Simon Hedley

Strategic Alchemist. Secret weapon with unique skills & contacts. I tip the scales for good people to do great things. Connector. Investor. Trusted Advisor to Founders. Author Speaker Creator Host PauseStopReset ##

Royal Tunbridge Wells, England, United Kingdom

Summary

My name is Simon Hedley and for more than two decades I've been working with Founders and CEOs – from their days as boot strapped startups, through challenging pivots to award winning success stories.

Acting as a “Swiss Army Knife” with unique sets of skills & contacts I tip the scales to help good people do great things.

I have been the secret weapon of many well-known leaders, founders and thought leaders.

If you're ready to make it happen, get in touch & together let's explore what's really possible for you now.

You can see some of what up I'm focussed on at www.SimonHedley.com/now

I'm excited about our new www.PauseStopReset.com/podcast which is available on Apple Podcasts and Spotify, and has some incredible guests sharing their insights and ideas on what's helped them navigate challenging times and reset into more optimal lives and businesses. This goes really well with the PauseStopReset Journal available on Amazon and forthcoming Yearbook.

I'm also excited about the positive impact to community and business possible through www.LinksGolfCafe.com

This is really connected to my bigger mission from Psi Pi Group and TheSimpleIdea.com to help make the difference.

P.S.

Some people that know what I actually do.. often behind the scenes over years call me The Strategic Alchemist.

I have a rich and diverse background, some other elements of my back history which may explain my ability to provide a unique and creative perspective:

- 1) Chartered Accountant FCA with the ICAEW having qualified with PwC.
- 2) A decade of time in investment banking from Product Control, Structuring and Investment Management.
- 3) Over two decades of working with entrepreneurs, startups, visionaries and founders.
- 4) Over two decades of Tai Chi Chuan practice, and experience competing and teaching - winning golds in the British Open in 1996
- 5) Over two decades researching communication, modelling and human potential and real transformation development - including masterminding and working with many of the greatest thought leaders of our times both known and privately.
