### Problem / Opportunity

01 There is no One-Stop shop to Browse & Book Pay-Per-Virtual Meetings with various types of Celebrities and Professionals.

02 Video chats such as Zoom, FaceTime, Skype, WhatsApp, etc... are individual user and App based.

03 App stores take 30% off top of each video meeting when using for pay-per-video chat.

04 It is inconvenient, confusing, & time-consuming downloading various apps.

05 Everyone is always seeking more convenience and eagerly seeking new revenue opportunities to replace an array of pandemic business & income losses.

06 MeetEm is perfectly positioned to provide new and lucrative revenue streams while providing a currently non-existence browser based virtual video convenience to end users.
