(D) The Company’s Business and Business Plan

Our Story

Our founder, Shinobu Kato, had a problem when he moved to the US from Tokyo. He loved cooking, entertaining friends, and hosting parties, but was never able to find a good sake to serve for these various occasions.

- Shinobu began home brewing sake in 2014. After several successful batches, his friends started asking to buy a bottle of “Shinobu’s Sake.”
- Kato Sake Works opened its doors in April 2020. Despite the challenging start with the pandemic and lockdown, KSW achieved steady growth thanks to the supportive local community in Bushwick.
- After a year and a half of operation, KSW's current 500 square foot space has reached its maximum capacity, selling out all the sake they make.
- KSW has 25 active wholesale accounts and now has to turn down all new account requests. There are 15 on the waitlist.
- KSW is one of the only two craft sake breweries in NY and about 25 in the US.

Our Vision

Kato Sake Works offers local sake enjoyed genuinely. We are the neighborhood brewery that bridges cultures and reshapes the sake experience.

- The Katos’ vision is to build a destination for quality craft sake with a brewery culture and

casual atmosphere, as well as a place where conversations around art, food, drink and Japanese culture could be shared and enjoyed.

- The current 500 square foot brewery produces approximately 800 bottles per month. About 70% of sales come from in-store customers purchasing bottles of sake and the remaining 30% of sales comes from 25 wholesale accounts (restaurants, bars and wine & spirits retail stores), mainly in Northern Brooklyn.
- The brewery has garnered 5-star reviews on Google and Yelp with very positive customer reviews even though we have never been able to offer "real" taproom service due to the pandemic and space constraint.

Intended Use of Funds

KSW is ready for its next level of growth. The plan is to invest in building out a larger space with new equipment and fermentation tanks.

- The new 2,500 square foot facility will have 10x existing production by month 12 in operation.
- Increased production will allow KSW to service demand throughout Brooklyn and venture further into Manhattan.
- The space will also have a 500 square foot taproom with seated bar service as well as a retail space.
- Construction (tenant improvements), soft costs, equipment, initial inventory, and operating capital cushion at an estimated cost of \$1,000,000

Location and The Space

KSW has secured a 2,500 sq ft space at 379 Troutman St. in Brooklyn, the northern end of Bushwick bordering with East Williamsburg.

- The new space is located one block from the Jefferson St. subway station on the L Train.
- Bushwick is a thriving neighborhood in Northeast Brooklyn that is home to over 100,000 residents and known for its vibrant art scene.
- Bushwick and East Williamsburg are home for craft beverage producers, including Kings County Brewers Collective (KCBC), Non Sequiter Beer Project, Interboro Spirits & Ales, Grimm Artisanal Ales, Moto Spirits Distillery, and Enlightenment Wines Meadery.

The Team

Shinobu Kato, Founder & Brewer

Shinobu Kato, Founder and Master Brewer of Kato Sake Works, was born and raised in Koenji, a culturally rich and dynamic neighborhood in Tokyo, Japan. After 5 years working with Softbank, a Japanese Tech conglomerate, he came to the US and earned his MBA at the University of Maryland in 2004. Upon graduating, he accepted a position working in the IT Department at Nissan in Nashville, Tennessee where he led a 30-person team of global software engineers to deliver and implement solutions around Nissan's ever-changing technology needs. His career at Nissan spanned 10 years, including a two-year assignment in Chennai, India to train and build an offshore software team.

As Shinobu's career grew, so did his palate for sake -- it was his connection to home. He came to know the joy that a perfectly selected sake can bring to a busy day. He immersed himself in sake culture and explored a range of varietals. Eventually, Shinobu left the corporate world and moved to NYC to build Kato Sake Works in 2016.

He and his wife, Ayako, live in Bushwick. When he's not brewing sake, Shinobu enjoys cooking, DIY'ing and wring code. Backpacking and road trips are his favorite ways to relax between making batches of sake.

Explanation

A “material change” means a change that an average, careful investor would want to know about before making an investment decision. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	2.4 - 6.0% ²
Payment Deadline	2028-10-01
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.7 x 1.5 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	1.26%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 2.4% and a maximum rate of 6.0% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$100,000	2.4%
\$137,500	3.3%
\$175,000	4.2%
\$212,500	5.1%
\$250,000	6.0%

³ To reward early participation, the investors who contribute the first \$50,000.0 raised in the offering will receive a 1.7x cap. Investors who contribute after \$50,000.0 has been raised in the offering will receive a 1.5x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	N/A
How these securities differ from the revenue sharing notes being offered to investors	Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Shinobu Kato	100%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

Upon successful funding of the Offering, the Funding Portal will receive as the "Revenue Securement Fee"; 3.0% of the amount of the Offering raised by First Time Users of the Platform plus 9.0% of the amount of the Offering raised by all other investors. "First Time Users" means a user of Mainvest.com who became a user only after the Offering was publicly listed on the Site.

(P) Indebtedness of the Company

Creditor	Amount	Interest Rate	Maturity Date	Other Important Terms
