.

Future fundraising may affect the rights of investors. In order to fully fund our business plan, the Company may raise funds again in the future, either by offerings of securities or through borrowing from banks or other sources. The terms of future capital-raising, such as loan agreements, may include covenants that give creditors greater rights over the financial resources of the company. We may procure debt financing secured by the assets of the Company, including the film rights. Such amounts would be reduced from our revenues in calculating any net profits and our ability to generate or pay investors may therefore be contingent upon first repaying any such debt and contractual obligations.

We may end up with insufficient funds to continue operations. We may not sell enough securities in this offering to meet our operating needs and fulfill our plans, in which case we might cease operations and you may lose your investment. Even if we raise the total amount we are seeking, such amount may be insufficient for our operating needs and we might need to raise more funds in the future. The terms of such potential future offerings may result in a diminishment in the value of your investment because later investors might get better terms.

We have broad discretion in the application of the proceeds from the offering. Our management has broad discretion to adjust the application and allocation of the net proceeds of this offering in order to address changed circumstances and opportunities. As a result of the foregoing, the success of our company will be substantially dependent upon the discretion and judgment of our management with respect to the application and allocation of the net proceeds hereof.

We may not generate sufficient revenues, or any revenues, that would enable you to recover your investment or make a profit. The business of the Company is based upon the development and monetization of a single film property. Any revenues generated will need to cover all costs, expenses, repayment of debt (principal and interest), as well as other contractual obligations we have or will enter into, including payments of royalties, licensing fees, production fees and other expenses. The payment of all such expenses will need to occur before we generate any net profits that may be distributed to investors.

Filmmaking is a complicated and technical endeavor and, often, unforeseen difficulties will arise, causing budget and scheduling overruns. The completion and commercial success of a motion picture are extremely unpredictable, and the motion picture industry inherently involves a substantial degree of risk. Commercial success is primarily determined by broad distribution and audience reaction, which is often unpredictable. The completion and commercial success of a motion picture also depends upon other factors, such as the availability of talent and crew, available channels of distribution, competition, general socioeconomic conditions, political events, pandemics, wars, acts of terrorism and other events over which we may have no control.

We will rely on third parties for production and monetization of our film. We rely on third parties such as development studios, distribution companies, TV networks, producers, storytellers, and other service providers for production and monetization of our products. These third parties may give more time and attention to other filmmakers who are better funded or better known. Finding third party partners can also be time consuming and result in delays and

increased costs to the film project.

Competition. We face competition with respect to any film that we develop or commercialize. Many of our competitors have significantly greater financial, technical and human resources and superior expertise in the production and marketing of films, and thus may be better equipped than us to develop and commercialize films. Accordingly, our competitors may commercialize their films more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our film will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products. In general, demand for films is highly correlated with general economic conditions. A substantial portion of our revenue will be derived from discretionary spending by individuals, which typically falls during times of economic instability. Declines in economic conditions in the U.S. or in other countries in which our film will be shown may adversely impact our consolidated financial results.

Piracy. The piracy of our content, products or other intellectual property poses a significant challenge for us. Technological developments, such as the production of cloud-based storage and streaming, increased broadband Internet speed and penetration and increased speed of mobile data transmission have made it easier to create, transmit, distribute and store high quality unauthorized copies of content in unprotected digital formats, which has in turn encouraged the creation of highly scalable businesses that facilitate, and in many instances financially benefit from, such piracy. Piracy is particularly prevalent in markets in the world that lack effective copyright and technical legal protections or enforcement measures, and illegitimate operators based on these parts of the world can attract viewers from anywhere in the world. The proliferation of unauthorized copies and piracy of our content, products and intellectual property or the products we license from others could result in a reduction of the revenues we receive from the legitimate licensing and distribution of our content and products. We devote substantial resources to protect our content, products and intellectual property, but there can be no assurance that our efforts to enforce our rights and combat piracy will be successful.

We are dependent upon our management and production teams and their departure could adversely affect our ability to operate. Our operations are dependent upon a relatively small group of individuals and in particular, Akemi Kozu Tosto, our sole managing member. We believe that our success depends on the continued service of such persons. In addition, our management and productions teams are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating their time among various business activities. The unexpected loss of the services of one or more of such persons could have a detrimental effect on us.

The impact of the COVID-19 global pandemic could materially and adversely affect our business, financial condition and results of operations. The impact of disruptions associated with the ongoing COVID-19 global pandemic and measures to prevent its spread and mitigate its effects both domestically and internationally, and the resulting unprecedented economic uncertainty, affect the Company in a number of ways. We cannot accurately predict when theaters will be open, production will be possible or if and when our content will be released. We also may not be able to predict if we will be able to obtain insurance coverage for production if there are additional disruptions associated with COVID-19 or similar pandemics.

An investment in our company is speculative. Investors hereby may not realize a return on their investment and could lose their investment. Investors should carefully review all materials provided in connection with the offering and these risk factors and consult with their attorneys, tax advisors, and/or business advisors prior to investing.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: 20%: Marketing (digital ads campaign)
12.5%: Casting Director
60%: Packaging (= securing a lead talent)
7.5%: Wefunder intermediary fee

If we raise: **\$850,000**

Use of Proceeds: 21%: Above the Line items (Lead talents, producers, directors, casting director)
36%: Production
9%: Post Production
7.5%: Wefunder intermediary fee
8%: Marketing
9%: Other Expenses (Insurance, Legal, General Expense)
8% Contingency
1.5% Accounting

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

1. Investor Commitment. The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.

2. Acceptance of the Investment. If the Investor Agreement is complete, the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.

3. Investor Transfer of Funds. Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held

with a third party bank on behalf of issuers offering securities through Wefunder Portal.

4. Progress of the Offering. The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the “My Investments” screen when the target offering amount is met.

5. Closing: Original Deadline. Unless we meet the target offering amount early, Investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company’s Wefunder Portal Profile.

6. Early Closings. If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the “My Investments” screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.

7. Book Entry. Investments may be in book entry form. This means that the Investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investors’ “My Investments” screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the “My Investments” screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor’s investment commitment will be cancelled and the committed funds will be returned.

An Investor’s right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor’s funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor’s funds.

The Company’s right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not “accredited investors,” as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by Investors were received, or other criteria at the discretion of the Company, before the offering deadline.

3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Securities

This is an LLC with no issued units.

Options:	_____

Describe any other rights:

The LLC has issued membership interests as described in Question 6 above.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights in the Company, the Akemi Kozu Tosto, as the sole manager (the "Manager") and/or sole member ("Sole Member") of the Company, could limit the Investor's rights in a material way and Investor will have limited ability, if any, to influence the policies, operations and other corporate matters of the Company. For example, the Sole Member and/or Manage could vote to change the terms of the agreements governing the Company's operations, cause the Company to engage in additional offerings and issuances of additional securities, engage in transactions with related parties, sell the Company or its assets or dissolve the Company. These decisions could affect gross revenues and diminish payments made to Investors.

In addition, Investor's interest in the Net Profits may be diluted or increase as the budget of the Picture changes.

Based on the risk that the company may never realize revenues or face a default event, the Investor may never see any returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

The Sole Member may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the Sole Member and/or Manager may change the terms of the operating agreement for the Company, change the terms of securities issued by the Company, change the management of the Company, and dissolve the Company. The Sole Member may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to the Sole Member. The Sole Member may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been

determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby. In the future, we may perform valuations of our securities that take into account factors such as the following:

- unrelated third party valuations of our such securities;
- the price at which we sell other securities, in light of the rights, preferences and privileges of our those other securities relative to those of such securities being valued;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the lack of marketability of such securities;
- the hiring of key personnel and the experience of our management;
- the risk inherent in the development, production, distribution and/or expansion of the Picture or our business;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will only hold Profit Participation Rights, and thus be limited as to its ability to control or influence the governance and operations of the Company (if at all).

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by the Manager and its officers ("Management") and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the Profit Participation Interests of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will

Company, the Company may sell interests to additional investors, which will dilute the Profit Participation Interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from securityholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As solely a holder of Profit Participation Interests in the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon Management to manage the Company so as to maximize value for investors. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of Management. If Management and the Sole Member authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, Management will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of Management to its securityholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

None.

INSTRUCTION TO QUESTION 24: name the creditor, amount owed, interest rate, maturity date, and any other material terms.

25. What other exempt offerings has the issuer conducted within the past three years?

Offering Date	Exemption	Security Type	Amount Sold	Use of Proceeds
No exempt offerings.				

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12- month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. any director or officer of the issuer;
2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
4. or (4) any immediate family member of any of the foregoing persons.

Yes
 No

INSTRUCTIONS TO QUESTION 26: The term transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

Beneficial ownership for purposes of paragraph (2) shall be determined as of a date that is no more than 120 days prior to the date of filing of this offering statement and using the same calculation described in Question 6 of this Question and Answer format.

The term "member of the family" includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the person, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Compute the amount of a related party's interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.

FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

- Yes
 No

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

AKT Pictures LLC, an independent motion pictures company, is making a feature film currently entitled "When I Was a Human: the Movie" (the "Picture").

The Picture is based on a short film with a worldwide licensing agreement awarded by Shorts International, the official distributor of the Academy of Motion Pictures and Sciences.

A study shows 63.4 million U.S. households alone own a dog. They are our potential customers.

Upon release, we hope that the Picture will be a huge success and generate revenues worldwide.

We may in the future create derivative projects of the Picture such as spin-offs for TV series and educational videos, however the Profit Participation Rights held by Investor will not entitle Investor to any revenues from such derivative projects.

The historical results and cash flows of the Company are not representative of what investors should expect in the future as such historical results are unrelated to an investor's Profit Participation Interests.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

Milestones

AKT Pictures LLC was organized in the State of California in March 2018.

Since then, we have:

- Proof of Concept (the short film "When I Was a Human") in worldwide distribution via the licensing agreement awarded by Shorts International, the Academy of Motion Pictures and Sciences official distributor.

Moreover, one of the 10 titles that Shorts International has decided to include in

- It was one of the 40 titles that Sports International handpicked to include in the business expansion proposal to the government of India, which was an extremely lucrative and prestigious deal for the company.
- The Proof of Concept received an invite from a touring film festival, Bao Wow Film Festival, and was selected as an official selection for their 2018-2019 tour.
- It screened in more than thirty cities across the U.S., raising funds for local animal rescues throughout the country.
- Our team with collective experiences in hundreds of hours of TV/movies here and overseas and has vast experience, including working on hit films like "Kill Bill," "Blade," and HBO Doc "MacMillions," and more.

The above milestones reflect the team's collective achievements before and after the organization of AKT Pictures LLC.

Historical Results of Operations

Our company was organized in March 2018 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues.* For the period ended December 31, 2019, the Company had revenues of \$259 compared to the year ended December 31, 2018, when the Company had revenues of \$14,509.
- *Assets.* As of December 31, 2019, the Company had total assets of \$9, comprised of \$9 in cash. As of December 31, 2018, the Company had \$141 in total assets, comprised of \$141 in cash.
- *Net Loss.* The Company has had net losses of \$7,666 and net losses of \$1,039 for the fiscal years ended December 31, 2019 and December 31, 2018, respectively.
- *Liabilities.* The Company's liabilities totaled \$700 for the fiscal year ended December 31, 2019 and -\$14 for the fiscal year ended December 31, 2018.

The historical results of operations of the Company are not representative of what investors should expect in the future as such historical results are unrelated to an investor's Profit Participation Interests.

Liquidity & Capital Resources

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 3 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

AKT Pictures LLC cash in hand is \$2,358.05, as of January 2021. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$586/month, for an average burn rate of \$586 per month. Our intent is to be profitable in 24 months.

There have been no material changes or trends since the date of our financials.

We expect to need a total of \$100,000 in order to shoot the film. If we only raise \$50,000, we spend the majority of the funds on "packaging." It is a crucial step in filmmaking to attach known-talent(s) to the project. Generally, a commercially viable actor generates more financial interest and a higher profile for the film to raise more funds. We will also use part of the money for marketing the Offering in compliance with applicable law.

Our main expense in the next 3-6 months is expected to be for social media ads and other marketing campaign to market the Offering to reach more

potential investors. Expenses will be less than \$2,000 before we hit the minimum funding target but it will increase to \$10,000 once we reach it. We expect to use funds from the Offering to cover these expenses. The rest will be allocated to secure key talent(s).

We do not have any other sources of capital at this point. Once our minimum funding target is hit and secure a lead cast, we believe we'll have more leverage to approach investors to raise additional capital.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
