Experience

Co-Founder and CTO
Grazr · Self-employed
Aug 2019 – Present · 1 yr 7 mos
Middle Tennessee

Grazr is an online marketplace for buying and selling meats locally. The Grazr platform seamlessly links farmers, processors and consumers for more accessible, farm-fresh meats. A: farmers we experienced the headaches in bringing animals to local markets. Restrictions on sales, difficulty attracting new customers, not knowing how much to bring to market or which cuts made for a clumsy and expensive system. As consumers we were frustrated by the complexity, lack of variety and high costs of trying to find delicious, locally-raised meats. Graz is the solution. Farmers raising their best livestock. Processors making their best cuts. Families getting a variety of meats at the best value. Stitched together in a seamless online platform."
