**Local restaurants
keep 100%
of their profits.**

No commissions, whatsoever.

**DoorDash, UberEats,

Charge 15% - 40% in commissions
which eat into local restaurants razor
thin profit margins.

Convince restaurants to increase
their menu item prices to offset
the burden of these commissions.

Charge unnecessary fees to customers
thus increasing the total cost
of a simple delivery.

Customers have no choice but to tip low
b/c the fees eat into their generosity.

Delivery drivers do all the work
and barely walk away with anything
for the effort.
