Responsible for a production Rails API that powered three Ember apps, a white-labeled Ionic mobile app, a build automation server (automated building of the white-label apps) ...see more

Digerati Web Developer
LifeChurch.tv
Feb 2014 – Jun 2015 · 1 yr 5 mos
Edmond, Oklahoma

Developed and maintained four production Rails apps. Also worked with the designer and developers on my team to architect solutions to customer issues and improve the products based on customer feedback. Served in a "customer happiness" role on a rotating basis to provide customer help and understand customer needs and issues.
