

PINK PANDA

THE GLOBAL ON-RAMP TO
DECENTRALIZED FINANCE

CONSUMER HABITS FOR FINANCE ARE RAPIDLY EVOLVING

Decentralized Finance Protocols (DeFi) have had massive growth in recent years, and the market is primed for continued disruption and innovation in how consumers invest their capital (specifically in cryptocurrency).

Total Value Locked (TVL) – a measure of cryptocurrency value housed inside of DeFi protocols – grew by 14X in 2020, and continues to grow in 2021

Retail Trading has become increasingly prevalent, accounting for 10% of overall U.S. stock trading volume (60% of all Q2 2021 Robinhood trading was in cryptocurrency)

A rise in retail trading has resulted in a desire and gap for a simplified and holistic mobile cryptocurrency experience

CHALLENGES IN THE CURRENT CRYPTOCURRENCY MARKET

The trend towards decentralized exchanges and retail trading has introduced new challenges; with those challenges comes opportunities for disruption.

Today's decentralized exchanges are largely catered towards crypto-natives / the technically savvy and do not offer a positive experience for retail consumers and those new to cryptocurrency trading.

CURRENT CHALLENGES IN DEX MARKET & APPLICATIONS

Slow and expensive transactions across various “copycat” exchanges

Inaccessible and unfriendly experience for newer or retail-focused consumers

Lack of dedicated, easy-to-use mobile applications for decentralized exchanges

Lackluster trading capabilities (e.g., no limit orders)

PINK PANDA WALLET, DEX, MOBILE APPLICATION, & TOKEN

PinkPanda DeFi aims to capitalize on consumer habits and current challenges in finance and cryptocurrency by introducing a simple and elegant mobile application, a wallet, a DEX, and a utility token.

“**THINK ROBINHOOD, BUT WE PUT THE CONSUMER AND COMMUNITY FIRST.**”

PINK PANDA WALLET, DEX, & MOBILE APPLICATION

The Pink Panda Decentralized Exchange is a next generation cryptocurrency trading platform.

- Mobile First
- Retail Focused
- Community Minded
- 5,200 Current Mobile Installs
- Non-Custodial
- Fully On-Chain
- Meme Marketed

REVENUE GENERATION (SIMPLIFIED)

Pink Panda takes 25 basis points for every transaction made on the platform. For example, if any given user trades \$10,000 (buying or selling), Pink Panda generates \$25 in revenue.

QUICK ANNUAL MATH FOR 45K USERS

45,000 users X \$10K trades X 0.25% = ~\$1.1M Revenue

PINK PANDA WALLET, DEX, & MOBILE APP

The Pink Panda DEX and Wallet operate on the Binance Smart Chain using Smart Contracts to facilitate advanced trading capabilities (spot limits, order limits, advanced order trading, etc.)

COMPETITIVE DECENTRALIZED EXCHANGE (DEX) LANDSCAPE

The exchanges and applications that facilitate current state decentralized finance have pieces of a utopic future state. Pink Panda's goal is to combine those components that consumers know and love into one simplified experience.

VOICE OF OUR CUSTOMERS AND COMMUNITY

“Adam, just got in. Love the project and look forward to the ride! I am particularly grateful for the donation aspects to cancer. I lost my father to pancreatic cancer about 3 years ago, lost my Father-in-law to skin cancer. So I am all in for this effort.”

Richard Dreese -LinkedIn

“Hi Adam! Thank you for the connection. I'm really excited to be an early supporter of what you & team are creating with Pink Panda! If there's ever a need for assistance with marketing, I would love the opportunity to assist. Anything to be a part of the movement”

Eric Dates -LinkedIn

“I invested in pinkpanda for two reasons:

The 1st that it has HUGE potential, it has a great team behind it and an amazing community to follow. I've never "shilled" or being interested in the community before but this coin is different, I wake up and I sit and read the telegram in the morning before work.

The 2nd is I lost my grandfather to stomach cancer and I have multiple other relatives who have also suffered with this awful disease, so any money going towards those charities has my backing”

Ryukin2 - Reddit

“It's pinkpanda!! Honestly, I like the entire project, plus I like the that it's to help people. It's a project I can trust and get behind. A great community and team on top makes it perfect.

I can't wait to see where we go and the possibility of myself helping to make the world a better place with the profits just makes it all the better”

HOW WE RESONATE WITH OUR CUSTOMERS AND COMMUNITY

CHARITY IS IN OUR DNA

Pink Panda has a powerful connection established with our community (rooted in a charity), and a portion of our proceeds are dedicated to cancer charities; our goal is to donate \$1M in 2022

SOCIAL IMPACT IS OUR CALLING

Our aim is to bring real, global, democratized finance to our community and beyond (the average consumer), bringing financial returns historically reserved for the 1% to the 99%
