Foodvine - democratizing the food & beverage industry and making discovery easy.

If you've traveled overseas, you've probably noticed the street vendors selling delicious street food. You can't necessarily find them on google maps , DoorDash or Yelp. You just have to run into them. There are many others alike: home chefs, farmers, bakers, private chefs, and other small sellers. With foodvine, everyone will be able to upload their Menus, get discovered, and sell - All on one platform. Check out some interactive videos [here](#)
