DIRECTORS/OFFICERS OF THE COMPANY

The directors and officers of the Company are listed below along with all positions and offices held and their principal occupation and employment responsibilities for the past three (3) years:

Name	Positions and Offices Held at the Company	Principal Occupation and Employment Responsibility for the Past Three (3) Years	Dates of Service
Joseph E Dwyer	President & Officer	Co-Founder Secretary	November 15, 2021 to Present
Richard R. Dwyer	Chief Executive Officer & Vice President, Co-Founder	(1) Operate and Manage Financial Advisory Service (2) COO, Oversee Operations of Registered Investment Advisor	3/2012 to Present 10/2021

Joseph Dwyer

Joseph has been an entrepreneur most of his life. He has a great track record of starting and building various types of businesses. In 1984 he starting building custom homes in Virginia Beach with his brother Rick. Joseph moved to FL in 1990 and in 1994 he started a trucking company that he built up to 55 trucks.

In 2003 he moved to MI to be closer to his wifes family. Joseph then started a commercial development company. The company developed several commercial real estate projects including a big box development with Walmart and Menards. In 2010 he closed the business due to the economic climate that made it very difficult to finance new projects.

Starting in 2012 Joseph became a franchisee with an up and coming brand called Tropical Smoothie Café. Starting with one location, Joseph built it to 11 locations with 6 stores performing in the top 5% of the chain. Joseph won numerous awards with Tropical Smoothie for sales volume, customer service, Camp Sunshine donations and overall operations. Joseph sold the company at the end of 2021 to put his time and energy into his latest venture, Liquid Mining.

Richard Dwyer (Rick)

Rick has been an entrepreneur most of his life. While serving aboard Submarines in the U.S Navy for 10-years he started home building business with his brother Joe. After leaving the Navy Rick went into financial services where he started as a stockbroker. After several years he focused on consulting private companies on corporate structure, merger & acquisitions, and investor relations.

Rick helped many companies raise the capital they needed to execute on their business plans. A sampling of the companies Rick assisted were Biomune Systems, Teletouch Communications, NewReach Communications, Verticon, American Quantum Cycles, and First Aid Direct.

Rick had been involved with computers and has been a technology geek since he was in high school. NewReach Communications was an Internet start-up that operated a dial-up service and web development team. This was at a time when most people thought the Internet was a fad. After the Dot Com bubble burst Rick moved to Asheville, NC and built custom homes and commercial properties. This venture ended in 2009 while Rick's company was building the DIY Network's Blog Cabin for the 2009 season. The developer went bankrupt, and Rick finished the home for airing but the economic damage was already done and Rick closed operations in early 2010.

Rick decided to get back into the financial services industry in 2011, but this time as a financial planner to provide clients with plans that would protect them from the massive drawdowns experienced in 2000-2002 and 2007-2009. Rick currently serves as an owner and Chief Operating Officer of Tactive, an RIA that specializes in bringing advanced blended strategies from multiple strategists which are customized for each client.

While taking a course through NY Institute of Finance on digital assets, Rick noticed a lot of similarities with the changes that took place with the Internet. Rick formed a Liquid Mining Inc. ("LMI") with his brother Joe to take part in the blockchain revolution. The current focus of LMI is digital coin mining, computer hosting, and node operations.

BUSINESS AND ANTICIPATED BUSINESS PLAN

Business Plan

Liquid Mining Inc. ("LMI") is a corporation organized in the State of Florida whose business includes the mining of digital assets, blockchain infrastructure, and mining hardware hosting. LMI believes that the growth of these separate businesses will continue at above-normal growth rates for the foreseeable future. LMI leases 15,000 square feet of space with an option on an additional 60,000 sf with an option to purchase the entire 75,000 sf. The power available is sufficient for over 3,000 Bitcoin miner units which could generate at today's price of Bitcoin over \$1.9 million per month of Bitcoin assets.

LMI is conducting an initial \$5 million offering to position the Company to purchase additional Bitcoin miner units. LMI intends to do two additional capital raises over the next twenty-four months to position the Company with the potential to reach \$2 million in net revenue per month. Should this occur, of which there can be no assurance, LMI anticipates the Company would have a valuation of \$200 to \$400 million, at which point it will seek a liquidity event through a public offering, merger, or sale.

What is the Opportunity?

The global blockchain technology market size is expected to reach USD \$394.60 billion by 2028, according to a new report by Grand View Research, Inc. Blockchain is projected to expand at a CAGR of 82.4% from 2021 to 2028. The growth can be attributed to the increasing number of merchants, nations, and individuals accepting cryptocurrency. In addition, the growing interest of financial institutions in blockchain technology is also driving market growth. Bitcoin was the first blockchain that utilized a distributed ledger to negate the need for an intermediary to validate transactions.

Finally, demand for Bitcoin is increasing while the supply of Bitcoin reduces every four years; the reduction is called a halving. In 2024 the current block reward of 6.25 coins for Bitcoin will be reduced to 3.125 coins. The following charts show Bitcoin Inflation vs. Time and The Halving of Bitcoin and how the price has reacted thus far:

RISK FACTORS

An investment in our Units involves risks. In addition to other information contained elsewhere in this Form C, you should carefully consider the following risks before acquiring our Units offered by this Form C. The occurrence of any of the following risks could materially and adversely affect the business, prospects, financial condition or results of operations of our Company, the ability of our Company to make cash distributions to the holders of Units and the market price of our Units, which could cause you to lose all or some of your investment in our Units. Some statements in this Form C, including statements in the following risk factors, constitute forward-looking statements. See "Forward-Looking Statements Disclosure" below.

Risks Related to the Company's Business and Industry

We have limited operating history, which makes our future performance difficult to predict.

We have limited operating history. You should consider an investment in our Units in light of the risks, uncertainties and difficulties frequently encountered by other newly formed companies with similar objectives. We have minimal operating capital and for the foreseeable future will be dependent upon our ability to finance our operations from the sale of equity or other financing alternatives. The failure to successfully raise operating capital, could result in our bankruptcy or other event which would have a material adverse effect on us and our Investors. There can be no assurance that we will achieve our investment objectives.

Bitcoin Mining Risks

The mining of Bitcoin has certain unique risks related to operations; (a) cybercriminals may access Bitcoin miner machines to engage in unlawful acquisition of bitcoins through a botnet; (b) the Company and its network of miner computers will be subject to certain security risks from outside hacking and intrusion attempts. Any successful intrusion attempt could damage the miners capabilities to effectively mine Bitcoin or provide hackers access to internal Company networks; and (c) mined Bitcoin held in a digital wallet for the Company could be subject to a hacking event wherein cybercriminals divert the Company's mined Bitcoin assets to different accounts outside the control of the Company.

Further, the requirements for power and cooling to run the bitcoin miners could increase or the cost for such needed services could increase thus negatively impacting the Company's financial results.

Global crises such as COVID-19 can have a significant effect on our business operations and revenue projections.

Economic dislocations based on the impact of a pandemic could impact the price of Bitcoin assets and thus the Company's revenue may be adversely affected by such an event in the future.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

The Company may face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security

vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including “bugs” and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company’s financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company’s results of operations.

If we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

The Company is subject to a wide range of federal, state, and local laws and regulations as an operating business. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against the Company, which may adversely impact the financial performance of the Company.

Risks Related to the Offering

There can be no guarantee that the Company will reach its funding target from potential investors with respect to any Class or future proposed Class.

Due to the start-up nature of the Company, there can be no guarantee that the Company will reach its funding target from potential investors with respect to any Class or future proposed Class. In the event the Company does not reach a funding target, it may not be able to achieve its investment objectives.

The Company’s management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company’s management will have considerable discretion over the use of proceeds from the Offering. An investor may not have the opportunity, as part of their investment in the Offering, to assess whether the

proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company may end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

Risks Related to the Securities

There is currently no trading market for our securities. An active market in which investors can resell their Units may not develop.

There is currently no public trading market for our Convertible Notes, and an active market may not develop or be sustained. If an active public or private trading market for our securities does not develop or is not sustained, it may be difficult or impossible for you to resell your Notes at any price. Accordingly, you may have no liquidity for your Notes. Even if a public or private market does develop, the market price of the Notes, or Shares if conversion has been executed, could decline below the amount you paid for your Notes.

There may be state law restrictions on an Investor's ability to sell the Note(s).

Each state has its own securities laws, often called "blue sky" laws, which (1) limit sales of securities to a state's residents unless the securities are registered in that state or qualify for an exemption from registration and (2) govern the reporting requirements for broker-dealers and stockbrokers doing business directly or indirectly in the state. Before a security is sold in a state, there must be a registration in place to cover the transaction, or it must be exempt from registration. We do not know whether our securities will be registered, or exempt, under the laws of any states. A determination regarding registration will be made by broker-dealers, if any, who agree to serve as the market-makers for our Units. There may be significant state blue sky law restrictions on the ability of Investors to sell, and on purchasers to buy, our Units. Investors should consider the resale market for our securities to be limited. Investors may be unable to resell their securities, or they may be unable to resell them without the significant expense of state registration or qualification.

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date.

Although the Securities may be tradable under federal securities law after one year, state securities regulations may apply, and each Investor should consult with their attorney. You should be aware of

the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

There is no present market for the Securities and we have arbitrarily set the terms for the Notes offered.

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot guarantee that the Securities can be resold at the Offering price or at any other price. Investors purchasing the Securities will have limited rights.

A majority of the Company is owned by a small number of owners.

Prior to the Offering, 2 owners hold 100% outstanding (50% each) voting Shares of the Company. These security holders may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. These security holders may have Units that are different from yours. For example, these holders may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these security holders could use his or her voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

The value of your investment may be diluted if the Company issues additional options, convertible securities or capital stock.

The convertible note in this offering will convert at a conversion price based on the per share price of the Company in the future, or a capped valuation relative to the number of outstanding Shares. If we issue more Shares, this may result in the reduction in the value of the Shares that you may receive upon conversion of the convertible notes.

Any valuation for the Company at this stage or at the time of any Note Conversion may be difficult to assess.

The valuation for the offering was established by the Company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess. Investors that convert their Note(s) into capital stock may convert at a valuation that

is ultimately not reflective of the actual value of the Company at the time of conversion.

FINANCIAL CONDITION OF THE ISSUER

The management of LMI began mining operations in September 2021 with Ethereum ("ETH") mining rigs. This was initially a proof of concept to validate the profitability of mining ETH. After several weeks of mining, the financial model was verified and management made the decision to expand its mining activity. The expansion was going to focus on ETH through the use of Graphical Processing Units ("GPUs"), which was accomplished and mining capacity was expanded from 230 MH/s to 1 TH/s. After a couple of weeks of verification against expected performance from the financial model, management elected to expand into Bitcoin mining.

Management ordered the initial 30 Application Specific Integrated Circuit ("ASIC") machines in October, 2021, these are the miners that use a specific algorithm to mine a coin. LMI was organized as a corporation in November, 2021. LMI realized that it would need power and room to grow the mining farm it intended to have. Management began looking for a facility to operate the machines in late October, 2021. After an extensive search that found adequate buildings, they were rejected for lack of sufficient power. Eventually in December 2021 the building that was home to the former printing company Oakland Press in Pontiac, MI was put under agreement with a lease start date of January 3, 2022.

In late January, 2022 an additional 115 ASICs were purchased and delivered to the facility. During this time management invested money to clean the facility from top to bottom on 15,000 sf, installed all new hardware for the exterior doors, installed security system and 24 hour camera systems that monitor the interior and exterior of the space. LMI was also in discussions with several immersion cooling vendors of which two are currently bidding for our business. The benefit of immersion cooling is that it removes heat 1200 times more efficiently than air, removes vibration, and eliminates dirt contamination. While waiting for the immersion cooling equipment, LMI installed upgraded transformers, distribution panels and enough outlets to run 150 ASICs. As the ASICs were running for testing, we realized that too much heat was being generated and it heated up the entire 300,000 cubic feet of space to over 106 degrees. We then built a separate room that will move over 36,000 cubic feet of air per minute which will enable us to operate 300 ASIC machines. This room will be completed by May 20, 2022.

Currently LMI has 145 units that should generate 15 - 16 Peta Hashes per second, this translates to approximately \$100,000 per month in revenue. This along with the funds being raised should increase production to over 55 Peta Hashes per second within 90 days of funding, assuming the full \$3 million is raised. This should provide over \$350,000 per month in gross revenue. The funds being raised will be deployed immediately once available to purchase additional ASIC machines, immersion cooling equipment and pay for installation.

LMI intends to use the majority of profits it generates after paying interest to investors on equipment to continue to increase the hash rate of the mining operation.

USE OF PROCEEDS

The following table illustrates how the Company intends to use the net proceeds received through this Offering. The figures below are not inclusive of payments to financial and legal service providers and escrow-related fees, all of which were incurred in the preparation of this Offering and are due in advance of the closing of the Offering.

The Company will complete the transaction and deliver securities to investors through the Intermediary, who will subsequently notify investors of the completion of such transaction.

Investors may cancel an investment by contacting the Company or the Intermediary and providing notification of their intent to cancel an investment.

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met.

If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

Independent Auditor's Report

To the Shareholders of **Liquid Mining Inc**

Opinion

We have audited the accompanying financial statements of **Liquid Mining Inc**, which comprise the balance sheet as of February 28, 2022 and the related statements of operations, shareholder's equity, and cash flows for the period from January 1, 2022 (inception) to February 28, 2022, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of **Liquid Mining Inc** as of February 28, 2022, and the results of its operations and its cash flows for the period from January 1, 2022 (inception) to February 28, 2022 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of **Liquid Mining Inc** and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about **Liquid Mining Inc's** ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Liquid Mining Inc

Notes to Financial Statements

February 28, 2022

Note A – Nature of Business and Organization

Liquid Mining Inc (“the Company”) was organized in January 2022 in the State of Florida. Our primary business is the buildout and operation of data centers that primarily support the eco system of digital assets and digital currencies. Our secondary business is the development and support of mining farms that investors own and then lease facility space from us, or they can invest in one of our mining farms and participate in the growth of that farm through Convertible Notes.

Note B – Significant Accounting Policies

Basis of Presentation

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with an original maturity of less than three months to be cash and cash equivalents. The Company places its temporary cash investments with high quality financial institutions. At times, such investments may be in excess of FDIC insurance limits. The Company does not believe it is exposed to any significant credit risk on cash and cash equivalents.

Equipment and leasehold improvements

Equipment and leasehold improvements are stated at cost less accumulated depreciation. Depreciation is provided on the straight-line basis over the estimated useful lives of the assets and for leasehold improvements over the life of the lease.

Expenditures for repair and maintenance which do not materially extend the useful lives of property and equipment are charged to operations. When property or equipment is sold or otherwise disposed of, the cost and related accumulated depreciation are removed from the respective accounts with the resulting gain or loss reflected in operations.

Management reviews the carrying value of its property and equipment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable.

There were no impairment losses for the period from January 1, 2022 to February 28, 2022.

Income Taxes

The Company accounts for income tax using the asset and liability method prescribed by ASC 740, “Income Taxes”. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial reporting and tax bases of assets and liabilities using enacted tax rates that will be in effect in the year in which the differences are expected to reverse. The Company records a valuation allowance to offset deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized as income or loss in the period that includes the enactment date. Based on the limited activity in 2022 and the related valuation allowances the disclosure for income taxes is immaterial as of February 28, 2022.

The Company recognizes and discloses uncertain tax positions in accordance with GAAP. The Company evaluated its tax positions and determined it has no uncertain tax positions as of February 28, 2022. The Company’s tax returns are subject to income tax examinations generally for a period of three years from the date of filing. The Company’s 2022 tax year is open for examination for federal and state taxing authorities.

Liquid Mining Inc

Notes to Financial Statements February 28, 2022

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Accounting for Leases

In March 2016, the FASB issued ASU No. 2016-02, Leases. The main difference between the provisions of ASU No. 2016-02 and previous GAAP is the recognition of right-of-use assets and lease liabilities by lessees for those leases classified as operating leases under previous GAAP. ASU No. 2016-02 retains a distinction between finance leases and operating leases, and the recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed from previous GAAP. For leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election by class of underlying asset not to recognize right-of-use assets and lease liabilities. The accounting applied by a lessor is largely unchanged from that applied under previous GAAP. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. This ASU is effective for public business entities in fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted as of the beginning of any interim or annual reporting period. The Company's adoption on January 1, 2019 did not have a material impact on the financial statements.

During the period ended February 28, 2022 the Company executed a long-term lease resulting in the recording of a Right-of-Use Asset and corresponding lease liability. See Note D.

Note C – Property and Equipment

Property and equipment consist of the following as of February 28, 2022

		Estimated Useful Life (Years)
Equipment	\$ 1,104,130	7
Leasehold improvements	98,558	Life of the lease
	<u>1,202,688</u>	
Less: accumulated depreciation	(-)	
Property and equipment, net	<u>\$ 1,202,688</u>	

Depreciation expense for the period from January 1, 2022 to February 28, 2022 was \$0 as the assets were not put into service yet.

The weighted average discount rate associated with the lease was 12%.

At the discretion of the Board of Directors, the Class B Non-Voting Common Shares may be converted into Class A Voting Common Shares and in the event that the Company commences an initial public offering of its Class A Voting Common Shares, the Class B Non-Voting Shares shall have the option to convert into Class A Voting Common Shares in accordance with such procedures as established by the Board of Directors.

These same shareholders contributed approximately \$1,244,000 to the Company during the period from January 1, 2022 to February 28, 2022.

Note D – Commitments and Contingencies

Contingencies

Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company's management and its legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potentially material loss contingency is not probable, but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, would be disclosed.

COVID-19

Management has concluded that the COVID-19 outbreak in 2020 may have a significant impact on business in general, but the potential impact on the Company is not currently measurable. Due to the level of risk this virus has had on the global economy, it is at least reasonably possible that it could have an impact on the operations of the Company in the near term that could materially impact the Company's financials. Management has not been able to measure the potential financial impact on the Company but will review commercial and federal financing options should the need arise.

Note E – Subsequent Events

Subsequent to February 28, 2022 the Board of Directors elected to forward split the to be issued 10,000,000 founders shares to 60,000,000 shares.

Management has assessed subsequent events through April 19, 2022, the date on which the financial statements were available to be issued.

LIQUID MINING, INC.

CONVERTIBLE PROMISSORY NOTE

Issuance Date: March [], 2022

Original Principal Amount: U.S. \$[♦]

FOR VALUE RECEIVED, Liquid Mining, Inc., a Florida corporation (the “**Company**” or “**Maker**”), hereby promises to pay to the order of [] or its registered assigns (“**Holder**”) the amount set out above as the Original Principal Amount (as reduced, increased or otherwise adjusted pursuant to the terms hereof pursuant to conversion or otherwise, the “**Principal**”) when due upon the Maturity Date (as defined below), or otherwise (in each case in accordance with the terms hereof) and to pay interest (“**Interest**”) on any outstanding Principal at the applicable Interest Rate from the date set out above as the Issuance Date (the “**Issuance Date**”) until the same becomes due and payable, whether upon the Maturity Date, acceleration, conversion or otherwise (in each case in accordance with the terms hereof). This Convertible Promissory Note (including any Notes issued in exchange, transfer or replacement hereof solely to the extent permitted in accordance with the terms hereof, this “**Promissory Note**”) is one of an issue of promissory notes issued pursuant to the Subscription Agreement on the Initial Closing Date (collectively, the “**Other Promissory Notes**”) and such other Promissory Notes, if any, that shall have been issued pursuant to the Subscription Agreement on one or more Additional Closing Dates, each of which is not the Issuance Date (collectively, the “**Additional Promissory Notes**” and, collectively with the Promissory Note and the Other Promissory Notes, the “**Promissory Notes**”) the total of which shall be the “**Aggregate Note Amount**”. Unless specifically stated otherwise, each Holder is acting individually and not as a group or shareholder block. Certain capitalized terms used herein are defined in Section 21 or defined in the Subscription Agreement.

1. PAYMENTS OF PRINCIPAL AND INTEREST. On the tenth (10th) anniversary of the Initial Closing (the “**Maturity Date**”), the Company shall, except if elected otherwise by Holder

EXHIBIT B: PROMISSORY NOTE CONTINUED

pursuant to Section 3 upon the Maturity Date, pay to the Holder an amount in cash representing all the outstanding Principal, accrued and unpaid Interest and accrued and unpaid late charges on such Principal and Interest (collectively, the “**Full Note Amount**”). The Company may not prepay any portion of the Promissory Note without the prior written consent of Holder. Notwithstanding the foregoing, the Holder may surrender the Note for payment of the Full Note Amount on the third (3rd) anniversary of the Initial Closing and each anniversary thereafter by giving written notice to the Company not less than twenty (20) days nor more than ninety (90) days before such anniversary.

2. INTEREST; INTEREST RATE.

(a) Interest on this Promissory Note shall commence accruing on the Issuance Date and shall be computed annually on the basis of a 365-day year for the actual number of days elapsed since the Issuance Date through the end of each successive calendar quarter at the rate of ten percent (10%) per annum (the “Interest Rate”). Interest shall be payable within ten (10) business days following the end of each successive calendar quarter.

(b) Interest on this Promissory Note shall accrue at the Interest Rate or the maximum rate permissible by law, whichever is less. From and after the occurrence and during the continuance of any Event of Default, the Interest Rate shall automatically be increased to eighteen percent (18.0%) or the maximum rate permissible by law, whichever is less. In the event that such Event of Default is subsequently cured, the adjustment referred to in the preceding sentence shall cease to be effective as of the calendar day immediately following the date of such cure; provided that the Interest as calculated and unpaid at such increased rate during the continuance of such Event of Default shall continue to apply to the extent relating to the days after the occurrence of such Event of Default through and including the date of such cure of such Event of Default. The Company shall pay any and all stamp, issuance and similar taxes that may be payable with respect to the issuance and delivery of Interest Shares.

(c) At the option of the Holder, Interest on this Promissory Note shall accrue at the Interest Rate and be payable by way of inclusion of the Interest in the Conversion Amount on each Conversion Date or other Interest Conversion Date in accordance herewith. The Holder may elect to accrue interest by giving not less than twenty (20) days written notice to the Company to be effective on the first day of the calendar quarter following receipt of such notice.

(d) Additional interest shall be payable by the Company based on the following formula:

$$((\#ASICs * Hash Rate * \$/TH Rate * 30) - (Rent + Utilities + Electric) * .20) * (Investor \$'s / Farm Pool \$'s)$$

For example, if the Investor Aggregate Note is \$3,000,000 Pool: Rent \$10,500, Utilities \$1,000 & Electric (varies with number of ASICs)

For a \$150,000 Note Holder:

Hash Rate = 150

\$/TH Rate = \$0.25/day

EXHIBIT B: PROMISSORY NOTE CONTINUED

$$((220 \times 150 \times \$.25 \times 30) - (\$10,500 + \$1,000 + \$110,800)) \times .20 \times (\$150,000 / \$3,000,000)$$

$$\$25,040 \times .05 = \$1252 \text{ Initial interest earned first month}$$

$$\$1,252 \times 12 = \$15,024 \text{ First month interest multiplied by 12 months for 1 year's interest}$$

$$\$15,024 / \$150,000 = 10\% \text{ Interest rate earned first year without any growth in farm.}$$

The highlighted yellow is the investors contributed amount, when divided by the Farm Pool Dollars equals percentage of farm income earned. This percentage remains constant as the farm grows but the income should increase with increasing Hash Rate.

Provided, however, that under no circumstances shall the aggregate amount of interest paid by the Company exceed the amount allowed by applicable law.

3. CONVERSION OF PROMISSORY NOTE. This Promissory Note shall be convertible into validly issued, fully paid and non-assessable shares of New Stock, on the terms and conditions set forth in this Section 3.

3.1 Conversion Right. Subject to the provisions of this Section 3, the Holder shall be entitled to convert up to a maximum of the then-outstanding Full Note Amount into validly issued, fully paid and non-assessable shares of New Stock at the Conversion Price and otherwise in accordance with this Section 3. The conversion may take place wholly or partially with respect to all or any portion of the Full Note Amount at any time on or at any time after December 31, 2025 and before the Maturity Date, in each case in the sole and absolute discretion of the Holder. The Company shall not issue any fraction of a share of New Stock upon any conversion. If the issuance would result in the issuance of a fraction of a share of New Stock, the Company shall round such fraction of a share of New Stock up to the nearest whole share. The Company shall pay any and all stamp, issuance and similar taxes that may be payable with respect to the issuance and delivery of New Stock upon conversion of any Conversion Amount.

3.2 Conversion Price. The number of shares of New Stock issuable in respect of, and upon conversion of, any Conversion Amount pursuant to Section 3(a) shall be determined by dividing the Conversion Amount by the Conversion Price. The actual Conversion Price per share shall be determined as follows:

The Aggregate Note Amount shall be convertible into a number of shares of Common Stock equal to the quotient of the Aggregate Note Amount divided by \ the price per share of Common Stock offered to the public in the Qualified Offering (the "*IPO Price*") less twenty percent (20%).

(a) Mechanics of Conversion.

(i) Optional Conversion. To convert any Conversion Amount into shares of New Stock on any date after a Qualify Offering (each, a "**Conversion Date**"), the Holder shall deliver, pursuant to Section 20, for receipt by the Company on or prior to 5:30 p.m., Central Time on

EXHIBIT B: PROMISSORY NOTE CONTINUED

such Conversion Date, a copy of an executed notice of conversion in the form attached hereto as Exhibit I (the “**Conversion Notice**”) to the Company. Conversion hereunder shall have the effect of reducing the then-outstanding Full Note Amount by the applicable Conversion Amount. No later than three (3) Business Days after each Conversion Date (the “**Share Delivery Date**”), Company shall cause to be delivered to the Holder a certificate or certificates representing the New Shares representing the full number of New Shares acquired upon the applicable conversion pursuant to the Conversion Notice.

(ii) Registration; Book-Entry. The Company shall maintain a register (the “**Register**”) for the recordation of the names and addresses of the holders of the Promissory Notes and the principal amount of the Promissory Notes held by such holders (the “**Registered Promissory Notes**”). The entries in the Register shall be conclusive and binding for all purposes absent manifest error. The Company and the holders of the Promissory Notes shall treat each Person whose name is recorded in the Register as the owner of a Promissory Note for all purposes (including, without limitation, the right to receive payments of Principal and Interest thereunder) notwithstanding notice to the contrary (without limiting the Company’s obligations pursuant to this Section 3(c)(iii)). Subject to compliance with applicable securities laws, a Registered Promissory Note may be assigned, transferred or sold in whole or in part only by registration of such assignment or sale on the Register. Upon its receipt of a written request to assign, transfer or sell all or part of any Registered Promissory Note by the holder thereof, the Company shall record the information contained therein in the Register and issue one or more new Registered Promissory Notes in the same aggregate Full Note Amount of the surrendered Registered Promissory Note to the designated assignee or transferee pursuant herewith, provided that if the Company does not so record an assignment, transfer or sale (as the case may be) of all or part of any Registered Promissory Note within five (5) Business Days of its receipt of such a request, then the Register shall be automatically updated to reflect such assignment, transfer or sale (as the case may be). Notwithstanding anything to the contrary set forth in this Section 3, following conversion of any portion of this Promissory Note in accordance with the terms hereof, the Holder shall not be required to physically surrender this Promissory Note to the Company unless (A) the Full Note Amount represented by this Promissory Note is converted (in which event this Promissory Note shall be delivered to the Company following conversion thereof as contemplated by Section 3(c)(i)) or (B) the Holder has provided the Company with prior written notice (which notice may be included in a Conversion Notice) requesting reissuance of this Promissory Note upon physical surrender of this Promissory Note. The Holder and the Company shall maintain records showing the Principal, Interest and late charges converted and/or paid (as the case may be) and the dates of such conversions and/or payments (as the case may be) or shall use such other method, reasonably satisfactory to the Holder and the Company, so as not to require physical surrender of this Promissory Note upon conversion.

(iii) Pro Rata Conversion; Disputes. In the event that the Company receives a Conversion Notice from more than one holder of the Promissory Notes for the same Conversion Date and the Company can convert some, but not all, of such portions of the Promissory Notes submitted for conversion, the Company, subject to Section 3(d), shall convert from each holder of the Promissory Notes electing to convert on such date, a pro rata amount of such holder's portion of the Promissory Notes submitted for conversion based on the principal amount of the Promissory Notes submitted for conversion on such date by such holder relative to the aggregate principal

EXHIBIT B: PROMISSORY NOTE CONTINUED

amount of all of the Promissory Notes submitted for conversion on such date. In the event of a dispute as to the number of shares of New Stock issuable to the Holder in connection with a conversion of this Promissory Note, the Company shall issue to the Holder the number of shares of New Stock not in dispute and resolve such dispute in accordance herewith.

d) Limitations on Conversions. Notwithstanding anything to the contrary contained in this Promissory Note, this Promissory Note shall not be convertible by the Holder hereof, and the Company shall not affect any conversion of this Promissory Note or otherwise issue any shares of New Stock pursuant hereto, to the extent (but only to the extent) that, after giving effect to such conversion or other share issuance hereunder, the Holder or any of its Affiliates would beneficially own in excess of 9.99% (the “**Maximum Percentage**”) of the Common Stock (calculated on an as-converted, fully-diluted basis assuming full conversion or exercise of all Common Stock Equivalents then outstanding other than the Promissory Notes). To the extent the above limitation applies, the determination of whether this Promissory Note shall be convertible (vis-à-vis other convertible, exercisable or exchangeable securities owned by the Holder or any of its Affiliates) and of which such securities shall be convertible, exercisable or exchangeable (as among all such securities owned by the Holder and its Affiliates) shall, subject to the Maximum Percentage limitation, be determined on the basis of the first submission to the Company for conversion, exercise or exchange (as the case may be). No prior inability to convert this Promissory Note, or to issue shares of New Stock, pursuant to this paragraph shall have any effect on the applicability of the provisions of this paragraph with respect to any subsequent determination of convertibility. For purposes of this paragraph, beneficial ownership and all determinations and calculations (including, without limitation, with respect to calculations of percentage ownership) shall be determined in accordance with Section 13(d) of the Securities Exchange Act of 1934, as amended (the “**1934 Act**”) and the rules and regulations promulgated thereunder. The provisions of this paragraph shall be implemented in a manner otherwise than in strict conformity with the terms of this paragraph to correct this paragraph (or any portion hereof) which may be defective or inconsistent with the intended Maximum Percentage limitation herein contained or to make changes or supplements necessary or desirable to properly give effect to the Maximum Percentage limitation. The limitations contained in this paragraph shall apply to a successor Holder of this Promissory Note. The holders of Common Stock shall be third party beneficiaries of this paragraph and the Company may not waive this paragraph without the consent of holders of a majority of its Common Stock. For any reason at any time, upon the written or oral request of the Holder, the Company shall within one (1) Business Day confirm orally and in writing to the Holder the number of shares of Common Stock then outstanding, including by virtue of any prior conversion or exercise of convertible or exercisable securities into Common Stock, including, without limitation, pursuant to this Promissory Note or securities issued pursuant to the Subscription Agreement. By written notice to the Company, any Holder may increase or decrease the Maximum Percentage to any other percentage not in excess of 9.99% specified in such notice; provided that (i) any such increase will not be effective until the 61st day after such notice is delivered to the Company, and (ii) any such increase or decrease will apply only to the Holder sending such notice and not to any other holder of the Promissory Notes.

e.) Mandatory Conversion or Cancellation. In the event that the Company completes a Qualifying Offering, the Company may at anytime thereafter call any outstanding Notes for

EXHIBIT B: PROMISSORY NOTE CONTINUED

either cancellation by payment of the Full Note Amount or compel conversion into New Stock on the same terms as voluntary Conversion set forth in Section 3, above.

(f) Compliance with Applicable Law. Any Conversion, whether voluntary or Mandatory, is expressly contingent upon registration or exemption from registration under applicable state and federal securities laws. The Company shall bear any expense in connection with such securities law compliance.

4. EVENT OF DEFAULT.

(a) **“Event of Default”**, wherever used herein, means any one of the following events (whatever the reason and whether it shall be voluntary or involuntary or effected by operation of law or pursuant to any judgment, decree or order of any court, or any order, rule or regulation of any administrative or governmental body):

- (i) any default in the payment of the Principal, or the Interest, as and when the same shall become due and payable, for which there will be no cure period;
- (ii) Maker shall fail to observe or perform any obligation or shall breach any term or provision of this Promissory Note and such failure or breach shall not have been remedied within ten (10) Business Days after the date on which notice of such failure or breach shall have been delivered (other than those occurrences described in other provisions of this Section 4 for which a different grace or cure period is specified, or for which no cure period is specified and which constitute immediate Events of Default);
- (iii) Maker shall fail to observe or perform any of its material obligations owed to the Holder or any other material covenant, agreement, representation or warranty contained in, or otherwise commit any material breach hereunder or in any other transaction document executed in connection herewith, including the Subscription Agreement, and such failure or breach shall not have been remedied within ten (10) Business Days after the date on which notice of such failure or breach shall have been delivered (other than those occurrences described in other provisions of this Section 4 for which a different grace or cure period is specified, or for which no cure period is specified and which constitute immediate Events of Default);
- (iv) Maker shall commence, or there shall be commenced against the Maker, a case under any applicable bankruptcy or insolvency laws as now or hereafter in effect or any successor thereto, or the Maker commences any other proceeding under any reorganization, arrangement, adjustment of debt, relief of debtors, dissolution, insolvency or liquidation or similar law of any jurisdiction whether now or hereafter in effect relating to the Maker, or there is commenced against the Maker any such bankruptcy, insolvency or other proceeding which remains undismissed for a period of sixty (60) days; or Maker is adjudicated insolvent or bankrupt; or any order of relief or other order approving any such case or proceeding is entered; or Maker suffers any appointment of any custodian or the like for it or any substantial part of its property which continues undischarged or unstayed for a period of sixty (60) days; or Maker makes a general assignment for the benefit of creditors; or Maker shall fail to pay, or shall state that it is unable to pay, or shall be unable to pay, its debts generally as they become due; or Maker shall call a meeting of its creditors with a view to arranging a composition, adjustment or restructuring of its debts; or Maker shall by any act or failure to act expressly indicate its consent to, approval of or

EXHIBIT B: PROMISSORY NOTE CONTINUED

acquiescence in any of the foregoing; or any corporate or other action is taken by Maker for the purpose of effecting any of the foregoing;

(b) If any Event of Default occurs, the Full Note Amount shall become, at the election of the Holder, immediately due and payable in cash.

(c) The Holder need not provide, and Maker hereby waives, any presentment, demand, protest or other notice of any kind, and the Holder may immediately and without expiration of any grace period enforce any and all of its rights and remedies hereunder and all other remedies available to it under applicable law. Such declaration may be rescinded and annulled by the Holder at any time prior to payment hereunder. No such rescission or annulment shall affect any subsequent Event of Default or impair any right consequent thereon.

5. COVENANTS. So long as any portion of the Full Note Amount remains outstanding, Maker will not directly or indirectly, without the consent of the Holder:

- (a) fail to continue to engage in business of the same general type as now conducted by it and to preserve, renew and keep in full force and effect, its corporate existence and its assets, rights, privileges and franchises to the extent necessary or desirable in the normal conduct of business;
- (b) fail to comply in all material respects with all applicable laws, ordinances, rules, regulations, decisions, orders and requirements of governmental authorities;
- (c) use the proceeds from the sale of the Promissory Notes for any purpose other than those set forth in the Private Placement Memorandum issued in connection with the sale of the Promissory Notes; or
- (d) fail to keep proper books of record and account in which full, true and correct entries are made of all dealings and transactions in relation to its business and activities.
- (e) allow its personal property purchased with proceeds from the Promissory Notes is Offering to be subject to liens or encumbrances.

6. ADJUSTMENTS.

(a) Adjustment of Conversion Price upon Subdivision or Combination of Common Stock.

Without limiting any provision herewith, if the Company at any time on or after the Issuance Date subdivides (by any stock split, stock dividend, stock combination, recapitalization or other similar transaction) one or more classes of its outstanding shares of Common Stock or other stock into a greater number of shares, the Conversion Price in effect immediately prior to such subdivision will be proportionately reduced. Without limiting any provision herewith, if the Company at any time on or after the Issuance Date combines (by any stock split, stock dividend, stock combination, recapitalization or other similar transaction) one or more classes of its outstanding shares of Common Stock or other stock into a smaller number of shares, the Conversion Price in effect immediately prior to such combination will be proportionately increased. Any adjustment pursuant to this Section 6(a) shall become effective immediately after the effective date of such subdivision or combination. If any event requiring an adjustment under this Section 7(a) occurs during the period that a Conversion Price is calculated hereunder, then the calculation of such Conversion Price shall be adjusted appropriately to reflect such event.

(b) Calculations. All calculations under this Section 6 shall be made by rounding to the nearest cent or the nearest 1/100th of a share, as applicable. The number of shares of Common Stock outstanding at any given time shall not include shares owned or held by or for the account

EXHIBIT B: PROMISSORY NOTE CONTINUED

of the Company, and the disposition of any such shares shall be considered an issue or sale of Common Stock.

7. NO WAIVER OF THE HOLDER'S RIGHTS. All payments of Principal and Interest shall be made without setoff, deduction or counterclaim. No delay or failure on the part of the Holder in exercising any of its options, powers or rights, nor any partial or single exercise of its options, powers or rights shall constitute a waiver thereof or of any other option, power or right, and no waiver on the part of the Holder of any of its options, powers or rights shall constitute a waiver of any other option, power or right. Maker hereby waives presentment of payment, protest, and all notices or demands in connection with the delivery, acceptance, performance, default or endorsement of this Note. Acceptance by the Holder of less than the full amount due and payable hereunder shall in no way limit the right of the Holder to require full payment of all sums due and payable hereunder in accordance with the terms hereof.

11. AMENDING THE TERMS OF THIS PROMISSORY NOTE. The prior written consent of the Holder shall be required for any change, modification or amendment to this Promissory Note. No consideration shall be offered or paid to the Holder to amend or consent to a waiver or modification of any provision of this Promissory Note unless the same consideration is also offered to all of the holders of the Promissory Notes. The Holder shall be entitled, at its option, to the benefit of any amendment to any of the Promissory Notes.

12. TRANSFER. Subject to compliance with applicable securities laws, this Promissory Note and any shares of New Stock issued upon conversion of this Promissory Note may be offered, sold, assigned or transferred by the Holder without the consent of the Company.

13. REISSUANCE OF THIS PROMISSORY NOTE.

If this Promissory Note is to be transferred, the Holder shall surrender this Promissory Note to the Company, whereupon the Company will forthwith issue and deliver upon the order of the Holder a new Promissory Note (in accordance herewith), registered as the Holder may request, representing the outstanding Principal being transferred by the Holder and, if less than the entire outstanding Principal is being transferred, a new Promissory Note (in accordance herewith) to the Holder representing the outstanding Principal not being transferred. EXHIBIT B: PROMISSORY NOTE CONTINUED

EXHIBIT C: FORWARD BUSINESS PLANS

Business Plan

Introduction:

Liquid Mining Inc. ("LMI") is a corporation organized in the State of FL whose business includes the mining of digital assets, blockchain infrastructure, and mining hardware hosting. LMI believes that the growth of these separate businesses will continue at above-normal growth rates for the foreseeable future.

LMI leases 15,000 square feet of space with an option on an additional 60,000 sf with an option to purchase the entire 75,000 sf. The building has over 20,000 amps of power, equivalent to 10 megawatts. The power is sufficient for over 3,000 units which would generate at today's price of Bitcoin over \$1.9 million per month.

LMI is conducting an initial \$3 million offering round to grow the company's net income to \$250,000 per month, at which point the company expects to have a \$30-\$50 million valuation. LMI intends to do two additional capital raises over the next twenty-four months to reach \$2 million in net revenue per month. At this point, LMI anticipates a valuation of \$200 to \$400 million, at which point it will seek a liquidity event through a public offering, merger, or sale.

What is the Opportunity?:

The global blockchain technology market size is expected to reach USD \$394.60 billion by 2028, according to a new report by Grand View Research, Inc. Blockchain is projected to expand at a CAGR of 82.4% from 2021 to 2028. The growth can be attributed to the increasing number of merchants, nations, and individuals accepting cryptocurrency. In addition, the growing interest of financial institutions in blockchain technology is also driving market growth. Bitcoin was the first blockchain that utilized a distributed ledger to negate the need for an intermediary to validate transactions.

Finally, demand for Bitcoin is increasing while the supply of Bitcoin reduces every four years; the reduction is called a halving. In 2024 the current block reward of 6.25 coins for Bitcoin will be reduced to 3.125 coins. The following charts show Bitcoin Inflation vs. Time and The Halving of Bitcoin and how the price has reacted thus far:

Remainder of page Intentionally Blank

Please note that the second chart does not include 2021 which saw the price of bitcoin reach \$68,900. This would move the line of the graph through the top of the chart.

Investments in blockchain by leading banks and other financial institutions have led to various advancements in technology, thereby improving efficiency. The technology is anticipated to reshape the banking and financial sector by bringing a new age of efficiency. Other factors contributing to the high adoption of blockchain technology include eradicating the need for authenticating transaction processes, reduction of error rates, elimination of reconciliation, and facilitation of faster settlement.

Many other industries will be impacted by blockchain including healthcare, legal, voting, IoT, cyber security, data management, currency transactions, inventory, supply chain, logistics, digital media, music, art, real estate, government benefits, and much more.

Retail stores are increasingly adopting blockchain technology to seamlessly handle business relations and supply chains. For instance, in October 2019, Walmart started piloting blockchain technology to track shrimp exports from Indian farmers to an overseas retailer. This shrimp supply chain, backed by blockchain technology, helped improve the quality of products for compliance purposes.

As blockchain is incorporated into more and more commercial and industrial companies, the acceptance of blockchain and related technologies will increase. Paypal now makes purchasing Bitcoin available to all its users, Walmart plans to make Bitcoin purchases available at all of its locations, AMC is accepting digital currency, Mastercard is creating a Bitcoin card, El Salvador has made Bitcoin its reserve currency.

When the Internet was in its early stages, there were very few users, and the majority of people didn't see any need for the Internet. AOL started sending CDs to users in 1992 and reached 1 million users in 1995. It's hard to imagine a world without the Internet today. It has changed the way people and industry communicate, store and transfer data, and operate businesses. Blockchain is expected to have an even more significant impact in the future.

LMI operates a mining and hosting operation in Pontiac, MI, and intends to grow that facility to scale up mining operations, manage blockchain nodes and host blockchain servers. LMI is currently mining Bitcoin, Ethereum, and other coins to a lesser extent.

Background on Blockchain:

The primary innovation of blockchain is that it guarantees the fidelity and security of a record of data and generates trust without the need for a trusted third party. A critical difference between a typical database and a blockchain is how the data is structured. A blockchain collects information together in groups, known as "blocks" that hold sets of information. Blocks have specific storage capacities and, when filled, are closed and linked to the previously served block, forming a chain of data known as the "blockchain." All new information that follows that freshly added block is compiled into a newly formed block and added to the chain once filled.

A database usually structures its data into tables, whereas a blockchain, like its name implies, structures its data into chunks (blocks) that are strung together. This data structure inherently makes an irreversible timeline of data when implemented in a decentralized nature. When a block is filled, it is set in stone and becomes a part of this timeline. Each block in the chain is given an exact timestamp when added to the blockchain. The blockchain is then distributed across its ledger so that all nodes have an exact copy of the blockchain. Because the blockchain data is distributed in hashed chunks across the network it would be meaningless if someone were to get a piece of a block. There wouldn't be enough information to make any sense of it. This is what makes a blockchain immutable, or unchangeable.

What are Digital Assets?:

Digital assets are electronic files of data that can be owned and transferred by individuals and used as a currency to make transactions or as a way of storing intangible content — such as computerized artworks, video, or contract documents.

Cryptocurrencies, such as Bitcoin, so-called asset-backed stablecoins, such as Tether, and non-fungible tokens — certificates of ownership of original digital media — are all examples of digital assets. ¹

Why blockchain is Essential:

Business runs on information. The faster it's received and the more accurate it is, the better. Blockchain is ideal for delivering that information because it provides immediate, shared, and utterly transparent information stored on an immutable ledger that can be accessed only by permissioned network members. A blockchain network can track orders, payments, accounts, production, and much more. And because members share a single view of the truth, you can see all details of a transaction end to end, giving you greater confidence, as well as new efficiencies and opportunities. ²

What is Blockchain Hosting?:

When blockchain technology is used to hold information, the information being stored ends up being shredded or chopped up into tiny pieces, which are then distributed across various recipients or nodes. Data storage, therefore, works in the same manner as its distributed ledger system. The fact that the data ends up in numerous nodes means that it is breach-proof.

The above implies that even if a hacker were able to access a specific piece of information, they would not be able to make any sense of it since the data itself would be encrypted. In addition, the hacker would only end up with a small piece of the puzzle, making it impossible for them to discern what the data means. ³

In addition, LMI hosting services will also include the storage and maintenance of mining machines from other mining operators, node operators, and High-Performance Computing ("HPC") operators.

Our Plan:

We intend to build, operate and grow a company with multiple revenue streams based on blockchain technologies. The core elements that LMI will focus on are coin mining, operating nodes, and hosting.

Mining:

Mining is the process of utilizing equipment, primarily Graphics Processing Units ("GPU's") and Application Specific Integrated Circuit ("ASIC") machines. The advantage of GPUs is they can mine a vast array of coins, while ASIC machines are geared to a specific algorithm and will only be able to mine coins that utilize that algorithm. The downside of GPUs is they are much less powerful than an ASIC machine and use more power. The negative of an ASIC is the limitation to a specific algorithm which means if you want to mine a coin with a different algorithm, you must have another ASIC with the correct algorithm for that coin.

Miners successfully receive a block reward when the hash they have created is equal to or less than the value the network is seeking. This is analogous to a lottery where you never know what the winning number will be, and you continue to submit solutions until either you receive a block in the case of solo mining or the pool receives a block and shares it.

Miners can mine in one of two ways: 1. Solo mining and 2. Pooled mining.

Solo mining is the process of hooking up mining equipment to the Internet and then waiting to reach a value that will be rewarded with a block of coins. For example, as of this writing, a bitcoin block is issued every ten minutes at a rate of 6.25 coins per block. There is no assurance that the miner will ever get a block reward with solo mining.

Pool mining is where miners join a mining pool which aggregates the hashing power to provide consistent income. This is accomplished by providing miners a share reward for each valid solution they generate even if it isn't the ultimate solution to earn a block reward. Instead of a miner getting a block reward directly, when a miner in the pool solves for the block reward the pool gets the reward and then shares it with the miners who participated in the pool based on the amount of shares they earned. For

example, someone who has ten times the hashing power of another should receive ten times more income over time. The downside is that if you were to mine the block reward, you wouldn't know it, as the reward is shared with the pool participants on a prorata basis.

Hashing Power:

Hashing power is the amount of hashes the mining equipment produces per second. In the case of LMI, it's the number of hashes per mining farm generated per second. LMI has developed a unique program to increase the hashing power of a mining farm that investors are participating in without any additional investment by the investor. This feature may be altered or canceled in future offerings. Currently, LMI produces 3,000 th/s, or 3,000 trillion hashes per second. With equipment already in our facility that is not connected, LMI should have 13,000 th/s operating by mid to late March.

Immersion Cooling:

LMI will utilize immersion cooling, which employs a dielectric liquid that doesn't transmit electricity, to immerse our equipment. The benefits of immersion cooling include eliminating dust and dirt, eliminating vibration, 1,200 times more efficient removal of heat versus air cooling, and up to a 50% increase in performance. Immersion cooling should extend the life of the equipment by at least 30%, which coupled with the increase in efficiency will significantly increase the return on investment for the equipment. Another benefit of immersion cooling is that the equipment is protected from fire and insects.

Nodes:

Each blockchain is composed of Nodes that store the blockchain information and communicate that information amongst all of the blockchain's nodes. Nodes are the backbone of a decentralized blockchain where all the blockchain data is transmitted across nodes worldwide. Node operators receive a fee for operating the node.

Hosting:

Hosting enables others to place equipment with the hosting company and utilize their infrastructure for a fee. Anyone can set up GPU mining in a home; however, the primary issue will be the amount of power you can consume before you can no longer run the household's other equipment. Most homes have 150 - 200 amp service, which will leave only 50 to 100 amps available for mining equipment. ASIC machines use more power than a GPU, about 8 to 12 times more. In addition, an ASIC is very loud, with an average of 75db per ASIC. The amount of sound generated can affect those in the home and neighbors. LMI will have a crucial advantage for hosting due to the immersion cooling we utilize, generating approximately only 35db.

Balance of page blank

The Offering:

LMI is offering a convertible and redeemable note with an interest-only term of thirty-six (36) months with a floor interest rate of 10%. At the end of 36 months, the noteholder has three options: 1) redeem their note for the face amount of the note, or 2) convert their note into common shares, or 3) keep the note and continue to receive income. For option 1, the noteholder will receive 100% of the face value of their note. For Option 2, the noteholder would convert their note into common shares based on a conversion price to be determined at the time of an offering. Investors in the initial Seed Round under Regulation CF will receive a 20% discount on the offering price for their conversion price.

Each purchaser will receive a note stating the mining hashrate allocated from the mining farm. The percentage of farm mining hashrate received will remain constant while the amount of farm mining capacity is projected to increase. For example, if the percentage of hashrate based on the initial investment were 10% of the total farm hashrate, which we will assume equals 5,000 th/s, then the 10% of the farm would be 500 th/s. If LMI successfully increases the farm's hashrate to 10,000 th/s, then the income will be based on 1,000 th/s.

Purchasers can receive their income monthly or elect the reinvestment option. The reinvestment option cannot be changed once selected. All reinvested income will be paid out to the note holder regardless of their conversion choice at the end of the initial term.

Income generated will be paid monthly, you will receive your payment in U.S. dollars. The price of coins mined does change, and therefore, the amount of monthly income can fluctuate.

Use of Funds:

Future projections are based on a successful \$3 million convertible debt offering. Conversely, a raise of less than \$3 million may slow down the growth projections. The reason that the term "may slow down" was used instead of "will slow down" is that our

LMI anticipates purchasing 220+ ASIC machines and an initial immersion cooling system to handle 2 megawatts of power. LMI operations are located in Pontiac, Michigan, about 30 miles north of Detroit. The completion of a \$3 million raise should provide \$3.4 million of gross income and \$1.8 million of net income during the following 12 months. The income will be invested in additional mining and support equipment at the discretion of management. The net income number is after paying expenses and investors their monthly return.

Facility:

LMI has secured 15,000 sf with a 3-year lease with two 5-year renewals and an option to purchase the entire building of 75,000 sf located in Pontiac, Michigan, which is approximately 30 miles north of Detroit. The building has two separate sources of primary power delivering over 10 megawatts of power. The building's power is enough to last LMI through the first three years with our current funding. The initial leased space has sufficient capacity to handle over 15,000 ASIC units.

In year two, LMI plans to diversify geographic risk by operating a facility in another state. Currently, the top states in the U.S. to digital mine are GA, KY, NY, TN, TX, and WA. It will take time to locate an adequate property to develop or repurpose, with the introduction of operations commencing by year three.

Section 4. Non Assessment of Stock. The capital stock of the Corporation, after the amount of the subscription price has been fully paid, shall not be assessable for any purpose, and no stock, issued as fully paid shall ever be assessable or assessed, and the Articles shall not be amended in this particular. No stockholder of the Corporation is individually liable for the debts or liabilities of the Corporation.

No amendment to that Act, or amendment of these articles of incorporation, that further limits the acts or omissions for which elimination of liability is permitted, shall adversely affect any right or protection of a director for any act or omission occurring prior to such amendment. If the Florida Business Corporation Act is amended to further limit or eliminate liability of a director, then a director of the Corporation shall not be liable for any such act or omission to the fullest extent permitted by the Florida Business Corporation Act, as so amended.

EXHIBIT E: BYLAWS

BYLAWS OF Liquid Mining Inc. (the "Corporation")

SHAREHOLDERS

Annual Meeting

1. A meeting of the Shareholders of the Corporation (the "Shareholders") will be held annually for the purpose of electing directors (the "Directors") of the Corporation and for the purpose of doing other business as may come before the meeting. If the day fixed for the annual meeting is a legal holiday in the State of Florida, the annual meeting will be held on the next succeeding business day or on a date determined by the board of directors for the Corporation (the "Board") that is no later than two weeks after the date specified in the meeting notice.
2. The Corporation must hold its annual meeting within any 13 months period. If the annual meeting is not held within that time period then any shareholder may apply to the circuit court of the county where the Corporation's principal office is located to fix the time and place of the meeting.

Special Meetings

3. Unless otherwise prescribed by statute, special meetings of the Shareholders, for any purpose or purposes, may only be called in the following ways:
 - a. By a majority of the Board; or
 - b. By the president of the Corporation (the "President"); or
 - c. By the holders of shares entitled to cast in total not less than 10 percent of the votes on any issue proposed for the meeting where written requests describing the purpose or purposes for the special meeting are signed, dated and delivered to a member of the Board or other Officer of the Corporation.
4. The Board will determine the time, place and date of any special meeting provided that, in the case of a special meeting called by the requisite percentage of Shareholders in accordance with these Bylaws, the Board will issue notice of the special meeting within 60 days of receipt of the written demand(s) by the relevant Officer of the Corporation.

Place of Meeting

5. The annual meetings or special meetings of the Shareholders may be held at any place in or out of the State of Florida at a place to be determined at the discretion of the Board. If no designation of the location is made for any annual or special meeting of the Shareholders, the place of the meeting will be the Principal Office of the Corporation. The Corporation must hold its annual meeting within the earlier of: a) six months after the end of the Corporation's fiscal year or; b) fifteen months after its last annual meeting. If an annual meeting is not held within that time period, a Shareholder may direct a request in writing to the Chairman of the Board of the Corporation to hold the annual meeting. If a notice of meeting is not given within 60 days of that request then any Shareholder entitled to vote at an annual meeting may apply to any court having jurisdiction for an order directing that the meeting be held and fixing the time and place of the meeting.

Notice of Meetings

6. The written notice of any meeting will be given not less than 10 days, but not more than 60 days before the date of the meeting to each Shareholder entitled to vote at that meeting. The written notice of the meeting will state the place, date and hour of the meeting, the means of remote communications, if any, and, in the case of a special meeting, the purpose or purposes for which the meeting is called.
7. If mailed, notice is given when the notice is deposited in the United States mail, postage prepaid, and directed to the Shareholder at the address of the Shareholder as it appears on the records of the Corporation. An affidavit of the secretary (the "Secretary") of the Corporation that the notice has been given will, in the absence of fraud, be prima facie evidence of the facts stated in the notice.
8. A written waiver, signed by the person entitled to a notice of meeting, or a waiver by electronic transmission by the person entitled to that notice, whether before or after the time stated in the notice, will be deemed equivalent to the person receiving the notice. Further, attendance of a person at a meeting will constitute a waiver of notice of that meeting, except when the person attends a meeting for the express purpose of objecting at the beginning of the meeting to the transaction of any business because the meeting is not lawfully called or convened.

Consent of Shareholders in Lieu of Meeting

9. Any action to be taken at any annual or special meeting of Shareholders, may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action to be taken, is signed by the holders of outstanding stock having not less than the

minimum number of votes that would be necessary to authorize or take the action at a meeting at which all shares entitled to vote on the matter were present and voted is delivered to the Corporation. Every written consent will bear the date of signature of each Shareholder who signs the consent. However, no written consent will be effective unless the consent is delivered, either by hand or by certified or registered mail, within 90 days of the earliest dated consent, to the Principal Office of the Corporation in this state, the Principal Place of Business of the Corporation, the corporate secretary, or another agent of the Corporation having custody of the book in which proceedings of meetings of Shareholders are recorded.

Remote Communication Meetings

10. Remote communication means any electronic communication including conference telephone, video conference, the Internet, or any other method currently available or developed in the future by which Shareholders not present in the same physical location may simultaneously communicate with each other.
11. Where permitted under the statutes and regulations of the State of Florida, and in the sole and reasonable discretion of the Board of Directors, a meeting of Shareholders of the Corporation may be held at a specific location or may be held by any means of remote communication. Where a meeting will employ remote communication, one or more Shareholders may participate by means of remote communication or the meeting may be held solely by means of remote communication at the sole discretion of the Board of Directors. Where any remote communication is used in a Shareholder meeting, all persons authorized to vote or take other action at the meeting must be able to hear each other during the meeting and each person will have a reasonable opportunity to participate. This remote participation in a meeting will constitute presence in person at the meeting. All votes or other actions taken at the meeting by means of electronic transmission must be maintained as a matter of record by the Corporation.

List of Shareholders Entitled to Vote

12. The Officer who has charge of the Shareholders' List of the Corporation will prepare and make, not more than 70 days before every meeting of the Shareholders, a complete list of the Shareholders entitled to vote at the meeting, arranged in alphabetical order, and showing the address of each Shareholder and the number of shares of stock registered in the name of each Shareholder. The list must be available for inspection by any Shareholder beginning ten days prior to the meeting and continuing through the meeting. The list must be provided for any purpose related to the meeting:

- a. On a reasonably accessible electronic network, so long as the information required to access the list is provided with the notice of the meeting; or
 - b. During ordinary business hours, at the Principal Office of the Corporation, the office of the Corporation's transfer agent if specified in the meeting notice or at another place identified in the meeting notice in the city where the meeting will be held.
13. If the Corporation decides to make the list available on an electronic network, the Corporation will ensure that this information is available only to Shareholders of the Corporation. If the meeting is to be held at a physical location, then the list will be produced and kept at the time and place of the meeting during the whole time of the meeting and may be inspected by any Shareholder who is present.
14. If the meeting is to be held solely by means of remote communication, then the list will also be open to the examination of any Shareholder during the whole time of the meeting on a reasonably accessible electronic network, and the information required to access the list will be provided with the notice of the meeting.
15. If any Director willfully neglects or refuses to produce the list of Shareholders at any meeting for the election of Directors, or to open such a list to examination on a reasonably accessible electronic network during any meeting for the election of Directors held solely by means of remote communication, those Directors will be ineligible for election to any office at that meeting.
16. The Shareholders' List will be the only evidence as to who are the Shareholders entitled by this section to examine the list required by this section or to vote in person or by proxy at any meeting of Shareholders.

Quorum and Required Vote

17. A minimum of 51 percent of the shares entitled to vote, present in person or represented by proxy, will constitute a quorum entitled to take action at a meeting of Shareholders.
18. In all matters other than the election of Directors, any act of the Shareholders must be passed by an affirmative vote of the majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the matter.

19. Directors will be elected by a majority of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of Directors.
20. Where a separate vote by a class or series or classes or series of shares ("Eligible Shares") is required, 51 percent of the outstanding Eligible Shares present in person or represented by proxy, will constitute a quorum entitled to take action with respect to that vote on that matter. Any act to be taken must be passed by an affirmative vote of the majority of the outstanding Eligible Shares present in person or represented by proxy.

Shareholders Voting Rights and Proxies

21. Subject to the Articles of Incorporation, each Shareholder will be entitled to one vote for each share of stock held by that Shareholder.
22. Each Shareholder entitled to vote at a meeting of Shareholders or to express consent or dissent to corporate action in writing without a meeting may authorize another person or persons to act for that Shareholder by proxy, but no proxy will be valid after 11 months from the date of its execution unless the proxy provides for a longer period.
23. Execution of a proxy may be accomplished by the Shareholder or by the authorized Officer, Director, employee or agent of the Shareholder, signing the writing or causing that person's signature to be affixed to the writing by any reasonable means including, but not limited to, by facsimile signature.
24. A duly executed proxy will be irrevocable if it states that it is irrevocable and if, and only as long as, it is coupled with an interest sufficient in law to support an irrevocable power. A proxy may be made irrevocable regardless of whether the interest with which it is coupled is an interest in the shares or an interest in the Corporation generally.

Voting Rights of Fiduciaries, Pledgers and Joint Owners of Shares

25. Persons holding shares in a fiduciary capacity will be entitled to vote the shares so held. Persons whose shares are pledged will be entitled to vote, unless, in the transfer by the pledger on the books of the Corporation, that person has expressly empowered the pledgee to vote the shares, in which case only the pledgee, or that pledgee's proxy, may represent and vote the shares.

Voting Trusts and Other Voting Agreements

26. Two or more Shareholders may, by agreement in writing, create a voting trust by depositing their shares with a voting trustee, who will have the authority to vote the shares in accordance with the terms and conditions of the voting trust agreement. To be valid, the voting trustee must deliver copies of the list of Shareholders and the voting trust agreement to the Principal Office of the Corporation. Upon receiving the voting trust agreement, the Corporation will issue new share certificates in the name of the trustee and cancel the old share certificates. The new share certificates issued will state that they are issued pursuant to a voting trust agreement.
27. Any amendment to a voting trust agreement will be made by a written agreement, a copy of which will be filed with the Principal Office of the Corporation.
28. The right of inspection of any voting trust agreement or related amendment by a Shareholder of record or a holder of a voting trust certificate, in person or by agent, will be the same right of inspection that applies to the securities register of the Corporation.
29. An agreement between two or more Shareholders, if in writing and signed by the parties to the agreement, may provide that in exercising any voting rights, the shares held by them will be voted as provided by the agreement, or as the parties may agree, or as determined in accordance with a procedure agreed upon by them.
30. The above provisions concerning voting trusts and voting agreements will not be deemed to invalidate any voting or other agreement among Shareholders or any irrevocable proxy which is not otherwise illegal.

Cumulative Voting

31. Shareholders may use cumulative voting elections when electing Directors.

BOARD OF DIRECTORS

General Powers

32. The business and affairs of the Corporation will be managed by or under the direction of the Board.

Number, Tenure and Quorum

33. The Board will consist of two members, each of whom will be a natural person. Directors need not be Shareholders. Each Director will hold office until that Director's successor is elected and qualified or until that Director's earlier resignation or removal. Any Director may resign at any time upon notice given in writing or by electronic transmission to the Corporation. In order to transact business at a meeting of the Directors, a quorum of 50 percent of the total number of Directors eligible to vote will be required. The vote of the majority of the Directors present at a meeting at which a quorum is present will be the act of the Board.

Regular Meetings

34. By resolution, the Board may provide the time and place, either within or without the State of Florida, for the holding of regular meetings without any notice other than that resolution.

Special Meetings

35. Special meetings of the Board may be called by or at the request of the President or by a majority of the Directors. The person or persons calling that special meeting of the Board may fix any date, time or place, either within or without the State of Florida, to be the date, time and place for holding that special meeting.

Notice

36. Written notice of the date, time, and place of a special meeting of the Board will be given at least 10 days prior to the date set for that meeting. The written notice can be given personally, by mail, by private carrier, by telegraph, by telephone facsimile, or by any other manner as permitted by the Florida Business Corporation Act. The notice will be given by the Secretary or one of the persons authorized to call Directors' meetings.
37. If written notice is mailed, correctly addressed to a Director's address as provided in the Corporation's current records, the notice will be deemed to have been given to that Director at the time of mailing. If written notice is sent by private carrier or if the written notice is sent by United States mail, postage prepaid and by registered or certified mail, return receipt requested, the notice will be deemed to have been given to a Director on the date shown on the return receipt. Otherwise notice is effective when received by a Director.
38. Notice of any Directors' meeting may be waived by a Director before or after the date and time of the meeting. The waiver must be in writing, must be signed by a Director, and must be delivered to the Corporation for inclusion in the minutes or filing with the corporate records. The attendance of a Director at a meeting of the Board will constitute a waiver of notice of that

meeting except where a Director attends a meeting for the express purpose of objecting to the transaction of any business because the meeting is not lawfully convened.

Action by Directors Without a Meeting

39. Any action to be taken at any meeting of the Board or of any committee of the Board may be taken without a meeting if all members of the Board or committee, as the case may be, consent to it in writing, or by electronic transmission and the writing or writings or electronic transmission or transmissions are filed with the minutes of proceedings of the Board, or committee. This filing will be in paper form if the minutes are maintained in paper form and will be in electronic form if the minutes are maintained in electronic form.

Remote Communication Meetings

40. Remote communication means any electronic communication including conference telephone, video conference, the Internet, or any other method currently available or developed in the future by which Directors not present in the same physical location may simultaneously communicate with each other.
41. A meeting of the Board may be held by any means of remote communication by which all persons authorized to vote or take other action at the meeting can hear each other during the meeting and each person has a reasonable opportunity to participate. This remote participation in a meeting will constitute presence in person at the meeting.

Vacancies and Newly Created Directorships

42. When vacancies or newly created directorships resulting from any increase in the authorized number of Directors occur, a majority of the Directors then in office, although less than a quorum, or a sole remaining Director will have the power to appoint new Directors to fill this vacancy or vacancies. Each new Director so chosen will hold office until the next annual meeting of the Shareholders.
43. If at any time, by reason of death or resignation or other cause, the Corporation should have no Directors in office, then any Officer or any Shareholder or an executor, administrator, trustee or guardian of a Shareholder, or other fiduciary entrusted with like responsibility for the person or estate of a Shareholder, may call a special meeting of Shareholders for an election to fill the vacancy.

44. When one or more Directors resign from the Board and the resignation is to become effective at a future date, a majority of the Directors then in office, including those who have so resigned, will have the power to appoint new Directors to fill this vacancy or vacancies. The appointments of these new Directors will take effect when the resignation or resignations are to become effective, and each new Director so chosen will hold office until the next annual meeting of the Shareholders.

Removal

45. Any Director or the entire Board may be removed, with or without cause, by the holders of a majority of the shares then entitled to vote at an election of Directors at a special meeting of the Shareholders called for that purpose. No director may be removed when the votes cast against removal would be sufficient to elect the director if voted cumulatively at an election where the same total number of votes were cast.

Organization

46. Meetings of the Board will be presided over by the President, or in the President's absence by a Director chosen at the meeting. The Secretary will act as secretary of the meeting, but in the absence of the Secretary, the person presiding at the meeting may appoint any person to act as secretary of the meeting.

Chairman of the Board

47. The Chairman of the Board, if present, will preside at all meetings of the Board, and exercise and perform any other authorities and duties as may be from time to time delegated by the Board.

Compensation

48. The Board will, by resolution, fix the fees and other compensation for the Directors for their services as Directors, including their services as members of committees of the Board. All changes to Director compensation are subject to ratification by the Shareholders.

Presumption of Assent

49. A Director of the Corporation who is present at a meeting of the Board will be presumed to have assented to an action taken on any corporate matter at the meeting unless:
- a. The Director objects at the beginning of the meeting, or promptly upon the Director's arrival, to holding the meeting or transacting business at the meeting;

- b. The Director's dissent or abstention from the action taken is entered in the minutes of the meeting; or
 - c. The Director delivers written notice of the Director's dissent or abstention to the presiding officer of the meeting before the adjournment of the meeting or to the Corporation within a reasonable time after adjournment of the meeting.
50. Any right to dissent or abstain from the action will not apply to a Director who voted in favor of that action.

COMMITTEES

Appointment

51. The Board may designate one or more committees, each committee to consist of one or more of the Directors of the Corporation. The Board may designate one or more Directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee.
52. In the absence or disqualification of a member of a committee, the member or members present at any meeting and not disqualified from voting, whether or not that member or members constitute a quorum, may unanimously appoint another member of the Board to act at the meeting in the place of any absent or disqualified member.
53. The committee or committees, to the extent provided in the resolution of the Board will have and may exercise all the powers and authority of the Board in the management of the business and affairs of the Corporation, and may authorize the seal of the Corporation to be affixed to all papers which may require it. No such committee will have the power or authority in reference to the following matters:
- a. Approving or adopting, or recommending to the Shareholders, any action or matter (other than the election or removal of Directors) expressly required by the Florida Business Corporation Act to be submitted to Shareholders for approval; or
 - b. Adopting, amending or repealing any Bylaw of the Corporation.

Resignation and Removal

58. Any member of a committee may be removed at any time, with or without cause, by a resolution adopted by a majority of the full Board. Any member of a committee may resign from the committee at any time by giving written notice to the Chairman of the Board of the Corporation, and unless otherwise specified in the notice, the acceptance of this resignation will not be necessary to make it effective.

Vacancies

59. Any vacancy in a committee may be filled by a resolution adopted by a majority of the full Board.

Committee Rules of Procedure

60. A committee will elect a presiding officer from its members and may fix its own rules of procedure provided they are not inconsistent with these Bylaws. A committee will keep regular minutes of its proceedings, and report those minutes to the Board at the first subsequent meeting of the Board.

Company has no obligation to list the Securities on any market or take any steps (including registration under the Securities Act or the Securities Exchange Act of 1934, as amended) with respect to facilitating trading or resale of the Securities. Subscriber acknowledges that Subscriber is able to bear the economic risk of losing Subscriber's entire investment in the Securities. Subscriber also understands that an investment in the Company involves significant risks and has taken full cognizance of and understands all of the risk factors relating to the purchase of Securities.
