Esmond G.

Chairman, CEO & Founder @ Power Hero Corp. | MBA, Finance & Marketing. B.A.Sc. Electrical Engineering.

La Verne, California, United States

Summary

Esmond is a serial entrepreneur with over three decades of experience in launching, leading, and transforming companies in various industries. He has an MBA from Western University, a B.A.Sc. in Electrical Engineering from Queen's University, and a Culinary Arts degree from the Art Institute of Colorado. He combines his diverse skills and knowledge to create value for customers, shareholders, and society.

As the Chairman, CEO & Founder of Power Hero Corp., he oversees the vision and strategy of the company, which provides innovative and convenient charging solutions for electric vehicles, mobile devices, and other applications. He is also the chief inventor of the company's products, which leverage his expertise in solar energy and his patented technologies. He is passionate about solving real-world problems with sustainable and accessible solutions. He has led Power Hero Corp. since 2017 and has grown it into the leading innovator of personal EV charging solutions for apartment residents.
