CFA Charterholder

Daniel H. Gallancy

Chief Executive Officer at Atakama
New York, New York, United States

Summary

I am the CEO of Atakama. We are the pioneer in multifactor encryption, enabling unrivaled data protection through distributed cryptographic key management.

Organizations rely on Atakama to protect their most sensitive data, even when identity or rules-based access controls fail. Atakama removes the conventional trade-off between data security and accessibility to protect data, simplify the user experience, and visualize data usage and security trends.

We're a VC-backed company located in New York City.

Experience

Atakama
