INDEPENDENT ACCOUNT'S REVIEW REPORT

To the Board of Directors
Viveka, Inc.
Marina del Rey, California

We have reviewed the accompanying financial statements of Viveka, Inc., which comprise the balance sheets as of December 31, 2020 and 2019, and the related statements of income, statements of equity and statements of cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modification that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

VIVEKA, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. Summary of Significant Accounting Policies

The Company

Viveka, Inc. (the "Company") was incorporated in the State of Delaware on September 20, 2019. The Company was originally formed in Australia, as Viveka Pty Ltd. Once Viveka, Inc. was formed, all operations of Viveka Pty Ltd was transferred to Viveka, Inc. The Company is a SaaS marketplace, which connects companies and individuals to a wide variety of coaches.

Fiscal Year

The Company operates on a December 31st year-end.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP).

Use of Estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires the use of management's estimates. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at fiscal year-end. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid financial instruments purchased with maturities of three months or less to be cash equivalents. As of December 31, 2020, and 2019, the Company held no cash equivalents.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions.

The Coronavirus Disease of 2019 (COVID-19) has recently affected global markets, supply chains, employees of companies, and our communities. Specific to the Company, COVID-19 may impact various parts of its 2020 operations and financial results including shelter in place orders, economic hardships affecting funding for the Company's operations, and effects the Company's workforce. Management believes the Company is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as of December 31, 2020.

Accounts Receivable

The Company's trade receivables are recorded when billed and represent claims against third parties that will be settled in cash. The carrying value of the Company's receivables, net of the allowance for doubtful accounts, represents their estimated net realizable value.

The Company evaluates the collectability of accounts receivable on a customer-by-customer basis. The Company records a reserve for bad debts against amounts due to reduce the net recognized receivable to an amount the Company believes will be reasonably collected. The reserve is a discretionary amount determined from the analysis of the aging of the accounts receivables, historical experience and knowledge of specific customers. As of December 31, 2020, and 2019, the Company had no accounts receivable.

See independent accountant's review report.

VIVEKA, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. Summary of Significant Accounting Policies (continued)

Income Taxes

The Company complies with FASB ASC 740 for accounting for uncertainty in income taxes recognized in a company's financial statements, which prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. FASB ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on the Company's evaluation, it has been concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position.

The Company is subject to tax filing requirements as a corporation in the federal jurisdiction of the United States. The Company sustained net operating losses during fiscal year 2019. Net operating losses will be carried forward to reduce taxable income in future years. Due to management's uncertainty as to the timing and valuation of any benefits associated with the net operating loss carryforwards, the Company has elected to recognize an allowance to account for them in the financial statements but has fully reserved it. Under current law, net operating losses may be carried forward indefinitely.

The Company is subject to franchise and income tax filing requirements in the States of Delaware and California.

Fair Value of Financial Instruments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

- Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

- Level 2 - Include other inputs that are directly or indirectly observable in the marketplace.

- Level 3 - Unobservable inputs which are supported by little or no market activity.

See independent accountant's review report.

VIVEKA, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. Summary of Significant Accounting Policies (continued)

Fair Value of Financial Instruments (continued)

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of Inception. Fair values were assumed to approximate carrying values because of their short term in nature or they are payable on demand.

Intangible Assets

The Company has recorded intangible assets at cost. The intangible assets consist of software development costs. Software development are amortized over five years. Amortization expense for the period ending December 31, 2020, and 2019, was \$7,685 and nil, respectively.

Concentrations of Credit Risk

From time to time cash balances, held at a major financial institution may exceed federally insured limits of \$250,000. Management believes that the financial institution is financially sound and the risk of loss is low.

Revenue Recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the fee for the arrangement is fixed or determinable and collectability is reasonably assured. As of December 31, 2020, and 2019, the Company has recognized sales of \$43,196 and nil, respectively.

Advertising Expenses

The Company expenses advertising costs as they are incurred.

Organizational Costs

In accordance with FASB ASC 720, organizational costs, including accounting fees, legal fee, and costs of incorporation are expensed as incurred.

New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board, or FASB, or other standard setting bodies and adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued standards that are not yet effective will not have a material impact on its financial position or results of operations upon adoption.

In November 2015, the FASB issued ASU (Accounting Standards Update) 2015-17, *Balance Sheet Classification of Deferred Taxes*, or ASU 2015-17. The guidance requires that all deferred tax assets and liabilities, along with any related valuation allowance, be classified as noncurrent on the balance sheet. For all entities other than public business entities, the guidance becomes effective for financial statements issued for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for all entities as of the beginning of an interim or annual reporting period. The adoption of ASU 2015-17 had no material impact on the Company's financial statements and related disclosures.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230), Restricted Cash*, or ASU 2016-18. The amendments of ASU 2016-18 were issued to address the diversity in classification and presentation of changes in restricted cash and restricted cash equivalents on the

See independent accountant's review report.

VIVEKA, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements (continued)

statement of cash flows which is currently not addressed under Topic 230. ASU 2016-18 would require an entity to include amounts generally described as restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning of period and end of period total amounts on the statement of cash flows. This guidance is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2018 for non-public entities. Early adoption is permitted, and the standard must be applied retrospectively. The adoption of ASU 2016-18 had no material impact on the Company's financial statements and related disclosures.

In May 2014, the FASB issued ASU, 2014-09—*Revenue from Contracts with Customers (Topic 606)*, or ASU 2014-09, and further updated through ASU 2016-12, or ASU 2016-12, which amends the existing accounting standards for revenue recognition. ASU 2014-09 is based on principles that govern the recognition of revenue at an amount to which an entity expects to be entitled to when products are transferred to customers. This guidance is effective for annual reporting periods, and interim periods within those years, beginning December 15, 2018 for non-public entities. The new revenue standard may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of adoption. The adoption of ASU 2014-09 had no material impact on the Company's financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, or ASU 2016-02, which supersedes the guidance in ASC 840, *Leases*. The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. This guidance is effective for annual reporting periods beginning after December 15, 2019 for non-public entities. The adoption of ASU 2016-02 had no material impact on the Company's financial statements and related disclosures.

In March 2016, the FASB issued ASU 2016-09, *Improvements to Employee Share-based Payment Accounting*, or ASU 2016-09. ASU 2016-09 simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Some of the areas of simplification apply only to non-public companies. This guidance was effective on December 31, 2016 for public entities. For entities other than public business entities, the amendments are effective for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for an entity in any interim or annual period for which financial statements have not been issued or made available for issuance. An entity that elects early adoption must adopt all amendments in the same period. The adoption of ASU 2016-09 had no material impact on the Company's financial statements and related disclosures.

In May 2017, the FASB issued ASU 2017-09, *Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting*, or ASU 2017-09, which clarifies when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the new

See independent accountant's review report.

VIVEKA, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements (continued)

guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. This guidance is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2017, for both public entities and non-public entities. Early adoption is permitted. The adoption of ASU 2017-09 had no material impact on the Company's financial statements and related disclosures.

2. Commitments and Contingencies

The Company is not currently involved with and does not know of any pending or threatening litigation against the Company or its members.

3. SBA PPP Loan

In 2020, the Company received loan proceeds of \$18,750 under the Paycheck Protection Program ("PPP"). The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act, provides for loans to qualifying businesses for amounts up to 2.5 times the average monthly payroll expenses of the qualifying business. The PPP Loan and accrued interest are forgivable after twenty-four weeks, as long as the borrower uses the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels. The amount of loan forgiveness will be reduced if the borrower terminates employees or reduces salaries during twenty-four-week period.

The PPP Loan is evidenced by a promissory note, between the Company, as Borrower, and The Small Business Association., as Lender. The interest rate on the Note is 1% per annum, with interest accruing on the unpaid principal balance computed on the basis of the actual number of days elapsed in a year of 360 days. No payments of principal or interest are due during the six-month period beginning on the date of the Note.

As noted above, the principal and accrued interest under the Note evidencing the PPP Loan are forgivable after twenty-four weeks as long the Company has used the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels. The amount of loan forgiveness will be reduced if the Company terminates employees or reduces salaries during the twenty-four-week period. The Company used the proceeds for purposes consistent with the PPP loan. In order to obtain full or partial forgiveness of the PPP Loan, the Company must request forgiveness and must provide satisfactory documentation in accordance with applicable Small Business Administration ("SBA") guidelines. Interest payable on the Note may be forgiven only if the SBA agrees to pay such interest on the forgiven principal amount of the Note. The Company will be obligated to repay any portion of the principal amount of the Note that is not forgiven, together with interest accrued and accruing thereon at the rate set forth above, until such unforgiven portion is paid in full.

As of December 31, 2020, the Company believes that the PPP funds were used appropriately for all funds to be forgiven once the SBA processes the loan forgiveness application.

See independent accountant's review report.

VIVEKA, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

4. SAFE Obligations

Since inception, the Company issued Simple Agreements for Future Equity ("SAFE"). The SAFE agreements have no maturity date and bear no interest. The SAFE agreements provide a right to the holder to future equity in the Company in the form of SAFE Preferred Stock. SAFE Preferred Stock are shares of a series of Preferred Stock issued to the investor in an equity financing, having identical rights, privileges, preferences and restrictions as the shares of standard Preferred Stock offered to non-holders of SAFE agreements other than with respect to: (i) the per share liquidation preference and the conversion price for purposes of price-based anti-dilution protection, which will equal the conversion price; and (ii) the basis for any dividend rights, which will be based on the conversion price. The number of shares issued to the holder is determined by either (1) the face value of the SAFE agreement divided by the price per share of the standard preferred stock issued, if the pre-money valuation is less than or equal to the valuation cap; or (2) a number of shares of SAFE Preferred Stock equal to the face value of the SAFE agreement divided by the price per share equal to the valuation cap divided by the total capitalization of the company immediately prior to an equity financing event. Total capitalization of the company includes all shares of capital stock issued and outstanding and outstanding vested and unvested options as if converted.

If there is a liquidity event (as defined in the SAFE agreements), the investor will, at their option, either (i) receive a cash payment equal to the face value of the SAFE agreement ("Purchase Amount") or (ii) automatically receive from the Company a number of shares of common stock equal to the Purchase Amount divided by the price per share equal to the valuation cap divided by the Liquidity Capitalization ("Liquidity Price") (as defined in the SAFE agreements). If there are not enough funds to pay the holders of SAFE agreements in full, then all of the Company's available funds will be distributed with equal priority and pro-rata among the SAFE agreement holders in proportion to their Purchase Amounts and they will automatically receive the number of shares of common stock equal to the remaining unpaid Purchase Amount divided by the Liquidity Price.

If there is a dissolution event (as defined in the SAFE agreements), the Company will pay an amount equal to the Purchase Amount, due and payable to the investor immediately prior to, or concurrent with, the consummation of the dissolution event. The Purchase Amount will be paid prior and in preference to any distribution of any of the assets of the Company to holders of outstanding capital stock. If immediately prior to the consummation of the dissolution event, the assets of the Company legally available for distribution to all SAFE holders, are insufficient to permit the payment to their respective Purchase Amounts, then all of the assets of the Company legally available for distribution will be distributed with equal priority and pro-rata among the SAFE holders as a single class. The SAFE agreements will expire and terminate upon either (i) the issuance of shares to the investor pursuant to an equity financing event or (ii) the payment, or setting aside for payment, of amounts due to the investor pursuant to a liquidity or dissolution event.

As of December 31, 2020, and 2019, no SAFE agreements had been converted into equity, nor had any terminated or expired based on the terms of the agreements.

As of December 31, 2020, and 2019, the Company had \$165,000 and \$125,000, respectively, of SAFE obligations outstanding, with a valuation cap ranging from \$3,500,000 to \$5,000,000 and no discount rates.

See independent accountant's review report.

VIVEKA, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

4. SAFE Obligations (continued)

The Company accounts for the SAFE agreements under ASC 480 (Distinguishing Liabilities from Equity), which requires that they be recorded at fair value as of the balance sheet date. Any changes in fair value are to be recorded in the statement of income. The Company has determined that the fair value at the date of issuance, and as of December 31, 2020, and 2019 are consistent with the proceeds received at issuance, and therefore there is no mark-to-market fair value adjustments required or reflected in income for the years ended December 31, 2020 and 2019.

5. Equity

Common Stock

Under the articles of incorporation, the total number of common shares of stock that the Corporation shall have authority to issue is 10,000,000 shares, at a \$0.0001 par value per share. As of December 31, 2020, and 2019, 8,500,000 shares have been issued and are outstanding.

2019 Equity Plan

The Company's 2019 Equity Plan (the Plan), which is shareholder approved, permits the grant of share options and shares to its employees, advisors and subcontractors for up to 1,500,000 shares of common stock. The Company believes that such awards better align the interests of its employees, advisors and subcontractors with those of its shareholders. Option awards are generally granted with an exercise price equal to the market price of the Company's stock at the date of grant; those option awards generally vest based on four years of continuous service and have 10-year contractual terms. Share awards generally vest over four years. Certain option and share awards provide for accelerated vesting if there is a change in control, as defined in the Plan. During the year ending December 31, 2020, the Company granted 625,000 shares of its common stock to consultants of the Company. The grant price was \$0.05 per share and they vest over a four-year period.

5. Subsequent Events

In January 2021, the Company applied for round two of the SBA's PPP Loan. The application is still under review, but if approved, the Company would receive \$20,000.

The Company has evaluated subsequent events through February 9, 2021, the date through which the financial statement was available to be issued. It has been determined that no events require additional disclosure.

See independent accountant's review report.
