John Silvestri

Founding Partner of Gamma Technologies, Inc.
Schaumburg, Illinois, United States

Experience

Self-Employed

Private Investor

August 2016 - Present (7 years 8 months)

Prosper, Texas, United States

Proud to have been even a small part of building the finest system level CAE multi-physics simulation tool available. After 22 years at GT, moving on to chase new challenges. It was an amazing honor to work with the incredible team at GT for all these years. Thanks to all the GT customers who inspired and challenged me individually, and GT collectively, to push the limits of what a system simulation could do. It was my great honor to work with you.

Gamma Technologies, Inc

Principal Engineer, Vice President

July 1994 - July 2016 (22 years 1 month)

Westmont, IL
