Management

Experience

Founding Partner

Candide Group
Dec 2012 – Present · 9 yrs 1 mo
Oakland, CA

Candide Group designs capital strategies for a complex world in need of transformation. We do this primarily by building portfolios aligned with our clients' interests, and by helping them understand and execute on the world's most pressing needs as defined by those most directly affected. We also, as much as possible, work within the frame of the Transform Finance Principles—seeking to add more value than we extract with every investment, in projects that prioritize community participation in design, governance and ownership.
