PicMii does not make investment recommendations and no communication through this website or in any other medium should be construed as a recommendation for any security offered on or

off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Cautionary Note Concerning Forward-Looking Statements

This Form C and any documents incorporated by reference herein contain forward-looking statements and are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this Form C are forward-looking statements. Forward-looking statements give our current reasonable expectations and projections regarding our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "should," "can have," "likely," and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

The forward-looking statements contained in this Form C and any documents incorporated by reference herein are based on reasonable assumptions we have made in light of our industry experience, perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. As you read and consider this Form C, you should understand that these statements are not guarantees of performance or results. Although we believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual operating and financial performance and cause our performance to differ materially from the performance anticipated in the forward-looking statements. Should one or more of these risks or uncertainties materialize or should any of these assumptions prove incorrect or change, our actual operating and financial performance may vary in material respects from the performance projected in these forward-looking statements.

Investors are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements made in this Form C or any documents incorporated by reference herein is accurate only as of the date of those respective documents. Except as required by law, we undertake no obligation to publicly update any forward-looking statements for any reason

after the date of this Form C or to conform these statements to actual results or to changes in our expectations.

5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control - as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Pigee is a mobile application. This application is a novel product with international trademarks and patent pending. The application is the first of its kind to act as a marketplace for tourists who wish to have the purchases made on vacation posted to their home country.

Problem:

Limited Tourist Spending. Tourists limit shopping to what they can physically carry.
Inconvenience. To ship purchased products home from vacation is convoluted. The shipping cost

is unknown until after product purchase.

Few Recurring Sales. Tourist focused shops seldom make recurring sales.

Solution:

Unlimited Shopping. Tourists can purchase as many products as they like. From any street market or shop they visit in the world. Having their products conveniently sent directly to their home.

Recurring Sales. The easy-to-use system insures the money youâ€™ve spent. Pigeer allows you to purchase items from the same seller in the future.

Tourist focused shop owners register their shop and list their products on the Pigeer application as requested by visiting customers. Customers then connect with the shop owner via QR code or GPS location search to make the purchase. The purchase is made in the tourist customers currency and method of their choosing, such as PayPal or Apple Pay.

Shipping is automatically calculated end-to-end and added to the payment. This is unique, as shipping quotes usually work from two static points. With Pigeer both ends are variable based on the tourists visiting location. Within the application, both customer and shop owner are able to track the delivery. All purchases are insured once collected by the shipping company.

The shop owner only needs to package the product securely and the shipping company will collect either on the same day or next. Once the tourist customer returns home they can choose to make further purchases from this or other shop owners. This creates recurring sales from tourist focused shop owners who seldom sell to the same customer more than once.

The application concept was created by the founder Leroy Lawrence when he suffered this familiar pain point whilst travelling abroad.

As a marketplace the application generates revenue by charging a commission from transactions. These include product value, shipping cost and foreign currency exchange.

During its first pilot launch in Bali, Indonesia. 50 shops were registered, 100+ user registrations and over 1000 downloads in only 2 weeks. Based on feedback from early adopters, the release of version 2 is pending imminent release.

Though the application can be used anywhere in the world without our direct interaction. Pigeer will continue to focus on one initial location to find product market fit. Bali, Indonesia. As during our pilot we will use internally trained sales people who will visit shops to register owners as a core part of our go-to-market strategy.

Risk Factors

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In

addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters. The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises such as COVID-19 can have a significant effect on our business operations and revenue projections.

There is an ongoing outbreak of a novel and highly contagious form of coronavirus ("COVID-19"), which the World Health Organization declared a global pandemic on March 11, 2020. The outbreak of COVID-19 has caused a worldwide public health emergency with a substantial number of hospitalizations and deaths and has significantly adversely impacted global commercial activity and contributed to both volatility and material declines in equity and debt markets. The global impact of the outbreak is rapidly evolving, and many national, state, and local governments have reacted by instituting mandatory or voluntary quarantines, travel prohibitions and restrictions, closures or reductions of offices, businesses, schools, retail stores, restaurants, and other public venues and/or cancellations, suspensions and/or postponements of certain events and activities, including certain non-essential government and regulatory activities. Businesses are also implementing their own precautionary measures, such as voluntary closures, temporary or permanent reductions in work force, remote working arrangements and emergency contingency plans.

Such measures, as well as the general uncertainty surrounding the dangers, duration, and impact of COVID-19, are creating significant disruption to supply chains and economic activity, impacting consumer confidence and contributing to significant market losses, including by having particularly adverse impacts on transportation, hospitality, healthcare, tourism, sports, entertainment and other industries dependent upon physical presence. Technological infrastructure has, and will likely continue to be, strained for so long as mandatory or voluntary quarantines are instituted, which will change, and potentially disrupt, the operations of the Company. As COVID-19 continues to spread, potential additional adverse impacts, including a global, regional or other economic recession of indeterminate duration, are increasingly likely and difficult to assess and, if the spread of COVID-19 is prolonged, it could adversely affect many economies, global financial markets and the Company even after COVID-19 is contained.

The extent of the impact of COVID-19 on the Company's operational and financial performance will depend on many factors, all of which are highly uncertain and cannot be predicted. Those factors include the duration and scope of the resulting public health emergency; the extent of any related restrictions implemented; the impact of such public health emergency on overall supply and demand, goods and services, investor liquidity, consumer confidence and levels of economic activity; and the extent of its disruption to important global, regional and local supply chains and economic markets. The effects of the COVID-19 pandemic may materially and adversely impact the value, performance and liquidity of the Company.

In addition, COVID-19 and the resulting changes to global businesses and economies likely will adversely impact the business and operations of the Company and therefore the business and operations of the Company. Certain businesses and activities may be temporarily or permanently halted as a result of government or other quarantine measures, voluntary and precautionary restrictions on travel or meetings and other factors, including the potential adverse impact of COVID-19 on the health of key personnel.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations may require a significant pivot in strategy and execution, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenue, as well as the inherent business risks associated with our Company and present and future market conditions.

The Company's success depends on the experience and skill of its manager and other key personnel.

In particular, we are dependent on our managers. The loss of the Managers, the Principals or any other key personnel could harm the Company's business, financial condition, cash flow and performance. Accordingly, you should not invest in the Company unless you are willing to entrust all aspects of the management of the Company and the investment decisions we make on the behalf of the Company.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success and will be critical to our success as we form and advise new markets. Any incident that erodes confidence in our brand could significantly reduce the Company's value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correct.

Risks Related to the Offering

The U.S. Securities and exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered Offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the

Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Although Investors will have no right to voluntarily withdraw capital from the Company or withdraw their Securities, in certain circumstances they may be forced to withdraw from the Company.

An Investor may be forced to withdraw from the Company if the Company reasonably determines that it is necessary or desirable to do so in order to comply with applicable law or regulations, or to avoid a material adverse effect on the Company or the other holders of securities in the Company.

Investors will have no right to control the Company's operations.

The Investors will have no opportunity to control the day-to-day operations of the Company, including, without limitation, the investment and disposition decisions of the Portfolio Companies. In order to safeguard your limited liability for the liabilities and obligations of the Company, you must rely entirely on the Manager and Principals to conduct and manage the business affairs of the Company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

The Company may never undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never undergo a liquidity event such as a repurchase of the Securities by the Company, a sale of the Company or an initial public or coin offering. If a liquidity event does not occur, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities have no voting rights or ability to direct the Company or its actions.

The Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company's equity securities will be subject to dilution. The Company may issue additional equity to third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's economic interests in the Company. The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

The Securities may be substantially different from other equity securities offered or issued by the Company.

The Securities may be materially different from the other equity securities of the Company in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. The Securities may not provide the holders of such Securities with the same

rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred membership interests, have been paid in full. Neither holders of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

Pigee Inc. ("Company") is offering securities under Regulation CF, through PicMii Crowdfunding LLC ("PicMii"). PicMii is a FINRA/SEC registered funding portal and will receive cash compensation equal to 5.5% of the value of the securities sold through Regulation CF. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$10,000 and \$100,000 through an offering under Regulation CF. Specifically, if we reach the Minimum Raise Amount of \$10,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have not yet to be closed.

In the event The Company fails to reach the minimum offering amount of \$10,000, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

7. What is the purpose of this offering?

If the maximum offering amount is raised, our anticipated use of proceeds is as follows in Question 8.

8. How does the issuer intend to use the proceeds of this offering?

Add rows as necessary to account for all ways you intend to use the proceeds of this offering.

	% of Capital if Target Offering Amount Raised	Amount if Target Offering Amount Raised	% of Capital if Maximum Offering Amount Raised	Amount if Maximum Offering Amount Raised
New Hires	20	2000	45	45000
Marketing	30	3000	25	25000
Software Development	30	3000	15	15000
Operations	15	1500	10	10000
Legal	5	500	5	5000
Total	100%	\$10,000	100%	\$100,000

*We reserve the right to change the above use of proceeds if management believes it is in the best interest of the Company.

9. How will the issuer complete the transaction and deliver securities to the investors?

Manage Own Records - In entering into an agreement on PicMii Crowdfunding's Funding Portal to purchase securities, both investors and the Company must agree that a transfer agent, which keeps records of our outstanding Common Stock (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed) or that the Company is capable of maintaining investment records on their own. In this Case, they will be managing their records on their own. Stock ownership is recorded in the company's electronic books and records, which may be kept online if directed by the Board, with issuance and transfers of stock made electronically.

10. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering. PicMii will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). PicMii Crowdfunding will notify investors when the target offering amount has been met. If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled, and the committed funds will be returned.

11. Can the company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the

offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

12. Describe the terms of the securities being offered.

Post money SAFE with a \$16M Valuation Cap.

13. Do the securities offered have voting rights? Voting Rights and Proxy:

The SAFE will convert into common stock with voting rights, however investors should understand that with the purchase of a Simple Agreement for Future Equity, investors will not immediately own equity in the company and that the purchase of the SAFE allows investors the opportunity to purchase shares in the future at a set valuation cap.

14. Are there any limitations on any voting or other rights identified above?

See Question 13.

15. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be cancelled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or

the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

- The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person. The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

16. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Amount Authorized	Amount Outstanding	Reserved Options	Convertible Note/SAFEs	Voting Rights
Common	10,000,000	10,000,000	1,000,000	N/A	N/A

Options, Warrants and Other Rights

17. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible bonds, preferred shares or warrants) into stock. If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the company)

18. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

Founding shareholders hold common stock with voting rights.
Executed SAFE note will convert into the same common stock.

19. How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?

The holder of a majority of the voting rights in the company may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

20. How are the securities being offered valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The securities being offered are valued at the issuer's discretion. An early-stage company typically sells its shares (or grants options over its shares) to its founders and early employees at a very low cash cost, because they are, in effect, putting their "sweat equity" into the company. When the company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their shares than the founders or earlier investors, which means that the cash value of your stake is immediately diluted because each share of the same type is worth the same amount, and you paid more for your shares than earlier investors did for theirs.

There are several ways to value a company, and none of them is perfect and all of them involve a certain degree of guesswork. Any of these methods, plus others, may be used to determine valuation in the future:

Liquidation Value - The amount for which the assets of the company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, this value does not reflect the potential value of a business, e.g., the value of the secret recipe. The value for most startups lies in their potential, as many early stage companies do not have many assets.

Book Value - This is based on analysis of the company's financial statements, usually looking at the company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e., what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks or trade names, are very valuable but are not usually represented at their market value on the balance sheet.

Earnings Approach - This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost

opportunity to participate in other investments, the risk of not receiving the return. However, predictions of the future are uncertain and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. Typically, liquidation value and book value will produce a lower valuation than the earnings approach. However, the earnings approach is also most likely to be risky as it is based on many assumptions about the future, while liquidation value and book value are much more conservative.

Future investors (including people seeking to acquire the company) may value the company differently. They may use a different valuation method, or different assumptions about the company's business and its market. Different valuations may mean that the value assigned to your investment changes. It frequently happens that when a large institutional investor such as a venture capitalist makes an investment in a company, it values the company at a lower price than the initial investors did. If this happens, the value of the investment would go down.

21. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

The company's Certificate of Incorporation or Bylaws can be amended by the holders of a majority of the issued and outstanding shares of the Company. As minority owners, the crowdfunding investors are subject to the decisions made by the majority owners. The issued and outstanding shares of common stock give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as, among other things: (a) the liquidation, dissolution or winding up of the company, or effecting any merger or consolidation; (b) amendment of any provision of the Certificate of Incorporation or Bylaws; (c) creation and issuance of other securities having rights, preferences or privileges senior to the common stock sold to the crowdfunding investors, or increasing the authorized number of shares of stock of the company; or (d) creation of any debt security.

22. What are the risks to purchasers associated with corporate actions including:

1. Additional issuances of securities
2. Issuer repurchases of securities
3. A sale of the issuer or of assets of the issuer
4. Transactions with related parties

The authorization and issuance of additional shares of the company's common stock will dilute the ownership of the crowdfunding investors. As a result, if the company achieves profitable operations in the future, its net income per share will be reduced because of dilution, and the market price of the company's common stock, if there is a market price, could decline as a result of the additional issuances of securities. If the company repurchases securities, so that the above risk is mitigated, and there are fewer shares of common stock outstanding, the company may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our securities would decline. A sale of the company or of all of the assets of the company may result

in an entire loss of your investment. We cannot predict the market value of the company or its assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to negotiate with a related party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms.

23. Describe the material terms of any indebtedness of the issuer:

Creditor(s)	Amount Outstanding	Interest Rate	Maturity Date
N/A	N/A	N/A	N/A

24. What other exempt offerings has the Company conducted within the past three years?

None.

25. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. Any director or officer of the issuer;
2. Any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. If the issuer was incorporated or organized within the past three years, any promoter of the issuer; or
4. Any immediate family members of any of the foregoing persons.

No.

Financial Condition of the Issuer

26. Does the issuer have an operating history?

Incorporated in January 2021. No Revenues generated.

27. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Pigee Inc is certified to be in good standing. No debts, loans are outstanding. Capital resources have been paid by the investor Lawrence Investment Holdings Ltd. More than 6 months of liquidity are available. No revenue has yet been generated.

28. Include the financial information specified by regulation, covering the two most recently completed fiscal years or the period(s) since inception if shorter.

PIGEE INC.
NOTES TO THE FINANCIAL STATEMENTS
Fiscal Years Ended December 31, 2021

1. ORGANIZATION AND PURPOSE

PIGEE INC. (the "Company"), is a corporation organized under the laws of the State of Delaware. The Company operates a mobile software application and derives revenue from marketplace sale commissions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Company's significant accounting policies applied in the preparation of the accompanying financial statements follows:

a) Basis of Accounting

The Company prepares its financial statements on an accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP). Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

b) Fiscal Year

The Company operates on a 52-week fiscal year ending on December 31.

c) Cash Equivalents

Cash and cash equivalents include cash and short-term highly liquid investments with an original maturity of three months or less held in domestic financial institutions. For the fiscal year ended December 31, 2021, the Company's cash positions include its operating bank account.

d) Legal Fees

Legal fees consist of legal services provided for the creation of the Company and equity financing.

e) Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

3. SUBSEQUENT EVENT

The Company has evaluated events and transactions subsequent to the period. No events require recognition in the financial statements or disclosures of the Company per the definitions and requirements of ASC Section 855-10, Subsequent Events.

Business Model

As a marketplace the application generates revenue by charging a commission from transactions. These include product value, shipping cost and foreign currency exchange. A machine learning and AI model is currently in production to optimise pricing for shipping.

Traction & Customers

During its first pilot launch in Bali, Indonesia during May, 50 shops were registered, 100+ user registrations and over 1000 downloads in only 2 weeks. Based on feedback from early adopters, the release of version 2 is pending imminent release.

Version 2 will include:

- Local shipping partners
- Direct to bank withdrawals
- Shop registration incentives
- New 1 minute shop registration flow
- Availability for shops in over 88 countries

Terms

Pigeer Inc. will be offering a SAFE agreement as described below in this Regulation Crowdfunding offering:

\$16M valuation cap

The security being offered is a Simple Agreement for Future Equity (SAFE), therefore, investors will not be receiving equity at the time they invest in Scrimmage through this SAFE. Instead, they will receive equity at a later date once the events outlined in the subscription agreement occur.

If there is an Equity Financing before the termination of this SAFE, on the initial closing of such Equity Financing, this Safe will automatically convert into the greater of: (1) the number of shares of Standard Preferred Stock equal to the Purchase Amount divided by the lowest price per share of the Standard Preferred Stock; or (2) the number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Safe Price.

If there is a Liquidity Event before the termination of this Safe, this Safe will automatically be entitled, subject to liquidation priority, to receive a portion of the proceeds, due and payable to the investor immediately prior to, or concurrent with, the consummation of such liquidity event, equal to the greater of (i) the purchase amount or (ii) the amount payable on the number of shares of common stock equal to the purchase amount divided by the liquidity price.

If there is a Dissolution Event before the termination of this Safe, the Investor will automatically be entitled (subject to the liquidation priority) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event.

Risks

This offering involves a SAFE (Simple Agreement for Future Equity). Please note, that upon your investment you do not immediately earn an equity stake in Pigeo Inc. SAFEs involve a triggering event that must occur for your investment to convert into equity. It is critical that investors read the subscription agreement prior to investing in a SAFE to understand all of the terms of the security.

See Offering Statement; A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

Neither PicMii Crowdfunding nor any of its directors, officers, employees, representatives, affiliates, or agents shall have any liability whatsoever arising from any error or incompleteness of fact or opinion in, or lack of care in the preparation or publication of, the materials and communication herein or the terms or valuation of any securities offering.

The information contained herein includes forward-looking statements. These statements relate to future events or future financial performance and involve known and unknown risks, uncertainties, and other factors that may cause actual results to be materially different from any future results, levels of activity, performance, or achievements expressed or implied by these forward-looking statements. You should not place undue reliance on forward-looking statements since they involve known and unknown risks, uncertainties, and other factors, which are, in some cases, beyond the company's control and which could, and likely will materially affect actual results, levels of activity, performance, or achievements. Any forward-looking statement reflects the current views with respect to future events and is subject to these and other risks, uncertainties, and assumptions relating to operations, results of operations, growth strategy, and liquidity. No obligation exists to publicly update or revise these forward-looking statements for any reason or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.

Market Projection

In Indonesia, Pigeer has a robust granular plan to generate \$250m in annual revenue.

Competition

Pigeer has a niche in a market with a number of unicorns that have either listed an IPO or been acquired. Both in the USA and in Indonesia, Pigeer is perfectly placed to grow ahead of the 40% CAGR of the logistics market and create new market size in the travel shopping industry.

Pigee Inc

SAFE

(Simple Agreement for Future Equity)

THIS CERTIFIES THAT in exchange for the payment by [INVESTOR_NAME] (the “Investor”) of \$[PURCHASE_AMOUNT] (the “Purchase Amount”) on or about [Date of SAFE], Pigee Inc, a Delaware corporation (the “Company”), issues to the Investor the right to certain shares of the Company’s Capital Stock, subject to the terms described below.

This Safe is one of the forms available at <http://ycombinator.com/documents> and the Company and the Investor agree that neither one has modified the form, except to fill in blanks and bracketed terms.

The “Post-Money Valuation Cap” is \$16,000,000.00. See Section 2 for certain additional defined terms.

1. Events

(a) Equity Financing. If there is an Equity Financing before the termination of this Safe, on the initial closing of such Equity Financing, this Safe will automatically convert into the greater of: (1) the number of shares of Standard Preferred Stock equal to the Purchase Amount divided by the lowest price per share of the Standard Preferred Stock; or (2) the number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Safe Price.

In connection with the automatic conversion of this Safe into shares of Standard Preferred Stock or Safe Preferred Stock, the Investor will execute and deliver to the Company all of the transaction documents related to the Equity Financing; provided, that such documents (i) are the same documents to be entered into with the purchasers of Standard Preferred Stock, with appropriate variations for the Safe Preferred Stock if applicable, and (ii) have customary exceptions to any drag-along applicable to the Investor, including (without limitation) limited representations, warranties, liability and indemnification obligations for the Investor.

(b) Liquidity Event. If there is a Liquidity Event before the termination of this Safe, this Safe will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds, due and payable to the Investor immediately prior to, or concurrent with, the consummation of such Liquidity Event, equal to the greater of (i) the Purchase Amount (the “Cash-Out Amount”) or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the “Conversion Amount”). If any of the Company’s securityholders are given a choice as to the form and amount of Proceeds to be received in a Liquidity Event, the Investor will be given the same choice, provided that the Investor may not choose to receive a form of consideration that the Investor would be ineligible to receive as a result of the Investor’s failure to satisfy any requirement or limitation generally applicable to the Company’s securityholders, or under any applicable laws.

Notwithstanding the foregoing, in connection with a Change of Control intended to qualify as a tax-free reorganization, the Company may reduce the cash portion of Proceeds payable to the Investor by the amount determined by its board of directors in good faith for such Change of Control to qualify as a tax-free reorganization for U.S. federal income tax purposes, provided that such reduction (A) does not reduce the total Proceeds payable to such Investor and (B) is applied in the same manner and on a pro rata basis to all securityholders who have equal priority to the Investor under Section 1(d).

(c) Dissolution Event. If there is a Dissolution Event before the termination of this Safe, the Investor will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event.

(d) Liquidation Priority. In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard non-participating Preferred Stock. The Investor's right to receive its Cash-Out Amount is:

(i) Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);

(ii) On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and

(iii) Senior to payments for Common Stock.

The Investor's right to receive its Conversion Amount is (A) on par with payments for Common Stock and other Safes and/or Preferred Stock who are also receiving Conversion Amounts or Proceeds on a similar as-converted to Common Stock basis, and (B) junior to payments described in clauses (i) and (ii) above (in the latter case, to the extent such payments are Cash-Out Amounts or similar liquidation preferences).

(e) Termination. This Safe will automatically terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with this Safe) immediately following the earliest to occur of: (i) the issuance of Capital Stock to the Investor pursuant to the automatic conversion of this Safe under Section 1(a); or (ii) the payment, or setting aside for payment, of amounts due the Investor pursuant to Section 1(b) or Section 1(c).

2. Definitions

“Capital Stock” means the capital stock of the Company, including, without limitation, the “Common Stock” and the “Preferred Stock.”

“Change of Control” means (i) a transaction or series of related transactions in which any “person” or “group” (within the meaning of Section 13(d) and 14(d) of the Securities Exchange Act of 1934, as amended), becomes the “beneficial owner” (as defined in Rule 13d-3 under the Securities Exchange Act of 1934, as amended), directly or indirectly, of more than 50% of the outstanding voting securities of the Company having the right to vote for the election of members of the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, other than a transaction or series of related transactions in which the holders of the voting securities of the Company outstanding immediately prior to such transaction or series of related transactions retain, immediately after such transaction or series of related transactions, at least a majority of the total voting power represented by the outstanding voting securities of the Company or such other surviving or resulting entity or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

“Company Capitalization” is calculated as of immediately prior to the Equity Financing and (without double-counting, in each case calculated on an as-converted to Common Stock basis):

Includes all shares of Capital Stock issued and outstanding;

Includes all Converting Securities;

Includes all (i) issued and outstanding Options and (ii) Promised Options; and

Includes the Unissued Option Pool, except that any increase to the Unissued Option Pool in connection with the Equity Financing shall only be included to the extent that the number of Promised Options exceeds the Unissued Option Pool prior to such increase.

“Converting Securities” includes this Safe and other convertible securities issued by the Company, including but not limited to: (i) other Safes; (ii) convertible promissory notes and other convertible debt instruments; and (iii) convertible securities that have the right to convert into shares of Capital Stock.

“Direct Listing” means the Company’s initial listing of its Common Stock (other than shares of Common Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Company with the SEC that registers shares of existing capital stock of the Company for resale, as approved by the Company’s board of directors. For the avoidance of doubt, a Direct Listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services.

“Dissolution Event” means (i) a voluntary termination of operations, (ii) a general assignment for the benefit of the Company’s creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

“Dividend Amount” means, with respect to any date on which the Company pays a dividend on its outstanding Common Stock, the amount of such dividend that is paid per share of Common Stock multiplied by (x) the Purchase Amount divided by (y) the Liquidity Price (treating the dividend date as a Liquidity Event solely for purposes of calculating such Liquidity Price).

“Equity Financing” means a bona fide transaction or series of transactions with the principal purpose of raising capital, pursuant to which the Company issues and sells Preferred Stock at a fixed valuation, including but not limited to, a pre-money or post-money valuation.

“Initial Public Offering” means the closing of the Company’s first firm commitment underwritten initial public offering of Common Stock pursuant to a registration statement filed under the Securities Act.

“Liquidity Capitalization” is calculated as of immediately prior to the Liquidity Event, and (without double-counting, in each case calculated on an as-converted to Common Stock basis):

Includes all shares of Capital Stock issued and outstanding;

Includes all (i) issued and outstanding Options and (ii) to the extent receiving Proceeds, Promised Options;

Includes all Converting Securities, other than any Safes and other convertible securities (including without limitation shares of Preferred Stock) where the holders of such securities are receiving Cash-Out Amounts or similar liquidation preference payments in lieu of Conversion Amounts or similar “as-converted” payments; and

Excludes the Unissued Option Pool.

“Liquidity Event” means a Change of Control, a Direct Listing or an Initial Public Offering.

“Liquidity Price” means the price per share equal to the Post-Money Valuation Cap divided by the Liquidity Capitalization.

“Options” includes options, restricted stock awards or purchases, RSUs, SARs, warrants or similar securities, vested or unvested.

“Proceeds” means cash and other assets (including without limitation stock consideration) that are proceeds from the Liquidity Event or the Dissolution Event, as applicable, and legally available for distribution.

“Promised Options” means promised but ungranted Options that are the greater of those (i) promised pursuant to agreements or understandings made prior to the execution of, or in connection with, the term sheet or letter of intent for the Equity Financing or Liquidity Event, as applicable (or the initial closing of the Equity Financing or consummation of the Liquidity Event, if there is no term sheet or letter of intent), (ii) in the case of an Equity Financing, treated as outstanding Options in the calculation of the Standard Preferred Stock’s price per share, or (iii) in the case of a Liquidity Event, treated as outstanding Options in the calculation of the distribution of the Proceeds.

“Safe” means an instrument containing a future right to shares of Capital Stock, similar in form and content to this instrument, purchased by investors for the purpose of funding the Company’s business operations. References to “this Safe” mean this specific instrument.

“Safe Preferred Stock” means the shares of the series of Preferred Stock issued to the Investor in an Equity Financing, having the identical rights, privileges, preferences and restrictions as the shares of Standard Preferred Stock, other than with respect to: (i) the per share liquidation preference and the initial conversion price for purposes of price-based anti-dilution protection, which will equal the Safe Price; and (ii) the basis for any dividend rights, which will be based on the Safe Price.

“Safe Price” means the price per share equal to the Post-Money Valuation Cap divided by the Company Capitalization.

“Standard Preferred Stock” means the shares of the series of Preferred Stock issued to the investors investing new money in the Company in connection with the initial closing of the Equity Financing.

“Unissued Option Pool” means all shares of Capital Stock that are reserved, available for future grant and not subject to any outstanding Options or Promised Options (but in the case of a Liquidity Event, only to the extent Proceeds are payable on such Promised Options) under any equity incentive or similar Company plan.

3. Company Representations

(a) The Company is a corporation duly organized, validly existing and in good standing under the laws of its state of incorporation, and has the power and authority to own, lease and operate its properties and carry on its business as now conducted.

(b) The execution, delivery and performance by the Company of this Safe is within the power of the Company and has been duly authorized by all necessary actions on the part of the Company (subject to section 3(d)). This Safe constitutes a legal, valid and binding obligation of the Company, enforceable against the Company in accordance with its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors’ rights generally and general principles of equity. To its knowledge, the Company is not in violation of (i) its current certificate of incorporation or bylaws, (ii) any material statute, rule or regulation applicable to the Company or (iii) any material debt or contract to which the Company is a party or by which it is bound, where, in each case, such

violation or default, individually, or together with all such violations or defaults, could reasonably be expected to have a material adverse effect on the Company.

(c) The performance and consummation of the transactions contemplated by this Safe do not and will not: (i) violate any material judgment, statute, rule or regulation applicable to the Company; (ii) result in the acceleration of any material debt or contract to which the Company is a party or by which it is bound; or (iii) result in the creation or imposition of any lien on any property, asset or revenue of the Company or the suspension, forfeiture, or nonrenewal of any material permit, license or authorization applicable to the Company, its business or operations.

(d) No consents or approvals are required in connection with the performance of this Safe, other than: (i) the Company's corporate approvals; (ii) any qualifications or filings under applicable securities laws; and (iii) necessary corporate approvals for the authorization of Capital Stock issuable pursuant to Section 1.

(e) To its knowledge, the Company owns or possesses (or can obtain on commercially reasonable terms) sufficient legal rights to all patents, trademarks, service marks, trade names, copyrights, trade secrets, licenses, information, processes and other intellectual property rights necessary for its business as now conducted and as currently proposed to be conducted, without any conflict with, or infringement of the rights of, others.

4. Investor Representations

(a) The Investor has full legal capacity, power and authority to execute and deliver this Safe and to perform its obligations hereunder. This Safe constitutes valid and binding obligation of the Investor, enforceable in accordance with its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors' rights generally and general principles of equity.

(b) The Investor is an accredited investor as such term is defined in Rule 501 of Regulation D under the Securities Act, and acknowledges and agrees that if not an accredited investor at the time of an Equity Financing, the Company may void this Safe and return the Purchase Amount. The Investor has been advised that this Safe and the underlying securities have not been registered under the Securities Act, or any state securities laws and, therefore, cannot be resold

unless they are registered under the Securities Act and applicable state securities laws or unless an exemption from such registration requirements is available. The Investor is purchasing this Safe and the securities to be acquired by the Investor hereunder for its own account for investment, not as a nominee or agent, and not with a view to, or for resale in connection with, the distribution thereof, and the Investor has no present intention of selling, granting any participation in, or otherwise distributing the same. The Investor has such knowledge and experience in financial and business matters that the Investor is capable of evaluating the merits and risks of such investment, is able to incur a complete loss of such investment without impairing the Investor's financial condition and is able to bear the economic risk of such investment for an indefinite period of time.

5. Miscellaneous

(a) Any provision of this Safe may be amended, waived or modified by written consent of the Company and either (i) the Investor or (ii) the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), provided that with respect to clause (ii): (A) the Purchase Amount may not be amended, waived or modified in this manner, (B) the consent of the Investor and each holder of such Safes must be solicited (even if not obtained), and (C) such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the total Purchase Amount of all of such applicable group of Safes.

(b) Any notice required or permitted by this Safe will be deemed sufficient when delivered personally or by overnight courier or sent by email to the relevant address listed on the signature page, or 48 hours after being deposited in the U.S. mail as certified or registered mail with postage prepaid, addressed to the party to be notified at such party's address listed on the signature page, as subsequently modified by written notice.

(c) The Investor is not entitled, as a holder of this Safe, to vote or be deemed a holder of Capital Stock for any purpose other than tax purposes, nor will anything in this Safe be construed to confer on the Investor, as such, any rights of a Company stockholder or rights to vote for the election of directors or on any matter submitted to Company stockholders, or to give or withhold consent to any corporate action or to receive notice of meetings, until shares have been issued on the terms described in Section 1. However, if the Company pays a dividend on outstanding shares of Common Stock (that is not payable in shares of Common Stock) while this Safe is outstanding, the Company will pay the Dividend Amount to the Investor at the same time.

(d) Neither this Safe nor the rights in this Safe are transferable or assignable, by operation of law or otherwise, by either party without the prior written consent of the other; provided, however, that this Safe and/or its rights may be assigned without the Company's consent by the Investor (i) to the Investor's estate, heirs, executors, administrators, guardians and/or successors in the event of Investor's death or disability, or (ii) to any other entity who directly or indirectly, controls, is controlled by or is under common control with the Investor, including, without limitation, any general partner, managing member, officer or director of the Investor, or any venture capital fund now or hereafter existing which is controlled by one or more general partners or managing members of, or shares the same management company with, the Investor; and provided, further, that the Company may assign this Safe in whole, without the consent of the Investor, in connection with a reincorporation to change the Company's domicile.

(e) In the event any one or more of the provisions of this Safe is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the provisions of this Safe operate or would prospectively operate to invalidate this Safe, then and in any such event, such provision(s) only will be deemed null and void and will not affect any other provision of this Safe and the remaining provisions of this Safe will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

(f) All rights and obligations hereunder will be governed by the laws of the State of Delaware, without regard to the conflicts of law provisions of such jurisdiction.

(g) The parties acknowledge and agree that for United States federal and state income tax purposes this Safe is, and at all times has been, intended to be characterized as stock, and more particularly as common stock for purposes of Sections 304, 305, 306, 354, 368, 1036 and 1202 of the Internal Revenue Code of 1986, as amended. Accordingly, the parties agree to treat this Safe consistent with the foregoing intent for all United States federal and state income tax purposes (including, without limitation, on their respective tax returns or other informational statements).

(Signature page follows)

IN WITNESS WHEREOF, the undersigned have caused this SAFE to be duly executed and delivered.
