

Palm Energy Systems – Wefunder Campaign

Email Template 01

Vouch for us

Subject: Palm Energy Systems – the crowdfunding round is going live soon!

Dear _____,

I hope everything is well with you and your family!

I have some wonderful news to share — the Palm Energy team has been preparing to launch on the crowdfunding investment platform, Wefunder, and our campaign will be going live on 6th July 2021.

Please check out our pitch here: <https://wefunder.com/palm.energy.systems.llc>

I know that you are an ardent supporter of Palm Energy Systems and its products. Hence, I am reaching out to you with a request to post a few lines sharing your excitement about Palm Energy on our campaign page? Even a few lines of your endorsement will mean a great deal to us. Please know that vouching for us does not mean you need to invest in the crowdfunding campaign.

*Our raise will initially be in the “testing the waters”** mode while we finalize our paperwork and SEC filings, so investors will only be making a reservation – not actually investing in us yet. Once we file our paperwork in the coming weeks, they will be able to confirm their investment.*

Please let me know if you are agreeable to vouch for us, and I will send you an invitation directly from our Wefunder campaign page.

In addition, please check out our new website at <https://www.palm.energy>

Thank you for your support!

Best regards,

Rajiv / Francois / Samir / Jay / Tom / Chris

***Some necessary “testing the waters” disclosures:*

- 1. No money or other consideration is being solicited. If sent, it will not be accepted;*
- 2. No offer to buy securities will be accepted and or part of the purchase price will be received until a Form C is filed and only through Wefunder’s platform*
- 3. Any indication of interest involves no obligation or commitment of any kind.*

Palm Energy Systems – Wefunder Campaign

Email Template 02 Invest in Palm Energy

Subject: Palm Energy Systems – the Crowdfunding Round is Live!

Dear _____,

I hope everything is well with you and your family!

I have some wonderful news to share — the Palm Energy team has been preparing to launch on the crowdfunding investment platform, Wefunder. As of a few minutes ago, our raise for Palm Energy Systems has officially launched!

Please check out our campaign page
here: <https://wefunder.com/palm.energy.systems.llc>

We decided to open up to investment from the crowd because we believe that true change in our combat against global warming will happen only when each one of us participates in making a real difference to the challenges being faced by humanity.

The Palm-e system offers a unique and transformative solution to provide clean green energy within our campuses, communities, towns and cities. It does so by tapping unutilized spaces where we live, work and play!

I know that you are an ardent supporter of Palm Energy Systems and its products. Hence, I am reaching out to you to become a stakeholder in our company. Your investment will mean a great deal to us.

*Our raise will initially be in the “testing the waters”** mode while we finalize our paperwork and SEC filings, so investors will only be making a reservation – not actually investing in us yet. Once we file our paperwork in the coming weeks, they will be able to confirm their investment.*

Be a part of the change – invest in Palm Energy!

Thank you for your support!

Best regards,
Rajiv / Francois / Samir / Jay / Tom / Chris
www.palm.energy

***Some necessary “testing the waters” disclosures:*

We are 'testing the waters' to gauge investor interest in an offering under Regulation Crowdfunding. No money or other consideration is being solicited. If sent, it will not be accepted. No offer to buy securities will be accepted. No part of the purchase price will be received until a Form C is filed and only through Wefunder's platform. Any indication of interest involves no obligation or commitment of any kind.

MARKETWATCH.COM

Liberty Access Technologies to partner with Palm Energy Systems for Solar Powered EV Charging

Palm Energy Systems is taking ambitious strides to make Green EV charging the norm rather than the exception.

The world today, has 1 million electric vehicle chargers. Most of these are powered by Dirty Brown Power. By 2040, the world will need 12 million electric vehicle chargers. The challenge, as we see it, is to be able to power all of these with Clean Green Power. We are taking ambitious strides to make this happen.
