

We create psychedelics brands

INVEST IN NUCLEUS

a venture studio for psychedelics

LEAD INVESTOR

Michelle Weiner Integrative Pain Management Physician

I am double board-certified in Interventional Pain Medicine and Physical Medicine and Rehabilitation; and I have become deeply engrained in the psychedelic industry through my practice over the years. As a physician providing ketamine-assisted psychotherapy for both chronic pain and mental health conditions, I am excited to offer new solutions that will shape the future of medicine incorporating safe and effective psychedelic options. In addition, my research around ketamine has been as continuous as my involvement in the overall industry as a clinical advisor. Nucleus' approach to the industry is unique and fills an enormous void. I am investing in Nucleus because I believe Nucleus' assets will help propel the industry forward and ultimately help billions of people heal with and experience psychedelic medicines.

Invested \$5,000 this round

Owner and Operator of development shop Many years of PHP, Laravel, and Wordpress experience

Bri Gagliardi Head of Relationships

Chief Engagement Officer at Hendrix + Stone Many years of Account Management

CONNECTING PEOPLE TO THE PSYCHEDELICS Industry

Nucleus was founded in mid-2021 after Neuly and Psychedelic Invest were purchased by Iter Investments, a prominent venture capital firm investing in the psychedelics industry. In late 2021, the official team was constructed, and Nucleus launched in January of 2022 with the mission of connecting people with the psychedelics industry in order to propel psychedelic-assisted therapy forward. Nucleus strives to accomplish this mission by serving the industry as a venture studio building brands that educate the masses, activate new stakeholders, and distribute data about these powerful medicines.

1. Declining mental well-being has become the most prevalent long emergency that we've all been experiencing.

2. Our current pharmaceutical solutions have not proven to be effective enough.
3. Studies have continued to reveal just how efficacious psychedelic-assisted therapy can be for a myriad of conditions.

Additionally, psychedelics have been growing in popularity. In August alone, over 5 million people around the world searched “psychedelics” on Google. The world is curious to learn more about just how helpful psychedelic medicines can be for mental well-being—and rightfully so.

We Know, and Understand, the Market

In April of 2021, I co-founded Iter Investments—a \$20 million venture capital fund investing in companies focused on psychedelic medicine. My investment team realized very quickly that within the psychedelic industry there was a lack of connection between the “industry” and “the people”. We saw this gap as a major hindrance to the progression of psychedelics and their foreseeable impact on billions of lives.

This is where Nucleus comes in – My Investment Fund founded Nucleus as a venture studio that launches, acquires, or partners with assets that create the much needed connection between the people and the industry. We accomplish this lofty goal with our network of assets.

Our Founding Story

With a proven track record:

Nucleus's resources empowers all stakeholders in the psychedelic industry to transcend the lack of connection and cohesion that my team and I uncovered in early 2021.

Most of what we have accomplished or continue to strive for wouldn't be remotely possible without our people. Our team consists of some of the most talented doctors, lawyers, scientists, writers, programmers, technologists, and marketing professionals in the industry.

With such deep experience and connection with institutional investors – Why are we crowdfunding?

Because we want our investor base to reflect the mission of Nucleus – connecting people to industry. By allowing a diverse group of passionate individuals the opportunity to invest into Nucleus, we will redistribute the power into the hands of you – the people. With your help we will accelerate the growth of the industry and ultimately heal billions of individuals.

The Nucleus team immediately carved out an ecosystem built to serve the companies operating within the industry and developed a hub-and-spoke infrastructure to place Nucleus at the center of future opportunities.

nucleus

Our ecosystem

iter
INVESTMENTS

With the popular platform Neuly already serving the industry with data, Nucleus set out on a mission to provide more opportunities to any and all stakeholders interacting with the psychedelics industry.

After all, stakeholders within the burgeoning psychedelics industry are consistently asking for a reliable source to turn to.

- **Investors** are needing data about the public and private markets.
- **Potential patients** are searching for more information about these new treatments.
- **Practitioners** are looking to reach more patients.
- **Professionals within the industry** are seeking new opportunities.

nucleus

Connect people with the psychedelics industry

Medicines are being developed, but we need **network activism**.

Investors **Researchers** **Practitioners** **Entrepreneurs**

Researchers

Practitioners

Patients

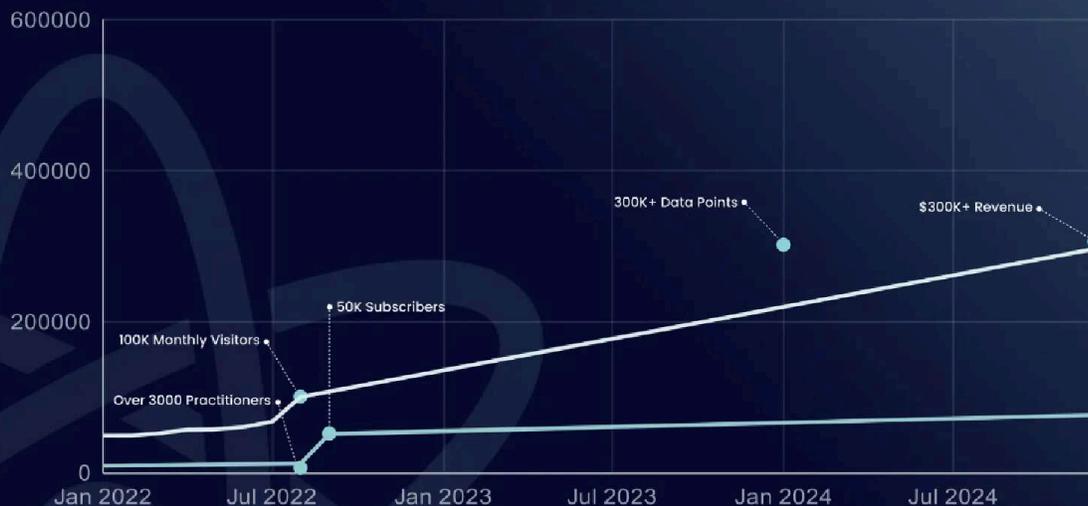

Historically, the only resource that could ever encapsulate all of these things in one place has been a well-built tech platform. This is where Nucleus, and the idea of a more robust and flexible venture studio model, comes in.

Our Growth and Traction

Growth goals & traction

— Visitors — Subscribers — Practitioners — Data Points — Revenue

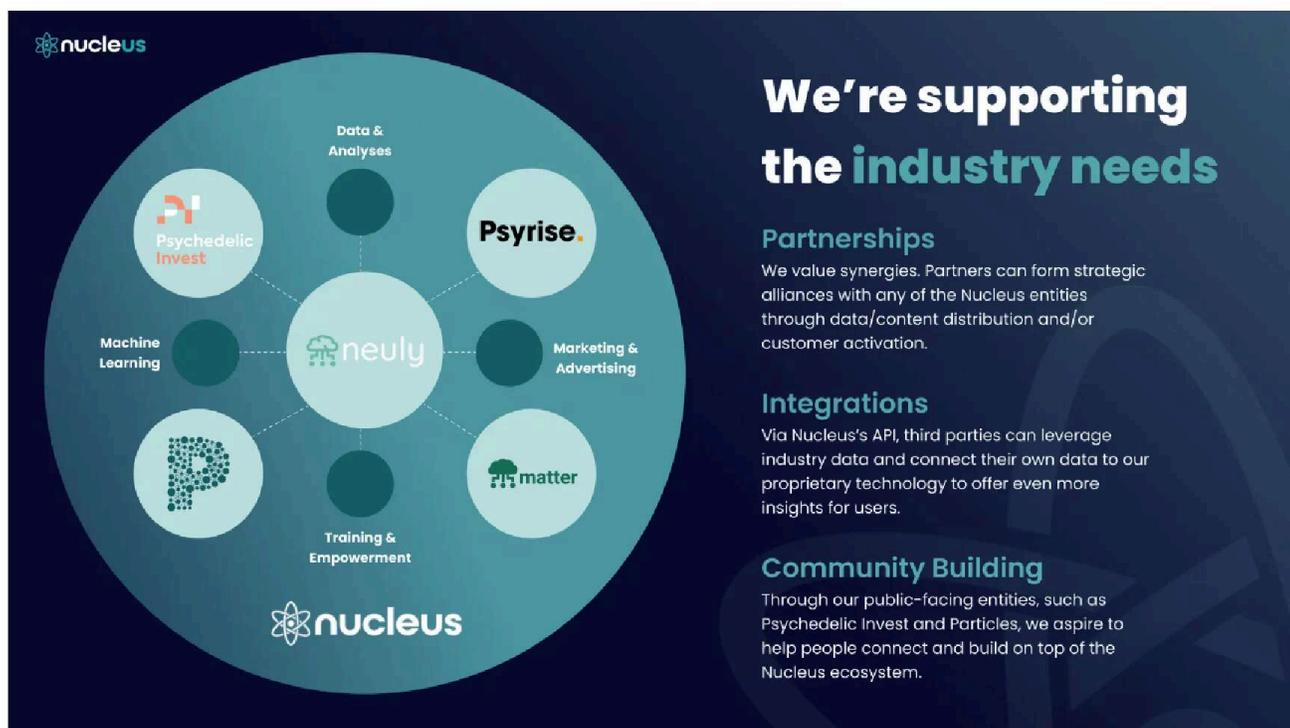

Forward-looking projections are not guaranteed.

- Our websites have recently surpassed 100,000 page views per month
- Our community has grown to over 50,000 members
- In June, we reached \$10,000 in combined monthly revenue

Thus, this intentionally robust and flexible infrastructure can be leveraged to power:

- **Wellness-related apps**
 - by including a psychedelics vertical/experience
- **Service companies**
 - by informing strategies and service models with relevant data
- **Media outlets**
 - by implementing more cost-effective data capture tools
- **Health systems**
 - by onboarding patients and providing data and tools
- **Philanthropy/DAOs**
 - by raising funds via a blockchain protocol

The Nucleus ecosystem is enriched by Nucleus-owned assets

Because Nucleus is structured to own a portfolio of assets, all of our brands were

built to support our mission.

Our brands work together as one large ecosystem that supports each other. Below is an exhaustive overview:

Neuly

- All the data, tools, and care in one robust platform
- **Distributing data through integrations and an API**

Psyrise

- A marketing platform for mental health brands
- **Supporting intake processes and marketing/activation funnels for all stakeholders within the ecosystem**

Psychedelic Invest

- Insights for those investing in the psychedelics industry
- **Populating market-related data directly from the Neuly database**

Psychedelic Finder

- A destination for those looking for treatment and care providers
- **Neuly powers the database of practitioners across the site**
- **Psyrise powers and supports all intake and communication processes**

Oregon Psilocybin Concierge

- An exhaustive resource for the upcoming psilocybin-assisted therapy program slated to begin in 2023 in the state of Oregon. OPCS assists potential patients with the necessary resources to enroll while also offering a platform for facilitators to engage.

- **Neuly powers the database of facilitators and training courses across the site**
- **Psyrise powers and supports all intake and communication processes**

Matter Academy

- **A curated collection of all of the courses being offered by educators in the psychedelic-assisted therapy industry. Enroll with Matter to find the right training for you.**
- **Neuly powers the database of training courses across the site**
- **Psyrise powers and supports all intake and communication processes**

Ceremony

- **A raw storyteller that the psychedelics industry doesn't realize it needs. Led by creatives with deep experience in brand building, filmmaking, and storytelling, Ceremony is positioned to tell honest stories about the importance of both the medicines and the ancient ceremonies that we've seemed to forget about.**
- **Neuly supports Ceremony with data delivery and data capture**

Psychedelic Series

- **A collection of panel events has expanded geographically from Miami all the way throughout Europe. With the Psychedelic Series, the events are only getting bigger as demand and curiosity continue to grow.**
- **Psyrise supports stakeholder activation during these events**
 - **This includes opportunities for paid engagements with partners and sponsors**

Particles

- A web3 community powering a user-owned mental health infrastructure
- Powering applications via smart contracts on the Bitcoin blockchain

Onchainmind

- A blog supporting mental health parity through decentralization.
- Powered by the Particles blockchain protocol

Mineral

- sells CBD-based products for optimal health.
- Psyrise supports customer activations and revenue growth via a revenue share agreement

Mycro

- Sells functional mushroom-based products.
- Psyrise supports customer activations and revenue growth via a revenue share agreement

Introducing Neuly 2.0 - Our Data Platform Powering Psychedelics

[Features](#) [Pricing](#) [Help](#)

[Sign in](#)

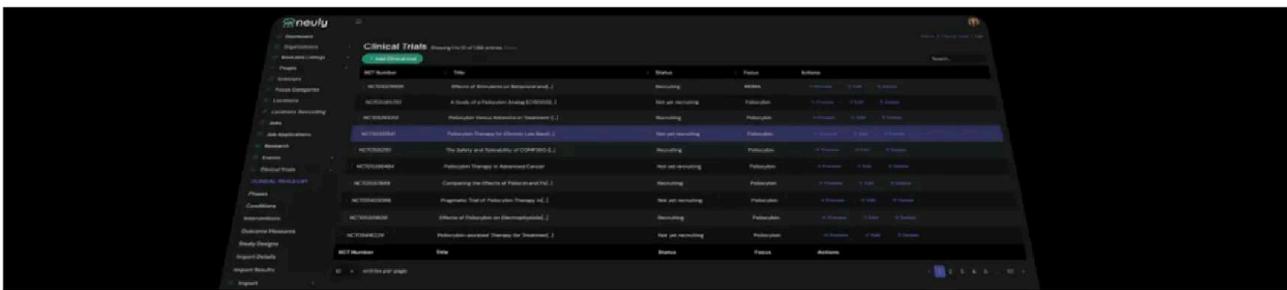

[Request a demo](#)

Monitor the Psychedelics Industry in One Place

Get news quicker, monitor your competitors, build custom dashboards, and make more informed decisions with greater access to the most important data.

[Request a demo](#) →

[Learn More](#)

Neuly 2.0 has recently been strengthened with the following features:

- Drag-and-drop widgets and feeds
- Customizable data dashboards
- Integrated enterprise, research, media, and investor dashboards
- The ability to find and book treatments and experiences with practitioners
- A streamlined patient onboarding process
- A user-owned data infrastructure
- A team to support requests for an industry report for one low fee
- A self-serve API

In addition, Neuly has also introduced “atoms.” These are widely distributed beacons that track changes across the industry in real-time. When something we track for the industry gets updated, changed, removed, or otherwise, it enters into our database and is then moderated, and subsequently, confirmed by a human before entering the database as a data point.

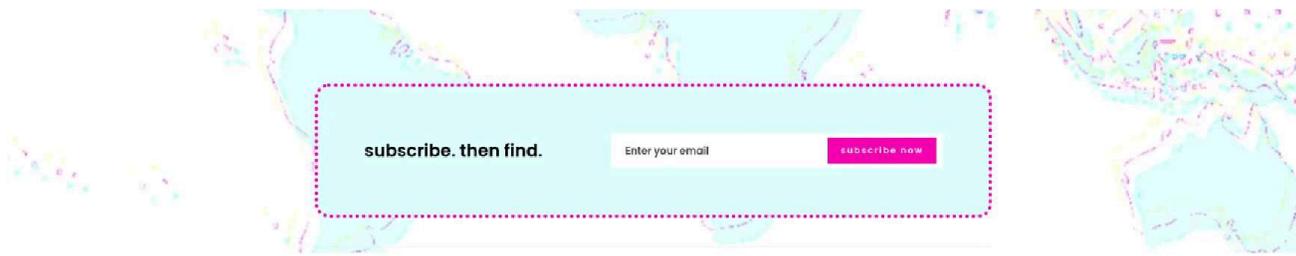

Finally, Neuly has released “Login with Neuly.” This simple yet effective application allows any user of the Neuly platform to move their secure personal data to a third-party site seamlessly via the Neuly API. The goal is to allow for this mobility to save thousands of hours of unnecessary data collection processes as we pave the way to a more streamlined future of data distribution.

Using Neuly’s database of practitioners, Nucleus has partnered with PSYC Corporation, a publicly traded media company working in the psychedelics industry.

The two companies have come together, via a joint venture, to launch Psychedelic Finder.

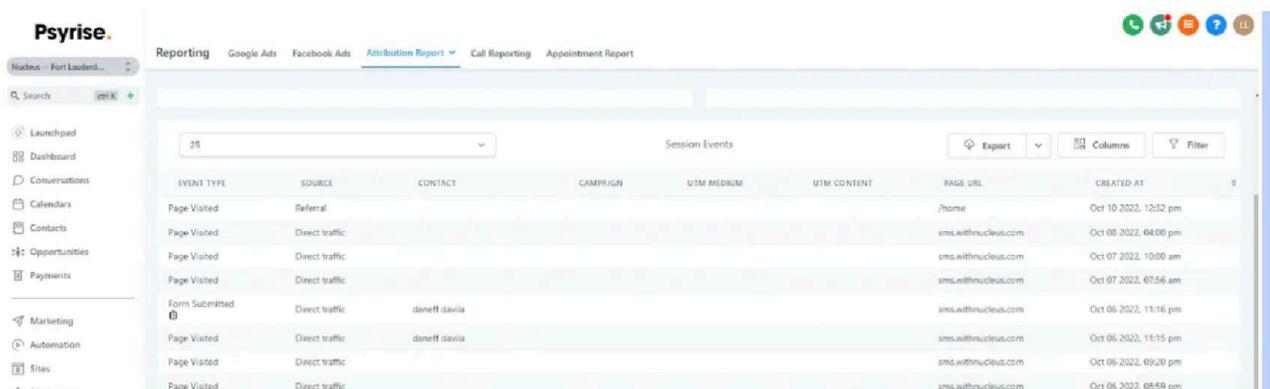

Psychedelic Finder connects those looking for care with the best-matched practitioners, facilitators, and experiences. The website accomplishes this by not only listing approximately 3,000 practitioners on the site, but by offering a white glove service to properly match the ‘finder’ with the right ‘healer.’

Psychedelic Finder will be launching in November. In the meantime, you can sign up to be notified of the launch.

After several months of partnering with ketamine clinics, therapists, and retreats, we knew the demand that we were seeing from those looking for treatment could be better served through a robust platform of activation tools. In other words, we knew we had an opportunity to streamline the onboarding process as more and more people are introduced to these types of treatments.

That’s why we transformed Psyrise into an end-to-end marketing platform for mental health brands.

The screenshot shows a reporting dashboard with a table of user activity. The table has columns for event type, traffic source, user name, email, and timestamp. The events include 'Form Submitted', 'Page Visited', and 'Page Visited'.

Event	Traffic Source	User Name	Email	Timestamp
Form Submitted	Direct traffic	jaly hernandez	sms.withnucleus.com	Oct 06 2022, 08:54 pm
Page Visited	Direct traffic		sms.withnucleus.com	Oct 06 2022, 08:58 pm
Form Submitted	Direct traffic	khloe gu	sms.withnucleus.com	Oct 06 2022, 08:58 pm
Form Submitted	Direct traffic	michael cull	sms.withnucleus.com	Oct 06 2022, 08:57 pm
Form Submitted	Direct traffic	jaly hernandez	sms.withnucleus.com	Oct 06 2022, 08:57 pm
Page Visited	Direct traffic	michael cull	sms.withnucleus.com	Oct 06 2022, 08:57 pm
Page Visited	Organic Search		sms.withnucleus.com	Oct 06 2022, 08:57 pm

Psyrise now underpins all of our ecosystem’s onboarding and activation processes.

Our practitioner partners now get to benefit from the following tools:

- Website builder
- Form builder
- Survey builder
- Marketing/vanity phone numbers
- SMS communications
- Email campaigns
- Workflow and automation builder
- Social media management
- Review management

We plan to continue to slowly roll out the platform for our practitioner partners, narrow the feedback loop, and expand to all clinics, therapists, coaches, and retreats throughout 2023.

**We Need More
Practitioners to Combat
an Industry Bottleneck**

On top of educating with content, the industry needs more skilled practitioners.

On top of expanding their content, the industry needs more online platforms. Doctors who are looking for ways to integrate psychedelics into their practices will want to know where to go to find the best curricula to train their employees.

With Matter Academy, you can find and enroll in the psychedelic course that's right for you

That's why we used our data to establish a course aggregator. It's just the beginning, but Matter is the starting point for the journey someone might embark on to gain a more formal education on the world of psychedelics.

Our brand, Psychedelic Invest is one of the most trafficked resources about the business of psychedelics on the web. The website recently surpassed 50,000 pageviews per month and our subscriber base is quickly approaching 20,000. Subscribers stay informed through our daily content, interviews, reports, and

weekly newsletter.

What About the Other 7 Brands? How Are They Developed?

A smarter way to build solutions

The launch of each new brand follows a similar process, is capitalized accordingly, and leverages an infrastructure built for efficiency and profitability.

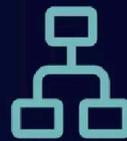

EXPERTISE

Nucleus is incubated by Iter Investments, a VC Fund with industry experts and advisors.

SPEED

Build new companies quickly via a hub and spoke model and scalable technology.

PORTFOLIO

A portfolio of assets equates to greater exposure and less risk simultaneously.

EXIT

Fast decisions can be made to kill, scale, or sell each asset when most opportune.

Our hub and spoke model, data capture capabilities, and deep industry expertise allows us to build efficient brand-building processes. This has been proven throughout 2022 with the creation of 12 brands that exist within the ecosystem.

Our brand creation process is supported by an open culture of wide ideation. With so much going on in psychedelics, it's important we hear every new idea, assess each one accordingly, and act appropriately when we feel the opportunity outweighs the level of effort.

During our own ideation and discovery phases, we've confronted dozens of ideas and have acted upon 12 of them. The brands that we have developed thus far span the three types of opportunities that our infrastructure affords us to capitalize on.

nucleus

We add value to our portfolio in 3 ways:

Nucleus incubates assets (companies, tools, content) to accelerate the mass adoption of psychedelic-assisted treatments.

 <p>buy</p> <p>buy or invest in complementary companies and assets</p> <p>neuly</p> <p>Psychedelic Invest</p>	 <p>build</p> <p>creating brands and assets from scratch</p> <p>Oregon Psilocybin Concierge Services</p> <p>Psyrise.</p> <p>matter</p>	 <p>partner</p> <p>providing tools and containers for industry participants</p> <p>psychedelicfinder</p> <p>Ceremony.</p> <p>mycro</p> <p>MINERAL</p>
---	--	--

- **Buy:** As aforementioned, we've acquired a few assets.
- **Build:** We've built many of our brands after architecting the hub-and-spoke infrastructure that is powered by Neuly.

- **Partner:** Finally, we've formed joint ventures and revenue share agreements to help broaden our reach and collaborate with other entities in the industry.

During the development phase, we have the luxury of shelving, pausing, or scaling the businesses we develop. When growth is further pursued, we are able to spin the brand off into its own company and raise outside capital as needed specifically for the growing brand we've developed.

Why We Need On-Chain Mental Health Records

It was my typical annual check-up. I knew what to expect. After all, it's the same routine every year...

Logan Lenz · Sep 6, 2022 · 3 min read

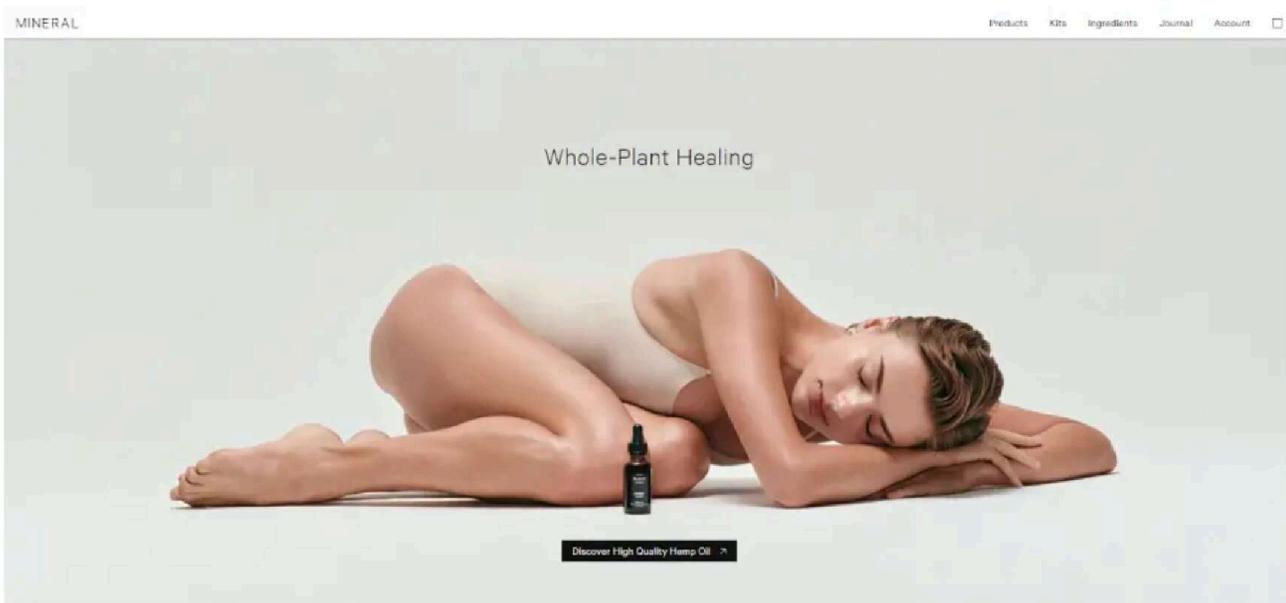

Found at onchainmind.com, OCM is a blog supporting mental health parity through decentralization. Powered by Particles, OCM's mission is to educate the masses about the potential that owning your own health data, especially mental health logs, is the future we should be working toward.

Mycro

Found at letsmycro.com, Mycro shows the promise of a formal partnership between Nucleus and entrepreneurs everywhere. Mycro sells functional mushroom-based products, which Nucleus helps to promote and innovate upon through a revenue share agreement.

Mineral

Found at mineralhealth.co, Mineral sells CBD-based products for optimal health. Nucleus has partnered with Mineral under a revenue share agreement and has the opportunity to expand upon its product offering through collaboration.

Why Are We Raising?

Raising \$3MM

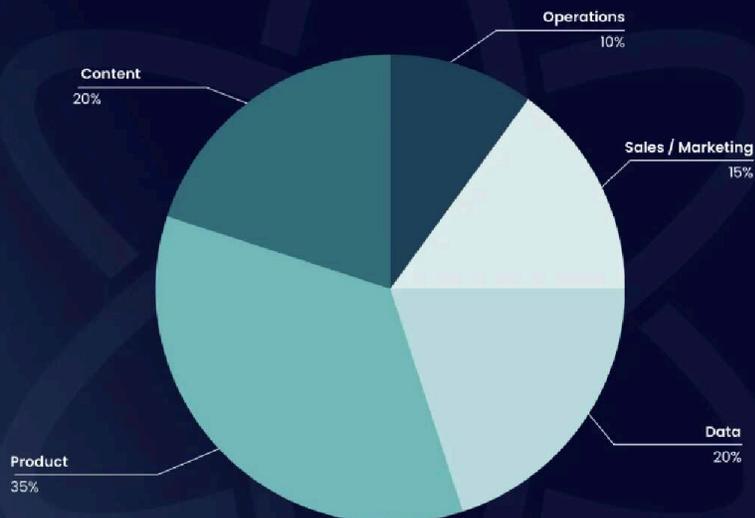

Product: Hire full-time engineers for search, automation, and the blockchain protocol.

Data: Hire data analysts to maintain data integrity and level up data visualizations.

Content: Expand the team of contributing writers and editors spanning all media types

Sales / Marketing: Expand the Psyrise team to support clients and the Nucleus ecosystem.

Operations: Streamline processes with a key hire and the adoption of automation tools.

7.5% of funds raised will go towards the Wefunder intermediary fee.

We have big dreams for Nucleus. And to achieve them, we need more people. That's where we need you. Your investment will go to growing the Nucleus team in the form of engineers, data analysts, and groups of people to help with education and support.

Why Are We Crowdfunding?

Well, the answer is quite simple.

We want our investor base to reflect those actively interested in our mission and

we want our investor base to reflect those actively interested in our mission and drive. We don't want people who are only interested in lining their pockets with profits.

That said, we know your investments are important to you, so we want to make this one count. When you invest in Nucleus, you are investing in our entire ecosystem (remember the ecosystem we mentioned earlier). Additionally, Nucleus gives you the perfect opportunity to diversify your portfolio into the world of psychedelics.

The graphic features the Nucleus logo at the top left. The main title is "Investing in nucleus" in white and teal. Below it is the subtitle "Grants you access to every company we ever build." A central diagram shows a teal dollar sign icon on the left, with a dashed arrow pointing to a teal atom icon. From the atom icon, four dashed arrows point to a grid of 12 company names. The grid is organized into two columns: "Now" and "...And in the future". The "Now" column lists Company A through Company H. The "...And in the future" column lists Company I through Company P. Below the grid are four teal rounded rectangles with white text: "Media", "Tools", "Products", and "Services". Each rectangle has a short paragraph of text below it.

Investing in nucleus
Grants you access to every company we ever build.

	Now	...And in the future	
Company A	Company E	Company I	Company M
Company B	Company F	Company J	Company N
Company C	Company G	Company K	Company O
Company D	Company H	Company L	Company P

- Media**
Our infrastructure is optimized for content creation – on repeat.
- Tools**
With a data platform at its core, Nucleus can power virtually any industry resource.
- Products**
The adoption of psychedelics paves the way for new consumer goods.
- Services**
Growing industries always warrant more service offerings.

Consider Nucleus's unique structure a one-to-many approach to diversifying your exposure to the psychedelics industry. If you're excited and optimistic about the future that celebrates the benefits of psychedelic medicines, we encourage to join the Nucleus family

The graphic has a dark blue background with a faint, stylized atom icon. The text "Act Now...Invest Later." is in white, and "How Can Nucleus Help You?" is in teal. The Nucleus logo is in the bottom right corner.
