Our Story

After having lost her father to an aggressive form of lung cancer in 2013 and with his only relief being the cannabis oil that Amy Lee prepared for him, Lee contacted Brad Zerman, Seven Point Founder and CEO, to become involved in his forthcoming Oak Park, Illinois-based medical cannabis dispensary as the Director of Research and Education. Deeply understanding the multiple benefits of the cannabis plant, a passion to educate patients and the community with high-quality, evidence-based cannabis science, and the desire to provide customers with exceptional customer service is what inspired the most robust educational programming of any

medical cannabis dispensary. We maintained the largest and most diverse menu of products and the fastest patient count growth rate within the first three months of operation. This competitive and unique edge is what separates Seven Point from its competition. The fusion of Zerman's astute entrepreneurial skills, history of successful launching of businesses and keen eye for detail, and Lee's personal connection with cannabis, her clinical social work and community engagement background, and curriculum development expertise, is essentially what earned the Seven Point team this opportunity to open an Adult-use Cannabis Dispensary in Danville, Illinois.

The Team

Brad Zerman, Founder & CEO

Brad Zerman founded Seven Point-Oak Park, one of the first 55 Illinois medical cannabis dispensary licensees, in 2014 where he was CEO for 5 years. The company was sold in 2019 to a publicly traded company. Mr. Zerman is also the founder of Seven Point of Massachusetts, Inc. and anticipates his first adult-use dispensary to open this year, with cultivation opening late 2023. Zerman was also recently awarded two Illinois Craft Grower licenses, two Illinois Transportation licenses, and an adult-use dispensary license in Danville, IL, near a new casino at the Indiana state line.

Zerman is also currently a pre-qualified applicant by the state of MI and approved by the City of Berkley to operate a marijuana retailer located at 28557 Woodward Ave., Berkley, MI. Zerman has extensive experience successfully doing business in highly regulated industries. He was a Director of the Illinois Cannabis Industry Association and founding Director of the Medical Cannabis Alliance of Illinois (currently CannaBizIL). Zerman was recently elected to the Board of Directors of the Illinois Independent Craft Growers Association. He presents at local level planning meetings, such as the McHenry County Council of Governments, to offer his invaluable insight into zoning for cannabis dispensing organizations, security, operations, and community benefits of cannabis regulation.

Zerman is the founder and CEO of COVID Diagnostics, a drive up and park COVID testing facility, which operated for 17 months located in Northbrook, Illinois. Zerman was also founder and CEO of Qualtex Corporation (dba Sky Processing), which was based in Chicago, prior to its sale, with ATM locations throughout the US and Puerto Rico. Sky Processing was one of Puerto Rico's largest independent operators of ATMs and had dispensed over \$5 billion in cash withdrawals since 2000. The ATM operations industry is considered "cash intensive" and requires strict adherence to numerous reporting guidelines, licensing, compliance, regulations, and oversight. For example, for 20 years, Sky Processing regularly submitted detailed reports to its sponsoring financial institutions and the Federal Financial Institutions Examination Council (FFIEC) regarding the 2200 individual ATM locations, including the source of funds and ownership of all cash held within the individual vaults of each ATM. These reports share similarities to the established reporting requirements of a cannabis dispensary in most regulated states. Zerman has 25 years of experience designing and implementing sophisticated security and risk mitigation practices. Zerman previously designed and manufactured secure outdoor-rated ATMS through his brand Qualtex. As an operator of more than 2200 ATMs, processing more than 6 million transactions per year, Zerman securely handled sensitive cardholder and customer data, including debit card numbers, credit applications, background checks, social security numbers and other personal data. Mr. Zerman has a proven and longstanding history of properly

safeguarding customer data and other information. In addition, Zerman has extensive experience in the broader payment processing industry and oversaw all Sky Processing vendor relationships with transaction processors, vault cash providers, and national armored carriers. This background and his relationships within the armored carrier and payments industries and experience in the cannabis industry will be essential to running successful future cannabis operations. Given his extensive experience in the payments industry, Zerman will be a capable leader who can navigate many of the pending payment and banking issues facing the cannabis industry. Zerman was also the founder and CEO of Midwest Bancard Corporation, a regional independent sales and service organization providing credit card processing services to merchants located primarily in Illinois and Michigan. The company was sold in 2005 to a publicly traded company. Zerman and family live in Chicago with two daughters who are both attending universities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	0.6 - 1.0% ²
Payment Deadline	2025-12-31
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.6 x 1.4 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar month ending not more than thirty days after the end of the first calendar year after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	2.9%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 0.6% and a maximum rate of 1.0% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$75,000	0.6%
\$87,250	0.7%
\$99,500	0.8%
\$111,750	0.9%
\$124,000	1.0%

³ To reward early participation, the investors who contribute the first \$22,500.0 raised in the offering will receive a 1.6x cap. Investors who contribute after \$22,500.0 has been raised in the offering will receive a 1.4x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Limited Liability Company Membership Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	MANAGER MANAGED
How these securities differ from the revenue sharing notes being offered to investors	Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Brad Zerman	30%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

Upon successful funding of the Offering, the Funding Portal will receive as the "Revenue Securement Fee"; 4.5% of the amount of the Offering raised by In-Network Users of the Platform plus 9.0% of the amount of the Offering raised by all other investors. "In-Network Users" means a user of Mainvest.com who who have utilized the Company's specified in-network link on the Site.
