Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

THE COMPANY

1. Name of issuer:

Momentor Corporation

COMPANY ELIGIBILITY

2. Check this box to certify that all of the following statements are true for the issuer.

- Organized under, and subject to, the laws of a State or territory of the United States or the District of Columbia.
- Not subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
- Not an investment company registered or required to be registered under the Investment Company Act of 1940.
- Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding.
- Has filed with the Commission and provided to investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

INSTRUCTION TO QUESTION 2: If any of these statements are not true, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?

Yes No

DIRECTORS OF THE COMPANY

4. Provide the following information about each director (and any persons occupying a similar status or performing a similar function) of the issuer.

Director	Principal Occupation	Main Employer	Year Joined as Director
James Goulding	CEO & Founder	Momentor	2022

For three years of business experience, refer to [Appendix D: Director & Officer Work History](#).

OFFICERS OF THE COMPANY

5. Provide the following information about each officer (and any persons occupying a similar status or performing a similar function) of the issuer.

Officer	Positions Held	Year Joined
James Goulding	CEO	2022

For three years of business experience, refer to [Appendix D: Director & Officer Work History](#).

INSTRUCTION TO QUESTION 5: For purposes of this Question 5, the term officer means a president, vice president, secretary, treasurer or principal financial officer, comptroller or principal accounting officer, and any person that routinely performing similar functions.

PRINCIPAL SECURITY HOLDERS

6. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power.

Name of Holder	No. and Class of Securities Now Held	% of Voting Power Prior to Offering
James Goulding	8000.0 Common stock	100.0

INSTRUCTION TO QUESTION 6: The above information must be provided as of a date that is no more than 120 days prior to the date of filing of this offering statement.

To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control) — as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible

BUSINESS AND ANTICIPATED BUSINESS PLAN

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

For a description of our business and our business plan, please refer to the attached **Appendix A, Business Description & Plan**

INSTRUCTION TO QUESTION 7: Wefunder will provide your company's Wefunder profile as an appendix (Appendix A) to the Form C in PDF format. The submission will include all Q&A items and "read more" links in an un-collapsed format. All videos will be transcribed.

This means that any information provided in your Wefunder profile will be provided to the SEC in response to this question. As a result, your company will be potentially liable for misstatements and omissions in your profile under the Securities Act of 1933, which requires you to provide material information related to your business and anticipated business plan. Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

EACH INVESTOR IS AWARE THAT AN INVESTMENT IN THE COMPANY IS SPECULATIVE AND INVOLVES A HIGH DEGREE OF RISK, INCLUDING THE POSSIBLE LOSS OF THE ENTIRE INVESTMENT, AND SUCH INVESTOR HAS CAREFULLY READ AND CONSIDERED THE FOLLOWING RISK FACTORS AND ALL MATTERS SPECIFIED IN THESE SUBSCRIPTION DOCUMENTS IN DETERMINING WHETHER OR NOT TO INVEST IN THE COMPANY AS SPECIFIED HEREIN. EACH INVESTOR UNDERSTANDS THAT THE FOLLOWING FACTORS ARE NOT AN ALL-INCLUSIVE LIST OF POSSIBLE RISKS INHERENT IN THE OFFERING.

No Guarantee of Return. An investment in the Company will involve various risks and uncertainties. Each prospective investor should carefully consider the following risk factors in conjunction with the other information contained in all disclosure materials before purchasing. The risks discussed in this section can adversely affect the Company operations, operating results, financial condition and prospects. This could cause the value of the Company's shares to decline and could cause potential investors to lose part or all of your investment. The risks and uncertainties described are not the only ones that the Company faces but do represent those risks and uncertainties presently known that the Company believes are material to its operations, operating results, prospects and financial condition. You should review the risks of this investment with your legal and financial advisors. Potential investors should invest only to the extent that they are able to bear the risk of the loss of their entire investment and have no need for immediate liquidity. An investment should not be a major part of your portfolio of assets.

Certain Factors May Affect Future Success. Any continued future success that the Company might enjoy will depend upon many factors including factors beyond the Company's control and/or which cannot be predicted at this time. These factors may include but are not limited to: changes in general economic conditions; changes in the regulatory environment that makes it more difficult to operate as planned; the Company's ability to expand our customer base and retain key customers; and reduced margins caused by competitive pressures. These conditions may have a material adverse effect upon the Company's business, operating results, and financial condition.

We may not have sufficient financial resources to successfully compete in the e-learning and online mentoring business. A large number of enterprises provide products or services similar to ours. We will be competing with established businesses that have an operating history, and greater financial resources, management experience and market share than we have. There can be no assurance that we will be able to compete or capture adequate market share. We will not be profitable if we cannot compete successfully with other businesses.

The Company may face increased competition in the e-learning and online mentoring market. The Company may face increased competition in this market especially as the Company demonstrates the financial viability of its business plan. In addition, new business plans could be developed that are more efficient or cost-effective, thereby undermining the value of this project.

The Company May Not Be Able to Compete Against Established Competitors. The Company will be competing with established businesses that have an operating history and greater financial resources, management experience and market share than we have. There can be no assurance that we will be able to compete or capture adequate market share. The Company will not be profitable if we cannot compete successfully with other businesses.

Company's Operating Costs May Rise. The Company has budgeted for a wide range of operating costs based on current conditions; but unforeseen conditions could cause operating costs to rise substantially, including labor costs.

Limited Operating History; Limited Capital; Early Stage Company. The Company has not established enough revenues or operations that will provide financial stability in the long term. There can be no assurance that the Company can realize its plans on the projected timetable to reach sustainable or profitable operations. Any material deviation from the Company's timetable could require that the Company seek additional capital. There can be no assurance that such capital shall be available at reasonable cost, or that it would not materially dilute the investment of investors in this Offering if it is obtained. Investment in an early stage company such as this Company is inherently subject to many risks, and investors should be prepared to withstand a complete loss of their investments. The Company only has a limited operating history upon which investors may base an evaluation of its performance; therefore, it is still subject to the entire risks incident to the creation and development of a new business.

Need for Additional Financing. Assuming the maximum investment is received, the Company believes that the net proceeds from this Offering and any concurrent offering shall be sufficient to fund the Company's operations as currently conducted for at least the next 9 months. Such belief, however, cannot give rise to an assumption that the Company's cost estimates are accurate or that

unforeseen events would not occur that would require the Company to seek additional funding to meet its operational needs. As a result, the Company may require substantial additional financing to implement its business objectives. There can be no assurances that the Company shall be able to obtain additional funding when needed, or that such funding, if available, shall be available on terms acceptable to the Company. Should the Company's operations not generate sufficient cash flow, or the Company cannot acquire additional funds if and when needed, the Company may be forced to curtail or cease its activities which would likely result in the loss to investors of all or a substantial portion of their investments.

Tax Risks. No representation or warranty of any kind is made by the Company, the officers, directors, counsel to the Company, or any other professional advisors thereto with respect to any tax consequences of any investment in the Company. **EACH PROSPECTIVE INVESTOR SHOULD SEEK THE INVESTOR'S OWN TAX ADVICE CONCERNING THE TAX CONSEQUENCES OF AN INVESTMENT IN THE COMPANY.**

Dilution. After completion of the offering, the Company's then existing equity holders may have their interests diluted through any future issuance of securities by the Company to raise capital. Moreover, existing equity holders may experience further dilution to the extent that future shares may be issued for a value less than the price paid in this offering. Subsequent investment into the Company may dilute each investor's percentage of ownership in the future. The purchase of equity in this offering does not confer on the investor any rights or protection against this dilution.

Control by Existing Stockholders. Following the Offering, the founders and principal stockholders of the Company will continue to own a majority of the common stock of the Company. As a result, such founders and principal stockholders shall have a significant influence on the affairs and management of the Company, as well as on all matters requiring stockholder approval, Company, and changing the Company's dividend policy. Such concentration of ownership and control including electing and removing members of the Company's board of directors (the "Board"), causing the Company to engage in transactions with affiliated entities, causing or restricting the sale or merger of the could have the effect of delaying, deferring or preventing a change in control of the Company even when such a change of control would be in the best interests of the Company's other stockholders.

Limited Liquidity in the Absence of a Public Market. There is no public market in which the equity in this offering may be sold, and it is not anticipated that any such market shall develop in the foreseeable future. Therefore, purchasers should be prepared to hold their positions indefinitely.

Restrictions on Transfer. Investors shall own unregistered securities comprising a minority interest in a privately owned company. The securities may not be transferable under certain state securities laws, which require registration or qualification. In such cases, the subscribers desiring to dispose of securities must deliver to the Company an opinion of counsel satisfactory to the Company to the effect that the proposed disposition of securities shall not violate the registration or qualification requirement of relevant state securities law. Because of potential restrictions on transferability of the securities, and the fact that no trading market exists or is expected to develop for the securities, holders of the securities are not likely to be able to liquidate their investments or pledge the securities as security on a loan in the event of an emergency. Thus, the securities should be considered only as a long-term investment. There can be no assurances that the Company shall be able to affect a public registration of its shares, as its present level of business does not merit public ownership. In order to affect value from a public offering, a suitable underwriter must be located and a public market must be maintained following such offering. Typically, in an initial public offering existing shareholders are not permitted to sell their shares in such an offering, and are frequently required by the underwriter to "lock-up" their shares for a period of time thereafter.

Determination of Offering Price. The offering price was determined arbitrarily by the Company based upon several factors. Such price is based primarily on the amount of funds sought from this financing and the number of shares the Board is willing to ultimately issue in order to raise such funds. Accordingly, there is no relationship between the price of the Offering and the assets, earnings or book value of the Company, the market value of the stock, or any other recognized criteria of value. As such, the price does not necessarily indicate the current value of the shares and should not be regarded as an indication of any future market price of the Company's capital stock.

Revisions to Use of Proceeds. It is possible that the use of the proceeds will be revised by management. Management will have significant flexibility in applying the net proceeds of this offering within the scope of the business of the Company. The failure of management to apply such funds effectively could have a material adverse effect on the Company's business, prospects, financial condition, and results of operations.

Risk of Managing Growth. As the Company transitions to what the Company hopes will be a company generating substantial revenues, the Company may not be able to manage its growth effectively, which could adversely affect its operations and financial performance. The anticipated growth of the Company could place a strain on the Company's management, and operational and financial resources. Effective management of the anticipated growth will require expanding the Company's management and financial controls, hiring additional appropriate personnel as required, and developing additional expertise by existing management personnel. However, there can be no assurances that these or other measures implemented by the Company shall effectively increase the Company's capabilities to manage such anticipated growth or to do so in a timely and cost-effective manner. Moreover, management of growth is especially challenging for a company with a short operating history and limited financial resources, and the failure to effectively manage growth could have a material adverse effect on the Company's operations.

Dependence on Key Personnel. The Company is highly dependent on the services of James Goulding, Chief Executive Officer, and the loss of his services could have an adverse effect on the future operations of the Company. Although the Company does not currently maintain a key-person life insurance policy insuring the life of Mr. Goulding, the Company may apply for such a life insurance policy.

Risks Associated with Financial Projections. The financial projection discussed in our offering materials have been prepared by management and are based upon assumptions that the Company believes to be reasonable. The projected results are dependent on the successful implementation of management's growth strategies and are based on hypothetical assumptions and events over which the Company has only partial or no control. Such assumptions may, however, be incomplete or inaccurate, and unanticipated events and circumstances may occur. The selection of assumptions underlying such projected information has required the exercise of judgment, and the projections are inherently subject to significant uncertainty because that economic, legislative, political or other changes may have on future events. Changes in the facts or circumstances underlying such assumptions could materially affect our ability to achieve the projected results. For these reasons, actual results achieved during the periods covered may be

materially and adversely different. Even if the assumptions underlying the Company's plans prove to be correct, there can be no assurances that the Company shall not incur substantial operating losses in attaining its goals. The Company's plans are based on the premise that customers desire the advantages provided by the Company's products and services. However, there can be no assurances that the Company's objectives shall be realized if any of the assumptions underlying its plans prove to be incorrect. Investors should also be aware that no independent market studies have been conducted by the Company regarding the Company's plan, nor are any such studies currently planned.

Risks Related to Economic Conditions. Economic recessions or downturns may have an adverse effect on the Company, its financial condition, results of operations and the Company performance. Negative general economic conditions could continue to reduce the overall amount of demand, which may in turn adversely affect our revenues.

Government Risks. Costs imposed pursuant to governmental laws and regulations may reduce the Company's net income and the cash available for distributions to Investors. Privacy issues are subject to federal, state and local laws and regulations relating to protection of individuals. The Company could be subject to liability in the form of fines, penalties, or damages for noncompliance with these laws and regulations.

Litigation Risks. Lawsuits arise from unexpected quarters. Litigation is both expensive and time consuming even when one's position eventually prevails completely. Obviously, any litigation or threats of litigation could have a significant impact on the Company from the standpoint of daily operations and eventual financial return.

The whole idea of Momentor Corporation is to activate people to become Mentors who typically wouldn't have in the past. This however leaves the chance of a lack of quality in mentoring.

To reduce the risk, we will deploy a few strategies to make sure the mentee users will be consistent with receiving high-quality service from Momentor Corporation.

Firstly, we have a paid-by-minute service, meaning the mentee is in control and can end the call at any point they feel they are not receiving the value they are paying for.

Secondly, we will offer structural and training help from Mentors with 20+ years of experience to train, empower and reduce the chance of bad calls.

There's a risk that the software does not function properly and we cannot bring the technologies together into this seamless experience we plan.

This will always be a risk, but by having the skill and experience of the team who have already built similar technologies we will build a product that brings together these already existing products into one.

We will also reach out to the individuals using Momentor Corporations model of paid-for conversations with the teams who build each of these technologies, asking for advice and mentorship in building Momentor Corporation.

Tight cash flow is very important for a startup success. We understand this from previous start ups and will try to minimize the risk of the company struggling with cashflow. We will have a team member, a CFO, and be monitoring closely.

Deplatforming is the biggest risk to Momentor Corporations future. We are aware that being unable to use platforms like LinkedIn to auto-message users would limit our planned service functionality. The ability to scrape profiles in the search functionality would also restrict our value of reduced search time for users.

The good news is that currently there are huge organisations that are built with this functionality for LinkedIn data harvesting and auto messaging. Currently, LinkedIn has allowed companies to use LinkedIn's backend to enable this functionality. It's unlikely they would instantly wipe billions of dollars off companies across the world. They have built and grown their service with these companies and so each has a relationship now with LinkedIn.

An example would be Zoominfo which is a publicly traded company with over 2,500 employees and \$1B in revenue. Then there's Lusha, Rocketreach, Lead 411, Snov to name a few. From my research and 8 years in this market, there are hundreds of companies working in the space.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: 10% for salaries, 40% for MVP build and testing, 40% for marketing, 7.5% for Wefunder fees, 2.5% for other fees (legal, etc)

If we raise: **\$124,000**

Use of Proceeds: 25% for salaries, 30% for MVP build and testing, 35% for marketing, 7.5% for Wefunder fees, 2.5% for other fees (legal, etc)

INSTRUCTION TO QUESTION 10. An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the Wefunder platform. All references in this Form C to an Investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

To view a copy of the SAFE you will purchase, please see [Appendix B, Investor Contracts](#). The main terms of the SAFEs are provided below.

The SAFEs. We are offering securities in the form of a Simple Agreement for Future Equity ("SAFE"), which provides investors the right to preferred stock in the Company ("Preferred Stock"), when and if the Company sponsors an equity offering that involves Preferred Stock, on the standard terms offered to other investors.

Conversion to Preferred Equity. Based on our SAFEs, when we engage in an offering of equity interests involving preferred stock, investors will receive a number of shares of preferred stock calculated using the method that results in the greater number of preferred stock:

- i. the total value of the Investor's investment, divided by
 - a. the price of preferred stock issued to new investors multiplied by
 - b. the discount rate (80%), or
- ii. if the valuation for the company is more than \$1,100,000.00 (the "Valuation Cap"), the amount invested by the Investor divided by the quotient of
 - a. the Valuation Cap divided by

- b. the total amount of the Company's capitalization at that time.
- iii. for investors up to the first **\$50,000.00** of the securities, investors will receive a valuation cap of **\$900,000.00** and a discount rate of 80.0%.

Additional Terms of the Valuation Cap. For purposes of option (ii) above, the Company's capitalization calculated as of immediately prior to the Equity Financing and (without double-counting, in each case calculated on an as-converted to Common Stock basis):

- Includes all shares of Capital Stock issued and outstanding;
- Includes all Converting Securities;
- Includes all (i) issued and outstanding Options and (ii) Promised Options; and
- Includes the Unissued Option Pool, except that any increase to the Unissued Option Pool in connection with the Equity Financing shall only be included to the extent that the number of Promised Options exceeds the Unissued Option Pool prior to such increase.

Liquidity Events. If the Company has an initial public offering or is acquired by, merged with, or otherwise taken over by another company or new owners prior to investors in the SAFEs receiving **preferred stock**, investors will receive

- proceeds equal to the greater of (i) the Purchase Amount (the "Cash-Out Amount") or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount")

Liquidity Priority. In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard nonparticipating Preferred Stock. The investor's right to receive its Cash-Out Amount is:

- i. Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);
- ii. On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and
- iii. Senior to payments for Common Stock.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV has been formed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. The Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

- Yes
 No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

Any provision of this Safe may be amended, waived or modified by written consent of the Company and either:

- i. the Investor or
- ii. the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), provided that with respect to clause (ii):
 - A. the Purchase Amount may not be amended, waived or modified in this manner.
 - B. the consent of the Investor and each holder of such Safes must be solicited (even if not obtained), and
 - C. such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the

total Purchase Amount of all of such applicable group of Safes.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

- A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and
- B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- 1. to the issuer;
- 2. to an accredited investor;
- 3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
- 4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Common	10000	8000	Yes <input type="checkbox"/>

Securities Reserved for Issuance upon Exercise or Conversion

Warrants: 0

Options: 0

Describe any other rights:

Preferred stock has not yet been authorized. If this SAFE note converts, it will convert into preferred stock. Preferred stock will have liquidation and dividend preferences over Common stock.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the **shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the **shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The **shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The **shareholders** have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under

our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a SAFE is determined by the investor, and we do not guarantee that the SAFE will be converted into any particular number of shares of Preferred Stock. As discussed in Question 13, when we engage in an offering of equity interests involving Preferred Stock, Investors may receive a number of shares of Preferred Stock calculated as either (i) the total value of the Investor's investment, divided by the price of the Preferred Stock being issued to new Investors, or (ii) if the valuation for the company is more than the Valuation Cap, the amount invested divided by the quotient of (a) the Valuation Cap divided by (b) the total amount of the Company's capitalization at that time.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the Preferred Stock that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our board of directors. Among the factors we may consider in determining the price of Preferred Stock are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our stock (including both common stock and Preferred Stock) that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

None.

INSTRUCTION TO QUESTION 24: name the creditor, amount owed, interest rate, maturity date, and any other material terms.

25. What other exempt offerings has the issuer conducted within the past three years?

Offering Date	Exemption	Security Type	Amount Sold	Use of Proceeds
7/2022	Section 4(a)(2)		\$800	General operations

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(5) of the Securities Act during the preceding 12- month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

- any director or officer of the issuer;
 - any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
 - if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
 - or any immediate family member of any of the foregoing persons.
- Yes
 No

For each transaction specify the person, relationship to issuer, nature of interest in transaction, and amount of interest.

Name Jamie
Amount Invested \$800.00
Transaction type Other
Issue date 07/15/22
Relationship Founder & CEO
Paid in Capital

INSTRUCTIONS TO QUESTION 26: The term transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

Beneficial ownership for purposes of paragraph (2) shall be determined as of a date that is no more than 120 days prior to the date of filing of this offering statement and using the same calculation described in Question 6 of this Question and Answer format.

The term "member of the family" includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the person, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Compute the amount of a related party's interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.

FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

Yes
 No

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Momentor Corporation connects you with a network of Mentors

Mentorship has always been a big part of my life. My life's motto is "A stranger is a friend I haven't met yet". It was also my Dad's. I love connecting, meeting and learning from people. I strongly feel it's the best way to experience life. I want to give more people the opportunity to connect, share and learn from one another easily.

Momentor Corporation exists to help millions of knowledge seekers and sharers connect by bringing mentorship to social platforms they hang out on, like LinkedIn in a seamless and safe 3-click software plugin.

Have inspired over a million people into mentorship who wouldn't have previously been involved. In turn, impacting millions of lives worldwide and making a positive impact on society, aiding in a better future for us all.

Milestones

Momentor Corporation was incorporated in the State of Delaware in June 2022.

Since then, we have:

- 📈 The current e-learning market size is \$300BN and is expected to 3x in the next 5 years
- 👥 Team: Cambridge Economics grad, 5-year Amazon full stack developer, ex-silicon valley unicorn IPO
- 🏆 Team have experience in growing successful companies from pre-seed, seed, Series A-D and IPO!
- 🏠 Cameo, a similar business model, is valued at over \$1B, 1000x potential return *(not-guaranteed)
- 🧑 We leverage a platform of 1BN users whose professional experience has already been verified
- 🚫 Millions are being scammed via fake gurus & outdated courses - we're going to stop this!

The Company is subject to risks and uncertainties common to early-stage companies. Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future.

Historical Results of Operations

Our company was organized in June 2022 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended November 30, 2022, the Company had revenues of \$0.
- *Assets.* As of November 30, 2022, the Company had total assets of \$40.66, including \$40.66 in cash.
- *Net Loss.* The Company has had net loss of \$817.08 for 2022.
- *Liabilities.* The Company's liabilities totaled \$24.90 for 2022.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 12 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 10 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Momentor Corporation cash in hand is \$30, as of January 2023. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$272/month, for an average burn rate of \$272 per month. Our intent is to be profitable in 16 months.

Momentor Corporation has seen no changes during this period, as we've had only five months of financials since the inception of the company.

We don't expect to be revenue generating in the next 3-6 month. We will expect to be revenue generating in 8 months when we have a live MVP.

No, we are not profitable. We expect to need just over \$150,000 to build a working MVP, generate our first 10,000 customers and generate enough revenue to become profitable. We expect this point to be in between 12-16 months.

The Founder's own capital is being used to fund the campaign and early launch. Friends and family is a source of capital for Momentor Corporation as well.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

FINANCIAL INFORMATION

29. Include financial statements covering the two most recently completed fiscal years or the period(s) since inception, if shorter:

Yes No
- ii. Section 5 of the Securities Act? Yes No

(6) Is any such person suspended or expelled from membership in, or suspended or barred from association with a member of, a registered national securities exchange or a registered national or affiliated securities association for any act or omission to act constituting conduct inconsistent with just and equitable principles of trade?

Yes No

(7) Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued?

Yes No

(8) Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations?

Yes No

If you would have answered "Yes" to any of these questions had the conviction, order, judgment, decree, suspension, expulsion or bar occurred or been issued after May 16, 2016, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

INSTRUCTIONS TO QUESTION 30: Final order means a written directive or declaratory statement issued by a federal or state agency, described in Rule 501(a)(3) of Regulation Crowdfunding, under applicable statutory authority that provides for notice and an opportunity for hearing, which constitutes a final disposition or action by that federal or state agency.

No matters are required to be disclosed with respect to events relating to any affiliated issuer that occurred before the

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30. If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:

- (a) a description of the material content of such information;*
- (b) a description of the format in which such disclosure is presented; and*
- (c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.*

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<http://momentor.tech/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.
