The writer and director of the Picture is David LaRosa.

This Agreement is being offered by the Company to investors using the Wefunder Portal. Throughout this Agreement, Wefunder Inc., Wefunder Advisors, and Wefunder Portal will be referred to collectively as "Wefunder". Wefunder operates the websites known as "wefunder.com" and "xx.team" which facilitates securities offerings (the "Offerings") by early-stage start-up companies.

Wefunder provides certain documents to its users and Investors which are described in detail in the Wefunder Disclosure Statement; said Disclosure Statement and related documents are hereby incorporated by reference and made a part of this Agreement. Such documents are described by Wefunder as "Portfolio Company Information" and include but are not limited to Wefunder, Inc.'s Terms of Use, the Limited Liability Company Agreement, Series Appendix to the LLC Agreement, Indication of Interest, the Subscription Agreement, and the information on the Wefunder website about the Company. All of the aforementioned documents constitute the "Portfolio Company Information."

Company has engaged Wefunder as the intermediary for the Regulation Crowdfunding offering described herein. Wefunder is registered with the Securities and Exchange Commission (the “SEC”) as a funding portal and is a funding portal member of the Financial Industry Regulatory Authority.

Company has set a target offering amount of Two Hundred and Sixty Thousand (\$260,000) Dollars (“Target Amount”) and a maximum offering amount of Five Hundred Thousand \$500,000 Dollars (“Maximum Amount”). The Parties understand and agree that there are no guarantees that Company shall obtain the Target Amount as explained in detail below. In addition, there is no requirement that Company reach the Maximum Amount and no penalty in the event it does not do so.

In consideration of the foregoing and based upon the mutual covenants set forth in this Agreement between Company and Investor, the parties hereby agree to the following terms and conditions:

1. Investment. Investor wishes to participate in this Regulation Crowdfunding Offering using the Wefunder Portal. Investor agrees to make an investment in the Picture in the amount set forth on the signature page of this Agreement (“Investment Amount” or “Investment”), which Investment Amount shall be applied toward the production of, and if funds remain, the marketing and distribution of, the Picture. Investor shall make payment for the aforementioned Investment Amount to Company through the Wefunder Portal upon Company’s satisfaction of the Conditions Precedent as defined herein below.
 - a. Conditions Precedent. The Investor shall pay the Investment Amount as described in this Agreement provided that: (1) the minimum production budget for the Picture is received (specifically, the Target Amount of \$260,000.00), and (2) signed Agreements from other investors in the aggregate amount of at least \$260,000.00 (less the Investment Amount) are obtained.
 - b. Investor understands that if Company cannot, for any reason, obtain the necessary funding to meet the Target Amount, Investor’s contribution shall not be required and Investor shall have no interest whatsoever in the Picture now or in the future.
 - c. First Priority Investors. First Priority Investors is defined as any individual who has made an investment in this Offering using the Wefunder Portal.
 - d. Second Priority Investors. Second Priority Investors is defined as individuals who invest money with Company in connection with the Picture after the completion of a successful Wefunder raise, including but not limited to “in-kind” services, if any, which may be rendered to the Picture (ie. post-production editing, color, or sound mixing services) accepted on the same terms as they would be for cash. Company, within its sole discretion, shall have the right but shall not be obliged to accept investments on an “in-kind” basis in connection with the Picture without the written consent of Investors.
 - e. Early Bird Investors. Investors who contribute to the first \$100,000 of Investor Funds (the “Early Bird Investor Funds”) in the Wefunder Offering that is

contemplated by this Agreement (“Offering”) will be designated as Early Bird Investors.

- f. Investor understands that this Agreement shall not become effective unless and until the Investment Amount is paid in full to the Company pursuant to the terms hereof.

2. Production Budget.

- a. Company’s estimate of the Picture’s production budget as of the date hereof has been provided as part of the Portfolio Company Information. It is understood and agreed by the Parties that Company may adjust the production budget to accommodate for enhancements, budgetary increases, overages, additional expenses, and/or contingencies in connection with the completion of the Picture.
- b. The final budget will be determined by Company in its sole discretion.

3. The Company.

- a. The Company is a limited liability company that was formed in accordance with the laws of the State of New Jersey and has the authority and power to conduct its business as currently being conducted and to enter into this Agreement.
- b. All payments made by Investor pursuant to this Agreement shall be deposited in the Company’s (or its designee’s) production account at a financial institution to be designated by Company in Company sole discretion.
- c. The Company is managed by managers, not members. Therefore, the management of Company is vested exclusively with and solely in the Managers of the Company. Investor will have no right to participate in the management of the Company.
- d. The Investor shall not have any voting rights and shall not have any active participation role in the Company, the Picture, or the business of the Company. The Investor shall be a “passive investor” of the Company. The Company has an Operating Agreement in effect, and, in the event of any conflict between the Operating Agreement of the Company and this Agreement, the terms of this Agreement shall prevail.
- e. The Company has been organized solely for the purposes of developing, producing, and exploiting the Picture.

4. The Picture. (a) The Company shall be responsible for the development, production, distribution, marketing, advertising, sales and exploitation of the Picture. Company shall have the right to have the Picture exploited in any manner and in any and all media as the Company in its sole discretion shall determine. However, Company will not have the financial capability to distribute the Picture itself. Accordingly, Company shall endeavor to arrange for third parties to distribute and/or exploit the Picture. Funds received by the Company with respect to the distribution and/or other exploitation of the Picture shall be deposited into the Company’s (or its designee’s) bank account and shall be distributed in accordance with the terms of this Agreement.

(b) The Parties acknowledge, agree and understand that that the current Covid-19 pandemic may impact the production schedule and any such impact may be deemed an event of Force Majeure in the Company’s sole discretion.

(c) The Parties acknowledge that while there is presently a Letter of Intent for distribution of the Picture, there is presently no agreement with any distributor to distribute the Picture. The success of the Picture is dependent upon the Company's ability to complete the Picture, the attractiveness of the final product to a distributor, and a distributor's willingness to commit substantial sums to promote the Picture successfully. The gross revenue derived from the Picture is dependent, among other things, upon the interest of distributors and their ability to obtain suitable distribution via theatrical, television, home video, streaming, and/or other media, and in selecting proper release dates and appropriate advertising and promotion for the Picture. The negotiation of final distribution agreements, which frequently occurs (if at all) near the time of completion of motion pictures, will have a substantial impact upon the amount of receipts available to the Company from the exploitation of the Picture. There is no assurance that such negotiations will result in revenues or profits to the Company. Furthermore, although the Company has agreed to use commercially reasonable efforts to cause the Picture to be distributed, there is no assurance that the Picture will be distributed or that such distribution will be profitable to the Company. The fact that any distributor derives profits from its own distribution of the Picture will not, in turn, assure that the Company will also derive profits therefrom.

- d. Then, the Early Bird Investors, the First Priority Investors and the Second Priority Investors shall receive their proportionate share of one hundred (100%) percent of the remaining amounts of Adjusted Gross Proceeds on a *pari passu* basis with each other until the Early Bird Investors have recouped an amount equal to thirty (30%) percent of the Early Bird Investor Funds; the First Priority Investors have recouped an amount equal to twenty-five (25%) percent of the First Priority Investment; and the Second Priority Investors have recouped an amount equal to twenty-five (25%) percent of the Second Priority Investment;

Exhibit A To Investor Agreement

Risk Factors

The business of Company is to finance, produce and exploit the Picture and the ancillary rights therein held by Company. Company hereby discloses and Investor hereby acknowledges the following risk factors related to the business of Company and investment made by Investor which include but are not limited to: (1) the risk of loss is high in such ventures in comparison with the prospects for any profit, and, therefore investment in the Company is suitable only for those investors who do not require liquidity in their investment; (2) the production of the Picture by Company is an entirely new and speculative venture and it is impossible to project or predict whether the Investment will result in a gain or loss to the investors, and, therefore **ANY POTENTIAL INVESTOR PARTY TO THE AGREEMENT SHOULD NOT INVEST IN THE PICTURE UNLESS SUCH PARTY IS PREPARED FOR THE POSSIBILITY OF TOTAL LOSS OF THE INVESTMENT**; (3) the success of a film in theatrical distribution, television, home video and other ancillary markets is dependent upon public taste which is unpredictable and susceptible to change; and (4) the success of a film may also be significantly affected by the number and popularity of other films being distributed, and, therefore the success of a motion picture is impossible to predict and absolutely no assumptions should be made respecting the ultimate economic results which may be realized by the Picture. In addition to the aforementioned, the risks of an investment in the Company and in connection with the Picture include, without limitation, the following:

(a) Speculative Nature of the Business. The business of the production and exploitation of motion pictures is highly speculative and has historically involved substantial risks. The costs to produce a motion picture are often miscalculated and may be increased by factors beyond the control of its producer. The ultimate profitability of any motion picture depends upon its audience appeal in relation to its cost of production and distribution. Audience appeal, in turn, depends upon unpredictable critical reviews and changeable public taste, among other things, which cannot be readily ascertained in advance. Based upon available information, a majority of completed motion pictures fail to generate sufficient revenues to recover their cost of production and distribution. Accordingly, there can be no assurance that Company will exploit the Picture so as to enable the Company to recoup all or any portion of its Investment or to yield a profit on its Investment. Furthermore, until the completion of post-production and the sale of the Picture to a distributor, it is unlikely that the Company will derive any revenues from the Picture. In addition, the Company cannot predict the timing or amount of revenues, if any, it may derive from the exploitation of the Picture.

(b) Risks of Motion Picture Production. There are significant risks involved in the production of any motion picture, many of which may materially delay completion of the Picture or make completion impossible. If the Picture is not completed, no revenues will be derived from the Picture. Such risks include, but are not limited to, production costs exceeding available funds, labor disputes, death or disability of key talent or other key personnel, equipment difficulties, destruction of completed film negatives or unanticipated adverse weather conditions. The occurrence of any such event may cause delays and increase production costs and may have a material adverse effect upon the Investment. These or similar events are beyond the control of Investor and/or the Company. To the extent that contributions to the capital of Company are insufficient to cover all production costs of the Picture, Company will make every attempt to raise additional funding or mitigate the issue. In the event the Company cannot raise additional funds, all such contributions may be lost.

(c) Competition. Company intends to engage in a highly competitive business and therefore the Investment contains a high degree of risk. Competition is encountered in different phases of the production and exploitation of a motion picture. In the production phase of the Picture, competition may have a material effect on the employment and cost of personnel. After the completion of its production, the Picture will, upon its distribution, be competing with other motion pictures and, indirectly, with other forms of public

entertainment. Such competition in the phases of the production and exploitation of the Picture may have a material adverse impact on the Investor's Investment. Many companies involved in the production and exploitation of motion pictures have, from time to time, encountered financial difficulties, which reflect the highly competitive character of, and adverse development in, the motion picture industry as well as the unpredictability of public reaction to motion pictures.

(d) Lack of Diversification. The Company is formed solely for the purpose of developing, producing and exploiting the Picture. Therefore, the financial performance of the Company is solely dependent upon the success of its Picture. In addition, the financial performance of the investment in Company is dependent upon the ability of Company to complete the Picture in a timely and cost-effective manner, the ability of Company to obtain successful theatrical distribution of the Picture and the ultimate audience appeal of the Picture if and when completed.

(e) Risk of Motion Picture Distribution. Distribution of films requires specialized marketing expertise and considerable financial resources. Company will be dependent on a distributor for this marketing expertise and for providing funds for prints and advertising. Without the participation of a distributor, there is little likelihood that significant revenues from any source will be realized. The participation of a distributor does not, however, guarantee that the distribution will be successful or that substantial revenues will be realized therefrom.

(f) Changes in the Film Industry. Technological developments have resulted in the availability of alternative distribution mediums for film entertainment, including expanded pay and cable television and videocassettes, DVDs and digital technologies. These alternative distribution mediums typically have different revenue allocation arrangements from one another and such allocation arrangements often vary over time. In recent years, revenues from licensing of films to network television have decreased, revenues from pay television initially increased substantially, then leveled and have recently begun to fall, and revenues from videocassettes and DVDs and digital platforms have increased significantly while being generated by a smaller group of major titles. Generally, however, the level of theatrical success remains a critical factor in generating revenues in these ancillary markets.

(g) Management. Other than as set forth in the Agreement, the investors will not have a right to participate in the management of the business of the Company. Accordingly, no prospective investor should invest unless he or she is willing to entrust all aspects of management to the Company.

(h) Federal Income Tax Consequences. The Company has not been structured to provide tax benefits to investors, and an investment in the Company should not be based on the expectation that tax benefits will accrue therefrom.
