You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.*

## RISK FACTORS

**A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.**

**In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved.**

**These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.**

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

We depend on investor funding. If we are unable to maintain this relationship, or if the investors invest significantly lower amounts than we currently anticipate or none at all, our business, prospects, financial condition, results of operations and cash flows could be materially and adversely affected.

We are a growth stage company with no revenues and a net loss. We have never turned a profit and there is no assurance that we will ever be profitable. In fact, it is possible that we may incur significant expenses and continuing losses for the foreseeable future.

We face significant challenges as a new entrant into the Healthcare Technology industry. There are major companies already established in the EHR market.

We depend upon third parties to develop our solutions. We do not have long-term agreements with all of our technology developers. If these developers become unwilling or unable to provide an adequate supply of development, we may not be able to find alternative sources in a timely manner and our business would be adversely impacted.

We may experience significant delays in the design, development, financing, regulatory approval, launch and delivery of our technology, which could harm our business, prospects, financial condition, results of operations, and cash flows.

There can be no assurance that the company will meet our projections. There can be no assurance that the company will be able to find sufficient demand for our products, that people think it's a better option than a competing product, or that we will be able to provide the service at a level that allows the company to make a profit and still attract business.

The valuation for the offering was established by the company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment.

You should be prepared to hold this investment for several years or longer. For the 12 months following your investment there will be restrictions on how you can resell the securities you receive. More importantly, there is no established market for these securities and there may never be one. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The company may be acquired by an existing player in the EHR industry. However, that may never happen or it may happen at a price that results in you losing money on this investment.

To fund its growth, the company may be forced to raise additional equity capital. Issuing more equity may require bringing on additional investors. Securing these additional investors could require pricing our equity below its current price. If so, your investment could lose value as a result of this additional dilution. In addition, even if the equity is not priced lower, your ownership percentage would be decreased with the addition of more investors. If we are unable to find additional investors willing to provide capital, then it is possible that we will choose to cease our activity. In that case, the only asset remaining to generate a return on your investment could be our intellectual property. Even if we are not forced to cease our sales activity, the unavailability of financing could result in the company performing below expectations, which could adversely impact the value of your investment.

Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of this offering. The use of proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or

advisable to re-allocate portions of the net proceeds reserved for one category to another<sup>6</sup> and we will have broad discretion in doing so.

As an internet-based business, we may be vulnerable to hackers who may access the data of our users and providers that utilize our Solution. Further, any significant disruption in service or in its computer systems could reduce the attractiveness of the Solution and result in a loss of investors, providers and end users interested in using our Solution. Any disruptions of services or cyber-attacks could harm our reputation and materially negatively impact our financial condition and business.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

*INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.*

## The Offering

### USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: 62.5% for product development, 20% for Key Hires, 5% for R&D, 5% for Marketing, 7.5% for Wefunder Fees. Hitting our Maximum target will allow us to develop a complete product. We have features that more funds would enable us to start developing. We have many funding needs, including expanding our core team, building a tech support team, executing a marketing plan, and ability to complete building a clearinghouse solution. The minimum target will allow us to continue building the basic features of the EHR.

If we raise: **\$1,000,000**

Use of Proceeds: 62.5% for product development, 20% for Key Hires, 5% for R&D, 5% for Marketing, 7.5% for Wefunder Fees. Hitting our Maximum target will allow us to develop a complete product. We have features that more funds would enable us to start developing. We have many funding needs, including expanding our core team, building a tech support team, executing a marketing plan, and ability to complete building a clearinghouse solution.

*INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.*

### DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the Wefunder platform. All references in this Form C to an Investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

**NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.**

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

**An Investor's right to cancel.** An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment

was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

**The Company's right to cancel.** The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

## Ownership and Capital Structure

13. Describe the terms of the securities being offered.

Priced Round: \$10,000,000.00 pre-money valuation

See exact security attached as [Appendix B, Investor Contracts](#)

NpCloud Solutions Inc. is offering up to 1,250,000 shares of Series Seed-1 or Series Seed-2 preferred stock, at a price per share of \$1.00.

Investors in the first \$250,000.00 of the offering will receive stock at a price per share of \$0.50, and a pre-money valuation of \$5,000,000.00

The campaign maximum is \$1,000,000 and the campaign minimum is \$50,000.00.

#### Information Rights

The Company will furnish to the undersigned if the undersigned has invested at least One Hundred Thousand Dollars (\$100,000) in this offering and has thereby become a Major Investor (a "Major Investor") (1) annual unaudited financial statements for each fiscal year of the Company, including an unaudited balance sheet as of the end of such fiscal year, an unaudited statement of operations and an unaudited statement of cash flows of the Company for such year, all prepared in accordance with generally accepted accounting principles and practices; and (2) quarterly unaudited financial statements for each fiscal quarter of the Company (except the last quarter of the Company's fiscal year), including an unaudited balance sheet as of the end of such fiscal year, an unaudited statement of operations and an unaudited statement of cash flows of the Company for such quarter, all prepared in accordance with generally accepted accounting principles and practices, subject to changes resulting from normal year-end audit adjustments. If the Company has audited records of any of the foregoing, it shall provide those in lieu of the unaudited versions. The filing of an annual report on Form C/AR shall be deemed to satisfy the requirement to provide annual financial information described above.

#### Participation Right

Each Major Investor has the right of first refusal to purchase such Major Investor's Pro Rata Share (as defined below) of all (or any part) of any New Securities (as defined in Section 8(d)(ii) of the attached subscription agreement) that the Company may from time to time issue after the date of this Agreement, provided, however, such Major Investor shall have no right to purchase any such New Securities if such Major Investor cannot demonstrate to the Company's reasonable satisfaction that such Major Investor is at the time of the proposed issuance of such New Securities an "accredited investor" as such term is defined in Regulation D under the Securities Act. A Major Investor's "Pro Rata Share" for purposes of this right of first refusal is the ratio of (a) the number of shares of the Company's Common Stock issued or issuable upon conversion of the Securities owned by such Major Investor, to (b) a number of shares of Common Stock of the Company equal to the sum of (1) the total number of shares of Common Stock of the Company then outstanding plus (2) the total number of shares of Common Stock of the Company into which all then outstanding shares of Preferred Stock of the Company are then convertible plus (3) the number of shares of Common Stock of the Company reserved for issuance under any stock purchase and stock option plans of the Company and outstanding warrants.

#### Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV has been formed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. The Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

#### Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

#### Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

#### Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

- ☒ Yes  
☐ No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

This Agreement constitutes the entire agreement between the parties hereto with respect to the subject matter hereof and may be amended only by a writing executed by all parties.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

- A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and  
B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

#### RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

#### DESCRIPTION OF ISSUER'S SECURITIES

#### Securities Reserved for Issuance upon Exercise or Conversion

Warrants:

Options:

1,568,038

Describe any other rights:

Series Seed-1 Preferred and Series Seed-2 Preferred are identical securities except for the liquidation preference which is equal to 1x \$0.500 in the case of Series A-1 Preferred and 1x \$1.000 in the case of Series A-2 Preferred

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the investor will have as an owner of equity in the Company, for example by diluting those

rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

**The shareholders** have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted. Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common stock that take into account factors such as the following:

1. unrelated third party valuations of our common stock;
2. the price at which we sell other securities, such as convertible debt or preferred Stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;
3. our results of operations, financial position and capital resources;
4. current business conditions and projections;
5. the lack of marketability of our common stock;
6. the hiring of key personnel and the experience of our management;
7. the introduction of new products;
8. the risk inherent in the development and expansion of our products;
9. our stage of development and material risks related to our business;
10. the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
11. industry trends and competitive environment;
12. trends in consumer spending, including consumer confidence;
13. overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
14. the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be

exercising control over the Company, the Company, its assets, and its business, shall be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

**Additional issuances of securities.** Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

**Issuer repurchases of securities.** The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

**A sale of the issuer or of assets of the issuer.** As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

**Transactions with related parties.** The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

### Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

#### Overview

Comprehensive electronic health record system.

This company was Founded by Denis Rono, a Psychiatric Nurse Practitioner. He saw that EHR and related systems cost were the highest expense in his practice. He reached out to other providers and they voiced the same concern. When providers worry less about business expenses, they have more time to provide much needed patient care.

NpCloud solutions provides a Cloud based Electronic Health Record(EHR) that is Comprehensive, high quality and affordable. Our EHR will streamline workflows and reduce costs for mental health professionals, allowing them to deliver better patient care.

Our 5 year goal is to have over 50,000 users. This will mean saving our users over \$1,000,000 annually. With enough funding we will have our own E-prescribing software certified by surescripts, Clearinghouse and complete set of solutions that healthcare providers need in managing their patients and getting paid. Having our own Clearinghouse and E-prescribing solution will open a Major revenue stream for the company. Forward-looking projections cannot be guaranteed.

#### Milestones

NpCloud Solutions Inc. was incorporated in the State of Delaware in November 2021.

Since then, we have:

- Attractive platform & pricing model. Hundreds of industry professionals have voiced their support.
- Growing market demand for electronic health record systems.
- Massive market opportunity. The EHR software market was nearly \$30B in 2020 Potential mkt size 400k Providers.
- Experienced team. We have a strong team with a proven track record in healthcare and technology.
- Scalability. Our company has the ability to easily scale and accommodate a growing user base.
- Our system is built to meet the ONC-IT Certification standards with high safety and performance.

The Company is subject to risks and uncertainties common to early-stage companies. Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future.

#### Historical Results of Operations

Our company was organized in November 2021 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2022, the Company had revenues of \$0 compared to the year ended December 31, 2021, when the Company had revenues of \$0
- *Assets.* As of December 31, 2022, the Company had total assets of \$4,280, including \$2,780 in cash. As of December 31, 2021, the Company had \$30,084 in total assets, including \$28,584 in cash.
- *Net Loss.* The Company has had net losses of \$163,613.53 and net losses of \$3,116 for the fiscal years ended December 31, 2022 and December 31, 2021, respectively.
- *Liabilities.* The Company's liabilities totaled \$11,500 for the fiscal year ended December 31, 2022 and \$0 for the fiscal year ended December 31, 2021.

#### Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

#### Liquidity & Capital Resources

To-date, the company has been financed with \$11,500 in debt.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 6 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

#### Runway & Short/Mid Term Expenses

NpCloud Solutions Inc. cash in hand is \$10,608.60, as of January 2023. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$17,000/month, for an average burn rate of \$17,000 per month. Our intent is to be profitable in 18 months.

Most of our expenses are related to development. We still have more development in the next 2-3 months as we prepare to go live. We also have to complete certification which is a big expense that we have to undertake to make sure our EHR meets ONC-IT standards. As we finish up development, we will start our marketing plan as we get to market.

In 6 months, we project expenses to be \$66,050 per month and revenue to be \$0. Our revenue will grow as we scale. We need at least \$100,000 to enable us to develop the Electronic Health Record system and all the base features included. We need \$1,000,000 to enable us to develop a complete product to include an integrated clearinghouse. Some features can use integrations in the beginning while we secure more funding. Hoping to have the product live in Spring 2023.

We are not profitable yet. We need at least \$1,000,000 to reach the point of profitability. We will be profitable within 12-18 months. We have developed a great marketing plan that will help us reach these goals faster.

We plan to utilize loans until we can get access to the funds raised in Wefunder. Some of our staff and developers are ok working and getting paid later once funding is secured.

All projections in the above narrative are forward-looking and not guaranteed.

*INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.*

*INSTRUCTIONS TO QUESTION 39: Final order means a written directive or declaratory statement issued by a federal or state agency, described in Rule 30.3(a)(3) of Regulation Crowdfunding, under applicable statutory authority that provides for notice and an opportunity for hearing, which constitutes a final disposition or action by that federal or state agency.*

*No matters are required to be disclosed with respect to events relating to any affiliated issuer that occurred before the affiliation arose if the affiliated entity is not (i) in control of the issuer or (ii) under common control with the issuer by a third party that was in control of the affiliated entity at the time of such events.*

## OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

**The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.**

**The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.**

**The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.**

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

*INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:*

- (a) a description of the material content of such information;*
- (b) a description of the format in which such disclosure is presented; and*
- (c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.*

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:
