Cloud-based video surveillance system which uses artificial intelligence for protecting your own things or buildings by only IP cameras and an account at camdog.ai. For example you have a cafe and you sometimes don't know who broke into your cafe at night when you aren't there. You need any IP camera and just sign up on the site, set up your camera and set a protection. "Machines are watching for you" - This is reality.

We provide such kinds of detection:

- Object detection
- Human detection
