## RISK FACTORS

### Risks Related to the Company's Business and Industry

*To date, we have not generated revenue, do not foresee generating any revenue in the near future and therefore rely on external financing.*

We are a startup Company and our business model currently focuses on [fill in focus and cash requirements] rather than generating revenue. While we intend to generate revenue in the future, we cannot assure you when or if we will be able to do so.

We rely on external financing to fund our operations. We anticipate, based on our current proposed plans and assumptions relating to our operations (including the timetable of, and costs associated with, new product development) that, if the Minimum Amount is raised in this Offering, it will be sufficient to satisfy our contemplated cash requirements through approximately [FILL IN], assuming that we do not accelerate the development of other opportunities available to us, engage in an extraordinary transaction or otherwise face unexpected events, costs or contingencies, any of which could affect our cash requirements.

We expect capital outlays and operating expenditures to increase over the next several years as we expand our infrastructure, commercial operations, development activities and establish offices.

Our future funding requirements will depend on many factors, including but not limited to the following:

- \* The cost of expanding our operations;
- \* The financial terms and timing of any collaborations, licensing or other arrangements into which we may enter;
- \* The rate of progress and cost of development activities;
- \* The need to respond to technological changes and increased competition;
- \* The costs of filing, prosecuting, defending and enforcing any patent claims and other intellectual property rights;
- \* The cost and delays in product development that may result from changes in regulatory requirements applicable to our products;
- \* Sales and marketing efforts to bring these new product candidates to market;
- \* Unforeseen difficulties in establishing and maintaining an effective sales and distribution network; and
- \* Lack of demand for and market acceptance of our products and technologies.

We may have difficulty obtaining additional funding and we cannot assure you that additional capital will be available to us when needed, if at all, or if available, will be obtained on terms acceptable to us. If we raise additional funds by issuing additional debt securities, such debt instruments may provide for rights, preferences or privileges senior to the Securities. In addition, the terms of the debt securities issued could impose significant restrictions on our operations. If we raise additional funds through collaborations and licensing arrangements, we might be required to relinquish significant rights to our technologies or product candidates, or grant licenses on terms that are not favorable to us. If adequate funds are not available, we may have to delay, scale back, or eliminate some of our operations or our research development and commercialization activities. Under these circumstances, if the Company is unable to acquire additional capital or is required to raise it on terms that are less satisfactory than desired, it may have a material adverse effect on its financial condition.

***We have [no] [a limited] operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.***

We were incorporated under the laws of Delaware on May 17, 2021. Accordingly, we have no history upon which an evaluation of our prospects and future performance can be made. Our proposed operations are subject to all business risks associated with a new enterprise. The likelihood of our creation of a viable business must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the inception of a business, operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base. We anticipate that our operating expenses will increase for the near future. There can be no assurances that we will ever operate profitably. You should consider the Company's business, operations and prospects in light of the risks, expenses and challenges faced as an early-stage company.

***We may face potential difficulties in obtaining capital.***

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of an approved product and revenues from sales, as well as the inherent business risks associated with our company and present and future market conditions. Our business currently does not generate any sales and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our [research, development or commercialization programs, product launches or marketing efforts,] any of which may materially harm our business, financial condition and results of operations.

***The development and commercialization of our [products/services] is highly competitive.***

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved [products/services] and thus may be better equipped than us to develop and commercialize [products/services]. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our

competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our [products/services] will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products.

***In general, demand for our products and services is highly correlated with general economic conditions.***

A substantial portion of our revenue is derived from discretionary spending by individuals, which typically falls during times of economic instability. Declines in economic conditions in the U.S. or in other countries in which we operate may adversely impact our consolidated financial results. Because such declines in demand are difficult to predict, we or the industry may have increased excess capacity as a result. An increase in excess capacity may result in declines in prices for our products and services.

***Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.***

We [collect and] store sensitive data, including intellectual property, our proprietary business information and that of our customers, [suppliers and business partners,] and personally identifiable information of our [customers and] employees, in our data centers and on our networks. The secure [processing,] maintenance [and transmission] of this information is critical to our operations [and business strategy]. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our networks and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, [liability under laws that protect the privacy of personal information,] [and regulatory penalties,] [disrupt our operations [and the services we provide to customers],] [and] damage our reputation, [and cause a loss of confidence in our products and services], which could adversely affect our [business/operating margins, revenues and competitive position].

[The secure [processing,] maintenance [and transmission] of this information is critical to our operations [and business strategy], and we devote significant resources to protecting our information [by [DESCRIBE ADDITIONAL SECURITY MEASURES.]] The expenses associated with [protecting our information/ these steps] could reduce our operating margins.]

***An intentional or unintentional disruption, failure, misappropriation or corruption of our network and information systems could severely affect our business.***

Such an event might be caused by computer hacking, computer viruses, worms and other destructive or disruptive software, "cyber attacks" and other malicious activity, as well as natural disasters, power outages, terrorist attacks and similar events. Such events could have an adverse impact on us and our customers, including degradation of service, service disruption, excessive call volume to call centers and damage to our plant, equipment and data. In addition, our future results could be adversely affected due to the theft, destruction, loss, misappropriation or release of confidential customer data or intellectual property. Operational or business delays may result from the disruption of network or information systems and the subsequent remediation activities. Moreover, these events may create negative publicity resulting in reputation or brand damage with customers.

***The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.***

In particular, the Company is dependent on Terrence Whaley and Kyle Johnson who are 05/17/2021 and 05/17/2021 of the Company. The Company has or intends to enter into employment agreements with Terrence Whaley and Kyle Johnson although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Terrence Whaley and Kyle Johnson or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

***The Company intends to use the proceeds from the Offering for unspecified working capital.***

This means that the Company has ultimate discretion to use the proceeds as it sees fit and has chosen not to set forth any specific uses for you to evaluate. The net proceeds from this Offering will be used for the purposes, which our management deems to be in our best interests in order to address changed circumstances or opportunities. As a result of the foregoing, our success will be substantially dependent upon our discretion and judgment with respect to application and allocation of the net proceeds of this Offering. The Company may choose to use the proceeds in a manner that you do not agree with and you will have no recourse. A use of proceeds that does not further the Company's business and goals could harm the Company and its operations and ultimately cause an Investor to lose all or a portion of his or her investment.

***Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.***

The Company is dependent on Terrence Whaley and Kyle Johnson in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of Terrence Whaley and Kyle Johnson die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

***We have not prepared any audited financial statements.***

Therefore, you have no audited financial information regarding the Company's capitalization or assets or liabilities on which to make your investment decision. If you feel the information provided is insufficient, you should not invest in the Company.

***We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the U.S. [and various foreign jurisdictions].***

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on

our financial position and results of operations in the period or periods for which determination is made.

***We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.***

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management’s time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

***Changes in employment laws or regulation could harm our performance.***

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers’ compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment [requirements for employees who receive tips, a reduction in the number of states that allow tips to be credited toward minimum wage requirements,] changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

***The Company’s business operations may be materially adversely affected by a pandemic such as the Coronavirus (COVID-19) outbreak.***

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which spread throughout other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a “Public Health Emergency of International Concern.” On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a “pandemic.” COVID-19 resulted in a widespread health crisis that adversely affected the economies and financial markets worldwide. The Company’s business could be materially and adversely affected. The extent to which COVID-19 impacts the Company’s business will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extended period of time, the Company’s operations may be materially adversely affected.

***We face risks related to health epidemics and other outbreaks, which could significantly disrupt the Company’s operations and could have a material adverse impact on us.***

The outbreak of pandemics and epidemics could materially and adversely affect the Company's business, financial condition, and results of operations. If a pandemic occurs in areas in which we have material operations or sales, the Company's business activities originating from affected areas, including sales, materials, and supply chain related activities, could be adversely affected. Disruptive activities could include the temporary closure of facilities used in the Company's supply chain processes, restrictions on the export or shipment of products necessary to run the Company's business, business closures in impacted areas, and restrictions on the Company's employees' or consultants' ability to travel and to meet with customers, vendors or other business relationships. The extent to which a pandemic or other health outbreak impacts the Company's results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of a virus and the actions to contain it or treat its impact, among others. Pandemics can also result in social, economic, and labor instability which may adversely impact the Company's business.

If the Company's employees or employees of any of the Company's vendors, suppliers or customers become ill or are quarantined and in either or both events are therefore unable to work, the Company's operations could be subject to disruption. The extent to which a pandemic affects the Company's results will depend on future developments that are highly uncertain and cannot be predicted.

***We face risks relating to public health conditions such as the COVID-19 pandemic, which could adversely affect the Company's customers, business, and results of operations.***

Our business and prospects could be materially adversely affected by the COVID-19 pandemic or recurrences of that or any other such disease in the future. Material adverse effects from COVID-19 and similar occurrences could result in numerous known and currently unknown ways including from quarantines and lockdowns which impair the Company's business including: [marketing and sales efforts, supply chain, etc.]. [Describe how a quarantine has or may in the future negatively affect your employees and their ability to perform their duties]. [Describe how a quarantine has or may in the future negatively affect your suppliers, their employees, and overall ability to fulfill orders]. If the Company purchases materials from suppliers in affected areas, the Company may not be able to procure such products in a timely manner. The effects of a pandemic can place travel restrictions on key personnel which could have a material impact on the business. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could reduce the demand for the Company's products and impair the Company's business prospects including as a result of being unable to raise additional capital on acceptable terms to us, if at all.

***The Securities do not accrue interest or otherwise compensate Investors for the period in which the Company uses proceeds from the Offering.***

The Securities will accrue no interest and have no maturity date. Therefore, Investors will not be compensated for the time in which the Company uses the proceeds from the Offering before a possible Equity Financing or Liquidity Event that could result in the conversion of the Security, to the benefit of the Investor.

***When forecasting the hypothetical value of their holdings in different liquidity event scenarios, Investors should consider the overall valuation of the Company in addition to their individual return.***

Due to the nature of the discount rate of the Crowd Safe, when forecasting the hypothetical value of their holdings in different liquidity event scenarios, Investors should consider the overall valuation of the Company in addition to their individual return. In a liquidity event in which the value of an Investor's stake is determined by the discount method (that being situations where applying the Valuation Cap results in a lower return for such Investor), the Investor's individual return will be the same regardless of the Company's valuation. As an example, a \$1,000-dollar investment in Crowd Safe units of a hypothetical company with a discount of 20% and a valuation cap of \$10 million would result in a \$250 return upon a liquidity event in which the company is valued at either \$5 million or \$10 million. However, Investors should consider that an ownership stake in a higher-valued company is generally preferable to an ownership stake with the same absolute value in a lower-valued company. The higher-valued company will have been assessed by the market to be worth more and will have additional funding with which to pursue its goals and is therefore more likely to produce greater returns to the Investor over the longer term.

***Because our business is seasonal, with the highest volume of net sales during the fourth quarter, adverse events during the fourth quarter could materially affect our financial statements as a whole.***

We generally recognize our highest volume of net sales during the holiday selling season, which occurs in the fourth quarter of our fiscal year. In anticipation of this holiday, we purchase substantial amounts of seasonal inventory. Adverse events, such as deteriorating economic conditions, higher unemployment, higher gas prices, public transportation disruptions, or unanticipated adverse weather could result in lower-than-planned sales during the holiday season. An excess of seasonal merchandise inventory could result if our net sales during the holiday selling season fall below seasonal norms or expectations. If our fourth quarter sales results were substantially below expectations, our financial performance and operating results could be adversely affected by unanticipated markdowns, especially in seasonal merchandise.

***The seasonality of our business places increased strain on our operations.***

A disproportionate amount of our sales normally occur during our fourth quarter. If we do not stock or are otherwise unable to source products sufficient to meet customer demand, our business would be adversely affected. If we liquidate products, as we have in the past, we may be required to take significant inventory markdowns or write-offs, which could reduce profits. We may experience an increase in our shipping cost due to complimentary upgrades, split-shipments, and additional long-zone shipments necessary to ensure timely delivery for the holiday season. If too many customers access our Website within a short period of time due to increased holiday demand, we may experience system interruptions that make our Website unavailable or prevent us from efficiently fulfilling orders, which may reduce the volume of goods we sell and the attractiveness of our products and services. In addition, we may be unable to adequately staff our fulfillment and customer service centers during peak periods, and delivery services and other fulfillment companies and customer service providers may be unable to meet the seasonal demand.

***Our profitability may be negatively affected by inventory shrinkage.***

We are subject to the risk of inventory loss and theft. We experience significant inventory shrinkage and cannot be sure that incidences of inventory loss and theft will decrease in the future or that the measures we are taking will effectively reduce the problem of inventory shrinkage. Although some level of inventory shrinkage is an unavoidable cost of doing business, if we were to experience higher rates of inventory shrinkage or incur increased security costs to combat inventory theft, our business and results of operations could be affected adversely.

***Failure to execute our opportunistic buying could adversely affect our business.***

We purchase the majority of our inventory opportunistically, with our buyers purchasing close to need. [Establishing the "treasure hunt" nature of the off-price buying experience to drive traffic to our stores requires us to offer changing assortments of merchandise in our stores.] While opportunistic buying provides our buyers the ability to buy at desirable times and prices, in the quantities we need and into market trends, it places considerable discretion in our buyers, subjecting us to risks related to the pricing, quantity, nature and timing of inventory flowing to our stores. If we are unable to provide frequent replenishment of fresh, high quality, attractively priced merchandise in our stores, it could adversely affect traffic to our stores as well as our sales and margins. We base our purchases of inventory, in part, on our sales forecasts. If our sales forecasts do not match customer demand, we may experience higher inventory levels and need to markdown excess or slow-moving inventory, leading to decreased profit margins, or we may have insufficient inventory to meet customer demand, leading to lost sales, either of which could adversely affect our financial performance.

[We need to purchase inventory sufficiently below conventional retail to maintain our pricing differential to regular department and specialty store prices and to attract customers and sustain our margins, which we may not achieve at various times and which could adversely affect our results.]

***Failure to execute our inventory management process could adversely affect our business.***

We must also properly execute our inventory management strategies by appropriately allocating merchandise among our stores, timely and efficiently distributing inventory to stores, maintaining an appropriate mix and level of inventory in stores, appropriately changing the allocation of floor space of stores among product categories to respond to customer demand and effectively managing pricing and markdowns, and there is no assurance we will be able to do so. Failure to effectively execute our inventory management strategies could adversely affect our performance and our relationship with our customers.

***Our business could suffer if we are unsuccessful in making, integrating, and maintaining commercial agreements, strategic alliances, and other business relationships.***

We provide e-commerce and other services to businesses through commercial agreements, strategic alliances, and business relationships. Under these agreements, we enable sellers to offer products or services through our websites. These arrangements are complex and require substantial infrastructure capacity, personnel, and other resource commitments, which may limit the amount of business we can service. We may not be able to implement, maintain, and develop the components of these commercial relationships, which may include [web services, fulfillment, customer service, inventory management, tax collection, payment processing, hardware, content, and third-party software, and engaging third parties to perform services]. The amount of compensation we receive under certain of our commercial agreements is partially dependent on

the volume of the other company's sales. Therefore, if the other company's offering is not successful, the compensation we receive may be lower than expected or the agreement may be terminated. Moreover, we may not be able to enter into additional commercial relationships and strategic alliances on favorable terms. We also may be subject to claims from businesses to which we provide these services if we are unsuccessful in implementing, maintaining, or developing these services.

As our agreements terminate, we may be unable to renew or replace these agreements on comparable terms, or at all. We may in the future enter into amendments on less favorable terms or encounter parties that have difficulty meeting their contractual obligations to us, which could adversely affect our operating results.

Our present and future e-commerce services agreements, other commercial agreements, and strategic alliances create additional risks such as: disruption of our ongoing business, including loss of management focus on existing businesses; impairment of other relationships; variability in revenue and income from entering into, amending, or terminating such agreements or relationships; and difficulty integrating under the commercial agreements.

***Our business may be adversely affected by catastrophic events and extreme or unseasonable weather conditions.***

Unforeseen events, including war, terrorism and other international conflicts, public health issues and natural disasters such as earthquakes, hurricanes or tornadoes, whether occurring in the United States or abroad, could disrupt our supply chain operations, [international trade] or result in political or economic instability. Any of the foregoing events could result in property losses, reduce demand for our products or make it difficult or impossible to obtain merchandise from our suppliers.

Extreme weather conditions in the areas in which our stores are located, particularly in markets where we have multiple stores, could adversely affect our business. For example, heavy snowfall, rainfall or other extreme weather conditions over a prolonged period might make it difficult for our customers to travel to our stores and thereby reduce our sales and profitability. Our business is also susceptible to unseasonable weather conditions. For example, extended periods of unseasonably warm temperatures during the winter season or cool weather during the summer season could render a portion of our inventory incompatible with those unseasonable conditions. Reduced sales from extreme or prolonged unseasonable weather conditions could adversely affect our business.

***We may not timely identify or effectively respond to consumer trends or preferences, whether involving physical retail, e-commerce retail or a combination of both retail offerings, which could negatively affect our relationship with our customers and the demand for our products and services.***

It is difficult to predict consistently and successfully the products and services our customers will demand. The success of our business depends in part on how accurately we predict consumer demand, availability of merchandise, the related impact on the demand for existing products and the competitive environment, whether for customers purchasing products at our stores and clubs, through our e-commerce businesses or through the combination of both retail offerings. A critical piece of identifying consumer preferences involves price transparency, assortment of products, customer experience and convenience. These factors are of primary importance to

customers and they continue to increase in importance, particularly as a result of digital tools and social media available to consumers and the choices available to consumers for purchasing products online, at physical locations or through a combination of both retail offerings. Failure to timely identify or effectively respond to changing consumer tastes, preferences (including the key factors described above) and spending patterns, whether for our physical retail offerings, e-commerce offerings or through a combination of these retail offerings, could negatively affect our relationship with our customers and the demand for our products and services.

***Decreases in discretionary consumer spending may have an adverse effect on us.***

A substantial portion of the products and services we offer are products or services that consumers may view as discretionary items rather than necessities. As a result, our results of operations are sensitive to changes in macroeconomic conditions that impact consumer spending, including discretionary spending. Difficult macroeconomic conditions, particularly high levels of unemployment, also impact our customers' ability to obtain consumer credit. Other factors, including consumer confidence, employment levels, interest rates, tax rates, consumer debt levels, and fuel and energy costs could reduce consumer spending or change consumer purchasing habits. Slowdowns in the U.S. or global economy, or an uncertain economic outlook, could adversely affect consumer spending habits and our results of operations.

***If we do not continue to source new products, our ability to compete will be undermined, and we may be unable to implement our business plan.***

Our ability to compete in the direct marketing industry and to expand into the traditional retail environment depends to a great extent on our ability to develop or acquire new innovative products under particular brands and to complement these products with related families of products under those brands. If we do not source new products as our existing products mature through their product life cycles, or if we do not develop related families of products under our brands, we will not be able to implement our business plan, and the value of your investment may decrease.

***Our business and results of operations may be adversely affected if we are unable to maintain our customer experience or provide high quality customer service.***

The success of our business largely depends on our ability to provide superior customer experience and high quality customer service, which in turn depends on a variety of factors, such as our ability to continue to provide a reliable and user-friendly website interface for our customers to browse and purchase our products, reliable and timely delivery of our products, and superior after sales services. Our sales may decrease if our website services are severely interrupted or otherwise fail to meet our customer requests. Should we or our third-party delivery companies fail to provide our product delivery and return services in a convenient or reliable manner, or if our customers are not satisfied with our product quality, our reputation and customer loyalty could be negatively affected. In addition, we also depend on our call center and online customer service representatives to provide live assistance to our customers. If our call center or online customer service representatives fail to satisfy the individual needs of customers, our reputation and customer loyalty could be negatively affected and we may lose potential or existing customers and experience a decrease in sales. As a result, if we are unable to continue to maintain our customer experience and provide high quality customer service, we may not be able to retain existing customers or attract new customers, which could have an adverse effect on our business and results of operations.

***We depend upon designers, vendors and other sources of merchandise, goods and services.***

Our business could be affected by disruptions in, or other legal, regulatory, political or economic issues associated with, our supply network. Our relationships with established and emerging designers have been a significant contributor to our past success. Our ability to find qualified vendors and access products in a timely and efficient manner is often challenging, particularly with respect to goods sourced outside the United States. [Our procurement of goods and services from outside the United States is subject to risks associated with political or financial instability, trade restrictions, tariffs, currency exchange rates, transport capacity and costs and other factors relating to foreign trade.] In addition, our procurement of all our goods and services is subject to the effects of price increases, which we may or may not be able to pass through to our customers. All of these factors may affect our ability to access suitable merchandise on acceptable terms, are beyond our control and could negatively affect our business and results of operations.

***Our advertising and marketing efforts may be costly and may not achieve desired results.***

We incur substantial expense in connection with our advertising and marketing efforts. Although we target our advertising and marketing efforts on current and potential customers who we believe are likely to be in the market for the products we sell, we cannot assure you that our advertising and marketing efforts will achieve our desired results. In addition, we periodically adjust our advertising expenditures in an effort to optimize the return on such expenditures. Any decrease in the level of our advertising expenditures, which may be made to optimize such return could adversely affect our sales.

***We may be required to collect sales tax on our direct marketing operations.***

With respect to the direct sales, sales or other similar taxes are collected primarily in states where we have retail stores, another physical presence or personal property. However, various states or foreign countries may seek to impose sales tax collection obligations on out-of-state direct mail companies. A successful assertion by one or more states that we or one or more of our subsidiaries should have collected or should be collecting sales taxes on the direct sale of our merchandise could have an adverse effect on our business.

***Government regulation is evolving and unfavorable changes could harm our business.***

We are subject to general business regulations and laws, as well as regulations and laws specifically governing the Internet, e-commerce, electronic devices, and other services. Existing and future laws and regulations may impede our growth. These regulations and laws may cover taxation, privacy, data protection, pricing, content, copyrights, distribution, mobile communications, electronic device certification, electronic waste, energy consumption, environmental regulation, electronic contracts and other communications, competition, consumer protection, web services, the provision of online payment services, information reporting requirements, unencumbered Internet access to our services, the design and operation of websites, the characteristics and quality of products and services, and the commercial operation of unmanned aircraft systems. It is not clear how existing laws governing issues such as property ownership, libel, and personal privacy apply to the Internet, e-commerce, digital content, and web services. Jurisdictions may regulate consumer-to-consumer online businesses, including certain aspects of our seller programs. Unfavorable regulations and laws could diminish the demand for our products and services and increase our cost of doing business.

***Changes in federal, state or local laws and regulations could increase our expenses and adversely affect our results of operations.***

Our business is subject to a wide array of laws and regulations. The current political environment, financial reform legislation, the current high level of government intervention and activism and regulatory reform may result in substantial new regulations and disclosure obligations and/or changes in the interpretation of existing laws and regulations, which may lead to additional compliance costs as well as the diversion of our management's time and attention from strategic initiatives. If we fail to comply with applicable laws and regulations we could be subject to legal risk, including government enforcement action and class action civil litigation that could disrupt our operations and increase our costs of doing business. Changes in the regulatory environment regarding topics such as privacy and information security, product safety or environmental protection, including regulations in response to concerns regarding climate change, collective bargaining activities, minimum wage laws and health care mandates, among others, could also cause our compliance costs to increase and adversely affect our business and results of operations.

***Our profitability is vulnerable to cost increases, inflation and energy prices.***

Future increases in our costs, such as the cost of merchandise, shipping rates, freight and fuel costs, and store occupancy costs, may reduce our profitability. The minimum wage has increased or is scheduled to increase in multiple states and local jurisdictions, and there is a possibility Congress will increase the federal minimum wage. These cost changes may be the result of inflationary pressures, which could further reduce our sales or profitability. Increases in other operating costs, including changes in energy prices, wage rates and lease and utility costs, may increase our costs of sales or operating expenses and reduce our profitability.

## **Risks Related to the Securities**

***The Units of SAFE (Simple Agreement for Future Equity) will not be freely tradable until one year from the initial purchase date. Although the Units of SAFE (Simple Agreement for Future Equity) may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.***

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Units of SAFE (Simple Agreement for Future Equity). Because the Units of SAFE (Simple Agreement for Future Equity) have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Units of SAFE (Simple Agreement for Future Equity) have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Units of SAFE (Simple Agreement for Future Equity) may also adversely affect the price that you might be able to obtain for the Units of SAFE (Simple Agreement for Future Equity) in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

***Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.***

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

***No Guarantee of Return on Investment***

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

***A majority of the Company is owned by a small number of owners.***

Prior to the Offering the Company's current owners of 20% or more beneficially own up to 100.0% of the Company. Subject to any fiduciary duties owed to our other owners or investors under Delaware law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

***The Company has the right to extend the Offering deadline.***

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

***Purchasers will not become equity holders until the Company decides to convert the Securities into CF Shadow Securities or until an IPO or sale of the Company.***

Purchasers will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time, and depending on when and how the Securities are converted, the Purchasers may never become equity holders of the Company. Purchasers will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities (the type of equity Securities Purchasers are entitled to receive upon such conversion). In certain instances, such as

a sale of the Company, an IPO or a dissolution or bankruptcy, the Purchasers may only have a right to receive cash, to the extent available, rather than equity in the Company.

***Purchasers will not have voting rights, even upon conversion of the Securities into CF Shadow Securities.***

Purchasers will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities. Upon such conversion, CF Shadow Securities will have no voting rights and even in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders are required to vote with the majority of the security holders in the new round of equity financing upon which the Securities were converted. For example, if the Securities are converted upon a round offering Series B Preferred Shares, the Series B-CF Shadow Security holders will be required to vote the same way as a majority of the Series B Preferred Shareholders vote. Thus, Purchasers will never be able to freely vote upon any director or other matters of the Company.

***Purchasers will not be entitled to any inspection or information rights other than those required by Regulation CF.***

Purchasers will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. This lack of information could put Purchasers at a disadvantage in general and with respect to other security holders.

***In a dissolution or bankruptcy of the Company, Purchasers will be treated the same as common equity holders.***

In a dissolution or bankruptcy of the Company, Purchasers of Securities which have not been converted will be entitled to distributions as if they were common stock holders. This means that such Purchasers will be at the lowest level of priority and will only receive distributions once all creditors as well as holders of more senior securities, including any preferred stock holders, have been paid in full. If the Securities have been converted into CF Shadow Securities, the Purchasers will have the same rights and preferences (other than the ability to vote) as the holders of the Securities issued in the equity financing upon which the Securities were converted.

***Purchasers will be unable to declare the Security in "default" and demand repayment.***

Unlike convertible notes and some other securities, the Securities do not have any "default" provisions upon which the Purchasers will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Purchasers have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may the Purchasers demand payment and even then, such payments will be limited to the amount of cash available to the Company.

***The Company may never elect to convert the Securities or undergo a liquidity event.***

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

## **THE OFFERING AND THE SECURITIES**

### **The Offering**

The Company is offering up to 2,500 of Units of SAFE (Simple Agreement for Future Equity) for up to \$250,000.00. The Company is attempting to raise a minimum amount of \$20,000.00 in this Offering (the "Minimum Amount"). The Company must receive commitments from investors in an amount totaling the Minimum Amount by December 31, 2021 (the "Offering Deadline") in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions. The Company has the right to extend the Offering Deadline at its discretion. The Company will accept investments in excess of the Minimum Amount up to \$250,000.00 (the "Maximum Amount") and the additional Securities will be allocated at the Company's discretion .

The price of the Securities does not necessarily bear any relationship to the asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with Fund America until the Minimum Amount of investments is reached. Purchasers may cancel an investment commitment until [48] hours prior to the Offering Deadline or the Closing, whichever comes first using the cancellation mechanism provided by the Intermediary. The Company will notify Purchasers when the Minimum Amount has been reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Minimum Amount and providing notice to the Purchasers.. If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser, will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing and the Purchaser will receive Securities via Electronic Certificate/PDF in exchange for his or her investment as soon as practicable thereafter.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Purchaser's funds will be returned without interest or deduction.

The price is the face amount or par value of the Securities. The minimum amount that a Purchaser may invest in the Offering is \$100.00.

We request that you please review our organizational documents and the Crowd Safe instrument in conjunction with the following summary information.

### **Authorized Capitalization**

At the initial closing of this Offering (if the minimum amount is sold), our authorized capital stock will consist of (i) 10,000 shares of common stock, par value \$0.001000 per share, of which 10,000 common shares will be issued and outstanding.

### **Not Currently Equity Interests**

The Securities are not currently equity interests in the Company and can be thought of as the right to receive equity at some point in the future upon the occurrence of certain events.

### **Dividends**

The Securities do not entitle the Investors to any dividends.

### **Conversion**

Upon each future equity financing by the Company of greater than \$700,000.00 (an "Equity Financing"), the Securities are convertible at the option of the Company, into CF Shadow Series Securities, which are securities identical to those issued in such future Equity Financing except 1) they do not have the right to vote on any matters except as required by law, 2) they must vote in accordance with the majority of the investors in such future Equity Financing with respect to any such required vote and 3) they are not entitled to any inspection or information rights (other than those contemplated by Regulation CF). The Company has no obligation to convert the Securities in any future financing.

### ***Conversion Upon the First Equity Financing***

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Series Securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the "Purchase Amount") by:

(a) the quotient of \$3,000,000.00 divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable Securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) the issuance of all shares of capital stock reserved and available for future issuance under any of the Company's existing equity incentive plans, (ii) convertible promissory notes issued by the Company, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, "Safes"), and (iv) any equity Securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes,

OR

(b) the lowest price per share of the Securities sold in such Equity Financing multiplied by 15.00%.

The price (either (a) or (b)) determined immediately above shall be deemed the "First Financing Price" and may be used to establish the conversion price of the Securities at a later date, even if the Company does not choose to convert the Securities upon the first Equity Financing following the issuance of the Securities.

#### ***Conversion After the First Equity Financing***

If the Company elects to convert the Securities upon an Equity Financing after the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Series Securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Financing Price.

#### ***Conversion Upon a Liquidity Event Prior to an Equity Financing***

In the case of an initial public offering of the Company ("IPO") or Change of Control (see below) (either of these events, a "Liquidity Event") of the Company prior to any Equity Financing, the Investor will receive, at the option of the Investor, either (i) a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) a number of shares of common stock of the Company equal to the Purchase Amount divided by the quotient of (a) \$3,000,000.00 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company's capital stock (on an as-converted basis) outstanding, assuming exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (i) shares of common stock reserved and available for future grant under any equity incentive or similar plan; (ii) any Safes; and (iii) convertible promissory notes.

In connection with a cash payment described in the preceding paragraph, the Purchase Amount will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and holders of other Safes (collectively, the "Cash-Out Investors") in full, then all of the Company's available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

"Change of Control" as used above and throughout this section, means (i) a transaction or transactions in which any person or group becomes the beneficial owner of more than 50% of the outstanding voting securities entitled to elect the Company's board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction(s) or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

#### ***Conversion Upon a Liquidity Event Following an Equity Financing***

In the case of a Liquidity Event following any Equity Financing, the Investor will receive, at the option of the Investor, either (i) a cash payment equal to the Purchase Amount (as described above) or (ii) a number of shares of the most recently issued preferred stock equal to the Purchase Amount divided by the First Financing Price. Shares of preferred stock granted in

connection therewith shall have the same liquidation rights and preferences as the shares of preferred stock issued in connection with the Company's most recent Equity Financing.

## **Dissolution**

If there is a Dissolution Event (see below) before the Securities terminate, the Company will distribute, subject to the preferences applicable to any series of preferred stock then outstanding, all of its assets legally available for distribution with equal priority among the Investors, all holders of other Safes (on an as converted basis based on a valuation of common stock as determined in good faith by the Company's board of directors at the time of the Dissolution Event) and all holders of common stock.

A "Dissolution Event" means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company's creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

## **Termination**

The Securities terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur: (i) the issuance of shares in the CF Shadow Series to the Investor pursuant to the conversion provisions or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

## **Voting and Control**

The Securities have no voting rights at present or when converted.

The Company does not have any voting agreements in place.

The Company does not have any shareholder/equity holder agreements in place.

## **Anti-Dilution Rights**

The Securities do not have anti-dilution rights, which means that future equity financings will dilute the ownership percentage that the Investor may eventually have in the Company.

## **Restrictions on Transfer**

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: 1) to the Company, 2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act, 3) as part of an IPO or 4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling,

mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Remember that although you may legally be able to transfer the Securities, you may not be able to find another party willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any Securities into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any Securities into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be sold for up to 180 days following such IPO.

### **Other Material Terms**

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

**NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES**

Barterr, Inc (“the Company”) was formed in Delaware on May 20th, 2021. The Company plans to earn revenue by acting as a middleman service for those who want to trade sneakers over the internet. The Company’s customers will be located throughout the world.

The Company will conduct a crowdfunding campaign under regulation CF in 2021 to raise operating capital.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Presentation

Our financial statements are prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). Our fiscal year ends on December 31. The Company has no interest in variable interest entities and no predecessor entities.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Fair Value of Financial Instruments

ASC 820 “*Fair Value Measurements and Disclosures*” establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets;

Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Concentrations of Credit Risks

The Company's financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

#### Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, "Revenue Recognition" following the five steps procedure:

- Step 1: Identify the contract(s) with customers
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to performance obligations
- Step 5: Recognize Revenue When or As Performance Obligations Are Satisfied

The Company will identify and analyze its performance obligations with respect to customer contracts once the first contract is signed.

#### **NOTE 3 – RELATED PARTY TRANSACTIONS**

The Company follows ASC 850, "Related Party Disclosures," for the identification of related parties and disclosure of related party transactions. The Company accrued \$1608 in startup costs paid on behalf of the founder. The amount accrues no interest and is due at the discretion of the board of directors.

#### **NOTE 4 – CONTINGENCIES, COMPLIANCE WITH LAWS AND REGULATIONS**

We are currently not involved with or know of any pending or threatening litigation against the Company or any of its officers. Further, the Company is currently complying with all relevant laws and regulations.

#### **NOTE 5 – DEBT**

See Note 3.

#### **NOTE 6 – EQUITY**

The Company has authorized 10,000 of common shares with no par value per share.

Common stockholders are entitled to one vote and can receive dividends at the discretion of the boards of directors.

#### **NOTE 7 – SUBSEQUENT EVENTS**

The Company has evaluated events subsequent to December 31, 2020 to assess the need for potential recognition or disclosure in this report. Such events were evaluated through July 1, 2021, the date these financial statements were available to be issued. No events require recognition or disclosure.

#### **NOTE 8 – GOING CONCERN**

The accompanying balance sheet has been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The entity has not commenced principal operations and may generate losses.

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing

sufficient to meet current and future obligations and deploy such to produce profitable operating results. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. No assurance can be given that the Company will be successful in these efforts. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities.

## **NOTE 9 – RISKS AND UNCERTAINTIES**

### ***COVID-19***

The spread of COVID-19 has severely impacted many local economies around the globe. In many countries, businesses are being forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global stock markets have also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilize economic conditions.

The duration and impact of the COVID-19 pandemic, as well as the effectiveness of government and central bank responses remains unclear currently. It is not possible to reliably estimate the duration and severity of these consequences, as well as their impact on the financial position and results of the Company for future periods. Note: this disclosure assumes there is no significant doubt about the entity's ability to continue as a going concern.

***We are an emerging growth Company, and any decision on our part to comply only with certain reduced reporting and disclosure requirements applicable to emerging growth companies could make our common stock less attractive to investors.***

We are an emerging growth Company, and, for as long as we continue to be an emerging growth Company, we may choose to take advantage of exemptions from various reporting requirements applicable to other public companies but not to “emerging growth companies,” including: not being required to have our independent registered public accounting firm audit our internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act; reduced disclosure obligations regarding executive compensation in our periodic reports and annual report on Form 10-K; and exemptions from the requirements of holding non-binding advisory votes on executive compensation and stockholder approval of any golden parachute payments not previously approved. We can continue to be an emerging growth Company, as defined in the JOBS Act, for up to five years following our IPO.
