LEAD INVESTOR

Marc Williams

Howard is an enthusiastic, energetic leader who has developed a platform that will disrupt the market. He has spent his own money and time to develop a platform that is not speculative but is live and ready to grow. Business consulting and meet and greets are as old as the hills but, remarkably, Howard appears to be on the cutting edge by creating a video platform that is built into his site. That is important as MeetEm controls its own video destiny and is not beholden to third party video providers.

Invested \$2,500 this round & \$5,000 previously

Problem / Opportunity

01 There is no One-Stop shop to Browse & Book Pay-Per-Virtual Meetings with various types of Celebrities and Professionals.

04

It is inconvenient, confusing, & time consuming downloading various apps.

02 Video chats such as Zoom, FaceTime, Skype, WhatsApp, etc.. are individual user and App based.

05

Everyone is always seeking more convenience and eagerly seeking new revenue opportunities to replace an array of pandemic business & income losses.

03 App stores take 30% off top of each video meeting when using for pay-per video chat.

06 MeetEm is perfectly positioned to provide new and lucrative revenue streams while providing a currently non-existence browser based virtual video convenience to end users.
