BCG

The Senior Software Architect for BCG's Gamma Group

The Boston Consulting Group (BCG)

Jul 2018 – Present · 3 yrs 3 mos

Greater Seattle Area

My role is to help multiple teams in the Catalyst program across the organization make better decisions around software architecture and process regarding the technical development of the Catalyst platform in part by setting technology and architecture strategy at the platform level. I own high-level architecture for Catalyst at BCG and I help balance those technical decisions and helping the architecture align with the needs of the business t(...see more
