If you're intrigued, it's not too late to participate. But I wouldn't wait that long -- given how quickly this is progressing, the "test the waters" round could fill up soon.

Anyone can reserve their shares at https://lnkd.in/dX7j_Kr via [Wefunder!](#)

Note: We are in our "testing-the-waters" phase, which means that, at this point, you are only reserving your shares before our Reg CF Round is officially launched. No money is being solicited and reservations indicate no obligation or commitment of any kind.

VBit DC, a Subsidiary of VBit Technologies, Closes a \$1.1M Funding Round to Open One of the Largest Bitcoin Mining Data Centers in the World

NEWS PROVIDED BY
VBit Technologies
May 06, 2020, 11:36 ET

SHARE THIS ARTICLE
Facebook Twitter LinkedIn YouTube Email Print

PHILADELPHIA, May 6, 2020 /PRNewswire/ -- VBit DC, one of only a few U.S.-based hosting hardware mining companies, announced its \$1.1 million seed funding round, led by angel fund Golden Age.

VBit DC will use the funding to begin the construction of a 200MW data center in Alberta, Canada. Once completed, VBit's massive Alberta data center will be one of the largest data centers in the world dedicated solely to Bitcoin mining operations. The size of the center and access to inexpensive electricity will allow VBit DC to offer its customers increased mining efficiency and considerably better ROI than was previously possible.

VBit Technologies was founded in 2015 when a few crypto believers and aficionados came together and began exploring the concept of making crypto mining, and its incredible potential, more accessible to the general public. Today, VBit is committed to its mission: leveraging its cutting-edge data centers and equipment to help build efficient cryptocurrency mining operations that can be utilized by everyone. Since launching, VBit has helped around 3,000 customers, and its user growth has been exponential month over month, with users in many different countries.

Danh Vo, CEO, and Founder of VBit Technologies commented on what this will mean for the company, the Bitcoin mining community and, most importantly, for those who are yet to join it:

"We are thrilled to have the support and capital needed to accelerate our growth further. So far, we've been proud of how much our customers gained, and now we're taking this to the next level. I am not only talking about the quantity of the Bitcoin they mined but the feeling of security, a stable stream of passive income which has tremendous value, especially in times like this."

"We expect more people to join us as our new data center will make a change out there in terms of accessibility and clarity of ROI. Bitcoin mining has been opaque and seen as something ambiguous and murky for far too long. We are incredibly excited to offer something **reachable, affordable, and efficient** for a change that can make a real impact on peoples' lives," he continued.

vbit_tech VBit DC is a versatile trendsetter in the bitcoin mining industry, and we want to make sure all its supporting pillars are strong and all threats are removed to maintain ongoing stability. We are committed to using only the smartest solutions – the most powerful mining equipment, the latest renewable energy sources and efficient facilities with some of the cheapest electricity rates in the world.

Anyone can reserve their shares at <https://buff.ly/2R7o6NH> via Wefunder!

Note: We are in our "testing-the-waters" phase, which means that, at this point, you are only reserving your shares before our Reg CF Round is officially launched. No money is being solicited and reservations indicate no obligation or commitment of any kind.

Renewable Energy

Our operation is is 100% powered by hydroelectricity, so it does not leave a carbon footprint at all. It's just bitcoin mining in a responsible manner for the environment, and for our profitability.

vbit_tech · Follow

vbit_tech If you're intrigued, it's not too late to participate. But I wouldn't wait that long -- given how quickly this is progressing, the "test the waters" round could fill up soon.

vbit_tech Stay ahead of the curve and invest in the newest tech!

VBit DC has a direct line to Bitmain, the largest manufacturer of mining hardware. We are able to source hardware and expand our mining operations when others can't.

Anyone can reserve their shares at <https://buff.ly/2QJpkOK> via Wefunder!
