How We Make Money

We are a SAAS company. Our subscriptions are based on the number of silhouettes we create / lease for home units, outdoor space or merchandise (watches, jewelry etc.).

Market

Real estate developers building townhouses, agro communities, single family homes, buildings etc. Also, eCommerce operators selling shoes, jewelry, watches, handbags etc.

exponentially more relevant because of the pandemic.

What has been your favorite part about building your company?

Both of us love building cool stuff - and working with cool people. We have an amazing solution - and have had the privilege of working with an incredible team.

What has been your biggest obstacle so far?

The need for our solution is growing very fast and we require the capital to scale faster than we are currently moving.

Why should people invest in your company?

It's a solution that's difficult to describe - but easy to experience. We make digital interactions closer to physical. For physical experiences that are difficult or impossible (like walking through a home that hasn't been built) we are a very close substitute.

Meet Sunil Verma (left) & Jeremy Tarnpol (right), the founders of Xlimal

What inspired you to create your company?

As friends and coworkers Jeremy & I were frustrated by the inability of digital experiences to inspire. Most digital interactions are two dimensional and lack "presence". We decided to bring digital experiences alive and infuse

What We Do

Xlimal creates true to reality 3D at scale to enable high touch digital interactions.

Realtors use our product to sell new homes to customers before they have been built. Pre-sales are extremely important to developers since often bank loans are dependent on pre-selling.

Developers, architects and civil engineers use our product to make design decisions for the homes they are building.
