Once they accept the invitation, here is the follow-up message they will get.

Hi %%first_name%%,

Thank you for connecting. If you have time, I'd love to talk with you about your longevity / medical practice. My company has developed [AgeMeter®, the world's only credible, noninvasive functional age test](#) that I believe would work really well with your practice.

Would you have 15 minutes for a quick call?

I'd love to introduce you to AgeMeter, also learn more about the challenges you face with your patients and healthcare technology. It will help us as we continue to release new versions of our product. At AgeMeter®, our goal is to improve the quality life for aging adults by bringing reliable functional age testing to medical practices such as yours. Doctors can also earn up to \$200k additionally per year by following our model. You can learn more about our model here: <https://agemeter/for-medical-practices/>

Please let me know. And thanks again for the connection!

Best regards,

EMAIL 1: CHECK IN

Subject line: Check in, Elliott Small + Dr. [Last-Name] For a Quick Call

Hi Dr. [Last-Name],

I've been sending a few emails about both [AgeMeter®](#) – the world's leading **functional age test** – and our efforts to raise additional capital through our partner, Wefunder (<https://wefunder.com/agemeter>). I wanted to reach out to see if you had any questions about our functional age test or our company.

If you do, simply reply “yes” and suggest some times that are good for you. I'd love to hear more about your practice and how we might be able to help.

As the founder of the company, we're proud of how we've helped longevity doctors and preventative care physicians around the world better monitor their patients' health. We think we can help your practice too. Feel free to call me anytime at 702-576-1717, or you can email me at elliott@centersforagecontrol.com.

Sincerely,

Elliott Small

CEO, AgeMeter

Hello \${FNAME|Customer|Guest}\$,

I have selected your name from my contacts file because you are a relative, friend, or business contact. My company, Centers for Age Control (AgeMeter), is among a select group to appear on Wefunder: <https://wefunder.com/agemeter>, as we're in the process of raising money via the SEC-regulated equity crowdfunding guidelines. The opportunity is for both small and large investors in amounts as low as \$100.

We're excited about the prospects for the company, as well as for aging reversal. Institutions such as my alma mater, Harvard University, have discovered methods to restore vitality to those who have already aged. And AgeMeter is uniquely positioned to help measure such aging reversal as we are the sole, credible functional age test in the market.

This might be the one of the few opportunities for an African-American owned company to become a major part of major ground floor industry. I look forward to hearing what you think, either by your participation on <https://wefunder.com/agemeter>, or if you decide to contact me directly.

Sincerely,

Elliott
