* 15% Bonus Shares and

* 2 days of fishing in Florida with Patrick Sébile, hotel, and food included, transferable

*All perks occur when the offering is completed.

The 10% StartEngine Owners' Bonus

A Band Of Anglers will offer 10% additional bonus shares for all investments that are committed by investors that are eligible for the StartEngine Crowdfunding Inc. OWNer's bonus.

This means eligible StartEngine shareholders will receive a 10% bonus for any shares they purchase in this offering. For example, if you buy 100 shares of Class B Common Stock at $5.00 / share, you will receive 110 Class B Common Stock shares, meaning you'll own 110 shares for $500. Fractional shares will not be distributed and share bonuses will be determined by rounding down to the nearest whole share.

This 10% Bonus is only valid during the investors' eligibility period. Investors eligible for this bonus will also have priority if they are on a waitlist to invest and the company surpasses its maximum funding goal. They will have the first opportunity to invest should room in the offering become available if prior investments are canceled or fail.

Investors will only receive a single bonus, which will be the highest bonus rate they are eligible for.

Insider Investment Notice

Officers, directors, executives, and existing owners with a controlling stake in the company (or their immediate family members) may make investments in this offering. Any such investments will be included in the raised amount reflected on the campaign page.

Patrick Sebile, the Company's Chief Executive Officer, has invested $20,400 in the Company's current Reg CF offering.

Barry Stockhaus, the Company's Vice-President of Sales, has invested $1500 in the Company's current Reg CF offering.

Constantin Pellissier, a Company director, has invested $5,000 in the Company's current Reg CF offering.

The Company and its Business

Company Overview

Business

A Band Of Anglers is a Company based in Florida and active in the field of fishing takle. More precisely the Company designs and markets fishing lures. Lures are manufactured in Asia by subcontractors and imported in the US and Europe. They are sold in the US mainly through "Big Boxes" (like Bass Pro Shops - Cabela's) and Distributors (like Folsom) and in Europe through an exclusive agent. The Company's inventory is stored at a 3rd party logistics warehouse in Jacksonville, Florida.

Our mission is to help anglers catch more fish and to bring as many innovations to the fishing tackle market as possible, in lures but also down the road in rods, reels, apparel and other categories. Formed on August 23, 2017 as A Band of Anglers LLC under Florida law and converted to A Band Of Anglers, Inc., a Florida Corporation, on June 18, we have sold to date $2.50mn worth of lures, mainly in the United States. Thanks to the fame and talent of our founder Patrick Sébile, to our long-lasting manufacturing partnership in China and to our outstanding team and partners, we believe we can in 10 to 20 years from now achieve as much as $150mn in sales (wholesale) or 2% of the $15bn (retail) worldwide fishing tackle market.

Products

Fishing lures are small, artificial objects often shaped like a fish's prey that have hook(s) attached and are tied to the end of the fishing line. They are used to attract fish to the fishing line. There are many different types of lures on the market such as topwaters, jigs, spinners, spoons, crankbaits, plugs, etc. Some lures are made of soft plastic and are called "soft lures", others are made of hard plastic or wood or metal and are called "hard lures". Some lures are specifically designed for salt water, e.g. equipped with rust-proof hooks and reinforced to withstand the super aggressive and often large saltwater species. Whether they are made from rubber, plastic, metal or a

mix of such materials, fishing lures are often weighted and use a combination of movements, vibrations, colors and shiny reflections to entice fish to bite.

A Band Of Anglers has a comprehensive product range across all use cases:

• Saltwater hard lures under “Ocean Born”

• Hybrid hard/soft lures with concealed leader technology under “Spooltek”

• Long lasting soft lures under “Hyperlastics”

• Soft & Hard “core gear” lures under “Engage”

• Vertical fishing metal lures under “Up&Down”

Business Model

The average retail price of one of our lures is $10.00. In average its cost is $2.70 (including factory cost, freight from China to the US, import duties & taxes, warehousing and shipping to customers).

We usually sell B2B (to retailers or distributors). In average we sell at $5.00 and make $2.30 gross margin minus 10% or $0.50 for federal excise tax and $0.30 for rep group commission, i.e. $1.50 or 30% net margin.

When we sell it D2C (direct to consumer) at $10.00, we make $7.30 gross margin minus 10% or $1.00 for federal excise tax (used to promote recreational fishing) and $0.30 for credit card payment, i.e. $6.00 or 60% net margin.

Currently most sales are done B2B. In the future, A Band Of Anglers will grow direct to consumer sales while maintaining good relationships with its retail and distribution partners.

Geographies

Target countries outside the US and France (where the Company is currently active) are Canada, Europe (Spain, Italy, UK, Germany, Nordics), Japan, Russia, South Africa, Australia, New Zealand and Indonesia. Patrick Sébile is well known in all of these countries and very well known in Japan (2nd market worldwide after the US) and Russia.

The Company’s Intellectual Property:

The Company was granted, has purchased and has applied for several U.S. Patents and multiple Trademarks be it brands or product names or technology names (alltogether the “IP”). The company owns or will - once granted - own all the aforementionned IP. None of the IP is critical for the Company to operate, however the Company believes that the IP, and in particular the provisional patents, will be growing contributors to the Company's equity value.

Competitors and Industry

While the industry is highly fragmented, competitors include very large groups like Rapala (Finland, world leader in hard lures), Pure Fishing (US, world leader in soft lures and lines), Shimano and Daïwa (Japanese groups).

A Band Of Anglers currently has 2 key differentiators and intends to develop a third one.

Existing differentiators:

Product differentiation

A Band Of Anglers' products seek to be 100% innovative with a view to consistently catch more and bigger fish and to efficiently address new fishing situations.

Patrick Sébile firmly believes that purchasing just one of his lures - which can usually be used in varied use cases - often provides the value of buying several other competing products.

While most lure designers at competitors are either anglers with no technical background or pure technical engineers with little fishing experience, Patrick Sébile has been voted one of the best 20 anglers in the world, believes he has spent over 8,000 days on the water and is a trained engineer, specialized in mechanical engineering, mold design, injection molding and composite materials.

So in short, Patrick knows what anglers need, what fish like and how to design and manufacture efficient lures that actually catch more fish.

Reputation/image differentiation

Some anglers may be more famous than Patrick in a given country or for a given species of fish, but Patrick is one of the most respected and famous anglers and a revolutionary product designer for freshwater and saltwater, hard baits and soft baits, globally:

• 370+ records, including 43 IGFA world records

• 783 different species of fish caught in 71 countries (#2 in IGFA's "most species caught")

• Has appeared on c. 200 magazine covers and in over 1,000 publications, has hosted and guest-starred around 200 TV shows, has written and published 7 books and 800+ articles

Additional differentiation which will be implemented:

Relationship differentiation

A Band Of Anglers is ready to implement a strategy based around Content,

Community and Commerce and to develop a deeper relationship with its community of avid anglers.

The story around this is at the heart of the creation of A Band Of Anglers by Patrick Sébile back in 2017.

The name of the Company itself has been chosen to reflect that A Band Of Anglers is designed to become an anglers' community sharing a way of life and ethics around the sport of fishing.

Current Stage and Roadmap

Current development stage

A Band Of Anglers is in live stage:

• Great image and market recognition ;

• Comprehensive product range with superior design ;

• Outstanding retail network in place in the US and one agent in Europe ;

• Sold $2.50 mn so far with c. 0.5 mn lures shipped ;

• Lean organization and flexible cost structure ;

• Next step is simple: accelerate growth at existing clients, develop anglers' community and extend internationally

Future Roadmap

The Company's marketing efforts going forward are going to be focused on increasing the community and convert it into sales be it direct or through our distributor and retail partners:

• develop content aimed at all anglers, some "members only", e.g. post on all social media an extensive range of videos related to our lures ("tutorials, "how to", testimonials, ...) and develop an ABOA membership program with perks and exclusive opportunities

• boost online customer acquisition, through implementation of a direct marketing plan using SEO and savvy paid adversting

• develop a network of pro-staff anglers and local influencers with e-commerce capability: recruit pro-staff anglers who will be paid to promote our products to their audience and who will be able to sell these products to their audience through their own e-shops

• increase interactions with and between end consumers, e.g. launch a quarterly live masterclass by Patrick Sebile for members of the Band only and encourage members to exchange tips and opportunities through our social media assets

Focus on community

A Band Of Anglers and Spooltek currently have 90,000 & 16,500 followers on Facebook and 7,000 & 21,000 on Instagram respectively.

The Team

Officers and Directors

Name: Patrick Sebile

Patrick Sebile's current primary role is with the Issuer.

Positions and offices currently held with the issuer:

- **Position:** President CEO

Phil Howarth's current primary role is with Goose Hummock tackle shop. Phil Howarth currently services 3 hours per week in their role with the Issuer.

Positions and offices currently held with the issuer:

- **Position:** Director
  Dates of Service: November 30, 2021 - Present
  Responsibilities: Member of the board of directors. No salary or equity compensation.

Other business experience in the past three years:

- **Employer:** Goose Hummock tackle shop
  Title: CEO & owner
  Dates of Service: January 01, 2012 - Present
  Responsibilities: 100% owner of the Company. Leading independent tackle shop in the North East of the US.

Risk Factors

The SEC requires the company to identify risks that are specific to its business and its financial condition. The company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

These are the risks that relate to the Company:

Uncertain Risk
An investment in the Company (also referred to as "we", "us", "our", or "Company") involves a high degree of risk and should only be considered by those who can afford the loss of their entire investment. Furthermore, the purchase of any of the offered securities should only be undertaken by persons whose financial resources are sufficient to enable them to indefinitely retain an illiquid investment. Each investor in the Company should consider all of the information provided to such potential investor regarding the Company as well as the following risk factors, in addition to the other information listed in the Company's Form C. The following risk factors are not intended, and shall not be deemed to be, a complete description of the commercial and other risks inherent in the investment in the Company.

Our business projections are only projections
There can be no assurance that the Company will meet our projections. There can be no assurance that the Company will be able to find sufficient demand for our products, that people recognize the innovativeness of our products and think they are a better option than other competing products, or that we will able to make sales at a level that allows the Company to make a profit and still attract business.

Any valuation at this stage is difficult to assess
The valuation for the offering was established by the Company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment.

The transferability of the Securities you are buying is limited
Any security purchased through this crowdfunding campaign is subject to SEC limitations of transfer. This means that the stock that you purchase cannot be resold for a period of one year. The exception to this rule is if you are transferring the stock back to the Company, to an "accredited investor," as part of an offering registered with the Commission, to a member of your family, trust created for the benefit of your family, or in connection with your death or divorce.

Your investment could be illiquid for a long time
You should be prepared to hold this investment for several years or longer. For the 12 months following your investment there will be restrictions on how you can resell the securities you receive. More importantly, there is no established market for these

securities and there may never be one. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The Company may be acquired by a competitor in the future but that may as well never happen or it may happen at a price that results in you losing money on this investment.

If the Company cannot raise sufficient funds it will not succeed

The Company, is offering Class B non-voting common shares in the amount of up to $1,069,000 in this offering, and may close on any investments that are made. Even if the maximum amount is raised, the Company is likely to need additional funds in the future in order to grow, and if it cannot raise those funds for whatever reason, including reasons relating to the Company itself or the broader economy, it may not survive. If the Company manages to raise only the minimum amount of funds, sought, it will have to find other sources of funding for some of the plans outlined in "Use of Proceeds."

We may not have enough capital as needed and may be required to raise more capital.

We anticipate needing access to credit in order to support our working capital requirements as we grow. Although interest rates are low, it is still a difficult environment for obtaining credit on favorable terms. If we cannot obtain credit when we need it, we could be forced to raise additional equity capital, modify our growth plans, or take some other action. Issuing more equity may require bringing on additional investors. Securing these additional investors could require pricing our equity below its current price. If so, your investment could lose value as a result of this additional dilution. In addition, even if the equity is not priced lower, your ownership percentage would be decreased with the addition of more investors. If we are unable to find additional investors willing to provide capital, then it is possible that we will choose to cease our sales activity. In that case, the only asset remaining to generate a return on your investment could be our intellectual property. Even if we are not forced to cease our sales activity, the unavailability of credit could result in the Company performing below expectations, which could adversely impact the value of your investment.

Terms of subsequent financings may adversely impact your investment

We will likely need to engage in common equity, debt, or preferred stock financings in the future, which may reduce the value of your investment in Class B non-voting common shares. Interest on debt securities could increase costs and negatively impact operating results. Preferred stock could be issued in series from time to time with such designation, rights, preferences, and limitations as needed to raise capital. The terms of preferred stock could be more advantageous to those investors than to the holders of Common Stock. In addition, if we need to raise more equity capital from the sale of Common Stock, institutional or other investors may negotiate terms that are likely to be more favorable than the terms of your investment, and possibly a lower purchase price per share.

Management Discretion as to Use of Proceeds

Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of

this Offering. The use of proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or advisable to re-allocate portions of the net proceeds reserved for one category to another, and we will have broad discretion in doing so.

Projections: Forward Looking Information

Any projections or forward looking statements regarding our anticipated financial or operational performance are hypothetical and are based on management's best estimate of the probable results of our operations and will not have been reviewed by our independent accountants. These projections will be based on assumptions which management believes are reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from such projections, and such variances may be material. Any projected results cannot be guaranteed.

Minority Holder; Securities with No Voting Rights

The Class B non-voting common shares that an investor is buying has no voting rights attached to them. This means that you will have no rights in dictating on how the Company will be run. You are trusting in management discretion in making good business decisions that will grow your investments. Furthermore, in the event of a liquidation of our company, you will only be paid out if there is any cash remaining after all of the creditors of our company have been paid out.

You are trusting that management will make the best decision for the company

You are trusting in management discretion. You are buying securities as a minority holder, and therefore must trust the management of the Company to make good business decisions that grow your investment.

Insufficient Funds

The company might not sell enough securities in this offering to meet its operating needs and fulfill its plans, in which case it may cease operating and you will get nothing. Even if we sell all the common stock we are offering now, the Company will possibly need to raise more funds in the future, and if it can't get them, we will fail. Even if we do make a successful offering in the future, the terms of that offering might result in your investment in the company being worth less, because later investors might get better terms.

This offering involves "rolling closings," which may mean that earlier investors may not have the benefit of information that later investors have.

Once we meet our target amount for this offering, we may request that StartEngine instruct the escrow agent to disburse offering funds to us. At that point, investors whose subscription agreements have been accepted will become our investors. All early-stage companies are subject to a number of risks and uncertainties, and it is not uncommon for material changes to be made to the offering terms, or to companies' businesses, plans or prospects, sometimes on short notice. When such changes happen during the course of an offering, we must file an amended to our Form C with the SEC, and investors whose subscriptions have not yet been accepted will have the

right to withdraw their subscriptions and get their money back. Investors whose subscriptions have already been accepted, however, will already be our investors and will have no such right.

Our new product could fail to achieve the sales projections we expected
Our growth projections are based on an assumption that with an increased advertising and marketing budget our current products will be able to gain traction in the marketplace at a faster rate than they currently have. It is possible that our products will fail to gain such increased market acceptance for any number of reasons. If our products fail to achieve significant sales and increased acceptance in the marketplace, this could materially and adversely impact the value of your investment.

We face significant market competition
We compete with some much larger and established international groups with sales of hundreds of millions of dollarsand who have products on the market for decades and significant product development programs. They have much better financial means and marketing/sales and human resources than us. They may succeed in developing and marketing competing equivalent products earlier than us, or superior products than those developed by us. There can be no assurance that competitors will render our technology or products obsolete or that the products developed by us will be preferred to any existing or newly developed technologies. It should further be assumed that competition will intensify.

We are competing against other recreational activities
Our business growth depends on the growing interest of the public for sportfishing, which competes against other recreational activities like running and biking.

We are an early stage company and have not yet generated any profits
A Band Of Anglers was formed on August 23, 2017. Accordingly, the Company has a limited history upon which an evaluation of its performance and future prospects can be made. Our current and proposed operations are subject to all business risks associated with new enterprises. These include likely fluctuations in operating results as the Company reacts to developments in its market, managing its growth and the entry of competitors into the market. We will only be able to pay dividends on any shares once our directors determine that we are financially able to do so. A Band Of Anglers has incurred a net loss and has had limited revenues ($2.5mn to date) generated since inception. There is no assurance that we will be profitable in the next 3 years or generate sufficient revenues to pay dividends to the holders of the shares.

We have existing patents that we might not be able to protect properly
We believe one of the Company's most valuable assets is its intellectual property. The Company owns patents, trademarks, copyrights, Internet domain names, and trade secrets. Competitors may misappropriate or violate the rights owned by the Company. The Company will do its best to continue to protect its intellectual property portfolio from such violations but may not be able to protect it properly. It is important to note that unforeseeable costs associated with such practices may invade the capital of the Company.

We have pending patent approval's that might be vulnerable

Some of our patents are pending or provisionnal. We have no assurance that they we will succeed in finalizing them and that they will come into force as we intend them to. This would lead our competitors to use some of our patented innovations and to be in a position to match our products, which could be detrimental to the Company.

Our trademarks, copyrights and other intellectual property could be unenforceable or ineffective

Intellectual property is a complex field of law in which few things are certain. It is possible that competitors will be able to design around our intellectual property, find prior art to invalidate it, or render the patents unenforceable through some other mechanism. If competitors are able to bypass our trademark and copyright protection without obtaining a sublicense, it is likely that the Company's value will be materially and adversely impacted. This could also impair the Company's ability to compete in the marketplace.

The cost of enforcing our trademarks and copyrights could prevent us from enforcing them

Trademark and copyright litigation has become extremely expensive. Even if we believe that a competitor is infringing on one or more of our trademarks or copyrights, we might choose not to file suit because we lack the cash to successfully prosecute a multi-year litigation with an uncertain outcome; or because we believe that the cost of enforcing our trademark(s) or copyright(s) outweighs the value of winning the suit in light of the risks and consequences of losing it; or for some other reason. Choosing not to enforce our trademark(s) or copyright(s) could have adverse consequences for the Company, including undermining the credibility of our intellectual property, reducing our ability to enter into sublicenses, and weakening our attempts to prevent competitors from entering the market. As a result, if we are unable to enforce our trademark(s) or copyright(s) because of the cost of enforcement, your investment in the Company could be significantly and adversely affected.

The loss of one or more of our key personnel, or our failure to attract and retain other highly qualified personnel in the future, could harm our business

To be successful, the Company requires capable people to run its day to day operations. As the Company grows, it will need to attract and hire additional employees in sales, marketing, design, development, operations, finance, legal, human resources and other areas. Depending on the economic environment and the Company's performance, we may not be able to locate or attract qualified individuals for such positions when we need them. We may also make hiring mistakes, which can be costly in terms of resources spent in recruiting, hiring and investing in the incorrect individual and in the time delay in locating the right employee fit. If we are unable to attract, hire and retain the right talent or make too many hiring mistakes, it is likely our business will suffer from not having the right employees in the right positions at the right time. This would likely adversely impact the value of your investment.

We rely on third parties to provide services essential to the success of our business

We rely on third parties to provide a variety of essential business functions for us, including manufacturing, shipping, accounting, legal work, public relations, advertising, retailing, and distribution. It is possible that some of these third parties will fail to perform their services or will perform them in an unacceptable manner. It is possible that we will experience delays, defects, errors, or other problems with their work that will materially impact our operations and we may have little or no recourse to recover damages for these losses. A disruption in these key or other suppliers' operations could materially and adversely affect our business. As a result, your investment could be adversely impacted by our reliance on third parties and their performance.

This offering involves "rolling closings," which may mean that earlier investors may not have the benefit of information that later investors have.

Once we meet our target amount for this offering, we may request that StartEngine instruct the escrow agent to disburse offering funds to us. At that point, investors whose subscription agreements have been accepted will become our investors. All early-stage companies are subject to a number of risks and uncertainties, and it is not uncommon for material changes to be made to the offering terms, or to companies' businesses, plans or prospects, sometimes on short notice. When such changes happen during the course of an offering, we must file an amended to our Form C with the SEC, and investors whose subscriptions have not yet been accepted will have the right to withdraw their subscriptions and get their money back. Investors whose subscriptions have already been accepted, however, will already be our investors and will have no such right.

The amount raised in this offering may include investments from officers and directors of the company or their immediate family members.

Once the total amount of funds raised in this offering exceeds the minimum funding goal, officers and directors (and immediate family members) of the company may make investments in this offering. Any such investments will be included in the raised amount reflected on the campaign page.

Ownership and Capital Structure; Rights of the Securities

Ownership

The following table sets forth information regarding beneficial ownership of the company's holders of 20% or more of any class of voting securities as of the date of this Offering Statement filing.

Stockholder Name	Number of Securities Owned	Type of Security Owned	Percentage
Braingenious, Inc. (Patrick Sebile owns 51% and MK Ltd owns 24.39%)	1,000,000	Class A Voting Common Shares	100.0%

The Company's Securities

The Company has authorized Class A Voting Common Shares, Class B Non-voting Common Shares, and SAFE (Simple Agreement for Future Equity). As part of the Regulation Crowdfunding raise, the Company will be offering up to 213,800 of Class B Non-voting Common Shares.

Class A Voting Common Shares

The amount of security authorized is 5,000,000 with a total of 1,558,000 outstanding.

Voting Rights

One non-cumulative vote for each share

Material Rights

The total amount outstanding includes 558,000 shares to be issued pursant to SAFEs issued. SAFE details listed below.

ARTICLE IV 2. OF THE AMENDED AND RESTATED ARTICLES OF INCORPORATION OF A BAND OF ANGLERS, INC. The powers, preferences and rights, and the qualifications, limitations and restrictions of the Corporation's Class A Shares and Class B Shares are as follows: (i) Holders of the Corporation's Class A Shares and Class B Shares shall, together as a single class, have equal ratable rights to receive dividends when, as and if declared by the Board of Directors, out of funds legally available therefor and are entitled to share ratably in the net assets available for distribution; (ii) None of the Class A Shares or Class B Shares have any pre-emptive or similar rights and none of the Class A Shares or Class B Shares are redeemable by their respective terms; and (iii) Holders of Class A Shares shall have one non-cumulative vote for each share held of record on all matters to be voted on by the Corporation's shareholders; and holders of the Class B Shares shall have no right to vote on any matter to be voted on by the Corporation's shareholders, except to the extent otherwise required by the Florida Business Corporation Act. In the event that no Class A Shares remain issued and outstanding, for any reason whatsoever, then upon the

occurrence of such an event all issued and outstanding Class B Shares shall immediately thereupon be entitled one non-cumulative vote for each share held of record on all matters to be voted on by the Corporation's shareholders thereafter.

Class B Non-voting Common Shares

The amount of security authorized is 5,000,000 with a total of 0 outstanding.

Voting Rights

There are no voting rights associated with Class B Non-voting Common Shares.

Material Rights

ARTICLE IV 2. OF THE AMENDED AND RESTATED ARTICLES OF INCORPORATION OF A BAND OF ANGLERS, INC. The powers, preferences and rights, and the qualifications, limitations and restrictions of the Corporation's Class A Shares and Class B Shares are as follows: (i) Holders of the Corporation's Class A Shares and Class B Shares shall, together as a single class, have equal ratable rights to receive dividends when, as and if declared by the Board of Directors, out of funds legally available therefor and are entitled to share ratably in the net assets available for distribution; (ii) None of the Class A Shares or Class B Shares have any pre-emptive or similar rights and none of the Class A Shares or Class B Shares are redeemable by their respective terms; and (iii) Holders of Class A Shares shall have one non-cumulative vote for each share held of record on all matters to be voted on by the Corporation's shareholders; and holders of the Class B Shares shall have no right to vote on any matter to be voted on by the Corporation's shareholders, except to the extent otherwise required by the Florida Business Corporation Act. In the event that no Class A Shares remain issued and outstanding, for any reason whatsoever, then upon the occurrence of such an event all issued and outstanding Class B Shares shall immediately thereupon be entitled one non-cumulative vote for each share held of record on all matters to be voted on by the Corporation's shareholders thereafter.

SAFE (Simple Agreement for Future Equity)

The security will convert into Class a voting common shares and the terms of the SAFE (Simple Agreement for Future Equity) are outlined below:

Amount outstanding: $1,860,000.00
Interest Rate: 0.0%
Discount Rate: 33.33%
Valuation Cap: None
Conversion Trigger: The SAFE notes mature during a qualified financing or change of control event which can occur in any year.

Material Rights

There are 2 possible conversion events:

First, in case of a Corporate Transaction (sale of substantially all the Company's assets, merger, change of control, etc.), the agreements provide the right of the investor to either receive his/her original investment back (Cash-Out Provision) or to convert his/her SAFE into shares of the Company based on such Corporate Transaction valuation.

Second, in case of a qualified financing of more than $500,000, the SAFE will automatically convert into shares at a 33.33% discount to the share price of such qualified financing. For the avoidance of doubt, should the Company raise more than $500,000 through StartEngine, the $1,860,000 SAFE will entirely be converted into shares at a 33.33% discount to the StartEngine fundraising. The SAFE agreements are not subject to a valuation cap.

What it means to be a minority holder

As a minority holder of the Class B Non-Voting shares, you will have no voting rights in regards to the corporate actions of the company, including additional issuances of securities, company repurchases of securities, a sale of the company or its significant assets, or company transactions with related parties. Further, investors in this offering may have rights less than those of other investors, and will have limited influence on the corporate actions of the company.

Dilution

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible bonds, preferred shares or warrants) into stock. If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the company).

Transferability of securities

For a year, the securities can only be resold:

- In an IPO;
- To the company;

- To an accredited investor; and
- To a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

Recent Offerings of Securities

We have made the following issuances of securities within the last three years:

- **Type of security sold:** SAFE
  Final amount sold: $1,860,000.00
  Use of proceeds: Product Development and growth of the Company - amount raised between Dec. 2018 and Oct. 2019
  Date: December 06, 2018
  Offering exemption relied upon: Private placement

Financial Condition and Results of Operations

Financial Condition

You should read the following discussion and analysis of our financial condition and results of our operations together with our financial statements and related notes appearing at the end of this Offering Memorandum. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors, including those discussed in the section entitled "Risk Factors" and elsewhere in this Offering Memorandum.

Results of Operations

Circumstances which led to the performance of financial statements:

Year ended December 31, 2020 compared to year ended December 31, 2019

Revenue

Revenue for fiscal year 2021 was $690,774 down 18.6% compared to fiscal year 2020 revenue of $848,780, or a $158,006 decrease.

This is for a large part due to international sales, with a drop of $95,847 or 84.0%, generated by the closure of all sport fishing activities in France during the COVID period which severely impacted retail sales. Due to COVID also, 2020 international orders where only fulfilled in 2021 and these lures are still being sold today. We expect a large order from our European distributor before the end of the year with the same

level as the 2019 and 2020 ones (around $100,000), despite our little marketing efforts so far to develop our international sales.

In 2021, the U.S. remained by far the most important market for the Company but we decided to give a priority to improving our bottom line rather than trying to maximize our revenues. As a consequence we cut our marketing expenses by almost half (from $482,995 down to $261,594) and improved our net loss by 40%, from ($625,704) in 2020 up to ($377,210) in 2021. Despite this we achieved a very limited decrease of our US sales at minus 8.5% or $62,159 in 2021 vs. 2020. Our main retailers and distributors remain on our side and we are confident that we can resume growth in the near future while at the same time keeping the existing trend of sharp improvement of our bottom line.

Cost of sales

Cost of sales include factory cost, freight from Asia to the US and tax & duty at the US border.

Cost of sales in 2021 was $346,089 or 50,1% of sales, to be compared to $393,286 or 46.3% of sales in 2020. This increase of 3.8% is linked to our subscription box partner, which sales soared from $16,260 in 2020 to $194,450 in 2021, but with lower margins than sales to regular retailers of distributors.

Gross margin

2021 gross profit decreased by $110,809 over 2020 gross profit. The Company is working hard to reach their target of 62.0% gross margin in 2022. This will depend in part on the share of the business done with its subscription box partner, which could be a multiple of 2021 sales of $194,450 but which require heavy WCR financing.

Expenses

The Company's expenses consist of, among other things, compensation and benefits, marketing and sales expenses, fees for professional services and patents and research and development expenses.

Total operating expenses decreased by $307,103 or 28.9% in 2021 after a 2020 decrease by $508,319 or 32.4% from 2019. Total operating expenses have been cut in half in 2021 compared to 2019 at $756,948 vs. $1,572,370.

Heavy G&A cost savings has been implemented following the COVID pandemic both in 2020 and 2021. In 2021, as mentioned above, the Company also cut sharply in its Advertising & Marketing expenses.

The Company has shifted to a lean operating model with as little employees and fixed costs as possible. Apart from the CEO, the Company currently employs 2 key managers, its General Sales Manager and its Asia Manager, so in total 3 employees down from 6 at the peak in 2019.

Net income

After lowering its net loss from $1,311,700 in 2019 down to $625,804 in 2020, the Company succeeded in lowering it again to $377,210 in 2021. Target is now profitable growth, i.e. to develop sales again while keeping fixed costs as low as possible. To achieve this, the Company will leverage its superior 30-lure range and its strong distribution foothold in the US as well as accelerate its international expansion.

Historical results and cash flows:

The Company is currently in growth stage and revenue generating ($2.5 mn sales to date). We are of the opinion the historical cash flows will not be indicative of the revenue and cash flows expected for the future because we expect the Company's sales to grow significantly in the years to come. Once the break-even point is reached, which we estimate at $2.5 mn in yearly sales, the Company will start to make profits.

Past cash was primarily generated through sales, SAFE investments, bank debt and some government grants and funding (SBA loan). Our goal is to reach a first target of $10mn in sales within 5 years with a 20%+ EBITDA margin. Second target at a much longer term is to reach $50mn in sales.

Liquidity and Capital Resources

What capital resources are currently available to the Company? (Cash on hand, existing lines of credit, shareholder loans, etc...)

As of March 31, 2021, the Company has capital resources available in the form of:

—a line of credit for $383,500 (100% outstanding) from the Small Business Administration (SBA)

—a loan from a SAFE holder of $100,000

—a loan from the owner of its European distributor of $100,000

—2 loans from Wells Fargo bank for less than $50,000 in aggregate

The Company had a $38,264 total available cash balance as of April 8, 2022 at 3pm ET.

How do the funds of this campaign factor into your financial resources? (Are these funds critical to your company operations? Or do you have other funds or capital resources available?)

We believe the funds of this campaign are critical to our company's operations. On top of our current $38,264 cash balance, we currently have around $40,000 invested in this Regulation Crowdfunding campaign but not yet actually disbursed to us (please note that some investors may still cancel their investment).

We have discussions ongoing to raise other funds and capital resources in addition to

the funds from this Regulation Crowdfunding campaign but we are currently focused on the success of this Regulation Crowdfunding campaign.

Are the funds from this campaign necessary to the viability of the company? (Of the total funds that your company has, how much of that will be made up of funds raised from the crowdfunding campaign?)

We believe the funds from this campaign are necessary to the viability of the Company. If this campaign was to be unsuccessful, a mix of current shareholders and new shareholders (some identified) will be needed to subscribe to a new fund raising in order for the Company to continue as a going concern.

How long will you be able to operate the company if you raise your minimum? What expenses is this estimate based on?

If the Company raises the minimum offering amount, or rather if the Company does not raise any more money in the future from this Regulation Crowdfunding campaign, we anticipate the Company will be able to operate for 4 months should no alternative fundraising or financing be successful. This is based on the following:

—On the one hand disappointing Q1 2022 sales in the US at $150k in total ($50k monthly in average instead of $80k) due partly to the OMICRON variant slowdown from November to February, partly to some large distributor shows being cancelled, partly to the arrival at the retailers of China orders dating back over the last 18 months, leading us to revise our monthly average expected sales to $60k in Q2 2022 allowing c. $25k of gross margin,

—On the other hand $50k worth of expenses each month ($16k in product development, $16k in sales and $18k in G&A),

—Leading to a burn rate of $25k per month,

—To be compared with $38k total available cash balance as of April 8, 2022 plus $40k invested in this Regulation Crowdfunding campaign but not yet actually disbursed to us (please note that some investors may still cancel their investment), i.e. a little bit more than 3 months plus an additional one month achieved through cost cutting.

How long will you be able to operate the company if you raise your maximum funding goal?

If the Company raises the maximum offering amount of$1,069,000, we anticipate the Company will be able to operate for 15 months. This is based on the current business plan and on the ability to raise some additional bank debt to finance the working capital requirement growth. Should the Company raise $1.0mn more, our target is that the Company reaches break-even and does not need any additional equity financing.

Are there any additional future sources of capital available to your company? (Required capital contributions, lines of credit, contemplated future capital raises, etc...)

Currently, the Company is open to additional future sources of capital including a new raise on StartEngine, equity or debt private placements and lines of credits.

Indebtedness

- **Creditor:** SAFE Holders
  Amount Owed: $1,860,000.00
  Interest Rate: 0.0%
  The SAFE agreements have no maturity date and bear no interest. There are 2 possible conversion events: First, in case of a Corporate Transaction (sale of substantially all the Company's assets, merger, change of control, etc.), the agreements provide the right of the investor to either receive his/her original investment back (Cash-Out Provision) or to convert his/her SAFE into shares of the Company based on such Corporate Transaction valuation. Second, in case of a qualified financing of more than $500,000, the SAFE will automatically convert into shares at a 33.33% discount to the share price of such qualified financing. For the avoidance of doubt, should the Company raise more than $500,000 through StartEngine, the $1,860,000 SAFE will entirely be converted into shares at a 33.33% discount to the StartEngine fundraising. The SAFE agreements are not subject to a valuation cap.

- **Creditor:** SAFE Holder
  Amount Owed: $100,000.00
  Interest Rate: 12.0%
  One of the SAFE holders has made an advance to the Company.

- **Creditor:** Wells Fargo Bank
  Amount Owed: $50,000.00
  Interest Rate: 8.0%
  Maturity Date: December 01, 2024
  This loan is secured by personal property. Money was received in January 2020 and monthly payments of $1,016.63 are required. The balance of this loan was $42,805 as of December 31, 2020. Balance as of end of October 2021 is $35,305.

- **Creditor:** Company's European Agent
  Amount Owed: $100,000.00
  Interest Rate: 2.72%
  Maturity Date: February 01, 2023

- **Creditor:** Wells Fargo Bank

Amount Owed: $35,000.00
Interest Rate: 8.0%
Maturity Date: December 31, 2022
This loan is secured by a personal guarantee. The balance of this loan was $17,969 as of December 31, 2021. Note: This is a revolving loan.

- **Creditor:** SBA Loan
  Amount Owed: $383,500.00
  Interest Rate: 3.75%
  Maturity Date: October 31, 2051

Related Party Transactions

- **Name of Entity:** Shareholder of Braingenious, Inc. [Patrick Sébile]
  Relationship to Company: Officer
  Nature / amount of interest in the transaction: In 2019, a shareholder advanced the Company money in the amount of $15,000 carrying no interest rate and no maturity date. This advance was not secured.
  Material Terms: The ending balance of this advance was $15,000 as of December 31, 2020 and $40,000 as of end of March 2022.

- **Name of Entity:** Shareholder of Braingenious, Inc. [Constantin Pellissier]
  Relationship to Company: Director
  Nature / amount of interest in the transaction: In November 2020, the Company entered into a consignment agreement with a Florida LLC ("the Minority Shareholder") which is both (i) a minority shareholder of Braingenious, Inc., owner of 100% of the shares of the Company, and (ii) indirectely owned by a director of the Company.
  Material Terms: In October 2020, the Company sold lures at cost to the Minority Shareholder in the amount of $278,291 which were held at a third party's warehouse. In November 2020, the Company entered into a Consignment Agreement with the Minority Shareholder whereby the Company can sell the Minority Shareholder's lures on consignment to its customers, provided that each time a lure is sold, the Company pays the Minority Shareholder the price of such lure equal to factory cost plus 20%. This percentage increases by 1.5% per month after April 1st, 2021. Furthermore, the Company had accounts payable associated to this Entity in the amount of $64,885 as of December 31st, 2021.

- **Name of Entity:** Shareholder of Braingenious, Inc. [MK Ltd]
  Names of 20% owners: [Mr. Luke Mak]
  Relationship to Company: 24.39% shareholder of Braingenious, Inc.
  Nature / amount of interest in the transaction: Business relationship with an indirect shareholder of the Company (i.e. shareholder of Braingenious, Inc.).
  Material Terms: As of end of 2021, the Company had accrued payables in the amount of $453,342 due to a company whose owner is a shareholder of

Braingenious, Inc. The Company is not involved in any litigations with respect to this past due amount.

Valuation

Pre-Money Valuation: $7,790,000.00

Valuation Details:

The valuation of the Company has several components:

- the size of the fishing tackle market which is around $15bn worldwide according to our estimates ;

- the dynamics of such market with 55mn anglers in 2020 in the US alone ;

- the fame of the Company's founder Patrick Sébile, which triggers increased marketing efficiency and sales traction ;

- the existing distribution network in the US and Europe which allowed the Company to achieve cumulative sales of $2.35mn to date ;

- the replacement value of the existing 800-SKU product range and its superiority as compared to most existing competition ;

- the value of the patents owned by the Company ;

- the value of the trademarks owned by the Company ;

- the value of the future patents and product innovations / creations that the Founder has in reserve ;

- the development prospects of the Company in the US and in the top 10 countries worldwide where the Founder has sold lures under its name in the past.

The Company set its valuation internally, without a formal-third party independent evaluation.

The pre-money valuation has been calculated on a fully diluted basis. In making this calculation, we have assumed:

(i) all preferred stock is converted to common stock;

(ii) all outstanding options, warrants, and other securities with a right to acquire shares are exercised; and

(iii) any shares reserved for issuance under a stock plan are issued.

Use of Proceeds

If we raise the Target Offering Amount of $10,000.00 we plan to use these proceeds as follows:

- *StartEngine Platform Fees*
  3.5%

- *Working Capital*
  96.5%
  Place orders to our Asian factories to fulfill customer demand.

If we raise the over allotment amount of $1,069,000.00, we plan to use these proceeds as follows:

- *StartEngine Platform Fees*
  3.5%

- *Marketing*
  25.0%
  Build the community on social media, sponsor some pro anglers, build online sales, post videos and content on a weekly basis

- *Working Capital*
  40.0%
  Place orders at our Asian factories to meet customers' needs.

- *Operations*
  20.0%
  Set up a tele-operating unit to boost independent stores sales, hire a marketing associate

- *Research & Development*
  11.5%
  Finalize legal work on existing patents, extend them worldwide and file new prosvisionnal patents, develop and launch selected additions to the product range

The Company may change the intended use of proceeds if our officers believe it is in the best interests of the company.

Regulatory Information

Disqualification

No disqualifying event has been recorded in respect to the company or its officers or directors.

Compliance Failure

The company has not previously failed to comply with the requirements of Regulation Crowdfunding.

Ongoing Reporting

The Company will file a report electronically with the SEC annually and post the report on its website no later than April 30 (120 days after Fiscal Year End). Once posted, the annual report may be found on the Company's website at https://abandofanglers.com/ (https://abandofanglers.com/annualreport).

The Company must continue to comply with the ongoing reporting requirements until:

(1) it is required to file reports under Section 13(a) or Section 15(d) of the Exchange Act;

(2) it has filed at least one (1) annual report pursuant to Regulation Crowdfunding and has fewer than three hundred (300) holders of record and has total assets that do not exceed $10,000,000;

(3) it has filed at least three (3) annual reports pursuant to Regulation Crowdfunding;

(4) it or another party repurchases all of the securities issued in reliance on Section 4(a)(6) of the Securities Act, including any payment in full of debt securities or any complete redemption of redeemable securities; or

(5) it liquidates or dissolves its business in accordance with state law.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To Management
A Band Of Anglers, Inc.

We have reviewed the accompanying financial statements of the Company which comprise the statement of financial position as of December 31, 2020 & 2021 and the related statements of operations, statement of changes in shareholder equity, and statement of cash flows for the years and months then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility
Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion
Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Going Concern
As discussed in Note 8, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs.

A Band of Anglers, Inc.
Notes to the Unaudited Financial Statements
December 31st, 2021
$USD

NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES

A Band of Anglers, Inc ("the Company") was originally formed in Florida on August 23rd, 2017 as a Limited Liability Company before converting on June 15th, 2018. The Company is active in the field of fishing tackle. More precisely, the Company designs and markets fishing lures. Lures are manufactured in China and Taiwan by subcontractors and imported in the US and Europe. They are sold in the US mainly through "Big Box" retailers and distributors. In Europe, the Company has an agent located in France. The Company's inventory is stored at a 3rd party logistics warehouse.

The Company has achieved cumulative sales of more than $2.5M to date, is headquartered in Florida, and its customers are currently located in the United States and in Europe. The Company will ultimately sell its products all over the world.

The Company is currently conducting a crowdfunding campaign under regulation CF in 2022 to raise operating capital.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Our financial statements are prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). Our fiscal year ends on December 31. The Company has no interest in variable interest entities and no predecessor entities.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Fair Value of Financial Instruments

ASC 820 "*Fair Value Measurements and Disclosures*" establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets;
Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and
Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Concentrations of Credit Risks

The Company's financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Concentration of Revenue Risk

In 2020 and 2021, five "Big Box" retailers and distributors accounted for above $50,000 of sales individually and together for 56% and 58% of total sales, or $479,000 and $402,000 respectively. There is a risk in losing contracts with these major clients; however, the Company's management is confident in quickly replacing them with other retailers and distributors.

Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, "Revenue Recognition" following the five steps procedure:

Step 1: Identify the contract(s) with customers
Step 2: Identify the performance obligations in the contract
Step 3: Determine the transaction price
Step 4: Allocate the transaction price to performance obligations
Step 5: Recognize Revenue When or As Performance Obligations Are Satisfied

The Company's primary performance obligation is the delivery of products. Revenue is recognized at the time of shipment net of all applicable rebates and discounts. Early payments are rewarded by a 2% discount which is expensed as incurred.

Contractually, there are no returns permitted apart from defective products. Returns are rare and marginal in value historically. They are accounted for as goods are received and credit issued to client (no reserve). Clients pay in average at 45 days (range: 30 to 90 days).

Property and Equipment

Property and equipment are recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in income. Depreciation is provided using the straight-line method, based on useful lives of the assets.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment for December 31, 2020.

A summary of the Company's property and equipment is below.

Property Type	Useful Life (in years)	Cost	Accumulated Depreciation	Disposals	Book Value as of 12/31/21
Equipment	3	155 007	155 007	-	-
Grand Total	**-**	**155 007**	**155 007**	**-**	**-**

Inventory

The Company's inventory consists of finished goods and inventory in transit. Inventory is valued at cost on the "first-in, first-out" (FIFO) basis. A summary of the Company's inventory is below.

Inventory	2021	2020
Finished Goods	182 233	323 702
Inventory in Transit	62 725	98 724
Grand Total	**244 958**	**422 426**

Royalty Payments

In October 2018, the Company purchased all the assets and immaterial property related to one of the brands of fishing lures that is sells. Included in this asset purchase was a Royalty Agreement – modified in April 2021 – which requires a monthly payment of 10% of the sales of this particular brand to its Sellers. As of December 31, 2021 and 2020, the Company has paid $8,868 and $20,332 respectively which have been included in the cost of revenue on the Statement of Operations.

Accounts Receivable

Trade receivables due from customers are uncollateralized customer obligations due under normal trade terms. Trade receivables are stated at the amount billed to the customer. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoices. Payments are generally collected upfront, but some of the merchants that products are sold through have a delay between collecting from the customer and sending to the Company.

The Company estimates an allowance for doubtful accounts based upon an evaluation of the current status of receivables, historical experience, and other factors as necessary. It is reasonably possible that the Company's estimate of the allowance for doubtful accounts will change.

Advertising Costs

Advertising costs associated with marketing the Company's products and services are generally expensed as costs are incurred.

General and Administrative

General and administrative expenses consist of payroll and related expenses for employees and independent contractors involved in general corporate functions, including accounting, finance, tax, legal, business development, and other miscellaneous expenses.

Equity Based Compensation

The Company does not have an equity-based compensation plan.

Income Taxes

The Company is subject to corporate income and state income taxes in the state it does business. A deferred tax asset as a result of net operating losses (NOL) has not been recognized due to the uncertainty of future positive taxable income to utilize the NOL. Due to the recently enacted Tax Cuts and Jobs Act, any NOLs will be limited to 80% of taxable income generated in future years.

Recent accounting pronouncements

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company follows ASC 850, "Related Party Disclosures," for the identification of related parties and disclosure of related party transactions.

In 2019, a shareholder advanced the Company money in the amount of $15,000 carrying no interest rate and no maturity date. This advance was not secured and was increased by 25,000 in 2021. The ending balance of this advance was hence $40,000 as of December 31, 2021.

Please see "Note 5 – Debt" regarding loans with the Company's European Agent and a major SAFE holder.

The Company is 100% owned by another entity ("the Entity") of which a related party is a minority shareholder ("the Minority Shareholder"). In October 2020, the Company sold lures at cost to the Minority Shareholder in the amount of $278,291 which were held at a third party's warehouse. In November 2020, the Company entered into a Consignment Agreement with the Minority Shareholder whereby the Company can sell the Minority Shareholder's lures on consignment to its customers, provided that each time a lure is sold, the Company pays the Minority Shareholder the price of such lure equal to factory cost plus 20%. This percentage increases by 1.5% per month after April 1st, 2021. The Company had accounts payable to this Entity in the amounts of $64,885,05 as of December 31, 2021.

In 2021, the Company had accrued payables in the amount of $453,342.24 due to a company whose owner is a shareholder of the Entity mentioned above. The Company is not involved in any litigations with respect to this past due amount.

NOTE 4 – CONTINGENCIES, COMPLIANCE WITH LAWS AND REGULATIONS

We are currently not involved with or know of any pending or threatening litigation against the Company or any of its officers. Further, the Company is currently complying with all relevant laws and regulations.

NOTE 5 – DEBT

Loans

In November 2019, one of the major SAFE holders of the Company advanced $100,000 to the Company (no contract signed). The loan is revolving, bears interest at 12.00% per year, and has no security interest. The ending balance of this loan was $100,000 as of December 31, 2021 and 2020.

In December 2019, the Company entered into a loan agreement for $50,000 with a fixed interest rate of 8.0% and maturity date of December 2024. This loan is secured by personal property. Money was received in January 2020 and monthly payments of $1,016.63 are required. The balance of this loan was $33,746 as of December 31, 2021.

In December 2019, the Company and a French entity owned by the Company's European Agent entered into a loan agreement for $49,619 with an interest rate of 2.72% and maturity date of December 31, 2020. In February 2020, an additional payment was made to increase the loan to $100,000 with the same interest rate and maturity being pushed to February 1, 2022. This loan is not secured. The balance of this loan was $100,000 both as of December 31, 2021 and 2020, respectively.

In June 2020, the Company entered into a Payment Protection Program (PPP) loan agreement for $64,318. This loan is secured by the Company's accounts held by the lending bank. The balance of this loan was $64,318 as of December 31, 2020. The PPP loan was fully forgiven in July 2021.

In October 2021, the Company was granted an SBA loan for $383,400. Installment payments, including principal and interest, of $1,975.00 monthly, will begin twenty-four (24) months from the date of the promissory note (i.e., starting October 2023). The balance of principal and interest will be payable thirty (30) years from the date of the promissory note. Interest will accrue at the rate of 3.75% per annum and will accrue only on funds actually advanced from the date(s) of each advance. The balance of this loan was $ 383,400 as of December 31, 2021.

Simple Agreements for Future Equity (SAFE) - During the periods ending December 31, 2019 and 2020, the Company entered into numerous SAFE agreements (Simple Agreement for Future Equity) with third parties for a total of $1,860,000. The SAFE agreements have no maturity date and bear no interest. There are 2 possible conversion events: First, in case of a Corporate Transaction (sale of substantially all the Company's assets, merger, change of control, etc.), the agreements provide the right of the investor to either receive his/her original investment back (Cash-Out Provision) or to convert his/her SAFE into shares of the Company based on such Corporate Transaction valuation. Second, in case of a qualified financing of more than $500,000, the SAFE will automatically convert into shares at a 33.33% discount to the share price of such qualified financing. For the avoidance of doubt, should the Company raise more than $500,000 through StartEngine, the $1,860,000 SAFE will entirely be converted into shares at a 33.33% discount to the StartEngine fundraising. The SAFE agreements are not subject to a valuation cap.

Debt Principal Maturities 5 Years Subsequent to 2021

Year	Amount
2022	127 720
2023	114 808
2024	26 284
2025	13 693
Thereafter	352 591
Total	635 096

*The SAFE notes mature during a qualified financing or change of control event which can occur in any year.

NOTE 6 – EQUITY

The Company has authorized 10,000,000 shares of Common Stock with a par value of $0.10 per share, (i) 5,000,000 of which shall be designated as "Class A Voting Common Stock" and (ii) 5,000,000 of which shall be designated as "Class B Non-Voting Common Stock.". Pursuant to the implementation of a 1,000 for 1 stock split in November 2021, the Company had 1,000,000 outstanding Class A Voting Common Stock as of December 31, 2021 vs. 1,000 as of December 31, 2020.

Common stockholders are entitled to one vote and can receive dividends at the discretion of the boards of directors.

NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated events subsequent to December 31, 2021 to assess the need for potential recognition or disclosure in this report. Such events were evaluated through March 29, 2022, the date these financial statements were available to be issued.

In January 2022, the Company and the French entity owned by the Company's European Agent signed an amendment to the above mentioned $100,000 loan agreement which pushed the due date from February 1, 2022 to February 1, 2023, all other conditions remaining unchanged.

NOTE 8 – GOING CONCERN

The accompanying balance sheet has been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The entity has realized losses every year since inception, has negative cash flows from operations, and negative working capital.

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. No assurance can be given that the Company will be successful in these efforts. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities.

NOTE 9 – RISKS AND UNCERTAINTIES

COVID-19

Since December 31, 2020 the spread of COVID-19 has severely impacted many local economies around the globe. In many countries, businesses are being forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global stock markets have also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilize economic conditions.

The duration and impact of the COVID-19 pandemic, as well as the effectiveness of government and central bank responses remains unclear currently. It is not possible to reliably estimate the duration and severity of these consequences, as well as their impact on the financial position and results of the Company for future periods. Note: this disclosure assumes there is no significant doubt about the entity's ability to continue as a going concern.

Overview

The global Marine Fishing Products market was valued at USD 12.5 billion in 2023 and is projected to reach USD 18.7 billion by 2030, growing at a CAGR of 5.9% during the forecast period. This growth is driven by increasing demand for seafood, technological advancements in fishing equipment, and rising awareness about sustainable fishing practices.

Reasons to Invest

- Growing global population and increasing seafood consumption
- Technological advancements in fishing equipment and practices
- Rising awareness about sustainable fishing practices
- Increasing demand for high-quality fishing products
- Expanding aquaculture industry
- Government initiatives to support the fishing industry
- Growing e-commerce platforms for fishing products
- Increasing disposable income in emerging economies
- Rising demand for recreational fishing activities
- Development of new fishing techniques and methods

Market Overview

The Marine Fishing Products market encompasses a wide range of products, including fishing rods, reels, lines, hooks, lures, nets, and boats. These products are used by both commercial and recreational fishermen for various fishing activities, such as deep-sea fishing, inshore fishing, and freshwater fishing.

Leading Manufacturers

The market is dominated by a few major players, including Shimano, Daiwa, Pure Fishing, and Berkley. These companies have a strong presence in the market and offer a wide range of products. They also invest heavily in research and development to introduce new and innovative products.

Regional Analysis

North America is the largest market for Marine Fishing Products, followed by Europe and Asia-Pacific. The growth in North America is driven by the high number of recreational fishermen and the presence of major manufacturers. The growth in Asia-Pacific is driven by the increasing disposable income and the growing aquaculture industry.

Product Segmentation

The market is segmented by product type into fishing rods, reels, lines, hooks, lures, nets, and boats. Fishing rods and reels are the largest segment, followed by lines and hooks. The demand for fishing rods and reels is driven by the increasing number of recreational fishermen.

Application Segmentation

The market is segmented by application into commercial fishing and recreational fishing. Recreational fishing is the largest segment, followed by commercial fishing. The growth in recreational fishing is driven by the increasing disposable income and the growing popularity of fishing as a leisure activity.

Technological Advancements

Technological advancements are playing a significant role in the growth of the Marine Fishing Products market. New materials, such as carbon fiber and graphite, are being used to make lighter and stronger fishing rods and reels. Electronic fishing equipment, such as fish finders and GPS systems, is also becoming more popular.

Regulatory Environment

The regulatory environment for Marine Fishing Products is complex and varies by region. Governments are implementing regulations to protect fish stocks and promote sustainable fishing practices. These regulations can impact the demand for fishing products.

Challenges and Restraints

The market faces several challenges and restraints, including overfishing, pollution, and climate change. These factors can reduce the number of fish available for fishing and impact the demand for fishing products.

Growth Opportunities

There are several growth opportunities in the Marine Fishing Products market, including the development of new fishing techniques and methods, the expansion of the aquaculture industry, and the increasing demand for high-quality fishing products.

Competitive Landscape

The market is highly competitive, with a few major players dominating the market. These companies have a strong presence in the market and offer a wide range of products. They also invest heavily in research and development to introduce new and innovative products.

Mergers and Acquisitions

There have been several mergers and acquisitions in the Marine Fishing Products market in recent years. These deals have been driven by the desire to expand market share and gain access to new technologies.

Pricing Analysis

The pricing of Marine Fishing Products varies depending on the product type, brand, and quality. High-end products can be very expensive, while low-end products are more affordable.

Supply Chain Analysis

The supply chain for Marine Fishing Products is complex and involves several stakeholders, including manufacturers, distributors, and retailers. The supply chain can be impacted by factors such as transportation costs and weather conditions.

Value Chain Analysis

The value chain for Marine Fishing Products includes several activities, such as research and development, manufacturing, marketing, and distribution. Each activity adds value to the product and contributes to the overall profitability of the company.

Porter's Five Forces Analysis

Porter's Five Forces Analysis is a framework for analyzing the competitive environment of an industry. The five forces are the threat of new entrants, the bargaining power of buyers, the bargaining power of suppliers, the threat of substitutes, and the rivalry among existing competitors.

SWOT Analysis

SWOT Analysis is a framework for analyzing the strengths, weaknesses, opportunities, and threats of a company. It can be used to identify the company's competitive advantages and disadvantages.

Market Forecast

The market is expected to grow at a CAGR of 5.9% during the forecast period, reaching USD 18.7 billion by 2030. This growth is driven by increasing demand for seafood, technological advancements in fishing equipment, and rising awareness about sustainable fishing practices.

Assumptions and Methodology

The market forecast is based on several assumptions, including the growth of the global population, the increasing demand for seafood, and the technological advancements in fishing equipment. The methodology used to forecast the market includes a combination of primary and secondary research.

Appendix

The appendix includes additional information, such as a list of abbreviations, a glossary of terms, and a bibliography.

Conclusion

The Marine Fishing Products market is a growing market with a bright future. The increasing demand for seafood, technological advancements in fishing equipment, and rising awareness about sustainable fishing practices are driving the growth of the market. The market is highly competitive, with a few major players dominating the market. These companies have a strong presence in the market and offer a wide range of products. They also invest heavily in research and development to introduce new and innovative products.

How Low-Orbit Satellites Are Transforming Rural Internet Access

EXHIBIT D TO FORM C

VIDEO TRANSCRIPT

Header Video

Voiceover:

Patrick Sebile was just 8 years old when he made his first fishing lure.

Since then he has become a world-renowned angler, voted one of the 20 best in the world. He has fished in 71 countries, catching 783 different species. Patrick has appeared in over 200 TV shows, and about as many magazines covers and has written many books and articles on fishing.

More people fish than those who play golf and tennis combined.

According to the Recreational Boating and Fishing Foundation (RBFF), the number of all anglers has grown to reach 50.1 million in 2019. Roughly one in six Americans.

Together, they spend over $51 billion annually on equipment, licenses, trips, and other fishing-related items or events.

Over the years Patrick became disillusioned as the fishing as fish and tackle companies became corporate. So Patrick created A Band of Angles. A fishing company for anglers by anglers.

Patrick Speaking:

My life passion has always been fishing. Part of this passion has been to create things that I can use to catch fish. I created A Band of Anglers for every type of angler. For the experts like me to beginners like my children.

Join us as A Band of Anglers makes a splash in the booming recreational fishing industry.

Invest in a Band of Anglers today!

The Solutions Video Transcript

Oh, just landed just one of them just rolled right on the surface here. So, Patrick, we mix things up now. We've gone to a soft plastic. Talk to me a little bit about your soft plastics, what we're fishing now.

Yeah, we're using mostly two soft plastics. The sand eel, which is basically a long, slender body with a long paddle tail and the curlyminn, which is a big curly tail but thin

. And I like to use both because they really complement each other a lot. So that's what we have right here.

You and I have the curly tail.

You have the curly minn and this guy right here which have a different rod, is the sand eel. The sand eel with a little bit of a paddle tail there. Yeah, that guy has a paddle tail. Both of them are

made of soft stuff

like the dartspin which you know and love.

Look at the screen right now on keep talking. I'm going to drop down because I can fish directly below the boat.

So the big difference between the two is the type of action being made with soft stuff. It's much more kicking than a regular soft plastic so the overall body moves a lot when you retrieve the sand eel.

Now the the curly minn is a curly tail so it allows you for very slow action.

And as you know, some time you need slow action and also at the opposite, you can go super fast

and you don't make any resistance. You can go as fast as you want for both striped bass and also for tuna.

Actually, they're breaking right here.

Right now we have fish feeding on the surface, but there is fish below the boat and it's just a matter of kind

of moving around.

There he is. I was teasing him up and he just he finally hit. So what I did is I mark fish down below.

I dropped the curly tail to the bottom and I just kind of kept retrieving it teasing it and retrieving teasing and that did it.

And that's the curlyminn it is great for that very little slow jigging that basically usually other

soft plastics don't allow.

And it's a beauty. And the tail is a beauty. And because the softer material is so thanks to that also, I mean, even when you make a pause on the bottom, like when you have a buck tail and you fish on the bottom, actually, the body floats up and the tail moves by itself with the current.

And that's pretty much what I did, Patrick. I really went really, very, very slow. Right now, we're starting to get a little bit of wind currents starting to pick up, and you can start seeing some of these fish rising

out on the surface.

But what I did is using my Simrad electronics, I got a 24 inch screen. That's what I started fishing right there. So what we did is we changed it up went with a soft plastic. I dropped down the curly tail sand eel. Just worked it along the bottom. And I got a nice striped bass.

Beautiful striper on the curlyminn

Probably 30 something. 32,

but a nice fish.

I have some like this

with one ounce.

Patrick, if you want to grab them.

Yeah yeah!

Here you go Patrick.

Beautiful fish. Really healthy.

Absolutely gorgeous fish.

Look at that gorgeous fish.

Changing your tactics, depending on what's happening with your current tide, can produce really nice fish, along with being in tune with what you're throwing, and that's what we did Patrick.

The screen was telling us

we should go low.

We broke out some of your sand eels and then Patrick picked out the pattern. That's a gorgeous fish.

What we're going to do is going to go and pop that. And what's nice about this guys is that what Patrick did with it. He's telling you where that hook is going to go. Here's where it is. It sets right in here,

so you can follow that.

Bring it right out. And that gives you a real nice natural presentation with that curly tail passing beautiful fish. Let's get this fish back in the water. I'm just going to put it in gear and let it swim for a second long.

He's ready to go.

Why Invest Video Transcript

Ken Duke: it's the truth, it is the truth!

Interviewer: What truth exactly?

Ken Duke: There have been a lot of great bait designers in world history. And in America we think of guys like James Heddon who really designed some of the earlier hard baits for bass, pike, musky, things like that. Later we had giants like Nick Creme come on, and basically

reinvent the soft plastics category and more recently I think guys like Ed Chambers from Zoom has made some of the most innovative soft baits in history, Lee Sisson who worked for years at Bagley as consultant with almost every other hard bait company in the industry is obviously a genius of hard bait design, if you want to isolate hard baits, I think that Lee is the best. But when you really want to consider the expanse of possible lure design, if you wanna talk hard baits and soft baits, if you wanna talk fresh water and salt water, there is really only one name and that's Patrick Sébile. Patrick Sébile is not only the only man to win both sides of the ICAST Awards, both hard baits and soft baits the same year, but he has proven with the endurance of his designs that he is an absolute genius and master of fresh and salt water. He is unparalleled.

Interviewer : thank you Ken."

STARTENGINE SUBSCRIPTION PROCESS (Exhibit E)

Platform Compensation

- As compensation for the services provided by StartEngine Capital, the issuer is required to pay to StartEngine Capital a fee consisting of a 5.5-13% (five and one-half to thirteen) commission based on the dollar amount of securities sold in the Offering and paid upon disbursement of funds from escrow at the time of a closing. The commission is paid in cash and in securities of the Issuer identical to those offered to the public in the Offering at the sole discretion of StartEngine Capital. Additionally, the issuer must reimburse certain expenses related to the Offering. The securities issued to StartEngine Capital, if any, will be of the same class and have the same terms, conditions and rights as the securities being offered and sold by the issuer on StartEngine Capital's website.

- As compensation for the services provided by StartEngine Capital, investors are also required to pay StartEngine Capital a fee consisting of a 0-3.5% (zero to three and a half percent) service fee based on the dollar amount of securities purchased in each investment.

Information Regarding Length of Time of Offering

- Investment Cancellations: Investors will have up to 48 hours prior to the end of the offering period to change their minds and cancel their investment commitments for any reason. Once within 48 hours of ending, investors will not be able to cancel for any reason, even if they make a commitment during this period.

- Material Changes: Material changes to an offering include but are not limited to: A change in minimum offering amount, change in security price, change in management, material change to financial information, etc. If an issuer makes a material change to the offering terms or other information disclosed, including a change to the offering deadline, investors will be given five business days to reconfirm their investment commitment. If investors do not reconfirm, their investment will be canceled and the funds will be returned.

Hitting The Target Goal Early & Oversubscriptions

- StartEngine Capital will notify investors by email when the target offering amount has hit 25%, 50% and 100% of the funding goal. If the issuer hits its goal early, the issuer can create a new target deadline at least 5 business days out. Investors will be notified of the new target deadline via email and will then have the opportunity to cancel up to 48 hours before the new deadline.

- Oversubscriptions: We require all issuers to accept oversubscriptions. This may not be possible if: 1) it vaults an issuer into a different category for financial statement requirements (and they do not have the requisite financial statements); or 2) they reach
$5M in investments. In the event of an oversubscription, shares will be allocated at the discretion of the issuer.

- If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be canceled and committed funds will be returned.

- If a StartEngine issuer reaches its target offering amount prior to the deadline, it may conduct an initial closing of the offering early if they provide notice of the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). StartEngine will notify

investors when the issuer meets its target offering amount. Thereafter, the issuer may conduct additional closings until the offering deadline.

Minimum and Maximum Investment Amounts

- In order to invest, to commit to an investment or to communicate on our platform, users must open an account on StartEngine Capital and provide certain personal and non- personal information including information related to income, net worth, and other investments.

- Investor Limitations: There are no investment limits for investing in crowdfunding offerings for accredited investors. Non-accredited investors are limited in how much they can invest on all crowdfunding offerings during any 12-month period. The limitation on how much they can invest depends on their net worth (excluding the value of their primary residence) and annual income. If either their annual income or net worth is less than $107,000, then during any 12-month period, they can invest either $2,200 or 5% of their annual income or net worth, whichever is greater. If both their annual income and net worth are equal to or more than $107,000, then during any 12-month period, they can invest up to 10% of annual income or net worth, whichever is greater, but their investments cannot exceed $107,000.

I certify the attached is a true and correct copy of the Amended and Restated Articles of Incorporation, filed on December 9, 2021, for A BAND OF ANGLERS, INC., a Florida corporation, as shown by the records of this office.

The document number of this corporation is P18000054246.

Given under my hand and the Great Seal of the State of Florida at Tallahassee, the Capital, this the Tenth day of December, 2021

Laurel M. Lee

Secretary of State

CR2E022 (01-11)

AMENDED AND RESTATED ARTICLES OF INCORPORATION OF A BAND OF ANGLERS, INC.

1. The name of this corporation is A Band of Anglers, Inc., a Florida corporation (the "Corporation"), and the principal office address and mailing is 2408 Harbour Cove Drive, Fort Pierce, Florida 34949.

2. The Articles of Incorporation of the Corporation, originally filed June 18, 2018, under Document No. P 18000054246, are hereby deleted in their entirety and amended and restated to read as follows:

ARTICLE I - NAME AND BUSINESS ADDRESS

The name of this Corporation is A Band Of Anglers, Inc. Its principal office address and business mailing address is 1145 Via Jardin, West Palm Beach, Florida 33418.

ARTICLE II - DURATION

The Corporation shall have a perpetual existence.

ARTICLE III - PURPOSE

The purpose of this Corporation is to engage in any activities or business permitted under the Laws of the United States and Florida.

FILED
DEC -9 AM 10:0
SECRETARY OF STATE
TALLAHASSEE, FL

ARTICLE IV - CAPITAL STOCK

1. Stock Split.

Effective at 5:00 p.m., on the date of filing of these amended and restated articles of incorporation (the "Effective Time"), each share of capital stock, of all classes, of the Corporation ("Old Shares") issued and outstanding immediately prior to the Effective Time shall be automatically divided, converted, and reclassified into one thousand (1,000) new shares of capital stock ("New Shares") of the Corporation (the "Stock Split"). Each New Share shall have a par value of $0.0001 per share. No fractional shares shall result from or be issued upon division of the Old

Shares pursuant to the Stock Split. If the Stock Split would result in the creation of any fractional share, then in lieu of issuing any fractional share, the Corporation shall pay cash in an amount equal to the product of such fraction and the fair market value of one (1) New Share (as determined by the Board of Directors), rounded up to the nearest whole cent.

Each share certificate that, immediately prior to the Effective Time, represented Old Shares shall, from and after the Effective Time, automatically and without the necessity of presenting the certificate for exchange, represent that number of New Shares into which the Old Shares represented by that certificate have been divided, converted, and reclassified in the Stock Split; provided, however, that each holder of record of a share certificate that represented the Old Shares shall receive, upon surrender of such certificate, a new share certificate representing the number of New Shares into which the Old Shares represented by that certificate have been divided, converted, and reclassified in the Stock Split. The Stock Split shall occur whether or not share certificates representing the Old Shares are surrendered to the Corporation.

2. Authorized Capital Stock

The total number of shares of capital stock of all classes which the Corporation shall have authority to issue is ten million (10,000,000) common shares having a par value of $0.0001 ("Common Shares"). Of the ten million (10,000,000) Common Shares which the Corporation is authorized to issue: (a) five million (5,000,000) shares will be designated Class A Voting Common Shares ("Class A Shares") and (b) five million (5,000,000) shares will be designated as Class B Non-voting Common Shares ("Class B Shares").

The powers, preferences and rights, and the qualifications, limitations and restrictions of the Corporation's Class A Shares and Class B Shares are as follows:

(i) Holders of the Corporation's Class A Shares and Class B Shares shall, together as a single class, have equal ratable rights to receive dividends when, as and if declared by the Board of Directors, out of funds legally available therefor and are entitled to share ratably in the net assets available for distribution;

(ii) None of the Class A Shares or Class B Shares have any pre-emptive or similar rights and none of the Class A Shares or Class B Shares are redeemable by their respective terms; and

(iii) Holders of Class A Shares shall have one non-cumulative vote for each share held of record on all matters to be voted on by the Corporation's shareholders; and holders of the Class B Shares shall have no right to vote on any matter to be voted on by the Corporation's shareholders, except to the extent otherwise required by the Florida Business Corporation Act. In the event that no Class A Shares remain issued and outstanding, for any reason whatsoever, then upon the occurrence of such an event all issued and outstanding Class B Shares shall immediately thereupon be entitled one non-cumulative vote for each share held of record on all matters to be voted on by the Corporation's shareholders thereafter.

ARTICLE V – BOARD OF DIRECTORS

The Corporation shall be governed by a Board of Directors. The number of directors may be increased or decreased from time to time by vote of the Board of Directors, but in no case shall the number of directors be less than one nor more than seven. The name and address of the directors constituting the Board of Directors are:

Name	Address
Patrick Sebile	5269 Mammoth Grove Drive - Lake Wales, FL 33898 - USA

Phil Howarth	16 Snow Way, 02653 Orleans, Massachusetts - USA
Thomas Marchand	8200 Byron Avenue #1 - 33141 Miami Beach, FL - USA
Constantin Pellissier	Avenue Leo Errera 42, 1180 Brussels - BELGIUM

ARTICLE VI- INITIAL
REGISTERED OFFICE AND AGENT

The street address of the initial registered office of this Corporation shall be 1145 Via Jardin, West Palm Beach, Florida 33418, and the initial registered agent of this corporation at such office shall be Best Options, LLC, a Florida limited liability company, who upon accepting this designation agrees to comply with the provisions of Chapters 48 and 607, Florida Statutes as amended from time to time, with respect to keeping an office open for service of process.

[Signatures on the Following Pages]
