Objective

Non Communicable Diseases
are the largest cause of death

80%
are preventable

Cardiovascular 17.9 M	Kidney 1.2 M
Cancers 9.3 M	Digestive 1.1 M
Respiratory 4.1 M	Neurological 1 M
Diabetes 2 M	Mental .8 M
Liver Cirrhosis 1.3 M	Other 2.3 M

WHO - Noncommunicable Disease Fact Sheet

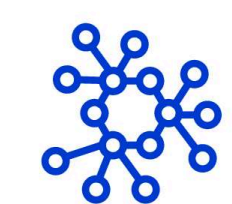

“Empower healthier lives through
effortless prevention”

Extend 1 million lives by 10 healthy years

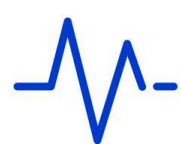

Wider awareness and regular monitoring

Simple & Accesible
