## Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors

based on that information.

Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.*

## RISK FACTORS

**A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.**

**In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.**

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

INVESTING IN A FILM IS A HIGHLY RISKY AND SPECULATIVE INVESTMENT. THERE IS NO GUARANTEE, AND THE PRODUCERS HAVE MADE NO SUCH GUARANTEE THAT YOU WILL GET A RETURN ON YOUR INVESTMENT. THERE IS A HIGH LIKELIHOOD YOU WILL LOSE ALL OF YOUR INVESTMENT DUE TO THE FACTORS SET FORTH BELOW. YOU SHOULD ONLY INVEST FUNDS THAT YOU CAN AFFORD TO LOSE.

Neither the U.S. Securities and Exchange Commission or any state Securities Commission attests to the merits of the investment offered or the terms of this offering, nor do they pass upon the accuracy or completeness of any offering document or literature. These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

There is a small but experienced team leading this effort. The loss of services of a member of the team could have an adverse effect on the project. There can be no assurance that we will be successful in attracting and retaining personnel to produce the project with us.

There is no guarantee that anybody will like our film. While we have a distribution plan for the film, there are no assurances that our efforts will be successful. The only way to make money is for people to be able to see it in some form of monetized distribution.

We may not raise enough money. We have to have money to produce the project, edit the product, distribute it, and market it, too. We have a plan but that may not be enough funds. In the event that we have to incur debt to finish the film, paying it back could take preference over paying back investors.

It takes a long time for a film to make money. Production takes time, editing takes time, getting the film into the marketplace takes time. There could be a lengthy period for you to see a return, or not, on your investment. The film industry can never guarantee how much a movie will make.

The Company may arrange for services to be provided for the production on a reduced compensation in exchange for deferred payments which will be paid before any distributions to investors. The benefit of such arrangements is to reduce the direct cash costs of the production.

The company has been organized for the purposes of producing this movie. As a new company organized for a special purpose, it is subject to all the risks incident to the creation and development of a new business. The success of the company's film will depend partially on the ability of management to produce a film of exceptional quality within the budget that can compete in the marketplace for viewers.

You are not going to be a member of the Company. Your investment is non-recourse. That is, you only get paid from money the Company earns on this film. You have no rights to the underlying intellectual property or in any future projects the team may create, whether based on this film or not. All management decisions are vested in the managers of the Company at their sole discretion. The managers, with the advice and assistance of other professionals, will administer all business aspects of the managers, the company and the picture. Although the managers believe that the managers have the necessary business and motion picture experience to supervise the management of the company, there can be no assurance that the managers will perform adequately or that the company's operations will be successful.

You agree that except in limited circumstances your investment is not transferrable to a third party and that there is no market for the resale of this investment. Thus, you will not be able to liquidate your investment in the event of an emergency or for any other reason or rely on the investment as collateral for a loan and must be prepared to bear the risk of their investment for an indefinite period of time.

Using a credit card to make the investment can create issues if you do not pay your balance off each month, because of the transaction fees and interest credit card companies charge. Using a credit card is a relatively new form of payment for investments and will subject you to other risks inherent in this form of payment, including that, if you fail to make credit card payments (e.g. minimum monthly payments), you risk damaging your credit score and payment by credit card may be more susceptible to abuse than other forms of payment. Moreover, where a third-party payment processor is used, as in this offering, your recovery options in the case of disputes may be limited. The increased costs due to transaction fees and interest may reduce the return on your investment. The SEC's Office of Investor Education and Advocacy issued an Investor Alert dated February 14, 2018 entitled: Credit Cards and Investments – A Risky Combination, which explains these and other risks you may want to consider before using a credit card to pay for your investment.

The Company will not be performing background checks on any of its team members or employees. The reception of a film is often tied very closely to the public perception of the team members and employees (i.e. director, cast, producers, company). While the company will hold its team members and employees to the highest standards of professionalism while making the film, if it is learned at any point that those team members were involved in inappropriate, immoral, unethical or illegal conduct in the past or after the creation of the film, it could affect the performance of the film in the marketplace.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Michael Sokol and Donald MacLaughlin are part-time officers. As such, it is likely that the company will not make the same progress as it would if that were not the case.

*INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.*

# The Offering

## USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$75,000**

Use of Proceeds: 20% cast and crew, 35% production, 12.5% post, 25% admin and marketing, 7.5% WeFunder fees.

If we raise: **\$124,000**

Use of Proceeds: 40% to cast and crew; 20% production; 15% post-production; 15% administrative (legal, marketing, distribution); 2.5% Contingency; 7.5% WeFunder fees. The additional funds for our maximum target will be put into production (hiring more crew, paying crew higher rates, and helping us secure the ideal location.)\_ Additionally, the funds will allow us to compensate all talent and not pay them deferred rates. We would also dedicate more resources to post-production.

*INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.*

## DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

- 1. Investor Commitment.** The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.
- 2. Acceptance of the Investment.** If the Investor Agreement is complete, the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.
- 3. Investor Transfer of Funds.** Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
- 4. Progress of the Offering.** The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.

the target offering amount is met.

5. **Closing: Original Deadline.** Unless we meet the target offering amount early, Investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.
6. **Early Closings.** If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
7. **Book Entry.** Investments may be in book entry form. This means that the Investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investors' "My Investments" screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

**NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.**

**The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).**

**If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.**

**If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.**

**An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.**

**If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.**

**If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.**

**Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.**

**The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.**

**If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.**

# Ownership and Capital Structure

## THE OFFERING

13. Describe the terms of the securities being offered.

**Film Financing Agreement.** Investors who contribute to the **first \$55,000.00** of Investor Funds (the "Early Bird Investor Funds") to the offering contemplated by this Agreement (the "Offering") **will be designated as Early Bird Investors.**

**One hundred percent (100%) of Adjusted Gross Proceeds** shall be paid to **Early Bird Investor, Investor,** and the Additional Equity Investors on a pro rata (based on the ratio that their respective financing contributions bears to the aggregate of the Early Bird Investor Funds, Investor Funds, and the Additional Equity Funds) and pari passu basis **until such time, if ever, as the Early Bird Investor has received an amount equal to one hundred twenty five percent (125%) of Early Bird Investor Funds and the Investor has received an amount equal to one hundred twenty percent (120%) of the Investor Funds, and the Additional Equity Investors have received an amount equal to one hundred twenty percent (120%) of the Additional Equity Funds;**

Following such time, if ever, as each Early Bird Investor has recouped an amount equal to one hundred twenty five percent (125%) of the Early Bird Investor Funds and Investors have recouped an amount equal to one hundred twenty percent (120%) of Investor Funds and the Additional Equity Investors have recouped an amount equal to one hundred twenty percent (120%) of the Additional Equity Funds, then **any remaining Adjusted Gross Proceeds shall be referred to as "Net Profits", and shall be paid as follows:** (a) **fifty percent (50%) to Producer** ("Producer's Net Profits"); and (b) **fifty percent (50%), in the aggregate, to Early Bird Investors, Investors,** and the Additional Equity Investors on a pro rata basis based on the ratio that their respective financing contributions bears to the aggregate of the Early Bird Investor Funds, Investor Funds, the Additional Equity Funds and the Filmmaker Funds (as defined below) and pari passu basis. All third-party participations in Net Profits (other than those payable to Additional Investors or those that constitute expenses as further described below) shall be borne out of Producer's share of Net Profits. "Filmmaker Funds" is defined as all the additional funds required to produce and market the Picture in addition to Early Bird Investor Funds, Investor Funds, and the Additional Equity Funds, e.g. loans, advances, minimum guarantees, etc

**"Gross Proceeds"** shall mean any and all non-returnable, nonforfeitable sums, including nonrefundable advances, received by Producer from distribution of the Picture in any and all manner and media, now known or hereafter devised, worldwide, including any merchandising, publishing, soundtrack and other allied and/or ancillary rights related to the Picture

See exact security attached as [Appendix B, Investor Contracts](#)

14. Do the securities offered have voting rights?

- Yes  
 No

15. Are there any limitations on any voting or other rights identified above?

- Yes: No Voting Rights  
 No:

16. How may the terms of the securities being offered be modified?

This Agreement contains the entire understanding of the Parties relating to the subject matter herein and supersedes all other agreements between the Parties whether written or oral relating thereto and may not be modified or amended except by written instrument executed by both of the parties hereto.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

- A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and  
B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

**RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:**

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

**NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.**

**The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.**

**DESCRIPTION OF ISSUER'S SECURITIES**

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

<b>Class of Security</b>	<b>Securities (or Amount) Authorized</b>	<b>Securities (or Amount) Outstanding</b>	<b>Voting Rights</b>
	<b>This is an LLC with no issued units.</b>		

<b>Class of Security</b>	<b>Securities Reserved for Issuance upon Exercise or Conversion</b>
Warrants:	_____
Options:	_____

Describe any other rights:

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights in the company, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering). These decisions could affect gross revenues and diminish payments made to Investors.

Based on the risk that the company may never realize revenues or face a Default Event, the Investor may never see any returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the unitholders may make decisions with which the Investor disagrees, or that negatively affect the gross revenues of the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the unitholders may change the terms of the Operating Agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The unitholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The unitholders have the right to redeem their securities at any time. unitholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFEs, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be negatively affected.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the film financing agreement holds no position in the Company and will have no voting rights in the Company, and thus will be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its management, and the Investor will have no independent right to name or remove an officer or member of the management of the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company,

the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

### **Management's Discussion and Analysis of Financial Condition and Results of Operations**

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

#### **Overview**

A Big Fun Slasher Comedy for the Service Industry (built-in audience of 5M)

Everyone industry deserves its own fun, scary movie that's made just for them. This will be ours.

Self-distribute films, deliver relatable content to workers in the service industry and lend voice to the industry.

Making and self-distributing films directly to our community.

#### **Milestones**

We're So Dead Movie LLC was incorporated in the State of Georgia in September 2022.

Since then, we have:

- You'll be an INVESTOR and have a financial stake in a restaurant film OWNED by restaurant workers!
- Bitchy Waiter, and other influencers, can help reach an established audience of 5M.
- We're well-positioned for self-distribution to avoid sharing profits with third parties.

The Company is subject to risks and uncertainties common to early-stage companies. Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future.

#### **Historical Results of Operations**

Our company was organized in September 2022 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2022, the Company had revenues of \$0.
- *Assets.* As of December 31, 2022, the Company had total assets of \$0, including \$0 in cash.
- *Net Loss.* The Company has had net losses of \$7,902 for 2022.
- *Liabilities.* The Company's liabilities totaled \$0 for 2022.

#### **Liquidity & Capital Resources**

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 12 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan

Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 4 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

#### **Runway & Short/Mid Term Expenses**

We're So Dead Movie LLC cash in hand is \$0, as of February 2023. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$1,000/month, for an average burn rate of \$1,000 per month. Our intent is to be profitable in 18 months.

There have been no material changes in our finances or operations. Because our product is a feature film, we have had no revenues thus far, as we must complete the film first.

On the low end of a comparative performance chart, if we have rentals at \$4.99 from 5% of just our 1M Facebook followers (not including the 2M followers for other cast members on TikTok) in the first 3-6 months of release, we would net revenues of \$250,000; on the medium scale of a comparative performance chart, if 10% of the follower rent the film, we would net revenues of \$500,000; and on the high end of the scale with 15%, we would net revenues of \$750,000.

We are not currently profitable. Because we are a feature film, we will need our funding (plus sweat equity) to complete all phases of producing the film and derive revenue.

We are considering a capital raise on another crowdsourcing platform, mostly marketed toward the 1M+ followers of the Bitch Waiter on Facebook and Instagram, who are not able to contribute the minimum of \$100. We will also be hiring several crew members who are willing to work for equity (these shares will come out of the producer's pool.)

All projections in the above narrative are forward-looking and not guaranteed.

*INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.*
