It's one that communicates clearly and efficiently, that plays to its strengths and knows when to step things up to grow bigger and better, and whose every action benefits other living things. What if your society was in danger? What if outside forces were chipping away at your little community faster than you could adapt to resist?

No, I'm not asking you to imagine a human Utopia under siege--I'm asking you to put yourself in the position of the humble, hardworking honeybee.

Intended Use of Funds

This campaign is essential in raising the seed funds we need to purchase a commercial size chocolate tempering machine, cover the costs of branding and packaging design, and to expand the number of beehives. Your support will allow us to expand without having to dip into emergency funds set aside to protect the bees from weather anomalies, predator damage, and mite and illness prevention. We're not just asking for your help--we also want you to be a part of something great. The benefits really do span the full feel-good spectrum! You'll get to:

- Boost the bee population.
- Nurture a growing small business.
- Celebrate a natural resource.
- Stimulate local agriculture.
- * Create something amazing.
- Treat yourself to a pairing of two of the most delicious things on the planet.

My Story

My name is George and I began keeping bees in the late 1990's when a honey shortage impacted the homebrew operations of mine. We started with a few hives to see if we could have some luck in producing our own, and that was apparently a fork in the road of my life. I learned all I could about bees and how to keep them healthy and protected. With our small-scale honey production in full swing thanks to those happy and healthy hives, we decided to think like bees and take a step up in 2015 to grow bigger and better.

- I was officially hooked on honey. You could say I've spent a lot of time with bees since then. They're fascinating and tireless little creatures who are driven to fulfill their life's purpose.
- Unlike dogs, bees aren't happy to see you at the end of the day--they're usually too busy with their tasks to even pay you much attention. Still, working with them so closely for so long almost makes you feel like part of their hives. I might have even picked up a few of their habits over the years.
- Day in and day out, we work to ensure that the bees have access to abundant food sources, water, sturdy frame boxes in safe areas, and everything else they need for good health and

survival. Just like bees are determined to protect their hives from larger dangers, we work to protect them from the tiny or even invisible ones they may not be aware of like chemical threats and mites.

Explanation

A “material change” means a change that an average, careful investor would want to know about before making an investment decision. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	5.0 - 20.0% ²
Payment Deadline	2025-07-01
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.5 x 1.3 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	1%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 5.0% and a maximum rate of 20.0% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$50,000	5.0%
\$87,500	8.8%
\$125,000	12.5%
\$162,500	16.2%
\$200,000	20.0%

³ To reward early participation, the investors who contribute the first \$50,000.0 raised in the offering will receive a 1.5x cap. Investors who contribute after \$50,000.0 has been raised in the offering will receive a 1.3x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company’s offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company’s consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won’t be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an “accredited” investor, (iii) to a family or trust, or (iii) in a public offering of the Company’s shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	0
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	These securities have voting rights
How these securities differ from the revenue sharing notes being offered to investors	Limited liability company interests are equity securities, with voting rights, whereas the revenue sharing notes being offered are debt securities with no voting rights

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
George Hatchell	100%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed. MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest to acquire an interest.

(P) Indebtedness of the Company

The Company has no indebtedness outside of the debt the Company is expecting to raise through
