## **RISK FACTORS**

*Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.*

### **Risks Related to the Company's Business and Industry**

***We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.***

The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably on a consistent basis or be able to grow our business. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

***Global crises, such as COVID-19, can have a significant effect on our business operations and revenue projections.***

The Company's revenue was adversely affected in 2020 related to the COVID-19 crisis. Supply chain issues created challenges for the Company, particularly in regards to sourcing bottles for its products. Conditions have eased in 2021. If another significant outbreak of COVID-19 or another contagious disease were to occur, we may lose a significant portion of our revenue.

In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, including the United States where we principally operate, resulting in an economic downturn that could reduce the demand for our products and services and impair our business prospects, including as a result of being unable to raise additional capital on acceptable terms to us, if at all.

***The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.***

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

***We may face potential difficulties in obtaining capital.***

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with our Company and present and future market conditions. Our business currently has limited sales and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

***We may implement new lines of business or offer new products and services within existing lines of business.***

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

***We rely on other companies to provide components and services for our products.***

We depend on suppliers and contractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or contractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide components which meet required specifications and perform to our, and our customers', expectations. Our suppliers may also be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two contractors or suppliers for a particular component. Our products may utilize custom components available from only one source. Continued availability of those components at acceptable prices, or at all, may be affected for any number of reasons, including if those suppliers decide to concentrate on the production of common components instead of components customized to meet our requirements. The supply of components for a new or existing product could be delayed or constrained, or a key manufacturing vendor could delay shipments of completed products to us adversely affecting our business and results of operations.

***We rely on various intellectual property rights, including trademarks, in order to operate our business.***

The Company relies on certain intellectual property rights to operate its business. The Company's intellectual property rights may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our intellectual property rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

***The Company's success depends on the experience and skill of its executive officers and key employees.***

We are dependent on our executive officers and key employees. These persons may not devote their full time and attention to the matters of the Company. The loss of any or all of our executive officers and key employees could harm the Company's business, financial condition, cash flow and results of operations.

***Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people.***

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

***In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.***

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management and other personnel to develop additional expertise. We face intense competition for personnel, making recruitment time-consuming and expensive. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us, which could further delay or disrupt our product development and growth plans.

***We need to rapidly and successfully develop and introduce new products in a competitive, demanding and rapidly changing environment.***

To succeed in our intensely competitive industry, we must continually improve, refresh and expand our product and service offerings to include newer features, functionality or solutions, and keep pace with changes in the industry. Shortened product life cycles due to changing customer demands and competitive pressures may impact the pace at which we must introduce new products or implement new functions or solutions. In addition, bringing new products or solutions to the market entails a costly and lengthy process, and requires us to accurately anticipate changing customer needs and trends. We must continue to respond to changing market demands and trends or our business operations may be adversely affected.

***The development and commercialization of our products is highly competitive.***

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products and thus may be better equipped than us to develop and commercialize products. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products will achieve initial market acceptance, and our ability to generate meaningful additional revenues from our products.

***Industry consolidation may result in increased competition, which could result in a loss of customers or a reduction in revenue.***

Some of our competitors have made or may make acquisitions or may enter into partnerships or other strategic relationships to offer more comprehensive services than they individually had offered or achieve greater economies of scale. In addition, new entrants not currently considered to be competitors may enter our market through acquisitions, partnerships or strategic relationships. We expect these trends to continue as companies attempt to strengthen or maintain their market positions. The potential entrants may have competitive advantages over us, such as greater name recognition, longer operating histories, more varied services and larger marketing budgets, as well as greater financial, technical and other resources. The companies resulting from combinations or that expand or

vertically integrate their business to include the market that we address may create more compelling service offerings and may offer greater pricing flexibility than we can or may engage in business practices that make it more difficult for us to compete effectively, including on the basis of price, sales and marketing programs, technology or service functionality. These pressures could result in a substantial loss of our customers or a reduction in our revenue.

***Damage to our reputation could negatively impact our business, financial condition and results of operations.***

Our reputation and the quality of our brand are critical to our business and success in existing markets and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

***We have not prepared any audited financial statements.***

The financial statements attached as Exhibit A to this Form C have been “reviewed” only and such financial statements have not been verified with outside evidence as to management’s amounts and disclosures. Additionally, tests on internal controls have not been conducted. Therefore, you will have no audited financial information regarding the Company’s capitalization or assets or liabilities on which to make your investment decision.

***Our business could be negatively impacted by cyber security threats, attacks and other disruptions.***

We may face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including “bugs” and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

***Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.***

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers’ or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

***The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.***

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

***The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.***

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

***Changes in federal, state or local laws and government regulation could adversely impact our business.***

The Company is subject to legislation and regulation at the federal and local levels and, in some instances, at the state level. New laws and regulations may impose new and significant disclosure obligations and other operational, marketing and compliance-related obligations and requirements, which may lead to additional costs, risks of non-compliance, and diversion of our management's time and attention from strategic initiatives. Additionally, federal, state and local legislators or regulators may change current laws or regulations which could adversely impact our business. Further, court actions or regulatory proceedings could also change our rights and obligations under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

***We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.***

We are also subject to a wide range of federal, state, and local laws and regulations. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we may incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

## **Risks Related to the Offering**

***State and federal securities laws are complex, and the Company could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.***

The Company has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to

offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Company would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such investors a rescission right, have sufficient funds to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

***The Company could potentially be found to have not complied with securities law in connection with this Offering related to "Testing the Waters".***

Prior to filing its Form C, the Company engaged in "testing the waters" permitted under Regulation Crowdfunding (17 CFR 227.206), which allows issuers to communicate to determine whether there is interest in the Offering. All communication sent is deemed to be an offer of securities for purposes of the antifraud provisions of federal securities laws. Any Investor who expressed interest prior to the date of this Offering should read this Form C/A thoroughly and rely only on the information provided herein and not on any statement made prior to the Offering. The communication sent to Investors prior to the Offering is attached as Exhibit E. Some of these communications may not have included proper disclaimers required for "testing the waters".

***The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.***

You should not rely on the fact that our Form C/A is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C/A, nor any document or literature related to this Offering.

***Neither the Offering nor the Securities have been registered under federal or state securities laws.***

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C/A and the accompanying exhibits.

***The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.***

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

***The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.***

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

***The Company has the right to extend the Offering Deadline.***

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even

after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

***The Company may also end the Offering early.***

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

***The Company has the right to conduct multiple closings during the Offering.***

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on seventy percent (70%) of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

**Risks Related to the Securities**

***The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.***

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

***Investors will not have voting rights, even upon conversion of the Securities and will grant a third-party nominee broad power and authority to act on their behalf.***

In connection with investing in this Offering to purchase a Crowd SAFE (Simple Agreement for Future Equity) investors will designate Republic Investment Services LLC (f/k/a NextSeed Services, LLC) (“Nominee”) to act on their behalf as agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of a Crowd SAFE or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Crowd SAFE, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Crowd SAFE. Thus, by participating in the Offering, investors will grant broad discretion to a third party (the Nominee and its agents) to take various actions on their behalf, and investors will essentially not be able to vote upon matters related to the governance and affairs of the Company nor take or effect actions that might otherwise be available to holders of the Crowd SAFE and any securities acquired upon their conversion. Investors should not participate in the Offering unless he, she or it is willing to waive or assign certain

rights that might otherwise be afforded to a holder of the Crowd SAFE to the Nominee and grant broad authority to the Nominee to take certain actions on behalf of the investor, including changing title to the Security.

***Investors will not become equity holders until the Company decides to convert the Securities into “CF Shadow Securities” (the type of equity securities issuable upon conversion of the Securities) or until there is a change of control or sale of substantially all of the Company’s assets.***

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities into CF Shadow Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities. In certain instances, such as a sale of the Company or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company. Further, the Investor may never become an equity holder, merely a beneficial owner of an equity interest, should the Company or the Nominee decide to move the Crowd SAFE or the securities issuable thereto into a custodial relationship.

***Investors will not have voting rights, even upon conversion of the Securities into CF Shadow Securities.***

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities (the occurrence of which cannot be guaranteed). Upon such conversion, the CF Shadow Securities will have no voting rights and, in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders or the party holding the CF Shadow Securities on behalf of the Investors are required to enter into a proxy agreement with its designee to vote their CF Shadow Securities with the majority of the holder(s) of the securities issued in the round of equity financing that triggered the conversion right. For example, if the Securities are converted in connection with an offering of Series B Preferred Stock, Investors would directly or beneficially receive CF Shadow Securities in the form of shares of Series B-CF Shadow Preferred Stock and such shares would be required to be subject to a proxy that allows a designee to vote their shares of Series B-CF Shadow Preferred Stock consistent with the majority of the Series B Preferred Stockholders. Thus, Investors will essentially never be able to vote upon any matters of the Company unless otherwise provided for by the Company.

***Investors will not be entitled to any inspection or information rights other than those required by law.***

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

***Investors will be unable to declare the Security in “default” and demand repayment.***

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

***The Company may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.***

The Company may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly

illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

***Equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.***

The Company's equity securities will be subject to dilution. The Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's control and economic interests in the Company.

The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

In addition, the Company has certain equity grants and convertible securities outstanding. Should the Company enter into a financing that would trigger any conversion rights, the converting securities would further dilute the equity securities receivable by the holders of the Securities upon a qualifying financing.

***Equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Company at the time of conversion.***

In the event the Company decides to exercise the conversion right, the Company will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the First Equity Financing Price (as defined in the Crowd SAFE agreement) shall have only such preferences, rights, and protections in proportion to the First Equity Financing Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Company may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

The foregoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Crowd SAFE agreement, which is attached as Exhibit C.

***There is no present market for the Securities and we have arbitrarily set the price.***

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the Offering price or at any other price.

***In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.***

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. Neither holders of the Securities nor holders of CF Shadow Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

*While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.*

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

*There is no guarantee of a return on an Investor's investment.*

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C/A and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

**IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C/A, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.**

## Customer Base

Our customer base are women and men between the ages of 35-55 years who are actively looking for non-chemical, non-surgical means of combating hair loss and other hair related issues. Covid-19 has increased CRIA's desirability to the general population as many Covid-19 patients suffer hair loss and CRIA's minimalist, body-affirming hair care formula is not just unique but the most suitable offering during this global current health and wellness crisis.

## Supply Chain

Although the Company is dependent upon certain third-party vendors, the Company has access to alternate service providers in the event its current third-party vendors are unable to provide services or any issues arise with its current vendors where a change is required to be made. The Company does not believe the loss of a current third-party vendor or service provider would cause a major disruption to its business, although it could cause short-term limitations or disruptions.

We must raise an amount equal to or greater than the Target Offering Amount by April 22, 2022 (the “**Offering Deadline**”). Unless we receive investment commitments, which are fully paid for and meet all other requirements set by this Offering, in an amount not less than the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be cancelled and all committed funds will be returned. Potential purchasers of the Securities are referred to herein as “**Investors**” or “**you**”.

In addition to the Offering, the Company intends to concurrently undertake to raise up to an additional \$500,000 by offering to sell up to \$500,000 in capital stock or debt instruments to accredited investors outside of this Offering (the “**Concurrent Offering**”). No investors in this Offering, or potential investors who learned of the Company as a result of this Offering, will be permitted to invest in the Concurrent Offering.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities. The minimum amount that an Investor may invest in the Offering is \$100 and the maximum amount that an Investor may invest in the Offering is \$250,000, each of which is subject to adjustment in the Company’s sole discretion.

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by OpenDeal Portal LLC dba Republic (the “**Intermediary**”), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with Prime Trust, LLC until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline, or such earlier time as the Company designates pursuant to Regulation CF, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds.**

The Company will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Company reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Company continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

### Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor’s investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If an Investor does not cancel an investment commitment before the Target Offering Amount is reached, the funds will be released to the Company upon the closing of the Offering and the Investor will receive the Securities in exchange for their investment.

## **Intermediate Closings**

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Company designates pursuant to Rule 304(b) of Regulation CF, the Company may conduct the first of multiple closings of the Offering early, *provided* (i) the new early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments). Investors who committed as of the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such early closing date.

If the Company conducts an initial closing (the “**Initial Closing**”), the Company agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Company may only conduct another close (a “**Subsequent Closing**”) before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Company upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Company has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Company until they are accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Company rejects all or a portion of any investment commitment, the applicable prospective Investor’s funds will be returned without interest or deduction.

### ***Transfer Agent and Registrar***

The Company will act as transfer agent and registrar for the Securities.

### ***Not Currently Equity Interests***

The Securities are not currently equity interests in the Company and merely provide a right to receive equity at some point in the future upon the occurrence of certain events.

### ***Dividends***

The Securities do not entitle Investors to any dividends.

## ***Nominee***

The nominee of the Securities shall be Republic Investment Services LLC (the “Nominee”). The Nominee will act on behalf of the Investors as their agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of Securities or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Securities. The Nominee will take direction from a pre-disclosed party selected by the Company and designated below on any matter in which affects the Investors’ economic rights. The Nominee is not a fiduciary to the Investors and the Investors agree to indemnify the Nominee per the terms of the Security.

## ***Conversion***

Upon each future equity financing resulting in proceeds to the Company of not less than \$1,000,000 (each an “**Equity Financing**”), the Securities are convertible at the option of the Company, into CF Shadow Securities, which are non-voting securities otherwise identical to those issued in such future Equity Financing except (1) they do not provide the right to vote on any matters except as required by law, (2) they require Investors to vote in accordance with the majority of the investors purchasing securities from the Company in such Equity Financing with respect to any such required vote and (3) they do not provide any inspection or information rights (other than those contemplated by Regulation CF or otherwise required by law). The Company has no obligation to convert the Securities in any Equity Financing.

### **Conversion Upon the First Equity Financing**

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the “**Purchase Amount**”) by (a) or (b) immediately below (the “**Conversion Price**”):

(a) the quotient of \$4,000,000 divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “**Safes**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes;

OR

(b) if the pre-money valuation of the Company immediately prior to the First Equity Financing is less than or equal to the Valuation Cap, the lowest price per share of the securities sold in such Equity Financing.

Such Conversion Price shall be deemed the “**First Equity Financing Price**”.

### **Conversion After the First Equity Financing**

If the Company elects to convert the Securities upon an Equity Financing other than the first Equity Financing following the issuance of the Securities, at the Nominee's discretion, the Investor will receive the number of CF Shadow Securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Equity Financing Price.

If there are not enough funds to pay the Investor and holders of other Crowd SAFEs that failed to act as required herein (collectively, the “**Cash-Default Investors**”) in full, then all of the Company’s available funds will be allocated with equal priority and pro rata among the Cash-Default Investors to claim in proportion to their Purchase Amounts.

#### Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of the Company undergoing an IPO (as defined below) of its Capital Stock or a Change of Control (as defined below) of the Company (either of these events, a “**Liquidity Event**”) prior to any Equity Financing, the Investor will receive, at the option of the Nominee and within thirty (30) days of receiving notice (whether actual or constructive), either (i) a cash payment equal to the Purchase Amount subject to the following paragraph (the “**Cash Out Option**”) or (ii) a number of shares of Common Stock of the Company equal to the Purchase Amount divided by the quotient of (a) \$4,000,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company’s capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (x) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (y) any Safes; (z) convertible promissory notes; and (aa) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes.

In connection with the Cash Out Option, the Purchase Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and the holders of other Safes (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

“**Change of Control**” as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

“**IPO**” means: (A) the completion of an underwritten initial public offering of Capital Stock by the Company pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Company to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; or (B) the Company’s initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Company with the SEC that registers shares of existing capital stock of the Company for resale, as approved by the Company’s board of directors, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Capital Stock of the Company.

#### Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor will receive, at the option of the Nominee and within thirty (30) days of receiving notice (whether actual or constructive), either (i) the Cash Out Option or (ii) a number of shares of the most recently issued capital stock equal to the Purchase Amount divided by the First Equity Financing Price. Shares of capital stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of capital stock issued in connection with the Company’s most recent Equity Financing.

If there are not enough funds to pay the Investors and the other Cash-Out Investors in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

If the Company’s board of directors (or other applicable governing body if the Company is a limited liability company) determines in good faith that delivery of equity securities to the Investor pursuant to Liquidity Event paragraphs above would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such capital stock, as determined in good faith by the Company’s board of directors (or other applicable governing body if the Company is a limited liability company).

### ***Dissolution***

If there is a Dissolution Event (as defined below) before the Securities terminate, subject to the preferences applicable to any series of preferred stock then outstanding, the Company will distribute all proceeds legally available for distribution with equal priority among the (i) holders of the Securities (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company's board of directors at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) all holders of Common Stock.

A “**Dissolution Event**” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company's creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

### ***Termination***

The Securities terminate upon (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur of: (i) the issuance of shares in the CF Shadow Securities to the Investor pursuant to the conversion provisions of the Crowd SAFE agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

### ***Voting and Control***

Neither the Securities nor the securities issuable upon the conversion of the Securities have voting rights. In addition, to facilitate the Offering to Crowd SAFE Investors being able to act together and cast a vote as a group, to the extent any securities acquired upon conversion of the Securities confer the holder with voting rights (whether provided by the Company's governing documents or by law), the Nominee (as defined above) will act on behalf of the holders as agent and proxy in all respects. The Nominee will vote consistently at the direction of the Chief Executive Officer of the Company.

The Company does not have any voting agreements in place.

The Company does not have any shareholder or equity holder agreements in place.

### ***Anti-Dilution Rights***

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that the Investor may eventually have in the Company.

### ***Restrictions on Transfer***

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Company; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. “Member of the family” as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any capital stock into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel reasonably satisfactory to the Company stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any capital stock into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

***Other Material Terms***

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

## **COMMISSION AND FEES**

At the conclusion of the Offering, the issuer shall pay a fee of six percent (6%) of the amount raised in the Offering to the Intermediary.

### **Stock, Warrants and Other Compensation**

The Intermediary will also receive compensation in the form of securities equal to two percent (2%) of the total number of the Securities sold in the Offering.

## NOTES TO FINANCIAL STATEMENTS

### AS OF DECEMBER 31, 2020 AND 2019

#### NOTE 1 – NATURE OF OPERATIONS

Curatif, Inc. (which may be referred to as the “Company”, “we,” “us,” or “our”), is a Texas corporation which was organized December 28, 2015. The Company is a direct-to-consumer, business to business, and wholesale domestic and global operation that owns the trademark brand CRIA and produces ingredient and science-based organic hair care products that are healthy for the hair and body. The Company’s CRIA Hair and Scalp Booster utilizes four organic ingredients to give the consumer healthier, stronger, lustrous hair that lasts without any side-effects. CRIAPure shampoos and conditioners for men and women are powered by Biotin and ProVitamins that clean the user’s scalp and fortifies hair roots. CRIA products are vegan, gluten free, cruelty free and chemicals free.

Since December 28, 2015, the Company has relied upon its founders and investor shareholders for funding cash flow to pay for operating expenses. (See discussions below). For the period from inception to December 31, 2020, the Company has generated no profit and has accumulated losses aggregating \$95,540. These matters do raise concern about the Company’s ability to continue as a going concern (see Note 9). During the next twelve months, the Company intends to fund its operations with funding from a campaign to sell Simple Agreements for Future Equity (SAFE instrument’s) convertible promissory note and/or preferred stock (see Note 11). The Company is in the process of raising additional capital to fund continuing operations. These financial statements and related notes thereto do not include any adjustments that might result from these uncertainties.

The Company is considered an emerging growth company under Section 101(a) of the Jumpstart Business Act as it is an issuer that had total annual gross revenues of less than \$1 billion during its most recently completed fiscal period. Because the Company is an emerging growth company, the Company has an exemption from Section 404(b) of Sarbanes-Oxley Act of 2002 and Section 14A(a) and (b) of the Securities Exchange Act of 1934. Under Section 404(b), the Company is exempt from the internal control assessment required by subsection (a) that requires each independent auditor that prepares or issues the audit report for the issuer shall attest to, and report on, the assessment made by the management of the issuer.

Through the Offering Circular included herein, the Company is offering SAFE’s from a minimum of \$25,000 to \$1,070,000 units. Funds will be made immediately available to the Company once the Company raises a minimum of \$25,000 (“Minimum Offering”). Funds will be used for developing the product and for marketing the platform throughout the United States as well as for working capital.

See Offering Circular attached and Note 11 below, for a more comprehensive discussion of management, risk factors, commissions paid for the sale of SAFE’s and other relevant data.

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("US GAAP"). The accompanying financial statements include information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for the fair presentation of the financial statements for the years presented have been included.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and footnotes thereto. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

Significant estimates inherent in the preparation of the accompanying financial statements include valuation of provision for refunds and chargebacks, equity transactions and contingencies.

### Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

### Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits. As of June 30, 2021 the Company has a balance of \$201,346.

### Cash and Cash Equivalents

The Company considers short-term, highly liquid investment with original maturities of three months or less at the time of purchase to be cash equivalents. Cash consists of funds held in the Company's checking account. As of December 31, 2020, the Company had \$12,677 of cash on hand.

### Receivables and Credit Policy

Trade accounts receivables will be recorded at the estimated collectable amounts that are due. Trade credit is generally extended on a short-term basis and therefore, trade accounts receivable

do not bear interest. under normal trade terms, primarily requiring pre-payment before services are rendered.

The Company, by policy, routinely assesses the financial strength of its customer. As a result, the Company believes that its accounts receivable credit risk exposure is limited and it has not experienced significant write-downs in its accounts receivable balances. As of June 30, 2021 and 2020, the Company has accounts receivable of \$49,732 and \$0, respectively.

#### Inventories

As of December 31, 2020, the Company inventory totaled \$ 3,300. The inventory represents costs incurred to produce product for consumers. The Company uses the last in first out method of accounting for cost of inventory and the lower of cost of market for the valuation of inventory.

#### Development of eCommerce Interactive Software Application and Website

In compliance with ASC 350-50, Accounting for Costs of Computer Software Development and ASC 985-20, Costs of Software to be Sold, Leased or Marketed, the Company will capitalize and carry forward as assets, the costs to develop the eCommerce Curatif App. Research is the planned efforts of a company to discover new information that will help create a new product or service. Such costs are expensed. Development takes the findings generated by research and formulates a plan to create the desired Curatif App. The Company applies the GAAP capitalization requirements of the "waterfall" approach which includes a specific sequential order of Plan, Design, Coding/development, Testing and Software release.

The Company will monetize and forecast the revenues from the Curatif App software and amortize the aggregate costs of the developmental software asset over the forecasted revenue stream; a matching of the revenue and costs, using the straight-line method, based on estimated useful lives of the asset. Maintenance of the platform will be expensed.

The Company reviews the carrying value of intangible personal property for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment of asset value as of June 30, 2021.

#### Trademarks and Copywrites:

The Company capitalizes trademarks and copywrites which have continuing values, enhancing the Curatif Brand and amortizes such costs over the estimated useful lives.

#### Property, Equipment and Depreciation

Property and equipment is stated at cost. Depreciation of property and equipment is charged to income using the straight-line method over the estimated useful lives of the respective assets, which range from three to seven years. The Company evaluates property and equipment for impairment on an ongoing basis to determine whether events and circumstances have

development that warrant revision of the estimated benefit period. At June 30, 2021, management believes that no impairment of the property and equipment exists.

### Fair Value Measurements

Generally accepted accounting principles define fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and such principles also establish a fair value hierarchy that prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.
- Level 3 – Prices or valuation techniques requiring inputs that are both significant to the fair value measurement and unobservable.

### Income Taxes

Income taxes are provided for the tax effects of transactions reporting in the financial statements and consist of taxes which may be due currently plus deferred taxes related primarily to differences between the basis of receivables, inventory, property and equipment, intangible assets, and accrued expenses for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Accounting principles generally accepted in the United States of America require evaluation of the tax provisions taken or expected to be taken in the course of preparing the Company's tax returns, if any, to determine whether the tax positions are more likely than not of being sustained upon examination by the applicable taxing authorities, based on the technical merits of the tax positions, and then recognizing the tax benefit that is more likely than not to be realized. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense in the current reporting period. Management believes any such positions would be immaterial to the overall financial statements of the Company.

The Company's federal and state income tax returns for the years subsequent to 2018 remain subject to examination by the relevant taxing authorities.

### Revenue Recognition

Effective January 1, 2019, the Company adopted Accounting Standards Codification 606, Revenue from Contracts with Customers ("ASC 606"). The principles-based standard requires consideration of a five-step framework that includes estimates on the revenue recognized for the accounting period. The five-step process for recognizing revenue and areas that require

significant judgement require identification of (1) contracts (including modifications) with customers requiring agreements between the Company and the customer, (2) separate performance obligations that transfer goods and services to the customer, (3) the transaction price, the consideration that the customer expects to receive in exchange for the negotiated goods and services, (4) allocated transaction price to separate performance obligations, if applicable, and (5) revenue recognition over the contract period of performance of the obligations transferring the promised goods and services.

The Company generated revenues by selling on-line concert tickets and digital merchandise and retail sales (e.g., motions) for avatars. The Company's ticket revenues were generally collected in advance of concert performances. The Company will also produce NFT's (non-fungible tokens) for brands, including but not limited to fashion, alcohol and music brands. These NFT's most commonly utilize the Ethereum blockchain to record transactions related to tangible and intangible items such as digital files: digital art, 3D arts and digital apparels.

Additionally, the Company intends to realize its revenue by selling its services to event organizers by providing its 3D digital environment as a place for their online events. The Company's platform, Curatif App may enter into e-commerce business in the future. These revenue generating activities may or may not generate substantial revenues.

For years ending December 31, 2020 and 2019, the Company had revenue of \$61,564 and \$21,346 respectively.

#### Property and Equipment and Depreciation

Property and equipment will be recorded at cost. Depreciation on property and equipment is provided for by charges to income using the straight-line method over the estimated lives of the respective assets, which range from three to seven years. the Company evaluates property and equipment for impairment on an ongoing basis to determine whether events and circumstances have developed that warrant revision of the estimated benefit period. At June 30, 2021, management believes no condition of impairment exists.

#### Organizational Costs

In accordance with FASB ASC 720, organizational costs, including accounting fees, legal fee, and costs of incorporation, are expensed as incurred.

#### Equity Based Compensation

The Company believes that incentive stock option awards will help the Company attract, retain, and motivate its management and other persons, including officers, directors, key employees and consultants, will encourage and reward such persons' contributions to the performance of the Company and will align their interests with the interests of the Company's stockholders. Stock awards are generally granted or optioned at a price not less than the market price of the Company's stock at the date of grant or option date.

## Recent Accounting Pronouncements

In February 2019, FASB issued ASU No. 2016-02, Leases, that requires organizations that lease assets, referred to as "lessees", to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. ASU 2019-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2020, and interim periods within those fiscal years, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In June 2018, FASB amended ASU No. 2018-07, Compensation – Stock Compensation, to expand the scope of Topic 718, Compensation – Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In August 2018, amendments to existing accounting guidance were issued through Accounting Standards Update 2018-15 to clarify the accounting for implementation costs for cloud computing arrangements. The amendments specify that existing guidance for capitalizing implementation costs incurred to develop or obtain internal-use software also applies to implementation costs incurred in a hosting arrangement that is a service contract. The guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

### NOTE 3 –NOTES PAYABLE

Notes payable, U.S. Small Business Administration:

As of June 30, 2020, the Company borrowed \$5,500, of which \$1,000 is a grant that will not be payable, from the U.S. Small Business Administration pursuant to the Economic Injury and Disaster Loan program. During 2021, the Company borrowed an additional \$12,500 for a total of \$18,000. The interest rate of the two Loans is 3.75%. Payments of \$91 per month, commence twelve months after the date of the Loan.

In accordance with Accounting Standards Codification (ASC) 470, "Debt." Under ASC 470, repayment amounts due within one year are recorded as current liabilities, and the remaining amounts, if any, due in more than one year, as long-term liabilities. In accordance with ASC 835, "Interest," no imputed interest is recorded, as the below-market interest rate is

governmentally prescribed. In accordance with ASC 405, "Liabilities," any loan under the Payroll Protection Program will remain a loan payable until the Company is legally released by the SBA, (obtained forgiveness) from its obligation. The forgiveness received by the Company will be recorded as a gain upon the extinguishment of debt in the accompanying statement of operations.

#### NOTE 4 - INCOME TAXES

The Company has filed its income tax returns for the three years ended December 31, 2020, which will remain subject to examination by the Internal Revenue Service under the statute of limitations for a period of three years from the date it is filed. The Company is taxed as a standard corporation.

Certain timing differences may exist as to the accounting method applied for organization expenses and the development of software application, between capitalizing or expensing such costs. Deferred income taxes may arise as a result of the timing differences.

#### NOTE 5 – LEASE CONTRACT ARRANGEMENTS

In February 2016, FASB issued ASU 2016-02, "Leases (Topic 842)." ASU 2016-02 requires the recognition of lease assets and lease liabilities by lessees for those leases currently classified as operating leases and makes certain changes to the accounting for lease expenses. The Company anticipates that the adoption of ASU 2016-02 for its leasing arrangements will likely (i) increase the Company's recorded assets and liabilities, (ii) increase depreciation, depletion and amortization expense, (iii) increase interest expense and (iv) decrease lease/rental expense. In January 2018, the FASB issued ASU 2018-01, which permits an entity to elect an optional transition practical expedient to not evaluate land easements that exist or expire before the Company's adoption of Topic 842 and that were not previously accounted for as leases under Topic 840. The Company adopted the standard as of February 2018.

When management enters into a material lease it will elect the package of practical expedients permitted under the transition guidance within the new standard, which among other things, will allow the Company to carryforward the historical lease classification. In addition, the Company will elect the hindsight practical expedient to determine the reasonably certain lease term for existing leases. The Company's election of the hindsight practical expedient will result in the shortening of lease terms for certain existing leases and the useful lives of corresponding leasehold improvements. The Company made an accounting policy election to keep leases with an initial term of 12 months or less off of the balance sheet. The Company recognizes those lease payments in the Statements of Operations on a straight-line basis over the lease term. The Company believes that the adoption of the standard can materially affect the net earnings (loss). The new lease standard may have an impact on The Company's liquidity. The standard should not have any impact on the Company's debt-covenant compliance under our current agreements.

#### NOTE 6 – STOCKHOLDERS' EQUITY

Capital stock:

Pursuant to the Company's Certificate of Incorporation as Amended and Restated on November 8, 2021, the Company increased the total number of Common Shares of capital stock of the

Company from 10,000,000 to 15,000,000 shares of Common Stock and declared a par value of \$0.0001 per common share.. See subsequent event regarding Warrants below.

#### NOTE 7 – RISKS AND UNCERTAINTIES

In January 2020, the World Health Organization has declared the outbreak of a novel coronavirus (COVID-19) as a “Public Health Emergency of International Concern,” which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the Company, its performance, and its financial results.

#### NOTE 8 – COMMITMENTS AND CONTINGENCIES

Pending litigation:

The Company is not currently involved with and does not know of any pending or threatening litigation against the Company as of December 31, 2020.

#### NOTE 9 - GOING CONCERN

These financial statements are prepared on a going concern basis. The Company began operation in 2015. For the period from December 28, 2015 (inception) through December 31, 2020, the Company has incurred losses. The Company’s ability to continue is dependent upon management’s plan to raise additional funds and achieve profitable operations. The financial statements do not include any adjustments that might be necessary if the Company is not able to continue as a going concern.

#### NOTE 10 – SUBSEQUENT EVENTS

The Company has evaluated subsequent events during the period from January 1, 2021 through November 15, 2021, the date that the financial statements were available to be issued.

Pursuant to a Common Stock Warrant of Curatif Inc. Agreement dated July 16, 2021, in exchange for services, the Company issued 100,000 shares of the Company’s Common Stock at an exercise price of \$.10 per Common Share. The Warrant expires in ten years.

In connection with a Certificate of Amendment filed October 14, 2021, the authorized common shares of the Company was increased to 15,000,000 common shares having a par value of \$0.001.

#### Crowdfunded Offering

As of September 21, 2021, the Company entered into an agreement with OpenDeal Portal LLC d/b/a Republic, and is offering the Company’s securities under Section 4(a)(6), Regulation Crowdfunding (Reg CF) of the Securities Act of 1933 (the “Crowdfunded Offering”) up to

\$1,070,000 of Simple Agreements for Future Equity. The Company is attempting to raise a minimum amount of \$25,000 in this offering and up to \$1,070,000 maximum. The Company must receive commitments from investors totaling the minimum amount by the offering deadline listed in the Form CF, as amended in order to receive any funds. See Form CF elsewhere herein.

In this Offering, the Company will be issuing from \$25,000 to \$1,070,000 of Securities.

The Crowdfunded Offering is being made through OpenDeal Portal LLC (the "Intermediary" aka "Republic" or "Republic.co"). In addition to a contingent surcharge based upon the need to make certain material changes to the Offering, the Intermediary will be entitled to receive the following fees and commissions:

***Offering Fees*** means (I) all fees incurred by Republic on behalf of the Company, with the Company's prior approval and (II) all Surcharges (as defined) incurred by the Company, for the avoidance of doubt, all fees associated with the use of the Escrow Agent and any credit card processors

***Republic Commissions*** means (I) cash Proceeds equal to 6.0% of the amount raised by the Company from the Successful Offering and (II) securities interest equal to 2.0% of the total Securities issued as part of such Successful Offering, which securities interest shall be issued pursuant to Section 4(a)(2) of the Act (for clarity, this means that if \$100,000 of Securities are sold, Republic is due a \$6,000 cash commission and a Securities instrument with a face value of \$2,000, under the same terms and conditions as the other Securities sold in the Successful Offering, not 2.0% of the company).

## COVID-19

In January 2020, the World Health Organization has declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the Company, its performance, and its financial results.

## Management's Evaluation

Management has evaluated subsequent events through September 23, 2021, the date the financial statements were available to be issued. Based on this evaluation, no additional material events were identified which require adjustment or disclosure in the financial statements.

### **Business Model**

## **CRIA's product profit margin is 80% with potential to increase exponentially**

CRIA generates revenue from e-commerce and wholesale sales (including exports). We acquire customers through a multichannel advertising and marketing strategy, with a particular emphasis on paid ads and influencer marketing.

70% of capital we raise here will go towards setting up our own production facility so we can significantly reduce our lead times from 8 weeks to 2 weeks, thereby increasing our product profit margins by at least 50%. We also plan to allocate 30% of the capital raised towards targeted ads, increasing e-commerce sales in North America.

### **Competition**

## **Our competitive edge**

*We provide an all-natural topical elixir with just four key organic ingredients—your body does the rest.*

*Our competition includes...*

### **OTC and prescription hair loss treatments**

- Expensive
- Not natural or organic
- Have significant side effects
- Contraindicated for women of child-bearing age

## Hair restoration surgeries

These procedures relocate hair from the sides and back of the scalp to the crown, temples, and frontal hairline.

- These treatments are painful and very expensive.
- They often require multiple surgeries that can result in permanent scarring.
- Surgeons charge an exorbitant price that is out of reach for most consumers.

## Other oil-based hair care products

While oil-based products are popular globally, they have struggled to gain traction in North America due to greasiness and odor. Most of them do not take a minimalist or tailored approach in their composition.

Unlike other oil-based products, we are:

**Light**

**Non-greasy,  
with a natural  
fragrance**

**Universally  
appealing**

## Hair growth shampoos and conditioners

Leading products in this category include Waterman's Grow Me Shampoo and Viviscal's Gorgeous Growth Conditioner. Waterman's claims to work by "priming the scalp" using a combination of oil, herbs, biotin, etc., while Viviscal uses a nonorganic mixture of more than two dozen compounds.

Siddharth Sharma re-designed our parents' formula for the current market, invested 100K as seed money in CRIA, and oversees CRIA's production and distribution.

## The Lost Formula

*“This all started with an obscure notation in my father’s diary...”*

Like many great stories, CRIA began with a surprise discovery hidden in a diary. Our founder, Dr. Shubhra Sharma, is an

anthropologist and entrepreneur, and the daughter of a biochemist father and a homeopath mother.

Intrigued, Shubhra invited her brother, Siddharth to recreate the formula—and discovered that their parents’ passion and perseverance had in fact led them to a breakthrough in hair care.

CRIA is how Shubhra and Siddharth honor their parents’ legacy, and to help millions of people worldwide create healthier hair without damaging their bodies in the process.

## FAQ

**I Recently  
Went  
Through  
Chemo  
and have  
Lost all my  
Hair. Can  
CRIA  
Help?**

Yes! CRIA is good for cancer warriors since it contains only 4 all natural ingredients and is chemical-free. A cancer warrior we know used CRIA for 8 weeks, 4-5 times per week, and saw a 1½" of new hair in that duration. Without CRIA, a cancer warrior can expect to see only ½" or less of growth in 8 weeks post-chemo' and sometimes none at all. This is also to say that results will vary from person to person. We are also not claiming to reverse genetics, cure a disease or its side-effects (please see our disclaimer). We're only offering a science-backed, ingredient-based hair care that is good for your body. And we know what is good for your body is good for your hair. Simple.

**What must  
I do to  
receive my  
equity or  
cash in the  
event of  
the  
conversion  
of my  
Crowd  
SAFE?**

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation with that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.

The “**Valuation Cap**” is \$4,000,000.

See Section 2 for certain additional defined terms.

**1. Events**

(a) **Equity Financing.**

(i) If an Equity Financing occurs before this instrument terminates in accordance with Sections 1(b)-(d) (“**First Equity Financing**”), the Company shall promptly notify the Investor of the closing of the First Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Purchase Amount to Capital Stock; or (2) issue to the Investor a number of shares of the CF Shadow Series of the Capital Stock (whether Preferred Stock or another class issued by the Company) sold in the First Equity Financing. The number of shares of the CF Shadow Series of such Capital Stock shall equal the quotient obtained by dividing (x) the Purchase Amount by (y) the **First Equity Financing Price** (as defined below).

(ii) If the Company elects to continue the term of this Crowd SAFE past the First Equity Financing and another Equity Financing occurs before the termination of this Crowd SAFE in

accordance with Sections 1(b)-(d) (each, a “**Subsequent Equity Financing**”), the Company shall promptly notify the Investor of the closing of the Subsequent Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Investor’s Purchase Amount to Capital Stock; or (2) issue to the Investor a number of shares of the CF Shadow Series of the Capital Stock (whether Preferred Stock or another class issued by the Company) sold in the Subsequent Equity Financing. The number of shares of the CF Shadow Series of such Capital Stock shall equal to the quotient obtained by dividing (x) the Purchase Amount by (y) the First Equity Financing Price.

(b) **Liquidity Event.**

(i) If there is a Liquidity Event before the termination of this instrument and before any Equity Financing, the Investor must select, at its option, within thirty (30) days of receiving notice (whether actual or constructive), either (1) to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below) or (2) to receive from the Company a number of shares of Common Stock equal to the Purchase Amount (or a lesser amount as described below) divided by the Liquidity Price.

(ii) If there is a Liquidity Event after one or more Equity Financings have occurred but before the termination of this instrument, the Investor must select, at its option, within thirty (30) days of receiving notice (whether actual or constructive), either (1) to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below) or (2) to receive from the Company a number of shares of the most recent issued Capital Stock (whether Preferred Stock or another class issued by the Company) equal to the Purchase Amount divided by the First Equity Financing Price. Shares of Capital Stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of Capital Stock issued in connection with the Company’s most recent Equity Financing.

(iii) If there are not enough funds to pay the Investor and holders of other Crowd SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts. In connection with this Section 1(b), the Purchase Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event.

Notwithstanding Sections 1(b)(i)(2) or 1(b)(ii)(2), if the Company’s board of directors determines in good faith that delivery of Capital Stock to the Investor pursuant to Section 1(b)(i)(2) or Section 1(b)(ii)(2) would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such Capital Stock, as determined in good faith by the Company’s board of directors.

(c) **Dissolution Event.** If there is a Dissolution Event before this instrument terminates in accordance with Sections 1(a) or 1(b), subject to the preferences applicable to any series of Preferred Stock, the Company will distribute its entire assets legally available for distribution with equal priority among the (i) Investors (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company’s board of directors at the time of Dissolution Event), (ii) all other holders of instruments sharing in the assets of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) and all holders of Common Stock.

(d) **Termination.** This instrument will terminate (without relieving the Company or the Investor of any obligations arising from a prior breach of or non-compliance with this instrument) upon the earlier to occur: (i) the issuance of shares, whether in Capital Stock or in the CF Shadow Series, to the Investor pursuant to Section 1(a) or Section 1(b); or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to Sections 1(b) or 1(c).

(i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

(ii) The Investor shall have notified the Company of the proposed disposition and shall have furnished the Company with a detailed statement of the circumstances surrounding the proposed disposition and, if reasonably requested by the Company, the Investor shall have furnished the Company with an opinion of counsel reasonably satisfactory to the Company that such disposition will not require registration of such shares under the Securities Act.

(e) The Investor agrees that it shall not make any disposition of this instrument or any underlying securities to any of the Company's competitors, as determined by the Company in good faith.

(f) The Investor understands and agrees that the Company will place the legend set forth below or a similar legend on any book entry or other forms of notation evidencing this Crowd SAFE and any certificates evidencing the underlying securities, together with any other legends that may be required by state or federal securities laws, the Company's charter or bylaws, any other agreement between the Investor and the Company or any agreement between the Investor and any third party:

#### Video 1:

Stanley Kan (Consultant): Thank you to CRIA Hair for helping me to experience more fuller and voluminous hair. So, previously before I actually started on this, my hair was bleached so it was pretty damaged. And during the process of its damaging, it also became more brittle and thinner. After using CRIA Hair's product, I see a visible difference. Now it is a lot more fuller, has more volume, and the damage of the bleaching has been visibly subdued. This is one of the things I really enjoyed (about the product). About my brows, you can probably see my brows being fuller. This is something I am very grateful for. Thank you CRIA Hair, for helping me experience a better and wholesome hair and eyebrows!

#### Video 2:

Hi Everyone

I'm back here in New York City and every winter I get a lot of questions about how I keep my hair healthy and shiny and strong looking during the bitter cold months of winter. So, I wanted to tell you guys about this product, it's called the CRIA Hair Booster. It's all natural, it's just made of 4 organic ingredients—Lavender, Sesame, Jaborandi, and organic grain extract. Basically, what you do is take this applicator, and you apply to your scalp, all the way down through hair. You need to leave it in for a minimum of 1 hour but overnight is really recommended. And basically what it's going to do is it helps make your hair healthier, stronger, and shinier without any side-effects because it's all natural. So, anyone who had dry or brittle hair due to environmental pollutants, overprocessing, illness, anything like that it's going to help restore your PH balance in your hair make healthy, strong, and shiny. Here's a coupon below, give it a try.

#### Video 3:

Gwen Lim (Consultant): Hi, so I've been using CRIA Hair for about 4 weeks. This is the hair, this is the brow booster. You can see that, basically, this area has grown a bit of baby hair. It used to be a lot thinner, and more sparse. Now there's a little bit more small growth here. Previously I tended to have a very itchy hairline from like dryness. And after using it I don't feel like it's dry anymore. And, the best part is that I find the product very concentrated. It smells very good. I've been sharing this product with my dad. Actually, we've both seen pretty good results. We've seen hair grow along the hairline—maybe it's also because we put more around this area. We see more visible results. It's really good and we really love it.

#### Video 4:

I was experiencing a lot of hair fall (loss), it was getting severe even after using other oils (to treat it). (CRIA) was something new. It was enlightening. It put all my worries in a box. Experience was very safe. Safe because it was something not chemical-based, something very pure, something coming out of the extracts of best possible herbs. There are a lot of things in fact. It's very easy to use, first of all, it can be used overnight, it's not sticky, it made my hair smoother, silkier. It's got a really good fragrance. It's doesn't feel like you've applied anything to the hair. Nothing that you have to hide your face for (when applied).

## Problem

# Healthy and beautiful hair is a universal human desire

But...

Of men have **visible hair loss**

Of women also **begin losing their hair**

The current hair loss paradigm shames people into using harsh products. These products produce harsh side effects and offer limited efficacy, such as Minoxidil and Finasteride.

Shame has also compelled people to undertake painful, risky, expensive hair restoration surgeries to replace thinning or lost hair.

## Solution

# Great hair begins with self-care

Our topical hair care elixir contains a **tailored combination of only four organic ingredients** that provide your body with the raw materials it requires to give you...

Healthier Hair

Thicker Hair

Lustrous Hair

**No Scalpels. No Scarring. No Scary side-effects.**

## Our 4-organic ingredients

**Naturally  
Harvested  
Alcohol**

**Jaborandi Extract**

The interplay of these four organic ingredients is the key to CRIA's efficacy.

CRIA's unique formula is based on sciences of ethno- botany, homeopathic medicine, and natural ingredient chemistry.

Our founder's parents (a Biochemist and an Homeopathic Physician) pioneered this approach, taking two decades to experiment with and isolate select natural herbs of medicinal significance whose biosynthesis matched while active constituents regenerated hair without use of any synthetic chemicals.

## Testimonial

I just wanted to let you know that CRIA has been helping my hair IMMENSELY! I suffer from Crohn's that has affected my hair. Recently, I even developed a bald patch in the middle of my head that saddened me. And then I discovered CRIA. I used it regularly on this patch, day and night and it TOTALLY disappeared! I'm forever thankful for this product and I use it daily. Thank you!!

## Why now

Whether from pandemic-related stress or some systemic effect on the body, COVID-19 has left millions of people suffering from hair loss.

- Of 5,875 people who recovered from COVID-19, **33% reported hair thinning.**
- Metropolitan Medical Center in New York City, reported a **400% increase in patients with hair loss** during the peak of the pandemic.\*

### **CRIA's for you if you are:**

1. Experiencing hair loss, brittle, thinning, over-processed hair, and/or itchy, irritated scalp.
2. Not experiencing any hair issues in the present, yet seeking to preemptively protect your head of hair, naturally.
3. Actively looking for non-chemical, non-surgical means to combat hair issues, resulting from a lifestyle change or life-altering event (e.g. cancer, COVID).
4. Shopping for beauty and wellness products with only natural/organic ingredients (not just which but how many). In 2018, 40% of millennials and 59% of Gen Z purchased hair care products free of synthetic ingredients. The number is expected to grow globally.

### **Business Model**

## **CRIA's product profit margin is 80% with potential to increase exponentially**

CRIA generates revenue from e-commerce and wholesale sales (including exports). We acquire customers through a multichannel advertising and marketing strategy, with a particular emphasis on paid ads and influencer marketing.

70% of capital we raise here will go towards setting up our own production facility so we can significantly reduce our lead times from 8 weeks to 2 weeks, thereby increasing our product profit margins by at least 50%. We also plan to allocate 30% of the capital raised towards targeted ads, increasing e-commerce sales in North America.

\*Profit margin as of January 30, 2022

## Market

**80% of men and 50% of women will experience hair loss at some point in their lives**

Due to COVID, we're hyper vigilant of our bodies, our health, and our mortality as never before.

Our deepest desire is to thrive, not just survive.

This is expanding the global demand for natural/organic ingredients with post use advantages and reviving properties.

The global organic hair care market is worth roughly  
**\$9 billion**

**Asia-Pacific is the largest market** for organic hair care

It is growing at a **4.7% CAGR.**

**Middle-East and Africa** is the fastest growing organic hair care market

It is growing at a **6.1% CAGR.**

It is growing at a **9.6% CAGR.**

#### **CRIA's unique global positioning today:**

1. Powered by only 4 organic ingredients.
2. Good for your hair *because* it's good for your body.
3. Vegan, Gluten Free, Cruelty Free, Chemicals Free.
4. Fully recyclable packaging.

### **Competition**

## **Our competitive edge**

*We provide an all-natural topical elixir with just four key organic ingredients—your body does the rest.*

*Our competition includes...*

### **OTC and prescription hair loss treatments**

- Expensive
- Not natural or organic
- Have significant side effects
- Contraindicated for women of child-bearing age

## Hair restoration surgeries

These procedures relocate hair from the sides and back of the scalp to the crown, temples, and frontal hairline.

- These treatments are painful and very expensive.
- They often require multiple surgeries that can result in permanent scarring.
- Surgeons charge an exorbitant price that is out of reach for most consumers.

## Other oil-based hair care products

While oil-based products are popular globally, they have struggled to gain traction in North America due to greasiness and odor. Most of them do not take a minimalist or tailored approach in their composition.

Unlike other oil-based products, we are:

**Light**

**Non-greasy,  
with a natural  
fragrance**

**Universally  
appealing**

## Hair growth shampoos and conditioners

Leading products in this category include Waterman's Grow Me Shampoo and Viviscal's Gorgeous Growth Conditioner. Waterman's claims to work by "priming the scalp" using a combination of oil, herbs, biotin, etc., while Viviscal uses a nonorganic mixture of more than two dozen compounds.

## Founders

# Meet the founders

### **Dr. Shubhra Sharma, *Founder & CEO***

Dr. Shubhra Sharma is an anthropologist and entrepreneur. She's served as an Associate Director of Gender Studies at Vanderbilt University, leaving her position in 2016 to launch CRIA.

### **Siddharth Sharma, *Co-Founder and Acting***

### **COO**

Siddharth Sharma re-designed our parents' formula for the current market, invested 100K as seed money in CRIA, and oversees CRIA's production and distribution.

## The Lost Formula

*“This all started with an obscure notation in my father’s diary...”*

Like many great stories, CRIA began with a surprise discovery hidden in a diary. Our founder, Dr. Shubhra Sharma, is an

anthropologist and entrepreneur, and the daughter of a biochemist father and a homeopath mother.

Intrigued, Shubhra invited her brother, Siddharth to recreate the formula—and discovered that their parents’ passion and perseverance had in fact led them to a breakthrough in hair care.

CRIA is how Shubhra and Siddharth honor their parents’ legacy, and to help millions of people worldwide create healthier hair without damaging their bodies in the process.

## FAQ

**I Recently  
Went  
Through  
Chemo  
and have  
Lost all my  
Hair. Can  
CRIA  
Help?**

Yes! CRIA is good for cancer warriors since it contains only 4 all natural ingredients and is chemical-free. A cancer warrior we know used CRIA for 8 weeks, 4-5 times per week, and saw a 1½" of new hair in that duration. Without CRIA, a cancer warrior can expect to see only ½" or less of growth in 8 weeks post-chemo' and sometimes none at all. This is also to say that results will vary from person to person. We are also not claiming to reverse genetics, cure a disease or its side-effects (please see our disclaimer). We're only offering a science-backed, ingredient-based hair care that is good for your body. And we know what is good for your body is good for your hair. Simple.

**How do I  
earn a  
return?**

We are using Republic's Crowd SAFE security. Learn how this translates into a return on investment here.

---

**What must  
I do to  
receive my  
equity or  
cash in the  
event of  
the  
conversion  
of my  
Crowd  
SAFE?**

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation with that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.
