CrowdSolve is excited to officially announce that we are currently engaged in a community fundraising round on **Wefunder** and we have already raised \$50,000! Go to the link below and help us reach our \$500,000 goal! We'll be using this money to complete the build-out of our MVP and fully launch our go-to-market phase. CEO & co-founder **Tim Wolters** is a serial entrepreneur who has founded and sold three venture backed software start-ups. Please reach out directly to him on **LinkedIn** if you want to learn how we are helping to "solve for zero" by providing better access to tools, resources and connections at scale for climate tech entrepreneurs. **#climatechange #climatecrisis #crowdfunding #solveforzero**
