RISK FACTORS

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with our Company and present and future market conditions. Our business currently generates insufficient sales to fund our operations and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We may not have enough authorized capital stock to issue shares of common stock to investors upon the conversion of any security convertible into shares of our common stock, including the Securities.

Currently, our authorized capital stock consists of 10,000,000 shares of common stock, of which 7,073,500 shares of common stock are issued and outstanding. Unless we increase our authorized capital stock, we may not have enough authorized common stock to be able to obtain funding by issuing shares of our common stock or securities convertible into shares of our common stock. We may also not have enough authorized capital stock to issue shares of common stock to investors upon the conversion of any security convertible into shares of our common stock, including the Securities.

Our success depends to a large extent on our ability to gain market acceptance for our products.

The development and introduction of products in the food industry requires research and development and marketing expenditures, which we may be unable to recover if our products do not achieve commercial success and gain widespread market acceptance. Product innovation may also result in increased costs resulting from the use of new

manufacturing techniques, capital expenditures, new raw materials and ingredients, new product formulas and possibly new manufacturers. In addition, underperformance of new product launches would damage overall brand credibility with customers and consumers.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract customers or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on other companies to provide key components of, and services for, our products.

We depend on suppliers and contractors to meet our contractual obligations to our customers and conduct our operations, including but not limited to, for the supply of ingredients and co-packing services. Our ability to meet our obligations to our customers may be adversely affected if suppliers or contractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components for our products, such as the ingredients or packaging, or from whom we acquire such items, do not provide components which meet required specifications and perform to our and our customers' expectations. Our suppliers may be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two contractors or suppliers for a particular component. Our products may utilize custom components available from only one source. Continued availability of those components at acceptable prices, or at all, may be affected for any number of reasons, including if those suppliers decide to concentrate on the production of common components instead of components customized to meet our requirements. The supply of components for a new or existing product could be delayed or constrained, or a key manufacturing vendor could delay shipments of completed products to us adversely affecting our business and results of operations.

We rely on various intellectual property rights, including trademarks, in order to operate our business.

The Company relies on certain intellectual property rights to operate its business. The Company's intellectual property rights may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our

industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, we are dependent on Sydney Chasin, our Chief Executive Officer and Director. The loss of Sydney Chasin harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people.

We are dependent on Sydney Chasin, our Chief Executive Officer and Director in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets, and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional

investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers' or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations, such as local licensing requirements, and retail financing, debt collection, consumer protection, environmental, health and safety, creditor, wage-hour, anti-discrimination, whistleblower and other employment practices laws and regulations and we expect these costs to increase going forward. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we have incurred and will continue to incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

Risks Related to the Offering

State and federal securities laws are complex, and the Company could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.

The Company has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Company would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest

from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such investors a rescission right, have sufficient funds to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered Offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your

failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

The Company could potentially be found to have not complied with securities law in connection with this Offering.

Prior to filing this Form C, the Company engaged in “testing the waters” permitted under Regulation Crowdfunding (17 CFR 227.206), which allows issuers to communicate to determine whether there is interest in the offering. All communication sent is deemed to be an offer of securities for purposes of the antifraud provisions of federal securities laws. Any Investor who expressed interest prior to the date of this Offering should read this Form C thoroughly and rely only on the information provided herein and not on any statement made prior to the Offering. The communications sent to Investors prior to the Offering are attached as Exhibit E.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Investors will not become equity holders until the Company decides to convert the Securities into “CF Shadow Securities” (the type of equity securities issuable upon conversion of the Securities) or until there is a change of control or sale of substantially all of the Company’s assets.

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities into CF Shadow Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities. In certain instances, such as a sale of the Company or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company.

Investors will not have voting rights, even upon conversion of the Securities into CF Shadow Securities. Upon the conversion of the Securities into CF Shadow Securities (which cannot be guaranteed), the holders of the CF Shadow Securities will be required to enter into a proxy with the Intermediary or its designee to ensure any statutory

voting rights are voted in tandem with the majority holders of whichever series of securities the CF Shadow Securities follow.

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities (the occurrence of which cannot be guaranteed). Upon such conversion, the CF Shadow Securities will have no voting rights and, in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders are required to enter into a proxy agreement with the Intermediary or its designee to vote their CF Shadow Securities with the majority of the holder(s) of the securities issued in the round of equity financing that triggered the conversion right. For example, if the Securities are converted in connection with an offering of Series B Preferred Stock, Investors would receive CF Shadow Securities in the form of shares of Series B-CF Shadow Preferred Stock and would be required to enter into a proxy that allows the Intermediary or its designee to vote their shares of Series B-CF Shadow Preferred Stock consistent with the majority of the Series B Preferred Stockholders. Thus, Investors will essentially never be able to vote upon any matters of the Company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company’s assets or profits and have no voting rights or ability to direct the Company or its actions.

Equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company’s equity securities will be subject to dilution. The Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor’s control and economic interests in the Company.

The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company’s needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities.

The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

In addition, the Company has certain equity grants and convertible securities outstanding. Should the Company enter into a financing that would trigger any conversion rights, the converting securities would further dilute the equity securities receivable by the holders of the Securities upon a qualifying financing.

Equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Company at the time of conversion.

In the event the Company decides to exercise the conversion right, the Company will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the Conversion Price (as defined in the Crowd SAFE agreement) shall have only such preferences, rights, and protections in proportion to the Conversion Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Company may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

The forgoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Crowd SAFE agreement, which is attached as [Exhibit C](#).

A Crowd SAFE holder may lose their right to any appreciation or return on investment due to defaulting on certain notice and require action requirements in such Crowd SAFE; failure to claim cash set aside in this case may result in a total loss of principal.

The Crowd SAFE offered requires a holder to complete, execute and deliver any reasonable or necessary information and documentation requested by the Company or the Intermediary in order to effect the conversion or termination of the Crowd SAFE, in connection with an Equity Financing or Liquidity Event, within thirty (30) calendar days of receipt of notice (whether actual or constructive) from the Company. Failure to make a timely action may result in the Company declaring that the Investor is only eligible to receive a cash payment equal to their Purchase Amount (or a lesser amount in certain events). While the Company will set aside such payment for the investor, such payment may be subject to escheatment laws, resulting in a total loss of principal if the Investor never claims their payment.

There is no present market for the Securities and we have arbitrarily set the price.

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot guarantee that the Securities can be resold at the Offering price or at any other price.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. Neither holders of the Securities nor holders of CF Shadow Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering a minimum amount of \$25,000 (the “**Target Offering Amount**”) and up to a maximum amount of \$1,070,000 (the “**Maximum Offering Amount**”) of Crowd SAFE (Simple Agreement for Future Equity) (the “**Securities**”) on a best efforts basis as described in this Form C (this “**Offering**”). We must raise an amount equal to or greater than the Target Offering Amount by September 7, 2021 (the “**Offering Deadline**”). Unless we raise at least the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be cancelled and all committed funds will be returned. Potential purchasers of the Securities are referred to herein as “**Investors**” or “**you**”.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities. The minimum amount that an Investor may invest in the Offering is \$150, which is subject to adjustment in the Company’s sole discretion.

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by OpenDeal Portal LLC dba Republic (the “**Intermediary**”), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with Prime Trust, LLC until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline, or such earlier time as such earlier time the Company designates pursuant to Regulation CF, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds.**

The Company will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Company reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering opened (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Company continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor’s investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If an Investor does not cancel an investment commitment before the Target Offering Amount is reached, the funds will be released to the Company upon the closing of the Offering and the Investor will receive the Securities in exchange for their investment.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Company designates pursuant to Rule 304(b) of Regulation CF, the Company may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and the Company and (ii) that all Investors will receive notice of the such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment

commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before the new closing deadline.

If the Company conducts an initial closing (the “**Initial Closing**”), the Company agrees to only withdraw half of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Company may only conduct another close (a “**Subsequent Closing**”) before the Offering Deadline if the amount of investment commitments made on the date of such Subsequent Closing exceeds two times the amount committed on the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Company upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Company has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Company until they are accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Company rejects all or a portion of any investment commitment, the applicable prospective Investor’s funds will be returned without interest or deduction.

PRIME TRUST, THE ESCROW AGENT SERVICING THE OFFERING, HAS NOT INVESTIGATED THE DESIRABILITY OR ADVISABILITY OF AN INVESTMENT IN THIS OFFERING OR THE SECURITIES OFFERED HEREIN. THE ESCROW AGENT MAKES NO REPRESENTATIONS, WARRANTIES, ENDORSEMENTS, OR JUDGEMENT ON THE MERITS OF THE OFFERING OR THE SECURITIES OFFERED HEREIN. The Securities

We request that you please review this Form C and the Crowd SAFE instrument attached as Exhibit C, in conjunction with the following summary information.

Transfer Agent and Registrar

The Company will act as transfer agent and registrar for the Securities.

Not Currently Equity Interests

The Securities are not currently equity interests in the Company and merely provide a right to receive equity at some point in the future upon the occurrence of certain events.

Dividends

The Securities do not entitle Investors to any dividends.

Conversion

Upon each future equity financing resulting in proceeds to the Company of not less than \$1,000,000 (each an “**Equity Financing**”), the Securities are convertible at the option of the Company, into CF Shadow Securities, which are securities identical to those issued in such future Equity Financing except (1) they do not provide the right to vote on any matters except as required by law, (2) they require Investors to vote in accordance with the majority of the investors purchasing securities from the Company in such Equity Financing with respect to any such required vote and (3) they do not provide any inspection or information rights (other than those contemplated by Regulation CF or otherwise required by law). The Company has no obligation to convert the Securities in any Equity Financing.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the “**Purchase Amount**”) by (a) or (b) immediately below (the “**Conversion Price**”):

(a) the quotient of \$6,000,000 divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “**Safes**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes;

OR

(b) the price per share of the securities sold in such Equity Financing multiplied by 90%.

Such Conversion Price shall be deemed the “**First Equity Financing Price**”.

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing other than the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Equity Financing Price.

If the Investor fails to complete, execute and deliver any reasonable or necessary information and documentation requested by the Company or the Intermediary in order to effect the conversion of the Crowd SAFE, as contemplated above in connection with an Equity Financing, within thirty (30) calendar days of receipt of notice (whether actual or constructive) from the Company of the closing of the First Equity Financing, or Subsequent Equity Financing, as applicable, and of the Company’s decision to convert the Crowd Safe to capital stock, then the Investor shall only be eligible to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below), and the Company shall keep a record of the cash payment that the Investor is entitled to claim; provided, that any unclaimed cash payment amount shall be subject to applicable state escheatment laws.

If there are not enough funds to pay the Investor and holders of other Crowd SAFEs that failed to act as required herein (collectively, the “**Cash-Default Investors**”) in full, then all of the Company’s available funds will be allocated with equal priority and pro rata among the Cash-Default Investors to claim in proportion to their Purchase Amounts.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of the initial public offering of the Company’s capital stock or reverse merger or take-over by certain entities, such as an entity that is a reporting issuer (the “**IPO**”) or a Change of Control (as defined below) of the Company (either of these events, a “**Liquidity Event**”) prior to any Equity Financing, the Investor must select, at the option of the Investor and within thirty (30) days of receiving notice (whether actual or constructive), either (i) a cash payment equal to the Purchase Amount subject to the following paragraph (the “**Cash Out Option**”) or (ii) a number of shares of Common Stock of the Company equal to the Purchase Amount divided by the quotient of (a) \$6,000,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company’s capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (x) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (y) any Safes; and (z) convertible promissory notes.

In connection with the Cash Out Option, the Purchase Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and the holders of other Safes (collectively, the

“**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

“**Change of Control**” as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor must select, at the option of the Investor and within thirty (30) days of receiving notice (whether actual or constructive), either (i) the Cash Out Option or (ii) a number of shares of the most recently issued capital stock equal to the Purchase Amount divided by the First Equity Financing Price. Shares of capital stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of capital stock issued in connection with the Company’s most recent Equity Financing.

If there are not enough funds to pay the Investors and the other Cash-Out Investors in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

If the Investor fails to (i) complete, execute and deliver any reasonable or necessary information and documentation requested by the Company or the Intermediary in order to effect the conversion of the Crowd SAFE or (ii) notify Company of its selection to receive the cash payment or shares of the most recently issued capital stock, as contemplated above in connection with a Liquidity Event, within thirty (30) calendar days of receipt of notice (whether actual or constructive) from the Company of such Liquidity Event, then the Investor shall only be eligible to receive the cash payment option, and the Company shall keep a record of the cash payment that the Investor is entitled to claim; provided, that any unclaimed cash payment amount shall be subject to applicable state escheatment laws.

If the Company’s board of directors (or other applicable governing body if the Company is a limited liability company) determines in good faith that delivery of equity securities to the Investor pursuant to Liquidity Event paragraphs above would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such capital stock, as determined in good faith by the Company’s board of directors (or other applicable governing body if the Company is a limited liability company).

Dissolution

If there is a Dissolution Event (as defined below) before the Securities terminate, subject to the preferences applicable to any series of preferred stock then outstanding, the Company will distribute all proceeds legally available for distribution with equal priority among the (i) holders of the Securities (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company’s board of directors at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) all holders of Common Stock.

A “**Dissolution Event**” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company’s creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate upon (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur of: (i) the issuance of shares in the CF Shadow Securities to the Investor pursuant to the conversion provisions of the Crowd SAFE agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

Neither the Securities nor the securities issuable upon the conversion of the Securities have voting rights.

The Company does not have any voting agreements in place.

The Company does not have any shareholder or equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that the Investor may eventually have in the Company.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Company; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any capital stock into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel reasonably satisfactory to the Company stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any capital stock into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

Other Material Terms

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

COMMISSION AND FEES

At the conclusion of the Offering, the issuer shall pay a fee of six percent (6%) of the amount raised in the Offering to the Intermediary.

Stock, Warrants and Other Compensation

The Intermediary will also receive compensation in the form of securities equal to two percent (2%) of the total number of the Securities sold in the offering

A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

The Healthy Crop, Inc.
Notes to the Financial Statements for the Years
Ending May 31, 2020 and May 31, 2019

NOTE 1 – NATURE OF OPERATIONS

The Healthy Crop, Inc. (which may be referred to as “the Company”, “we,” “us,” or “our”) was incorporated on November 19, 2018. The Company produces healthy snacks for retail sale and wholesale.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("US GAAP"). The accompanying unaudited financial statements do not include all the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for the fair presentation of the unaudited financial statements for the years presented have been included.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and footnotes thereto. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

Significant estimates inherent in the preparation of the accompanying financial statements include valuation of provision for refunds and chargebacks, equity transactions and contingencies.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

Cash and Cash Equivalents

The Company considers short-term, highly liquid investment with original maturities of three months or less at the time of purchase to be cash equivalents. Cash consists of funds held in the Company's checking account. As of May 31st, 2020 and 2019, the Company had \$104,791 and \$1,664, of cash on hand, respectively.

Receivables and Credit Policy

The Company deals with one major business segment, as a result, the Company believes that its accounts receivable credit risk exposure is limited, and it has not experienced significant write-downs in its accounts receivable balances. As of May 31st, 2020, the Company had \$9,943 in accounts receivable and \$0 on May 31st, 2019.

Inventory – First-in, First-out

Inventories are stated at the lower of cost or market value. Cost is determined by the first-in, first-out method.

Fixed Assets

Property and equipment are recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in income.

The company has no fixed assets on its books since inception and; therefore, has had no depreciation expense.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment at May 31st, 2020 and 2019, respectively.

Fair Value Measurements

Generally accepted accounting principles define fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and such principles also establish a fair value hierarchy that prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.
- Level 3 – Prices or valuation techniques requiring inputs that are both significant to the fair value measurement and unobservable.

Income Taxes

Income taxes are provided for the tax effects of transactions reporting in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of receivables, inventory, property and equipment, intangible assets, and accrued expenses for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

There is no income tax provision for the Company for the period from Inception through May 31st, 2020 as the Company had no taxable income.

The Company evaluates its tax positions that have been taken or are expected to be taken on income tax returns to determine if an accrual is necessary for uncertain tax positions. As of May 31st, 2020, the unrecognized tax benefits accrual was zero.

Revenue Recognition

The company sales are derived from retail distribution with revenue being recognized when persuasive evidence of an arrangement existed, shipping of products had occurred, the sales price was fixed or determinable and collectability was reasonably assured. In evaluating the if the Company adopted Accounting Standards Codification

606, Revenue from Contracts with Customers ("ASC 606") the company felt it was already recognizing revenue when performance obligations under the terms of the contracts with our customers are satisfied. The Company generates revenues by selling.

Organizational Costs

In accordance with FASB ASC 720, organizational costs, including accounting fees, legal fee, and costs of incorporation, are expensed as incurred.

Sales and Marketing

The Company expenses sales and marketing costs as they are incurred. Such costs approximated \$19,278 and \$0, respectively, for the years ended May 31st, 2020 and 2019.

Recent Accounting Pronouncements

In February 2019, FASB issued ASU No. 2016-02, Leases, that requires organizations that lease assets, referred to as "lessees", to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. ASU 2019-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2020, and interim periods within those fiscal years, and early application is permitted. We will be evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In June 2018, FASB amended ASU No. 2018-07, Compensation – Stock Compensation, to expand the scope of Topic 718, Compensation – Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. We will be evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In August 2018, amendments to existing accounting guidance were issued through Accounting Standards Update 2018-15 to clarify the accounting for implementation costs for cloud computing arrangements. The amendments specify that existing guidance for capitalizing implementation costs incurred to develop or obtain internal-use software also applies to implementation costs incurred in a hosting arrangement that is a service contract. The guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact our financial statements.

NOTE 3 – INVENTORIES

On May 31, 2020 and 2019 inventories consisted of finished product, raw ingredients and packaging. The ending inventories for years ended May 31st, 2020 & 2019 were \$11,127 and \$0, respectively.

	2020	2019
Inventory: Packaging	\$2,000	\$0
Inventory: Finished Goods	<u>9,127</u>	<u>0</u>
Total Inventory	<u>\$ 11,127</u>	<u>\$ 0</u>

NOTE 4 – INCOME TAXES

The Company has filed its income tax return for the periods ended May 31, 2020 and May 31, 2019, respectively, which will remain subject to examination by the Internal Revenue Service under the statute of limitations for a period of three years from the date it is filed. The Company is taxed as a C Corporation.

NOTE 5 – EQUITY

Common Stock

The Company authorized 10,000,000 shares and issued 7,000,000 of common stock at a par value of \$.0001 per share as of May 31, 2020 and 2019, respectively.

NOTE 6 – COMMITMENTS AND CONTINGENCIES

The Company received a loan from the Small Business Administration in the amount of \$14,015 under the Paycheck Protection Program (PPP) established by the Coronavirus Aid, Relieve and Economic Security (CARES) Act. The loan is subject to a note dated April 23, 2020 and may be forgiven to the extent proceeds of the loan are used for eligible expenditures and expenses as described in the CARES ACT and subsequent legislation. No determination has been made whether the Company will be eligible for forgiveness, either in whole or in part. The loan bears interest at 1% and is payable in monthly installments of principal and interest over 24 months beginning 6 months from the date of the note.

The Company issued Convertible Notes totaling \$250,000 in 2020. At maturity, the note converts into common stock. In the event of a qualified financing, it converts into the equity security being issued in the round.

The Company is not currently involved with and does not know of any pending or threatening litigation against the Company as of May 31st, 2020 and May 31st, 2019, respectively.

NOTE 7 – GOING CONCERN

These financial statements are prepared on a going concern basis. The Company began operation in 2018 and incurred a loss since inception. The Company's ability to continue is dependent upon management's plan to raise additional funds and achieve profitable operations. The financial statements do not include any adjustments that might be necessary if the Company is not able to continue as a going concern.

NOTE 8 – SUBSEQUENT EVENTS

The Healthy Crop, Inc. rebranded from the Lil' Pops to Chasin' Dreams Farm. The Company is creating a snack platform beyond the pops and the new name allows the company to expand its product offerings. With the rebrand, the company updated the logo, packaging, website and name.

The Company's first PPP loan in the amount of \$14,015 mentioned in Note 6 was forgiven on April 22nd, 2021.

The Company issued Convertible Notes totaling \$90,000 after May 31, 2020 but prior to the issuance of the financial statements. At maturity, the note converts into common stock. In the event of a qualified financing, it converts into the equity security being issued in the round.

Management's Evaluation

Management has evaluated subsequent events through May 4th, 2021, the date the financial statements were available to be issued. Based on this evaluation, no additional material events were identified which require adjustment or disclosure in the financial statements.

COVID-19

In January 2020, the World Health Organization has declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the Company, its performance, and its financial results.

And better-for-you snacks are boring! When the cravings hit, they don't quite satisfy! Consumers want to indulge AND be healthy too; but they aren't inspired by what's available.

“ I'M LOOKING FOR "QUASI-INDULGENT" SNACKS. PEOPLE WANT TO INDULGE AND BE HEALTHY, BUT NOT INDULGE SO FAR WITH CHOCOLATE OR CHIPS AND NOT BE SO HEALTHY AS TO EAT AN APPLE. I NEED SOMETHING THAT IS BETTER-FOR-YOU, BUT STILL SATISFYING. ”

FAQ**How do I
earn a
return?**

We are using Republic's Crowd SAFE security. Learn how this translates into a return on investment here.

**What must
I do to
receive my
equity or
cash in the
event of
the
conversion
of my
Crowd
SAFE?**

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation with that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.

The number of shares of the CF Shadow Series of such Capital Stock shall equal the quotient obtained by dividing (x) the Purchase Amount by (y) the applicable Conversion Price (such applicable Conversion Price, the “**First Equity Financing**”).

Price”).

(ii) If the Company elects to continue the term of this Crowd SAFE past the First Equity Financing and another Equity Financing occurs before the termination of this Crowd SAFE in accordance with Sections 1(b)-(d) (each, a “**Subsequent Equity Financing**”), the Company shall promptly notify the Investor of the closing of the Subsequent Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Investor’s Purchase Amount to Capital Stock; or (2) issue to the Investor a number of shares of the CF Shadow Series of the Capital Stock (whether Preferred Stock or another class issued by the Company) sold in the Subsequent Equity Financing. The number of shares of the CF Shadow Series of such Capital Stock shall equal to the quotient obtained by dividing (x) the Purchase Amount by (y) the First Equity Financing Price.

(iii) If the Investor fails to complete, execute and deliver any reasonable or necessary information and documentation requested by the Company or the Intermediary in order to effect the conversion of this Crowd SAFE, as contemplated in this Section 1(a), within thirty (30) calendar days of receipt of notice (whether actual or constructive) from the Company of the closing of the First Equity Financing, or Subsequent Equity Financing, as applicable, and of the Company’s decision to convert this Crowd Safe to Capital Stock, then the Investor shall only be eligible to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below), and the Company shall keep a record of the cash payment that the Investor is entitled to claim; provided, that any unclaimed cash payment amount shall be subject to applicable state escheatment laws. If there are not enough funds to pay the Investor and holders of other Crowd SAFEs that failed to act as required herein (collectively, the “**Cash-Default Investors**”) in full, then all of the Company’s available funds will be allocated with equal priority and pro rata among the Cash-Default Investors to claim in proportion to their Purchase Amounts.

(b) **Liquidity Event.**

(i) If there is a Liquidity Event before the termination of this instrument and before any Equity Financing, the Investor must select, at its option, within thirty (30) days of receiving notice (whether actual or constructive), either (1) to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below) or (2) to receive from the Company a number of shares of Common Stock equal to the Purchase Amount (or a lesser amount as described below) divided by the Liquidity Price.

(iii) If there are not enough funds to pay the Investor and holders of other Crowd SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts. In connection with this Section 1(b), the Purchase Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event.

Notwithstanding Sections 1(b)(i)(2) or 1(b)(ii)(2), if the Company’s board of directors determines in good faith that delivery of Capital Stock to the Investor pursuant to Section 1(b)(i)(2) or Section

1(b)(ii)(2) would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such Capital Stock, as determined in good faith by the Company's board of directors.

If the Investor fails to (i) complete, execute and deliver any reasonable or necessary information and documentation requested by the Company or the Intermediary in order to effect the conversion of this Crowd SAFE or (ii) notify Company of its selection to receive the cash payment or shares of the most recently issued Capital Stock, as contemplated in this Section 1(b), within thirty (30) calendar days of receipt of notice (whether actual or constructive) from the Company of such Liquidity Event, then the Investor shall only be eligible to receive the cash payment option, and the Company shall keep a record of the cash payment contemplated in Section 1(b) that the Investor is entitled to claim; provided, that any unclaimed cash payment amount shall be subject to applicable state escheatment laws.

(c) **Dissolution Event.** If there is a Dissolution Event before this instrument terminates in accordance with Sections 1(a) or 1(b), subject to the preferences applicable to any series of Preferred Stock, the Company will distribute its entire assets legally available for distribution with equal priority among the (i) Investors (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company's board of directors at the time of Dissolution Event), (ii) all other holders of instruments sharing in the assets of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) and all holders of Common Stock.

(d) **Termination.** This instrument will terminate (without relieving the Company or the Investor of any obligations arising from a prior breach of or non-compliance with this instrument) upon the earlier to occur: (i) the issuance of shares, whether in Capital Stock or in the CF Shadow Series, to the Investor pursuant to Section 1(a) or Section 1(b); or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to Sections 1(b) or 1(c).

(i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

(ii) The Investor shall have notified the Company of the proposed disposition and shall have furnished the Company with a detailed statement of the circumstances surrounding the proposed disposition and, if reasonably requested by the Company, the Investor shall have furnished the Company with an opinion of counsel reasonably satisfactory to the Company that such disposition will not require registration of such shares under the Securities Act.

(e) The Investor agrees that it shall not make any disposition of this instrument or any underlying securities to any of the Company's competitors, as determined by the Company in good faith.

(f) The Investor understands and agrees that the Company will place the legend set forth below or a similar legend on any book entry or other forms of notation evidencing this Crowd SAFE and any certificates evidencing the underlying securities, together with any other legends that may be required by state or federal securities laws, the Company's charter or bylaws, any other agreement between the Investor and the Company or any agreement between the Investor and any third party:

Irrevocable Proxy

Reference is hereby made to a certain Crowdfunding Simple Agreement for Future Equity (the “**Crowd SAFE**”) dated [Date of Crowd SAFE], 2021 between The Healthy Crop, Inc., a Delaware corporation (the “**Company**”) and [Investor Name] (“**Stockholder**”). Capitalized terms used but not defined herein shall have the respective meanings ascribed thereto in the Crowd SAFE. In connection with a conversion of Stockholder’s investment in the Crowd SAFE into Capital Stock of a CF Shadow Series (as defined in the Crowd SAFE) pursuant to the Crowd SAFE, the Stockholder and OpenDeal Portal LLC (the “**Intermediary**”) as another holder of Capital Stock of a CF Shadow Series hereby agree as follows:

1) Grant of Irrevocable Proxy.

- a) With respect to all of the shares of Capital Stock of CF Shadow Series owned by the Stockholder as of the date of this Irrevocable Proxy or any subsequent date (the “**Shares**”), Stockholder hereby grants to Intermediary an irrevocable proxy under Section 212 of the Delaware General Corporation Law to vote the Shares in any manner that the Intermediary may determine in its sole and absolute discretion. For the avoidance of doubt, the Intermediary, as the holder of the irrevocable proxy (rather than the Stockholder) will vote the Shares with respect to all shareholder meetings and other actions (including actions by written consent in lieu of a meeting) on which holders of Shares may be entitled to vote. The Intermediary hereby agrees to vote all Shares consistently with the majority of the shares on which the CF Shadow Series is based. This proxy revokes any other proxy granted by the Stockholder at any time with respect to the Shares.
- b) The Intermediary shall have no duty, liability or obligation whatsoever to the Stockholder arising out of the Intermediary’s exercise of this irrevocable proxy. The Stockholder expressly acknowledges and agrees that (i) the Stockholder will not impede the exercise of the Intermediary’s rights under this irrevocable proxy and (ii) the Stockholder waives and relinquishes any claim, right or action the Stockholder might have, as a stockholder of the Company or otherwise, against the Intermediary or any of its affiliates or agents (including any directors, officers, managers, members, and employees) in connection with any exercise of the irrevocable proxy granted hereunder.
- c) This irrevocable proxy shall expire as to those Shares on the earlier of (i) the date that such Shares are converted into Common Stock of the Company or (ii) the date that such Shares are converted to cash or a cash equivalent, but shall continue as to any Shares not so converted.

2) **Legend.** The Stockholder agrees to permit an appropriate legend on certificates evidencing the Shares or any transfer books or related documentation of ownership reflecting the grant of the irrevocable proxy contained in the foregoing Section 1.

3) **Representations and Warranties.** The Stockholder represents and warrants to the Intermediary as follows:

- a) The Stockholder has all the necessary rights, power and authority to execute, deliver and perform his obligations under this Irrevocable Proxy. This Irrevocable Proxy has been duly executed and delivered by the Stockholder and constitutes such Stockholder’s legal and valid obligation enforceable against the Stockholder in accordance with its terms.

- b) The Stockholder is the record owner of the Shares listed under the name on this Appendix A and the Stockholder has plenary voting and dispositive power with respect to such Shares; the Stockholder owns no other shares of the capital stock of the Company; there are no proxies, voting trusts or other agreements or understandings to which such Stockholder is a party or bound by and which expressly require that any of the Shares be voted in any specific manner other than pursuant to this irrevocable proxy; and the Stockholder has not entered into any agreement or arrangement inconsistent with this Irrevocable Proxy.
- 4) **Equitable Remedies.** The Stockholder acknowledges that irreparable damage would result if this Irrevocable Proxy is not specifically enforced and that, therefore, the rights and obligations of the Intermediary may be enforced by a decree of specific performance issued by arbitration pursuant to the Crowd SAFE, and appropriate injunctive relief may be applied for and granted in connection therewith. Such remedies shall, however, not be exclusive and shall be in addition to any other remedies that the Intermediary may otherwise have available.
- 5) **Defined Terms.** All terms defined in this Irrevocable Proxy shall have the meaning defined herein. All other terms will be interpreted in accordance with the Crowd SAFE.
- 6) **Amendment.** Any provision of this instrument may be amended, waived or modified only upon the written consent of the (i) the Stockholder and (ii) the Intermediary.
- 7) **Assignment.**
- a) In the event the Stockholder wishes to transfer, sell, hypothecate or otherwise assign any Shares, the Stockholder hereby agrees to require, as a condition of such action, that the counterparty or counterparties thereto must enter into a proxy agreement with the Intermediary substantially identical to this Irrevocable Proxy.
- b) The Intermediary may transfer its rights as Holder under this instrument after giving prior written notice to the Stockholder.
- 8) **Severability.** In the event any one or more of the terms or provisions of this instrument is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the terms or provisions of this instrument operate or would prospectively operate to invalidate this instrument, then such term(s) or provision(s) only will be deemed null and void and will not affect any other term or provision of this instrument and the remaining terms and provisions of this instrument will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

IN WITNESS WHEREOF, the undersigned have caused this instrument to be duly executed and delivered.

I'm Sydney Chasin founder and CEO of Chasin' Dreams Farm. We're creatively crafting the most humble ingredients. Delicious, indulgent, conventional snacks are packed full of genetically modified corn, corn syrup, artificial flavors, and questionable unpronounceable ingredients. And better for you snacks are well boring, bland, and lacking taste appeal. At Chasin' Dreams Farm we're creating better for you, more fun for you, clean label snacks. Now presenting our snackventions. We make a pop sort of snack that looks like teeny-tiny popcorn, but entirely corn free. Sorghum is an amazing ancient grain. US grown and gluten free. The crop is drought resilient, regeneratively farmed, and unlike 92% of us corn, is never genetically modified. First, we apply hot air to the sorghum. The tiny pop is born. We then lightly coat each piece with a thin crunchy coating. Finally, we carefully dust the most delicious and indulgent nostalgic seasonings. And there we have it, tiny pops of crunchy deliciousness. We're bringing people on set. Let's hear what they think. Tear and pour into my mouth. Oh. That's good. Mmmm. They're so cute. It tastes like popcorn cereal. It's like popcorn. Good crunch. Not getting anything stuck in my teeth. I would say this is a great snack alternative. I would eat all of this too. It's great as a snack, and a topping too. I grew up on Chasin' Dreams Farm. For me it was a magical place that always inspired innovation and creativity from simplicity. I've been gluten free since I was seven years old and have been snacking and crafting amazing ancient grains for as long as I can remember. Last year we scaled our supply chain, secured distribution, and built a super kickbutt team to support our rapid growth. This year, we're building our brand in natural and specialty retailers in California, Texas and the Midwest. We're raising investment to expand distribution. We have an exciting pipeline of future innovations. We're inviting you to join us on our journey in creating a new snack brand platform, a home for better for you, more fun for you clean label snacks. We're dreamers, creators, and feel good snacking believers. So, come chase dreams with us. You never know where they might take you.

Problem

Craveable snacks are bad for us, but healthy snacks are, well, boring!

The indulgent, delicious, and craveable snacks we grew up with are packed full of corn syrup, GMO corn, and questionable, unpronounceable ingredients.

“CORN SYRUP”
INGREDIENTS: CORN, CORN OIL, HONEY BBQ SEASONING (SALT, MALTODEXTRIN [MADE FROM CORN], SUGAR, BROWN SUGAR, ONION POWDER, MONOSODIUM GLUTAMATE, DEXTROSE, HONEY SOLIDS, SPICES, TOMATO POWDER, MOLASSES SOLIDS, YEAST EXTRACT, ARTIFICIAL COLOR [YELLOW 5 LAKE, YELLOW 6 LAKE, BLUE 2 LAKE, RED 40, YELLOW 5, BLUE 1], NATURAL AND ARTIFICIAL FLAVORS, GARLIC POWDER, CORN STARCH, CITRIC ACID, DISODIUM INOSINATE, AND DISODIUM GUANYLATE).

“ARTIFICIAL FLAVORS”
INGREDIENTS: Enriched Corn Meal (Corn Meal, Ferrous Sulfate, Niacin, Thiamine Mononitrate, Riboflavin and Folic Acid), Vegetable Oil (Corn, Canola and/or Sunflower Oil), Maltodextrin, Salt, Sugar, Monosodium Glutamate, Yeast Extract, Citric Acid, Artificial Color (Red 40 Lake, Yellow 6 Lake, Yellow 6, Yellow 5), Sunflower Oil, Cheddar Cheese (Milk, Cheese Cultures, Salt, Enzymes), Onion Powder, Whey, Whey Protein Concentrate, Garlic Powder, Natural Flavor, Buttermilk, Sodium Diacetate, Disodium Inosinate, Disodium Guanylate.

“YELLOW 6”

“TBHQ”
INGREDIENTS: CORN SYRUP, POPCORN, PEANUTS, SUGAR, BROWN SUGAR, MARGARINE (PARTIALLY HYDROGENATED SOYBEAN OIL, SOYBEAN OIL, WATER, SALT, SWEET DAIRY WHEY, SOY LECITHIN, MONO- AND DIGLYCERIDES, SODIUM BENZOATE [PRESERVATIVE], ARTIFICIAL BUTTER FLAVOR, COLORED WITH BETA CAROTENE AND VITAMIN A PALMITATE), BUTTER, LESS THAN 2% OF: SALT, SOYBEAN OIL, SOY LECITHIN, SODIUM BICARBONATE.
CONTAINS: MILK, PEANUTS, SOY.
MAY CONTAIN: TREE NUTS (ALMONDS, CASHEWS, PECANS, WALNUTS).

“RED 40”
Ingredients: Corn, Vegetable Oil (Sunflower, Canola, and/or Corn Oil), Maltodextrin (Made From Corn), Salt, Cheddar Cheese (Milk, Cheese Cultures, Salt, Enzymes), Whey, Monosodium Glutamate, Buttermilk, Romano Cheese (Part-Skim Cow's Milk, Cheese Cultures, Salt, Enzymes), Whey Protein Concentrate, Onion Powder, Corn Flour, Natural and Artificial Flavor, Dextrose, Tomato Powder, Lactose, Spices, Artificial Color (Including Yellow 6, Yellow 5, and Red 40), Lactic Acid, Citric Acid, Sugar, Garlic Powder, Skim Milk, Red and Green Bell Pepper Powder, Disodium Inosinate, and Disodium Guanylate.
CONTAINS MILK INGREDIENTS.

“CORN MEAL”
INGREDIENTS: CORN MASA FLOUR (PROCESSED WITH LIME), VEGETABLE OIL (PALM AND/OR SOYBEAN AND/OR CANOLA OIL AND/OR RICE BRAN OIL), SEASONING [SALT, MALTODEXTRIN, CITRIC ACID, SUGAR, MONOSODIUM GLUTAMATE, HYDROLYZED SOY PROTEIN, ONION POWDER, YEAST EXTRACT, ARTIFICIAL COLOR (RED 40 LAKE, YELLOW 6 LAKE), NATURAL AND ARTIFICIAL FLAVORS, BAKING SODA, SOYBEAN OIL, CHILI PEPPER (CHILE), DISODIUM INOSINATE, DISODIUM GUANYLATE, TBHQ (ANTIOXIDANT)].
MAY CONTAIN MILK, EGG AND WHEAT

“HYDROGENATED SOYBEAN OIL”

“CORN OIL”

And better-for-you snacks are boring! When the cravings hit, they don't quite satisfy! Consumers want to indulge AND be healthy too; but they aren't inspired by what's available.

“ I'M LOOKING FOR "QUASI-INDULGENT" SNACKS. PEOPLE WANT TO INDULGE AND BE HEALTHY, BUT NOT INDULGE SO FAR WITH CHOCOLATE OR CHIPS AND NOT BE SO HEALTHY AS TO EAT AN APPLE. I NEED SOMETHING THAT IS BETTER-FOR-YOU, BUT STILL SATISFYING. ”

- NATIONAL FOOD SERVICE BUYER

Solution

Now presenting, snackventions!

Chasin' Dreams Farm: gluten free, corn free, non-GMO, clean label snacks

Chasin' Dreams Farm is creatively crafting new snack experiences by transforming humble ingredients into satiable snackventions. Using sorghum as our base ingredient, we're reviving an ancient grain and bringing nostalgia and playful flavors to the snack aisle. We make a quasi-indulgent popped sorghum snack that looks like teeny-tiny popcorn, but is **entirely corn free!** Our products are naturally **gluten free, plant-based, and non-GMO.**

The nostalgic flavors and tiny size make it fun for everyone, children and adults alike!

TINY POPS OF CRUNCHY DELICIOUSNESS

Available in three deliciously indulgent flavors: Sweet & Salty, Cinnamon, and Cocoa!

Product

Clean-label, satisfying snacks

Made with all natural ingredients like Sorghum, Pink Himalayan Salt, Tapioca Syrup, and, most importantly, no funky weird additives, our snacks are **low-calorie, low-fat, and drastically more crunchy than popcorn!** They're a lightly sweet, satisfying snack!

Meet Sorghum, an AMAZING ancient grain.

US-grown, naturally gluten free, and unlike 92% of US corn (omg!), sorghum is **never genetically modified!** It's also super sustainable too! Sorghum is **drought resilient**, requiring zero irrigation, and can be **regeneratively farmed**. Left standing in the field, sorghum captures carbon from the air and stores it safely in the soil.

**DROUGHT RESILIENT
REGENERATIVELY FARMED**

**GLUTEN FREE
NON GMO**

We believe in the power of sorghum, for the people and the planet.

**What must
I do to
receive my

of my
Crowd
SAFE?**

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation with that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.
