Jan Vidic

CTO at Niftify

Slovenia

Summary

Positive and team-working person.

―――――

Experience

Niftify
Chief Technology Officer
August 2021 - Present (1 year 6 months)
Ljubljana, Slovenia

Niftify™ is an NFT launchpad and marketplace, where you'll be able to create,
buy, sell, and most noticeably, swap NFTs with other NFT owners.

Niftify sees beyond the current use case of NFTs in traditional media such as
art, music, and gaming assets, and envisions a future where every digital and
physical object or asset can be tokenized as an NFT, tradable on Niftify.io.
