- 3 Our current brands generate revenue and are sold nationally including 100 CitiTrends stores.
- 4 Black-owned company

Our Team

David Walker President and CEO

Atlanta area Business Attorney, David Walker, is the Founder and President of StarWalker Industries. Additionally, David is a certified NFL Contract Advisor and Agent.

Ever since I walked into my first bottled water plant with a client, I have been on a mission to build an efficient bottled water production and recycling facility for black communities. Now is the time, and StarWalker Industries is looking for investors to start this journey with us. David M. Walker, CEO and Founder

Greg Kershner Chief Engineer

Greg is the Founder of Inter-Tech, Ltd., an engineering firm specializing in providing manufacturing solutions for the food and beverage industry. Greg brings over 30 years of experience in the design, development, and installation of 1,500 projects.

Bernard Coleman Legal Counsel

A cum laude graduate of Harvard College and graduate of the University of Virginia School of Law, Mr. Coleman has practiced 17 years with some of Atlanta's top law firms. Mr. Coleman specializes in advising companies in development and finance.

Andrew Levy Chief Financial Officer

Formed RockRidge Financial in 2006 to serve the accounting and financial planning needs of clients. Mr. Levy has 22 years of experience including with SunTrust Bank and on the Strategic Advisory Board of PavPal

LEAD INVESTOR

Little Brown

I am investing in StarWalker Industries for two reasons. First, I have met and have high regard for the CEO, David Walker. He has a vision for good, clean bottled water and then recycling the plastic waste that will have a long-term positive impact on our communities. The names of the bottled water, Integrity and Positivity speaks to the core values of the company. "If integrity could be bottled, it would look like water; pure, essential, and good." Secondly the benefits of clean accessible water in the African American community can be a game changer. Having a bottling plant in Atlanta, GA will provide greater access to clean, healthy water and good paying jobs for both skilled and unskilled labor. StarWalker will help to eliminate waste by paying to recycle.

Invested \$5,000 this round

Ryan Thomas Investor Relations

Former Real Estate Portfolio Analyst with CBRE, overseeing \$9bn in apartment loans.

Our Story

Meet The Walker Family

I. What does StarWalker Industries do?

StarWalker Industries (SWI) is a bottled water distribution, manufacturing, and recycling company. SWI sells truckloads of bottled water and is building a state-of-the-art bottled water production and recycling system in Atlanta, GA.

Manufacturing Process

PET Bottles Blow Molding

Closed Loop Recycling

Our Nationally Distributed Brands

We sell water by the Truckload.

II. Why has StarWalker Industries been successful in the bottled water business?

StarWalker Industries is owned by a black business attorney and engineer who leads a team of positive people that brands bottled water and sells it by the truckload. SWI desires to expand its brands by building a closed-loop bottled water plant that collects its 100% Recyclable plastic bottles.

Integrity® Purified and Spring water is bottled in .5L/ 24-pack case and is distributed mostly in the Midwest and Southeast United States.

If integrity could be bottled, it would look like water. If it could be consumed, it would taste like water. Pure. Essential. Good. Integrity® is the choice that makes you feel good and that you can feel good about. *For your active, healthy lifestyle... Choose Integrity!*

For your active, healthy lifestyle ... Choose Integrity Purified & Spring Water.

Positivity Alkaline Water has a pH 9.5+ in a Grab-N-Go 700mL with sport cap bottle. Alkaline water is a fast growing industry with a low risk factor and great profit margin for food trucks and other resellers. Consumers can enjoy a refreshing taste of the Smoky Mountains water infused with electrolytes for positively GREAT TASTE.
