Steve Wolf

CEO Team Wildfire. Problem solving engineer, Stunt & FX
Coordinator, Safety expert, TV producer, author, keynote speaker,
STEM presenter of the year. If it's impossible, count me in.
Austin, Texas, United States

Summary

Plant based Engineer, Stunt & Special Effects Coordinator, science
keynote speaker, science author, trial consultant, expert witness,
scuba, firearms, rigging, pyrotechnic & explosives expert.

My "Science in the Movies" show has been presented live to over
2,000,000 kids worldwide.

In the course of 30 years of effects engineering including pyro
for Tom Cruise, I've developed a new method of controlling and
suppressing forest fires, PyroNemesis.

I'm constantly developing new science based content for TV,
focussed on inspiring a healthy next generation of scientists who live,
like I do, on a diet of curiosity, inquiry and discovery.

Specialties: Problem solving across a broad spectrum of fields,
from film-making to industrial processes, from science education to
military technology, from trial consulting to space explorations. I live
for challenges. What are your big challenges with? I can help.
