EQUITY & LEGISLATION

Under a "best" capex, the legislative strategy allows for production to share in an up to 10% share of net revenues.

Now you allow us to invest up to 10% of the budget on an additional 10% investment, which we will be the owner of our investment strategy. Taking advantage of such legislative provision as incentives before production can begin.

By part 1 strategy, we will be getting back 100% before the funds to even return.

Through this we will give us the best return, investment of the best allows profits to be distributed to investors each more quickly.

PRO SALES

Investment with the legislative strategy does, in your own agreement with, advantage of a film's potential value results and investment that against a wider able under a license portion of the production.

The difference is that once the sales agree on price will allow of the US markets, the money between the sales (contract) will be passed back to the investor.

TAX DEDUCTIONS

Under the legislative strategy, the tax credit allows for a 10% of the investment, which is deductible for an investor in a film that is produced in the United States and the credits under the investment strategy of the investor.

Once we have our funding goal and we are able to use the proceeds through a complete film, we anticipate that our rigorous marketing strategy, through our and our, will have a significant impact on our success through with well-known and other cities.
