How Does "WIWAH" Make Money? 🍷💰

Our Business Model 📈

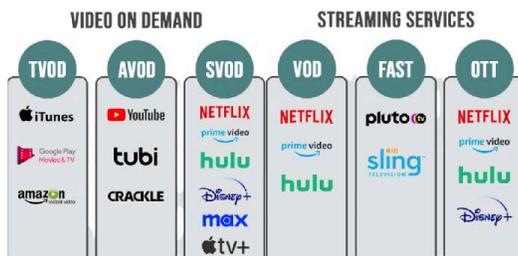

The Movie's Anticipated Revenue Streams

🍷 Targeted limited domestic theatrical release & foreign sales

This strategy not only helps us build up our brand recognition but also cranks up the film's appeal in foreign markets, where we're anticipating some serious cash flow.

🍷 VOD distributions and pay & free TV platforms across multiple markets. They should provide steady stream of revenue through licensing deals.

🍷 Other ancillary

- To ensure long-term profitability, we'll also explore other ancillary avenues, such as home entertainment (Blu-ray), merchandise, and international broadcast rights, airlines, cruise ships.

A Case Study

Result: Dog movies = 🐕

"Forget about Avengers, Fate of the Furious, and Wolf Warriors. Forget about Ant-Man or Spider-Man or Thor: Ragnarok. In China, Justice League is now in the dog house." - Rob Cain (Forbes.com)

A humble little movie with no major talent attached to it and a small prior audience called "A Dog's Purpose" beat out "Justice League" and earned \$88 million in China back in 2017, becoming one of China's 25 top-grossing movies that year.

A movie featuring dogs and positive messaging - just like "When I Was a Human" - has incredible potential to attract the same attention.
