LEAD INVESTOR

Dawn Scott

We are also so extremely impressed with the mission and vision of DockShare. From the moment this concept was introduced to us we knew it was something we wanted to see be successful. DockShare is an innovative idea that we truly feel is going to help boaters find temporary housing for their boats. The technology created to allow boaters the access to find docks is incredible. We know so many boaters that travel up and down the east coast and struggle finding some place to dock their boats and this is going to be a game changer for them.

Invested \$7,000 this round

Highlights

- 1 Accepted into Washington Maritime Blue Accelerator
- 2 Tapping into an underserved \$230 billion+ market that is growing rapidly
- 3 120% increase in booking requests over the last 6 months
- 4 Well-developed platform with 1200+ active users
- 5 250+ dock listings
- 6 Team has formed multiple successful businesses
- 7 20+ year veterans of recreational boating industry

Real estate investor, Founder of staging company

Lauren Pearlowitz Product Manager

Successful exit from another startup, works with a variety of international partners

Laura Scharle Marketing Coordinator & Customer Relations Manager

Founder of outdoor recreation company, Obtained Merchant Mariner Credential (OUVP/6PAK)

Pitch

"The Airbnb for docks and boat slips!"

OUR MISSION

Early stage marketplace connecting boaters with privately-owned docks and marina boat slips. Our site is safe and secure, opens the door for boaters to explore new destinations, and allows for spontaneous, carefree boating adventures as well as long term docking solutions.

2

EMPTY DOCKS = OPPORTUNITY

THE PROBLEMS

- Access and destination options are limited. Docking is only in areas with marinas or public access.
- Marinas have limited availability, long waiting lists, and can be costly (especially for smaller boats). Most marina reservation systems require advanced planning and calling ahead.
- Privately-owned dock space sits empty and owners are unaware of the income opportunity.
- Most boat owners use their boats much less than they envisioned because of lack of access and convenience.
- 31% of boat owners are millennials and they expect technology to solve their docking needs.

4

OUR SOLUTION

- We connect dock owners and boaters through a secure, online marketplace.
- More convenient and cost-effective than docking at a marina.

Florida, USA DISTANCE: 20 miles

Describe your dock:

Type of dock *

Floating dock

Permanent dock

Bulk head

Mean low water

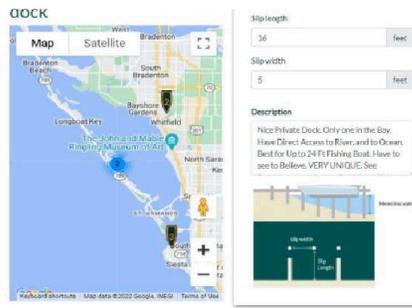

3.5 feet

Show Map

- Transactions are safe and secure.
- Docks are protected with damage protection.
- Boaters have on-demand access for short or long term rentals.
- Dock owners can bring in extra income.

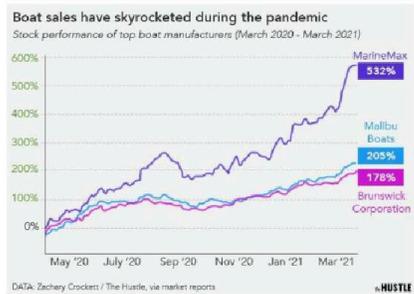

HOW IT WORKS

WHY NOW

- The recreational boating market is a \$20B+ market and growing in the US.
- There are 12M registered recreational boating vessels in the US.
- Boat sales skyrocketed during the pandemic, and sales have remained strong and above pre-pandemic levels.
- The US recreational boating market is predicted to rise to \$28B by 2024.
- Boat-sharing apps are rapidly gaining popularity and they recording their highest ever booking numbers.
