- Safe & Convenient
- Reliable & Flexible
- Affordable & Nationwide

INVEST IN PIGGYBACK NETWORK - YOUTH CARPOOL

We unite everyday driving families with other local families for safe and reliable youth carpool

LEAD INVESTOR

Tawana Rivers

As a serial investor I am excited to invest in Piggyback Network. Donald and Ish have built something pretty amazing here. I was drawn to this project in a very special way. The tech is solid but the community they are building is magical. I believe in Piggyback's mission and the tenacity of its Founders is admirable. They are energized and their vision is crystal clear. The partnerships they are building are focused and strategic. This is not just a carpooling company. This a company building that village for families that we've heard about and that we all need. Piggyback is well positioned for success.

Invested \$5,000 this round

Our Team

Ismael El-Amin CEO

Building PiggyBack is an amazing experience. As a father passionate about education I know first hand how important youth transportation options are to the development of our children and strength of our communities.

Donald Scott II CTO

The Universe conspires to my benefit and those around me. My goal has always been to lead by example. I am passionate about volunteering, supporting educators, and

to lead by example. I am passionate about volunteering, supporting educators, and unlocking opportunity for success by empowering our future leaders. Pura Vida.

A solution for busy people with active kids

What the Family Carpool Experience SHOULD BE.

PROBLEM

Hey hey! So....I gotta help my sister figure this transpiration issue out. She's concerned it may be out of her price range. Can you give me an idea of prices for after school carpool?

Today 9:36 AM

Hi. How can I help you?

hi i would like you to pick up my daughter to bring her to school

"parents need help!"

Who has afterschool transportation resources ? I am being proactive and have a 4th grader who will need consistent pickup from Elementary to Boys and Girls Club a few blocks away. If you know of anyone please let me know.

Half of U.S. schoolchildren rely on school buses to get to school, and a shortage of drivers is having a direct impact on attendance and learning. JEFF FAUGHENDER/USA TODAY NETWORK

Schools all over lack bus

i am new how much i have to pay you

What school does she attend

Every state is affected,
and it's hurting learning

PiggyBack reduces unnecessary stress due to overlapping meetings and transportation responsibilities. We've built a flexible and affordable incentivized carpool solution that enables people with children to use their time focused on anything other than the drop-off / pick-up lines.

PROBLEM

What does "I need help" cost?

Did you know that the 42 million families commuting every day represent a **\$30B opportunity** that has no marketplace?

Imagine having the ability to manage your ever changing work/meeting calendar and your children's activity schedule with a flexible, affordable carpool solution.

Many parents and guardians are spending upwards of 4 hours / day sitting in traffic and drop-off lines. In some cases, kids are restricted from attending the best schools and activities, or parents are stressed from the commute or missing meetings or have limited free (me) time.

Parents drive all over town. Parents would love to drive less miles. But in order to find more free time we'd have to: 1. Meet the neighbors. 2. Ask to share rides. 3. Think about a fair price. 4. Coordinate schedules. 5. Reciprocate.

MARKET

The global ride-hailing market will grow from **\$61.10 billion** in 2022 to **\$70.12 billion** in 2023 at a compound annual growth rate (CAGR) of **14.8%**. The ride-hailing market is expected to grow to **\$122.48 billion** in 2027 at a CAGR of **15.0%**.

<https://www.dobenevision.com/news/press/2023/02/16/2627927281.aspx?ride-hailing-global-market-report-2023-sector-to-reach-122-48-billion-by-2027-at-a-cagr-of-15.html>

PIGGYBACK Go To Market Partnerships

**forward looking projections not guaranteed*

Our first major goal is to be the premier household name for school and after-school transportation solutions at community service organizations and charter

schools around the country.

Our second major goal is to be the premier global household name for anyone looking for a youth transportation solution.

SOLUTION

We created an online marketplace of parents and guardians connecting local families that are already driving the same routes.

This section features three white circular icons on an orange background, each with a corresponding text description to its right:

- Driving members are background checked**: Icon shows a document with a checkmark.
- Matched members meet in person**: Icon shows two people sitting at a table.
- Members schedule affordable rides as needed**: Icon shows a calendar with a car icon.

Parents' Intuition

SAFETY - To drive, parents pass a national & local criminal background check, motor vehicle history check, and a check of the national sex offender registry. PiggyBack Network driving circles are closed group experiences. Parents choose who they will share the ride with.

PRODUCT

Community Marketplace

Parents use PiggyBack Network to **MATCH** with other parents going their same direction. Parents **MEET** in person and decide if they want to share the ride. Once in agreement then you begin to **SCHEDULE** rides. **Our pricing model** strives to make PiggyBack the most affordable and most impactful solution available.

NATIONAL GROWTH

Upcoming conversations happening in Tampa, Phoenix, and Boston

We are the only parent-driven rewards-based carpool solution immediately available to busy active families around the country - to our knowledge.

We are busy. Our kids are active. We are building PiggyBack Network for ourselves - we just happen to be willing to share it (because we need the network too!). We have experience building technology solutions for transportation, education, health-care, and now parenting logistics.

Equitable access to transportation supports 11 of the 17 **U.N. Sustainable Development Goals**. We are laser-focused on 3.

WHY

We envision a planet where families have transportation access to the schools and activities that are best for them.
