Product Market Fit

Comparison table of features and demographics across four companies: Sizigi, bulb, PORTFOLIUM, and LinkedIn.

This graph contains forward-looking projections that cannot be guaranteed.

Technology

01 Application Tracking

Every job hunt starts with a job search. Sizigi provides a search engine to look up, filter, and select the careers users are interested in pursuing.

02 Custom Job Pitches

Users can tailor each job pitch to whichever position they're applying for by updating their intro video, relevant skills, and featuring content that properly pertains to each job opening.

03 Actionable Analytics

Sizigi provides straightforward data interpretation that prompts users to perform certain actions that increase their chances of getting hired.

Our partners include job boards, companies, & colleges
