("**Sparrow**," the "**Company**," "**we**," "**us**," or "**our**") is offering a minimum amount of \$50,000.13 (our **Target Offering Amount**) and up to a maximum amount of \$4,999,999.90 (**Maximum Offering Amount**)—all in Series Seed-1 Preferred Stock (aka the "**Securities**"), at a purchase price of \$0.26 per Unit on a best efforts basis.

Your investment will go through **Sparrow Vision 2025 SPV LLC**, a special purpose vehicle exempt from registration under the Investment Company Act thanks to Rule 270.3a-9. This SPV is our **Co-Issuer**, and everything must be locked in by **March 31, 2027** (our **Offering Deadline**).

Co-Issuer

This Offering has the following co-issuer(s): Sparrow Vision 2025 SPV LLC (the "**Co-Issuer**"), located at 64 Beaver Street, Suite 203, New York, NY 10004. The Co-Issuer was organized as a Limited Liability Company in the United States under the jurisdiction of Delaware in the year 2025.

The Company has formed the Co-Issuer solely for issuing the Securities under this Offering. The Co-Issuer will serve merely as a conduit for investors to invest in the Company and will not have a separate business purpose. An investment in the Co-Issuer will allow investors to achieve the same economic exposure, voting power (which is none) and ability to assert State and Federal law rights and achieve the same disclosures as if they had invested directly in the Company. The Co-Issuer will maintain a one-to-one relationship between the number, denomination, type and rights of Company securities it owns and the number, denomination, type and rights of its securities outstanding.

The Securities in this Offering will be issued by both the Company and the Co-Issuer. The proceeds from the Offering will be received by the Co-Issuer and invested immediately in the Securities issued by the Company. The Co-Issuer will be the legal owner of the Security. Investors in this Offering will own limited liability company membership interests in the Co-Issuer. Pursuant to SEC rules, investors will receive the same economic and information rights in the limited liability company membership interests as if they had invested directly with the Company.

We reserve the right to accept or reject your investment for any reason—or no reason at all. All purchases go through our deal platform **DealMaker Securities LLC** (the **Intermediary**), and all committed funds are held in escrow with **Enterprise Bank & Trust** (the **Escrow Agent**) until

we hit our target. You may cancel your commitment up to 48 hours before the deadline through the Intermediary's cancellation system. The Intermediary has the ability to reject any investment commitment and may cancel or rescind the Company's offer to sell the Securities at any time for any reason.

Investors will be required to pay an Investor Processing Fee of 3.5% to the Company at the time of the subscription to help offset transaction costs. The Broker will receive a cash commission on this fee.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

Our valuation and our offering price have been established internally and are difficult to assess.

The company has set the price of its Series Seed-1 Preferred Stock at \$0.26 per share, plus a 3.5% Investor Transaction Fee, see “Securities Being Offered” for further details on this fee. This fee is intended to offset transaction costs and though this fee is counted towards the amount the company is seeking to raise under Regulation Crowdfunding and the limit each investor may invest pursuant to Regulation Crowdfunding, we did not value it in determining our valuation. Including this fee will increase our valuation for which you are paying for shares in our company accordingly. Valuations for companies at this stage are generally purely speculative. Our valuation has not been validated by any independent third party and may decrease precipitously in the future. It is a question of whether you, the investor, are willing to pay this price for a percentage ownership of a start-up company. The issuance of additional shares of Common Stock, Preferred Stock or additional option grants may dilute the value of your holdings, this includes the issuance of shares to employees of our Company, You should not invest if you disagree with this valuation.

The Investor Transaction Fee may not count toward your cost basis for tax purposes. The IRS and/or another relevant tax authority may consider the price of the share before including the Investor Transaction Fee as the cost basis for determining any gain or loss at a realization event. You should discuss with your tax advisor the appropriate way to determine the relevant tax obligation.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Sparrow Vision operates in an emerging and rapidly evolving sector involving artificial intelligence, computer vision, and mobile software. Sales and revenue projections are based on hypothetical marketing estimates. However, the company may not be able to successfully maintain, promote and grow the brand through its marketing and communication strategies. Increasing the number

of customers while establishing brand awareness and loyalty may prove difficult in the hyper-competitive marketplace. Inability to successfully market the company and increase its customer base will adversely impact the company's operations and inhibit success while posing a risk to shareholder investment.

The company is susceptible to key person risk. The success of the company will largely be dependent upon the experience and skill of its board of directors, executive officers and tenured employees. The company can make no guarantees that key individuals necessary for successful operation of the business objectives will continue to be employed by the company for any defined period of time. Loss of any key persons for any reason could cause irreparable harm to the company's ability to deliver value to shareholders, meet business objectives, and could cause the company and your investment to suffer.

Some of the company's intellectual property is currently patent pending. Any patents or intellectual property protections obtained by the company may be challenged or circumvented. Intellectual property enforcement may be time consuming and cost intensive while simultaneously diverting the company's attention away from successfully executing its business plan.

The Company is revenue-generating but still faces material risks related to its ability to monetize its AI-powered coaching tools, subscription plans, and future AI agent functionality. It has limited operating capital and will be largely dependent upon its ability to finance operations from the sale of equity, the issuance of debt or other financing alternatives. The company's failure to successfully raise operating capital or effectively monetize its products could potentially result in an adverse impact to the business, up to and including bankruptcy.

The market in which the company operates is competitive and is likely to become increasingly competitive in the future. The company may ultimately face declining sales, decreased revenue or smaller margins as a direct result of competition in the marketplace. Changes in customer preference or the inability to successfully compete with other companies offering a similar product or service could negatively impact the company's financial performance.

Sparrow Vision's AI models and future AI agents may produce inaccurate, incomplete, or misleading coaching guidance due to limitations in training data, hardware variability, or environmental factors. Overreliance by users on AI guidance may result in user dissatisfaction, performance issues, or potential physical injury. The Company may face claims or reputational harm arising from incorrect or unintended AI outputs. The Company's future AI-agent features—including voice interaction, real-time guidance, and behavioral modeling—may be subject to additional regulatory oversight as AI governance laws continue to develop. Uncertainty in the

regulatory landscape may require costly adjustments to Sparrow Vision's technology, user experience, or data practices.

There is a high likelihood that the company will require access to capital or credit in order to support business-growth finance requirements. Acquiring extensions of credit with favorable terms can be challenging and is highly dependent upon macro-economic conditions coupled with aforementioned internal and external known and unknown factors. If the company is unable to obtain needed credit it could be forced to modify business strategy, growth projections, or take other action necessary to raise additional capital or conserve existing funds. The company's potential inability to secure future credit could adversely impact the business, its valuation, and/or the value of shareholder securities. There is no guarantee that additional capital will be able to be raised by the company even if this raise is successful. If the company is unable to acquire additional capital it may be required to alter its business plan, business strategy, sell assets, reduce workforce, restructure under the protections of a bankruptcy filing, or cease operations and dissolve. Under such scenarios, no return of capital, shareholder settlement or refund would be issued to investors. The company's inability to secure future capital could adversely impact the business, its valuation, and/or the value of shareholder securities.

Data and information regarding the company and the investment opportunity is limited. You may not have or be able to obtain all the information requested or sought after in order to make a sound investment decision. While the company is required to disclose certain information such as an offering document, annual financial statements, information concerning intended use of funds and material changes, such disclosures and information contained herein do not represent all the data or risks associated with investing in early stage companies such as the company. Available information will be limited as the company does not have a fully developed business plan and long history of operation. Investing in crowdfunding companies presents significantly more risk than investing in publicly traded companies due to the limited amount of data and information provided by a company engaging in a Reg. CF raise. Company is not a publicly listed company; however, pursuant to this Offering, Company is required to file annual reports and promptly disclose material information, providing the ability for the investor to more closely and thoroughly monitor their investment.

The company's securities will be illiquid. The company's securities may not be converted into cash. With limited exceptions, you will not be lawfully able to sell or transfer your securities during the initial mandatory 12-month lock-up period. After this period, federal and state securities regulations may limit or restrict your ability to sell or transfer your securities. In the event you are able to sell your securities you will likely have a hard time finding a buyer due to a lack of an established market, and, if such a marketplace exists, it may experience low volume or few participants. You should be prepared to hold your investment for a very long time.

There is a high likelihood that future company performance may not achieve its stated objectives herein. All statements, claims and representations of future performance are for the most part hypothetical, based on management's good faith and best-efforts estimates, analysis, and forecasts. Current management expectations and projections regarding future performance, financial trends, societal trends, economic trends, and other reasonable beliefs impacting the business, financial conditions, and the results of its operations form the basis for the projections and other forward-looking statements made herein. As socioeconomic trends change, there is a high likelihood that such assumptions made in good faith and contained herein may become less reliable creating a circumstance where adjustments to the company's operations may be required.

Achievement of stated performance contains risks based on known and unknown internal and external factors that could lead to material changes or variations of actual results. There is no guarantee that the company's financial and operational performance will meet these projections or that future performance will be consistent with current management expectations.

There is no guarantee that any investment is immune from fraud. While most public offerings, including Reg. CF offerings require screening standards, oversight and reviews, the risk of fraud remains high when investing in any early stage company including start-ups such as the company. There is no guarantee as to the validity or accuracy of the company's claims or representations about technology, projections and forward-looking statements, advertising materials related to this crowdfunding raise, or past or future performance. You are required to undertake your own diligence and/or consult your financial advisor with respect to the accuracy and validity of the company's materials.

Investing in early stage companies without a proven track record of performance or sound liquidity such as the company is highly speculative in nature and presents significant risk to you, as the investor. In short, you may lose your entire investment. Prior to investing, you need to thoroughly research and understand all potential risk associated with investing in the company. Until the company has achieved profitability and is without need of raising additional capital, the chance of you losing your entire investment remains likely. Therefore, you should not invest more than you are willing to comfortably lose. Regardless of future revenue and/or profitability performance, good and bad, there is no guarantee that you will ever see a return on your investment, or that you will ever be in a place to exit your investment for a profit or a loss.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle (“SPV”). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. All references in this Form C to an Investor’s investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

Investment Confirmation Process:

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by the Intermediary, including complying with the Intermediary's know your customer (KYC) and anti-money laundering (AML) policies. If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

An Investor's right to cancel.

An investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel.

The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled, and committed funds will be returned.

Material Changes

If any material change occurs related to the Offering prior to the current Offering deadline, the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments but not been accepted as investors of the Company. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor's investment commitment will be cancelled, and the committed funds will be returned without interest or deductions.

Closings

In the event an amount equal the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering deadline, the Company may conduct a closing of the Offering early, provided the early closing date must be at least twenty-one (21) days from the time the Offering opened. The Company may conduct subsequent closings on a rolling basis after it has conducted an initial closing until all Securities have been sold or the Offering deadline or the Offering is earlier terminated. All investors with unaccepted subscription commitments will receive notice of their scheduled closing date at least five business days prior to such closing (absent a material change that would require

an extension of the Offering and reconfirmation of all investment commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before each closing date. If an Investor does not cancel an investment commitment before the Target Offering Amount is reached, the funds will be released to the Company upon the closing and the Investor will receive the Securities in exchange for their investment.

Investor funds will be held in escrow with the Escrow Agent until eligible for disbursement to the Company following the Offering sales reaching the Target Offering Amount. After the initial disbursement, eligible funds may be disbursed prior to the close of the Offering.

The Company will return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Company until they are accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Company rejects all or a portion of any investment commitment, the applicable prospective Investor's funds will be returned without interest or deduction.

The volume bonus below (if one applies) is stackable with 2.1 (if it is in effect) and one bonus from 2.2 (if it is in effect) and one bonus from 2.3 (if it is in effect).

If investment is in the range of \$1,000 – \$4,999, investor will receive 5% bonus shares

If investment is in the range of \$20,000 – \$24,999, investor will receive 15% bonus shares

In order to qualify for any bonus share incentive, the investor must make a single investment that meets or exceeds the specified minimum threshold for that perk within the same offering. Multiple smaller investments may not be aggregated to qualify for any perk or bonus.

All perks, including bonus shares, will be granted only after the close of the offering and subject to the Company reaching its required minimum offering amount.

If an investor incorrectly claims eligibility for any Special Situation Bonus, the Company reserves the right to adjust the number of shares issued to reflect the investor's actual eligibility status.

Crowdfunding investments made through a self-directed IRA cannot receive perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those perks because they would be receiving a benefit from their IRA account.

DealMaker Securities LLC has not been engaged to assist in the distribution of the Bonus Shares, and will not receive any compensation related to the Bonus Shares.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV has been formed as Sparrow Vision 2025 SPV LLC. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. The Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through

the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

Investors will not have voting rights. Investors in the Securities will not have voting rights. Thus, Investors will never be able to vote upon any matters of the Company. As such, Investors will not have any influence over matters requiring stockholder approval, including the election of directors or managers and approval of significant Company transactions, nor the Company's management and policies. Moreover, those with voting rights could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, issue additional securities which may dilute you, repurchase securities of the Company, enter into transactions with related parties or support or reject other management and board proposals. As such, Investors should not purchase the Securities if they are not comfortable with this lack of voting and control.

Restriction on Transferability

Interests in the SPV are subject to restrictions on transfer, as set forth in the Subscription Agreement and the SPV's Limited Liability Company Agreement. No transfer of SPV interests may be made without the prior written consent of the SPV manager, and in some cases, the Company.

14. Do the securities offered have voting rights?

Yes

No

15. How may the terms of the securities being offered be modified?

This Agreement constitutes the entire agreement between the parties hereto with respect to the subject matter hereof and may be amended only by a writing executed by all parties.

Pursuant to authorization in the Investor Agreement between each Investor and the Company, Company is authorized to take the following actions with respect to the investment contract between the Company and an investor:

A. Company may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and

B. Company may reduce the amount of an investor’s investment if the reason for the reduction is that the Company’s offering is oversubscribed.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- a. to the issuer;
- b. to an accredited investor;
- c. as part of an offering registered with the U.S. Securities and Exchange Commission; or
- d. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

16. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
-------------------	--------------------------------------	---------------------------------------	---------------

Series Seed-1 Preferred Stock	125,000,000	74,847,726	Yes
Class A Common	145,000,000	305,272	Yes
Class B Common	80,000,000	54,217,978	Yes

Class of Security | Securities Reserved for Issuance upon Exercise or Conversion

Describe any other rights:

Class A common stock is entitled to one (1) vote per share. Class B common stock is entitled to ten (10) votes per share.

The Company has authorized Series Seed-1 Preferred Stock through filing of a restated Certificate of Incorporation. The Series Seed-1 Preferred Stock includes voting rights (one vote per share) and has a 1x liquidation preference over Common:

Liquidation Right.

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, the holders of shares of Series Seed-1 Preferred Stock then outstanding shall have the option to: (i) exercise their liquidation preference to receive payment before any payment shall be made to the holders of Common Stock by reason of their ownership thereof, in an amount equal to the Share Purchase Price, plus an additional amount, if and to the extent available, entitling each holder to participate with the holders of Common Stock (on an pro rata as-converted basis) in 20% of any remaining proceeds until such holder has received, in the aggregate, total distributions equal to one hundred twenty percent (120%) of the original Share Purchase Price, after which no further distributions shall be made to such Preferred stock holder; or (ii) elect to convert their Preferred Stock to Common Stock and receive payment proportionate to their equity stake. If any holder of Preferred Stock converts shares of Preferred Stock into Common Stock, then such holder shall no longer be entitled to receive any distribution that would otherwise be made to holders of Preferred Stock that have not converted into shares of Common Stock.

17. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFEs, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

18. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

19. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the shareholders may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the shareholders may change the terms of the Articles of Incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The shareholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns. The shareholders have the right to redeem their securities at any time.

Shareholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability. In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

20. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common stock that take into account factors such as the following:

- a. unrelated third party valuations of our common stock;

- b. the price at which we sell other securities, such as convertible debt or preferred Stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;
- c. our results of operations, financial position and capital resources;
- d. current business conditions and projections;
- e. the lack of marketability of our common stock;
- f. the hiring of key personnel and the experience of our management;
- g. the introduction of new products;
- h. the risk inherent in the development and expansion of our products;
- i. our stage of development and material risks related to our business;
- j. the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- k. industry trends and competitive environment;
- l. trends in consumer spending, including consumer confidence;
- m. overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- n. the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

21. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making

of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

22. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities.

The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer.

As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of

Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties.

None

NOTE:

The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Liquidity & Capital Resources

After the conclusion of this Offering, should we hit our funding target, our projected runway is 18 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds." We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 18 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering.

Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

OTHER MATERIAL INFORMATION

30. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Manager. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Manager (the “Proxy”). The Proxy is irrevocable unless and until a Successor Manager takes the place of the Manager, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Manager or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors’ behalf.

The Manager is an experienced individual who is chosen to act in the role of Manager on behalf of Investors that have a Proxy in effect. The Manager for Sparrow Vision 2025 SPV LLC is **Joseph Chin**, who has been chosen by the Company.

The Manager will not receive any compensation for his or her services to the SPV. Although the Manager may act in multiple roles with respect to the Company’s offerings and may potentially be compensated for some of its services, the Manager’s goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Manager’s interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Manager’s interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Intermediary Portal must agree to give the Proxy described above to the Manager, provided that if the Manager is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:

- (a) a description of the material content of such information;
- (b) a description of the format in which such disclosure is presented; and
- (c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.

ONGOING REPORTING

31. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;

3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.

SIGNATURE

(d) Illiquidity and Continued Economic Risk. Subscriber acknowledges and agrees that there is no ready public market for the Securities and that there is no guarantee that a market for their resale will ever exist. Subscriber must bear the economic risk of this investment indefinitely and the Company has no obligation to list the Securities on any market or take any steps (including registration under the Securities Act or the Securities Exchange Act of 1934, as amended) with respect to facilitating trading or resale of the Securities. Subscriber acknowledges that Subscriber is able to bear the economic risk of losing Subscriber's entire investment in the Securities. Subscriber also understands that an investment in the Company involves significant risks and has taken full cognizance of and understands all of the risk factors relating to the purchase of Securities.

(f) Investment Limits. Subscriber represents that either:

(i) Valuation. The Subscriber acknowledges that the price of the Securities was set by the Crowdfunding Issuer on the basis of the Crowdfunding Issuer's internal valuation and no warranties are made as to value. The Subscriber further acknowledges that future offerings of Securities may be made at lower valuations, with the result that the Subscriber's investment will bear a lower valuation.

(j) Domicile. Subscriber maintains Subscriber's domicile (and is not a transient or temporary resident) at the address shown on the signature page.

(k) Foreign Investors. If Subscriber is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), Subscriber hereby represents that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation to subscribe for the Securities or any use of this Subscription Agreement, including (i) the legal requirements within its jurisdiction for the purchase of the Securities, (ii) any foreign exchange restrictions applicable to such purchase, (iii) any governmental or other consents that may need to be obtained, and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, redemption, sale, or transfer of the Securities. Subscriber's subscription and payment for and continued beneficial ownership of the Securities will not violate any applicable securities or other laws of the Subscriber's jurisdiction.

6. INDEMNITY. The representations, warranties and covenants made by the Subscriber herein shall survive the closing of this Agreement. The Subscriber agrees to indemnify and hold harmless the Company, the Crowdfunding Issuer and their respective officers, directors and affiliates, and each other person, if any, who controls the Company or the Crowdfunding Issuer, as the case may be, within the meaning of Section 15 of the Securities Act, against any and all loss, liability, claim, damage

and expense whatsoever (including, but not limited to, any and all reasonable attorneys' fees, including attorneys' fees on appeal) and expenses reasonably incurred in investigating, preparing or defending against any false representation or warranty or breach of failure by the Subscriber to comply with any covenant or agreement made by the Subscriber herein or in any other document furnished by the Subscriber to any of the foregoing in connection with this transaction.

7. TRANSFER RESTRICTIONS.

(a) "Market Stand-Off" Agreement. Each Subscriber hereby agrees that it will not, without the prior written consent of the managing underwriter or financial advisor to the Crowdfunding Issuer (as applicable), during the period commencing on the date of the final prospectus relating to the registration by the Crowdfunding Issuer of its securities under the Securities Act on a registration statement on Form S-1 or Form S-3, and ending on the date specified by the Crowdfunding Issuer and the managing underwriter (such period not to exceed one hundred eighty (180) days in the case of the initial public offering (the "IPO") or any merger with or into a special purpose acquisition vehicle ("SPAC"), or such other period as may be requested by the Crowdfunding Issuer or an underwriter or financial advisor to accommodate regulatory restrictions on (1) the publication or other distribution of research reports, and (2) analyst recommendations and opinions, including, but not limited to, the restrictions contained in FINRA Rule 2711(f)(4) or NYSE Rule 472(f)(4), or any successor provisions or amendments thereto), or ninety (90) days in the case of any registration other than the IPO, or such other period as may be requested by the Crowdfunding Issuer, its financial advisors or an underwriter to accommodate regulatory restrictions on (1) the publication or other distribution of research reports and (2) analyst recommendations and opinions, including, but not limited to, the restrictions contained in FINRA Rule 2711(f)(4) or NYSE Rule 472(f)(4), or any successor provisions or amendments thereto), (i) lend; offer; pledge; sell; contract to sell; sell any option or contract to purchase; purchase any option or contract to sell; grant any option, right, or warrant to purchase; or otherwise transfer or dispose of, directly or indirectly, any Shares (or other securities, whether such shares or any such securities are then owned by the Subscriber or are thereafter acquired) or (ii) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of such securities, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of Securities, in cash, or otherwise. The foregoing provisions of this Section 7(a) shall not apply to the sale of any securities to an underwriter pursuant to an underwriting agreement, or the transfer of any securities to any trust for the direct or indirect benefit of the Subscriber or the immediate family of the Subscriber, provided that the trustee of the trust agrees to be bound in writing by the restrictions set forth herein, and provided further that any such transfer shall not involve a disposition for value, and shall be applicable to the Subscribers only if all officers and directors are subject to the same restrictions. The financial advisors of the Crowdfunding Issuer or its underwriters in connection with such registration are intended third party beneficiaries of this Section 7(a) and shall have the right, power and authority to enforce the provisions hereof as though they were a party hereto. Each Subscriber further agrees to execute such agreements as may be reasonably requested by the underwriters in connection with such registration that are consistent with this Section 7(a) or that are necessary to give further effect thereto.

For purposes of this Section 7(a), the term "Crowdfunding Issuer" shall include any wholly owned subsidiary of the Crowdfunding Issuer into which the Crowdfunding Issuer merges or consolidates. In order to enforce the foregoing covenant, the Crowdfunding Issuer may impose stop transfer instructions with respect to the Subscriber's registrable securities of the Crowdfunding Issuer (and the Crowdfunding Issuer shares or securities of every other person subject to the foregoing restriction) until the end of such period. The Subscriber agrees that a legend reading substantially as follows may be placed on all certificates representing all of such Subscriber's registrable securities of the Crowdfunding Issuer (and the Crowdfunding Issuer shares or securities of every other person subject to the restriction contained in this Section 7(a)):

“THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A LOCK-UP PERIOD BEGINNING ON THE EFFECTIVE DATE OF THE REGISTRATION STATEMENT OF SPARROW VISION, INC. (“SPARROW”), FILED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, AS SET FORTH IN AN AGREEMENT BETWEEN SPARROW AND THE ORIGINAL HOLDER OF THESE SECURITIES, A COPY OF WHICH MAY BE OBTAINED AT SPARROW’S PRINCIPAL OFFICE. SUCH LOCK-UP PERIOD IS BINDING ON TRANSFEREES OF THESE SECURITIES.”

(b) Further Limitations on Disposition. Without in any way limiting the representations and warranties set forth in this Agreement, the Subscriber agrees not to make any disposition of all or any portion of the Crowdfunding Issuer’s Series seed-1 Preferred Stock or any securities which may be converted into the Crowdfunding Issuer’s Series seed-1 Preferred Stock unless and until the transferee has agreed in writing for the benefit of the Crowdfunding Issuer to make the representations and warranties set out in Section 5 and the undertaking set out in Section 7(a) of this Agreement and:

(i) there is then in effect a registration statement under the Securities Act covering such proposed disposition, and such disposition is made in connection with such registration statement; or

(ii) such Subscriber has (A) notified the Crowdfunding Issuer of the proposed disposition; (B) furnished the Crowdfunding Issuer with a detailed statement of the circumstances surrounding the proposed disposition; and (C) if requested by the Crowdfunding Issuer, furnished the Crowdfunding Issuer with an opinion of counsel reasonably satisfactory to the Crowdfunding Issuer that such disposition will not require registration under the Securities Act.

The Subscriber agrees that it will not make any disposition of any of the Crowdfunding Issuer’s securities to the Crowdfunding Issuer’s competitors, as determined in good faith by the Crowdfunding Issuer.

Re: 2025-2024 Financial Statement Audit – Sparrow Vision, Inc.
New York, NY

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Sparrow Vision, Inc., which comprise the balance sheets as of December 31, 2025 and December 31, 2024, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Sparrow Vision, Inc. as of December 31, 2025 and December 31, 2024, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sparrow Vision, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sparrow Vision, Inc.'s ability to continue as a going concern.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

229 Park Ave S, Suite 70037
New York, New York 10003
1502

Info@Alice.CPA

-
- Exercise professional judgment and maintain professional skepticism throughout the audit.
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sparrow Vision, Inc.'s internal control. Accordingly, no such opinion is expressed.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
 - Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sparrow Vision, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Notes to Audited Financial Statements
For the years ended December 31, 2025 and December 31, 2024
(Audited)

Note 1 – Organization and Nature of Business

Sparrow Vision, Inc. (which may be referred to as the “Company”, “we,” “us,” or “our”) was registered in Delaware on May 10, 2018. The Company is headquartered in New York, New York. The Company provides artificial intelligence–driven personalized golf swing analysis and feedback through a digital platform. The Company’s services are offered primarily through subscription-based access and one-time purchases delivered via third-party digital marketplaces (e.g. Apple App Store).

Since inception, the Company has devoted substantially all of its efforts to developing its technology platform, enhancing its products, and expanding its customer base. The Company’s fiscal year-end is December 31. The Company has no subsidiaries as of December 31, 2025.

Note 2 – Change in Accounting Policy

During the year ended December 31, 2025, the Company changed its accounting policy related to the presentation of revenue derived from sales through the Apple App Store. In prior periods, the Company reported revenue net of fees retained by the Apple App Store.

Effective January 1, 2025, the Company reports revenue on a gross basis, reflecting the total fees charged to customers before application marketplace fees, as the Company is considered the principal in the transaction under ASC 606, *Revenue from Contracts with Customers*. Under the gross presentation, fees retained by the Apple App Store, which are generally approximately 30% of the gross amounts charged to customers, are recorded as cost of revenues.

In addition, certain platform hosting and server-related costs directly attributable to the delivery of the Company’s services are now classified within cost of revenues rather than operating expenses. As a result, gross profit more closely reflects the Company’s net payouts from third-party marketplaces after application marketplace fees, inclusive of other direct costs.

This change in accounting policy has been applied retrospectively, and the Company’s financial statements for the year ended December 31, 2024 have been restated to conform to the current-year presentation. The retrospective application of this change affected the presentation of revenues, cost of revenues, and gross profit, but had no impact on net loss, total assets, total liabilities, or cash flows for the comparative period presented.

Note 3 – Summary of Significant Accounting Policies**Basis of Presentation**

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (“US GAAP”). Any reference in these notes to applicable guidance is meant to refer to U.S. GAAP as found in the Accounting Standards Codification (“ASC”) and Accounting Standards Updates (“ASU”) of the Financial Accounting Standards Board (“FASB”).

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Sparrow Vision, Inc.
Notes to Audited Financial Statements
For the years ended December 31, 2025 and December 31, 2024
(Audited)

The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

Cash and Cash Equivalents

The Company maintains its cash balances with federally insured financial institutions and, at times, balances may exceed federally insured limits. The Company has not experienced any losses in such accounts and believes it is not exposed to significant credit risk related to cash. The Company considers short-term, highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. Cash consists of funds held in the Company's checking account. As of December 31, 2025 and December 2024, the Company had \$1,187,675 and \$1,720,750 of cash and cash equivalents, respectively. As of December 31, 2025, the balance of cash and cash equivalents included a certificate of deposit (CD) of \$300,000. There were no certificates of deposit as of December 31, 2024.

Accounts Receivable

Accounts receivable are stated at the amount the Company expects to collect, net of any allowances for credit losses. The Company primarily generates accounts receivable from its sales of applications through the iTunes Store. As such, the Company does not have traditional trade customers, nor does it negotiate invoices with individual customers. Instead, the majority of accounts receivable represent amounts due from the iTunes Store, based on sales of applications within the reporting period.

The Company evaluates the collectability of accounts receivable on an ongoing basis, considering factors such as the financial stability of the iTunes Store and the historical collection experience. Given the highly predictable nature of revenue from the iTunes Store and the established collection processes with Apple, the risk of significant credit losses is minimal. The Company does not maintain an allowance for doubtful accounts as it believes all amounts are collectible.

As of December 31, 2025 and December 31, 2024, the Company had accounts receivable totaling \$67,891 and \$69,125, respectively. These amounts are considered to be fully collectible, and there were no allowances for credit losses recorded as of the balance sheet dates. Any balances that remain outstanding after reasonable collection efforts are written off.

Prepaid Expenses

The Company capitalizes payments for future goods or services to be expensed over the course of their usefulness. Such assets are expected to be recognized in the next twelve months and thus included in current assets on the balance sheets. As of December 31, 2025, and 2024, the Company has no outstanding prepaid expenses.

Other Current Assets

Sparrow Vision, Inc.
Notes to Audited Financial Statements
For the years ended December 31, 2025 and December 31, 2024
(Audited)

Other current assets consist of amounts receivable related to funds previously remitted in connection with the opening of a new bank account. These amounts are expected to be recovered within the next twelve months and are therefore classified as current assets on the balance sheets. As of December 31, 2025 and 2024, the outstanding receivable balance is \$10,870 and \$10,000, respectively.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Expenditures for additions and major improvements that significantly extend the useful lives of the assets are capitalized, while expenditures for repairs and maintenance are charged to expense as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, typically ranging from three to five years.

Management periodically reviews property and equipment, for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable based on expected future cash flows. If undiscounted cash flows from the use and eventual disposition of an asset are less than its carrying amount, an impairment loss is recognized for the difference between the carrying value and the asset's fair value. In making this assessment, management considers factors such as operating performance, future business prospects, asset utilization, potential obsolescence, competition, and other economic conditions. Based on this evaluation, no impairment was recognized for the years ended December 31, 2025 and 2024.

Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses represent obligations to pay for goods and services that have been received but not yet paid as of the reporting date. Accounts payable are recorded at their invoiced amounts, while accrued expenses are recognized based on management's best estimates of amounts owed for expenses incurred but not yet invoiced.

These obligations are classified as current liabilities and are generally settled within the Company's normal operating cycle. Accounts payable and accrued expenses are recognized at the transaction date and are subsequently measured at amortized cost, which generally equals the amount expected to be paid.

As of December 31, 2025 and 2024, the Company's accounts payable totaled \$0 and \$19,530, respectively, and accrued expenses totaled \$68,955 and \$90,805, respectively.

Credit Card Payables

Credit card payables are recorded at the amounts owed to credit card companies for purchases made by the Company using its credit cards. These obligations are classified as current liabilities unless payment is not due within one year. Credit card payables are recognized when the transaction occurs and are subsequently measured at the amount owed, which generally reflects the transaction amount billed by the credit card company. As of December 31, 2025, and 2024, the Company had outstanding credit card payables of \$7,538 and \$7,982, respectively.

Stock Based Compensation

The Company accounts for stock options issued to employees under ASC 718, *Stock Compensation*. Under ASC 718, share-based compensation cost to employees is measured at the grant date, based on the estimated fair value of the award, and is recognized as an item of expense ratably over the employee's requisite vesting period. The Company has elected measurement of stock options at their intrinsic value, instead of their fair value. An option's intrinsic value is defined

Sparrow Vision, Inc.
Notes to Audited Financial Statements
For the years ended December 31, 2025 and December 31, 2024
(Audited)

as the amount by which the fair value of the underlying stock exceeds the exercise price of an option. In certain cases, this means that option compensation granted by the Company may have an intrinsic value of \$0.

The Company measures compensation expense for its non-employee stock-based compensation under ASC 505, *Equity*. The fair value of the option issued or committed to be issued is used to measure the transaction, as this is more reliable than the fair value of the services received. The fair value is measured at the value of the Company's common stock on the date that the commitment for performance by the counterparty has been reached or the counterparty's performance is complete. The fair value of the equity instrument is charged directly to expense and credited to additional paid-in capital.

There is not a viable market for the Company's common stock to determine its fair value, therefore management is required to estimate the fair value to be utilized in determining the stock-based compensation costs. In estimating the fair value, management considers recent sales of its common stock to independent qualified investors, placement agents' assessments of the underlying common shares relating to our sale of preferred stock and validation by independent fair value experts. Considerable management judgment is necessary to estimate the fair value. Accordingly, actual results could vary significantly from management's estimates.

Fair Value Measurements

Generally accepted accounting principles define fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and such principles also establish a fair value hierarchy that prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.
- Level 3 – Prices or valuation techniques requiring inputs that are both significant to the fair value measurement and unobservable.

As of December 31, 2025 and 2024, the carrying amounts of the Company's financial assets and liabilities reported in the balance sheets approximate their fair value.

Revenue Recognition

The Company recognizes revenue in accordance with ASC 606, *Revenue from Contracts with Customers* (Topic 606). Revenue is recognized when a customer obtains control of promised goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amount of revenue that is recorded reflects the consideration that the company expects to receive in exchange for those goods or services.

The Company applies the following five-step model in order to determine this amount:

- i. Identification of the promised goods in the contract;
- ii. Determination of whether the promised goods are performance obligations, including whether they are distinct in the context of the contract;

Sparrow Vision, Inc.
Notes to Audited Financial Statements
For the years ended December 31, 2025 and December 31, 2024
(Audited)

- iii. Measurement of the transaction price, including the constraint of variable consideration;
- iv. Allocation of the transaction price of the performance obligations; and
- v. Recognition of revenue when (or as) the Company satisfies each performance obligation.

The Company applies the five-step model to contracts when it is probable that the entity will collect the consideration it is entitled to in exchange for the goods and services it transfers to the customer. Once a contract is determined to be within the scope of Topic 606 at contract inception, the Company reviews the contract to determine which performance obligations it must deliver and which of these performance obligations are distinct. The Company recognizes revenues when the performance obligations are satisfied, typically when the service is provided or the customer receives the benefit of the service.

Sparrow Vision, Inc. provides AI-driven personalized feedback on golf swings through its digital platform. The Company's primary revenue stream is derived from the sale of subscriptions to access its platform, where users receive personalized swing analysis and feedback powered by AI. Revenue is recognized when control of the service is transferred to the customer, which occurs when the customer has access to the feedback and can actively utilize the service.

For subscriptions, revenue is recognized over the subscription period as the service is provided. If customers purchase one-time feedback sessions, revenue is recognized when the feedback is delivered to the customer and is accessible through the platform.

The Company's performance obligation is fulfilled when the personalized feedback is available to the customer, and the customer can interact with and utilize the analysis. This typically occurs upon the completion of the swing analysis and delivery of the report, at which point the customer gains full access to the service.

Cost of Revenues

Cost of revenues consists of all direct costs incurred in providing the Company's services to customers. These costs include platform hosting and server expenses necessary for operating and maintaining the Company's personalized golf swing feedback services, as well as fees charged by third-party digital marketplaces.

The Company distributes its services through the Apple App Store, which retains a platform fee equal to approximately 30% of the gross amounts charged to customers. The Company reports revenue on a gross basis, reflecting the total fees charged to customers before application marketplace fees, as the Company is considered the principal in the transaction. Platform fees retained by the Apple App Store are recorded as cost of revenues.

Advertising and marketing

The Company expenses advertising costs as they are incurred. Such costs approximated \$826,343 and \$341,202, for the years ended December 31, 2025 and December 31, 2024, respectively.

Other Income

Other income primarily consists of interest earned on the Company's certificate of deposit, which matured during the year. For the year ended December 31, 2025, and 2024 interest income were \$8,741 and \$67,417, respectively.

Income Taxes

Sparrow Vision, Inc.
Notes to Audited Financial Statements
For the years ended December 31, 2025 and December 31, 2024
(Audited)

The provision for income taxes is computed using the asset and liability method, under which deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating losses and tax credit carryforwards. Deferred tax assets and liabilities are measured using the currently enacted tax rates that apply to taxable income in effect for the years in which those tax assets are expected to be realized or settled. The Company records a valuation allowance to reduce deferred tax assets to the amount that is believed more likely than not to be realized.

The Company records a liability for uncertain tax positions when it is probable that a loss has been incurred and the amount can be reasonably estimated. The Company has no liabilities for uncertain tax positions at December 31, 2025 and 2024. The Company continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings.

Recent Accounting Pronouncements

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact our financial statements.

Note 4 – Liquidity and Going Concern Considerations

The Company's financial statements have been prepared on the basis of the going concern assumption, which assumes that the Company will continue to operate for the foreseeable future and will realize its assets and discharge its liabilities in the normal course of business. For the years ended December 31, 2025, and 2024, the Company reported net losses of approximately \$1.8 million and \$2.2 million, respectively.

As of December 31, 2025, the Company had positive working capital of approximately \$1.2 million and net assets of approximately \$1.2 million, reflecting a positive equity position. Despite incurring net losses, the Company's positive working capital and equity position support its ability to continue operations.

Management has assessed the Company's financial position and liquidity and believes that, based on these factors, there is no substantial doubt about the Company's ability to continue as a going concern for the foreseeable future. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Compensation expense is recognized on a straight-line basis over the requisite service period.

The Company has an Equity Incentive Plan (the "2024 Plan") under which up to 24,391,521 shares of Common Stock are reserved for issuance through incentive stock options and non-statutory stock options. NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared using the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America (“US GAAP”). Any reference in these notes to applicable guidance is meant to refer to U.S. GAAP as found in the Accounting Standards Codification (“ASC”) and Accounting Standards Updates (“ASU”) of the Financial Accounting Standards Board (“FASB”).

Use of Estimates

The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the footnotes thereto. Actual results could differ from those estimates. It is reasonably possible that changes in estimates will occur in the near term.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

Cash and Cash Equivalents

The Company considers short-term, highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. As of December 31, 2025, the Company had no cash and cash equivalents.

Fair Value Measurements

Generally accepted accounting principles define fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and such principles also establish a fair value hierarchy that

NOTES TO FINANCIAL STATEMENTS
FOR THE PERIOD FROM INCEPTION (NOVEMBER 12, 2205) TO DECEMBER 31, 2025
(AUDITED)

prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.
- Level 3 – Prices or valuation techniques requiring inputs that are both significant to the fair value measurement and unobservable.

There were no assets or liabilities requiring fair value measurement as of December 31, 2025.

Revenue Recognition

The Company recognizes revenue in accordance with ASC 606, Revenue from Contracts with Customers. As of December 31, 2025, the Company has not commenced operations and has not recognized any revenue.

Organizational Costs

In accordance with FASB ASC 720, organizational costs, including accounting fees, legal fee, and costs of incorporation, are expensed as incurred. No organizational costs were incurred as of December 31, 2025.

Recent Accounting Pronouncements

The FASB issues ASUs to amend the authoritative literature in ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

NOTE 3 – DEBT AND RELATED PARTY TRANSACTIONS

As of December 31, 2025, the Company had a due to related party balance of \$260, representing formation expenses paid on behalf of the Company by the Company's Chief Executive Officer. The amount is unsecured, non-interest bearing, and due on demand.

The Company is managed by its manager and CEO of Sparrow Vision Inc., Joseph Chin (the "Manager"), and LLC members generally have no right to participate in the management of the Company except as expressly provided in the operating agreement. Units are generally non-voting; however, to the extent the Portfolio Issuer solicits votes or consents with respect to the underlying portfolio securities, the Manager will vote the portfolio securities proportionally in accordance with Member instructions using a pass-through "mirror voting" mechanism (Members who do not provide instructions are deemed to have abstained).

NOTE 4 – EQUITY

SPARROW VISION 2025 SPV LLC

FOR THE PERIOD FROM INCEPTION (NOVEMBER 12, 2205) TO DECEMBER 31, 2025
(AUDITED)

As of December 31, 2025, the Company has not yet received any investments. It is the intent of the Company to issue Units that maintain a one-to-one relationship between the number, denomination, type and rights of the securities issued by the Crowdfunding Issuer to the Company pursuant to Reg CF, such that each Unit represents a proportionate beneficial interest in the securities held by the Company.

The Company's Units are offered solely pursuant to Reg CF through DealMaker Securities LLC (the "Intermediary"). Members also pay the Manager an administrative fee equal to 0% of funds raised per year, plus reimbursement of reasonable out-of-pocket expenses.

NOTE 5 – COMMITMENTS AND CONTINGENCIES

The Company may be subject to pending legal proceedings and regulatory actions in the ordinary course of business. The results of such proceedings cannot be predicted with certainty, but the Company does not anticipate that the outcome, if any, arising out of any such matter will have a material adverse effect on its business, financial condition or results of operations.

NOTE 6 – GOING CONCERN

These financial statements are prepared on a going concern basis. The Company's ability to continue as a going concern is dependent upon the successful completion of a future crowdfunding offering and related capital contributions. As of December 31, 2025, the Company has not commenced operations. The financial statements do not include any adjustments that might be necessary if the Company is not able to continue as a going concern.

NOTE 7 – SUBSEQUENT EVENTS

Management's Evaluation

Management has evaluated subsequent events through April 24, 2026, the date the financial statements were available to be issued. Based on this evaluation, no additional material events were identified which require adjustment or disclosure in the financial statements.

4.3 Transfer Restrictions. After the one-year period, any transfer of Units shall be subject to the prior written approval of the Manager and must comply with applicable securities laws and the provisions of this Agreement.

ARTICLE V — CAPITAL; DISTRIBUTIONS; ALLOCATIONS

5.4 No Carried Interest. The Manager shall not be entitled to any carried interest, promote, or disproportionate allocation of profits.
