

A startup platform supporting the next generation of climate entrepreneurs

crowdsolve.eco Denver CO

Fintech & Finance Service Clean Tech

LEAD INVESTOR

 **Jacqueline Ros Amable** Managing Director, Venture For ClimateTech

I'm investing in Crowdsolve for a number of reasons but first and foremost I believe in the vision and the team behind it. The fact is, how we support entrepreneurial communities, in particular climate entrepreneurial communities, is on the brink of an evolution and I think Crowdsolve will lead the way! They understand that for communities to thrive, all community members and stakeholders must benefit and they are creating the platform to make that a reality. I'm excited to see them continue to create value both for their community and their investors.

Invested \$1,000 this round & \$1,000 previously

Highlights

- 1 CEO has founded and sold three venture backed start-ups with exit value exceeding \$50 million.
- 2 Already raised \$135K from professional investors and friends and family.
- 3 Seasoned team with start-up track record, several exits, and accelerator experience.
- 4 Supporting thousands of climate entrepreneurs from around the world at scale.
- 5 Differentiated solution using web3 technology to incentivize engagement with tokenization.
- 6 Partnering with universities and accelerators like Penn Climate Ventures and gener8tor.
- 7 Making entrepreneurship accessible for early stage innovators from around the world.
- 8 Chance to own SOLV tokens to track value and sponsor innovations in the CrowdSolve ecosystem.

Our Team

Tim Wolters Co-Founder & CEO

Founded four start-ups with three successful exits, and holds two patents in artificial intelligence. He took his last company through Techstars incubator and has been a mentor with Techstars for 15 years.

The climate crisis is the defining issue of our time. If we are going to achieve net zero by 2050, we need to activate as many entrepreneurs as possible over the next decade. CrowdSolve was founded in 2021 with this sense of conscious urgency. We exist to empower early-stage innovation to solve the climate crisis.

Leah Bowes Co-Founder & COO

Customer experience and operational executive who has spent 20 years creating award winning customer experiences at scale and leading client service teams in venture backed companies.

Ronald Hans Advisor & Head of Sponsorships

Award winning media producer, global payments operator and seasoned investor with experience creating digital access in Latin America and other emerging markets.

Rob Kellogg Director of Innovation

Over twenty years of experience working with businesses, governmental agencies and nonprofits in various leadership and entrepreneurial roles across diverse sectors, with 5+ years teaching social entrepreneurship and engaged in impact investing.

Brandon Line Director of Product

Seasoned product leader with more than 10 years experience in software start-ups and nonprofits with a focus on micro-philanthropy. Experienced in building SaaS-based products in Agile environments.

Chris McCarthy Director of Tokenomics

PhD in Economics, academic, and expert in DeFi. Currently an active contributor to the Shapeshift DAO where he is a member of its treasury management and diversification committee overseeing

Pitch

We're an ecosystem rallying around climate innovators.

CrowdSolve uses leading-edge technology to bring business and climate experts together around a common cause - our planet.

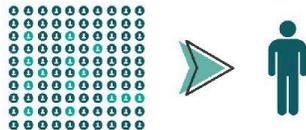

The problem facing our planet

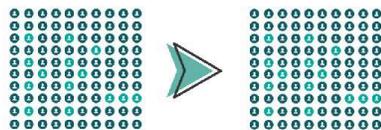

- Climate change is the defining crisis of our time.
- Time and resources are limited, and climate innovation can be complex.
- We must generate more shots on goal to solve this crisis.

Today, only 1% of climate entrepreneurs are accepted into incubators and accelerators

CrowdSolve is incubation at scale

Everyone gets the help they need!

Our story

<p>In 2020 we started a non-profit called 1000 Greats to help fund Climate Tech Startups.</p>		<p>So, we started a platform and community to help ALL climate entrepreneurs</p>		<p>We raised venture capital to prove out our model with a growing list of climate innovators.</p>
<p>We quickly found the number of startups</p>		<p>And created partnerships with</p>		

needing help is staggering

incubators to find those who can use a hand

Our mission

CrowdSolve is a community of innovators and mentors committed to nurturing and advancing bold ideas for climate.

We cultivate connection and collaboration to prepare thousands of climate startups for their next phase of growth.

How it works

1

Trevor

MENTOR

CONNECT
