FabuLingua is a language learning platform based on beautiful interactive children's stories. It's designed for kids aged 2 to 10 and is available on iOS, Android mobile devices and online.

Our unique method is designed to introduce the new language in a way that subconsciously develops the child's ear, comprehension and reading skills. This approach leads to a more natural wiring of the brain to the new language in a way that is effective but feels effortless (and fun!). Voted as the best new technology for learning a language by a panel of experts in second language acquisition! [...see more](#)
