Title	2018

Other business experience (last three years)	<p>Owner of Short Creek Farm-2018 to Present</p> <p>Jeff is responsible for managing livestock production at the farm in Northwood, New Hampshire. Though he did not grow up in a farm family, his studies of wildlife biology, ecology and conservation at the University of Rhode Island led to an interest in agroecology and ultimately to actively participating in small-scale local farming. He began farming in 2008 as an apprentice at Moon in the Pond Farm, a small and diverse farm and homestead in Sheffield, Massachusetts. His time at Moon in the Pond reinforced his appreciation for great food, especially meats smoked and cured using old-world methods, and made him realize that long-term success in farming meant taking it seriously as a business. In 2009, he moved on to apprentice at Natural Roots CSA, a productive and successful vegetable farm in Conway, Massachusetts. Using the innovative production methods he learned at Natural Roots, methods that today would be called regenerative agriculture, Jeff went on to start his own farm business, Potter Hill Farm, in 2010 in Grafton, Massachusetts. At Potter Hill, Jeff turned 25 acres of old fields into a farm producing heirloom vegetables, pastured pork, and grassfed beef. Jeff sold the growing Potter Hill Farm business to another farmer in 2015 when he co-founded Short Creek Farm with longtime friend, Dave Viola. At Short Creek, Jeff continues to develop production systems that reflect his love of food, his background in ecology, and his experience with regenerative farming practices.</p>

Other business experience (last three years)	<p>Owner of Short Creek Farm-2018 to Present</p> <p>Dave Viola is responsible for food processing operations at Short Creek. He got his start developing well-respected charcuterie programs for James Beard Award-nominated chef Matt Jennings, first at Farmstead in Providence, Rhode Island and later at Townsman in Boston, Massachusetts. He then delved into the world of whole animal butchery while managing production of retail cuts and fresh sausages at Vermont Salumi in Plainfield, Vermont. While bringing Vermont Salumi's new line of dry-cured salami to market, Dave gained valuable insight into USDA regulation of small meat processors. Leveraging his academic background, he distilled statutory requirements and the input of consultants into a comprehensive food safety plan and then negotiated with state and federal agencies to successfully gain regulatory approval. From there, Dave moved on to manage New England Charcuterie, in Waltham, Massachusetts, from the company's founding in 2013. Being there from the start afforded him the opportunity to develop a wide-ranging food safety program, to create formulations and processing methods for over 100 unique products, and to implement standard operating procedures that remain in place today. Dave also brought about New England Charcuterie's transition from a retail-only business to a USDA-inspected wholesale operation. ### (D) The Company's Business and Business Plan

#### Our Mission

Jeff and Dave want to grow Short Creek from a small local farm to a regional processed meat company, creating high quality charcuterie and sausages from their own meat as well as meat they purchase from other American family farms.

- By opening of a new 6,000 sq-ft USDA-inspected facility, they will expand operations to encompass all aspects of meat processing, from butchery to salami curing and drying.
- They will produce a new line of lower-cost sausage, bacon, and salami made with heritage breed pork sourced from a co-op of farms in the Midwest, and these products will be distributed to medium and large retailers from Boston to Portland.
- They will continue to market their own farm-raised meats under the new Short Creek Farm Homegrown brand, marketing these bespoke meat products to farm stands and specialty shops throughout the Northeast.

#### Our Story

Co-founders Dave Viola and Jeff Backer started Short Creek Farm in 2015 on 300 acres in Northwood, New Hampshire. They produce high-quality value-added meat products from pastured pork and grassfed beef raised on their farm.

- They have achieved substantial yearly revenue growth, with sales of \$406,000 and net profit of \$28,000 in 2020.
- They currently produce their own sausages in a small non-USDA processing space.
- Retail cuts and other value-added products like salami and bacon are produced under contract by regional USDA processors.

#### The Team

##### Jeff Backer, Farm Manager

Jeff Backer is responsible for managing livestock production at the farm in Northwood, New Hampshire. Though he did not grow up in a farm family, his studies of wildlife biology, ecology and conservation at the University of Rhode Island led to an interest in agroecology and ultimately to actively participating in small-scale local farming. Dave Viola, Processing Manager

Dave Viola is responsible for food processing operations at Short Creek. With 10 years of experience in the food industry, Dave has had a hand in progressive companies throughout New England. He got his start developing well-respected charcuterie programs for James Beard Award-nominated chef Matt Jennings, first at Farmstead in Providence, Rhode Island and later at Townsman in Boston, Massachusetts. ### Explanation

A “material change” means a change that an average, careful investor would want to know about before making an investment decision. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

## (L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

## (M) Terms of the Securities

### Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

### Summary of Terms

Revenue Percentage <sup>1</sup>	0.7 - 2.3% <sup>2</sup>
Payment Deadline	2030-07-01
Maximum Payment Multiple <sup>3</sup> - Early Investors - All Other Investors	1.5 X 1.35 X
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	1.02%

<sup>1</sup> as defined in the note agreement included in Appendix A

<sup>2</sup> The rate of revenue sharing is calculated on a linear scale with a minimum rate of 0.7% and a maximum rate of 2.3% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$75,000	0.7%
\$118,750	1.1%
\$162,500	1.5%
\$206,250	1.9%
\$250,000	2.3%

<sup>3</sup> To reward early participation, the investors who contribute the first \$25,000.0 raised in the offering will receive a 1.5x cap. Investors who contribute after \$25,000.0 has been raised in the offering will receive a 1.35x cap.

### Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

### Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

### No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

### Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

### Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

### Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	N/A
How these securities differ from the revenue sharing notes being offered to investors	Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

## Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

## The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Jeffrey Backer	50%
David Viola	50%

## How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

## How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

## (N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

## (O) Compensation of the Funding Portal

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed. MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest to acquire an interest.
