Volunteer experience

Advisory Board
Code to Inspire · Educating and empowering Afghan female students
Apr 2016 – Oct 2016 · 7 mos
Economic Empowerment

Code To Inspire establishes local programming labs for girls in Afghanistan starting from
(Herat, Kabul, Mazar-e Sharif). We provide a safe and secure place where the girls can learn,
communicate and enjoy being in an educational environment. It is free of charge to the
students to use our programming lab due to the family financial limitations in Afghanistan.
Besides providing the educational, technical and social curriculum, we will teach them how to
be a good leader and handle teamwork to increase their self-esteem and confidence.
